Hyderabad Airport instals electric vehicle charging stations

Hyderabad, Aug 10: Strengthening its efforts towards eco-friendly operations, GMR Hyderabad International Airport Limited (GHIAL) recently launched two sustainable initiatives, an EV (Electric Vehicle) charging station at the main car park and a Biodiesel filling station at the Public Transportation Center (PTC).

Inculcating the use of sustainable resources, the initiatives are significant steps in the direction of carbon neutrality that the Airport is aiming for. The Fast-charging station is accessible to all EV users who wish to avail the service. With 30 KW, it can charge a four-wheeler from empty to full in about an hour, a release here said on Tuesday.

The charging station is app based and compatible for use through Android and IOS App mobile devices. A first in Indian airports, GHIAL has also introduced a Bio-Diesel filling station at the airport. Biodiesel is the only alternative diesel that can run any conventional, unmodified diesel engine.

Biodiesel is 11 per cent oxygen by weight and contains no Sulphur. It produces approximately 80 per cent lesser CO2(Carbon Dioxide) and

almost 100 per cent lesser SO2 (Sulphur Dioxide) emissions. The use of Biodiesel can extend the life of diesel engines because it lubricates better than petroleum diesel, while diesel consumption, auto ignition, power output, and engine torque remain unaffected. It also has a cleansing effect on engine walls, the release added.
