2.	Whether the transaction would fall within related party transaction(s)? and if yes, whether the same is done at “arms’ length”?	<p>The proposed amalgamation will not attract the requirements of Section 188 of the Companies Act, 2013 (related party transactions) pursuant to the clarifications provided in the General Circular No. 30/2014 dated July 17, 2014.</p> <p>However, the proposed amalgamation may be considered a ‘<i>related party transaction</i>’ under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”).</p> <p>The consideration for the Scheme will be discharged on an “arm’s length” basis. Please see paragraph 5 for further details.</p>
3.	Area of business of the entities	Please refer to paragraph 1.
4.	Rationale for amalgamation/ merger	<p>The proposed amalgamation would be in the best interest of the parties and their respective shareholders, employees, creditors and other stakeholders as the proposed amalgamation will yield advantages as set out, <i>inter alia</i> below:</p> <p>(a) <i>Synergies in business</i>: The parties are engaged in similar and / or complementary businesses and their proposed amalgamation pursuant to this Scheme will create synergies between their businesses, including by pooling of their financial, managerial, technical, distribution, marketing and other resources. The proposed amalgamation is expected to, <i>inter-alia</i>, result in reduction of costs, better alignment, coordination and streamlining of day-to-day operations of the units.</p> <p>(b) <i>Optimization of raw material procurement</i>: The Transferee Company has captive iron ore mines and merchant iron ore mines. The manufacturing unit of the Transferor Company 2 situated at Raigarh sources iron ore from the merchant mines of the Transferee Company and pursuant to the proposed amalgamation, the Transferor Company 2 will also source iron ore from the captive iron ore mines of the Transferee Company, which are located closer to the Transferor Company 2, than the merchant iron ore mines of the Transferee Company. Such combined sourcing of raw materials will result in reduction in overall cost of procurement. Further, the requirement of coke for the manufacturing activities of the Transferor Company 2 can also be supplied by the Transferee Company, thereby resulting in further reduction of procurement costs.</p> <p>(c) <i>Utilization of surplus rolling capacity</i>: The Transferor Company 2 commenced its slab manufacturing capacity in FY 2022. With the commissioning of a second electric arc furnace (EAF) by Transferor Company 2 expected in Q2 FY 2023, its ability to produce crude steel will increase. The facilities of the Transferee Company at Vijayanagar and Anjar have surplus</p>

		<p>rolling capacity. Thus, the slabs manufactured by the Transferor Company 2 can be rolled in the said facilities of the Transferee Company, thereby providing opportunity for transfer of intermediate products within the facilities, and thereby increasing the capacity utilization of the Transferee Company's rolling mills.</p> <p>(d) <i>Simplified structure and management efficiency:</i> The proposed amalgamation will result in a simplification of the existing corporate structure and eliminate administrative duplications, consequently reducing the administrative costs of maintaining separate companies, while reducing the multiple legal and regulatory compliances.</p> <p>(e) <i>Enhancing presence in central India:</i> The Transferee Company does not have manufacturing presence in central India. Pursuant to the proposed amalgamation, the parties shall be better positioned to service customer needs basis their combined portfolio of products and marketing capabilities in central India. The proposed amalgamation will provide opportunities to access new markets, segments, product offerings and customers in central India. Further, with a common credit management system, the customers are expected to benefit from an improved channel financing facility from the combined company.</p> <p>(f) <i>Improved automation:</i> The proposed amalgamation will result in increased level of automation across all plants of the Transferor Company 2 by using the information technology application and systems of the Transferee Company.</p> <p>The Transferor Company 1 holds equity investment in Transferor Company 2 and is its holding company. Pursuant to the completion of the amalgamation of the Transferor Company 2 with the Transferee Company, there would no longer be a requirement for the Transferor Company 1 to exist as a separate legal entity. Hence, the Transferor Company 1 is also proposed to be amalgamated with the Transferee Company.</p>
5.
