Tax Incentives	Increased tax incentives and PMAY subsidies reduce effective home loan yields to 0.67% for a 8.90% home loan. Reduction in GST rates for under- construction properties to 5% and 1% for affordable housing will help boost sales
Budget 2016-17	100% tax exemption on profits from construction of affordable housing will attract organized developers and increase supply
Fiscal Incentives	PMAY projects to be out of purview of GST. Service tax exemption on construction of affordable housing projects will lead to reduction in prices, increasing affordability

3-Year Amortization Experience for IBH	
Contracted Amortization	23%
Actual Amortization	51%

Residential price inflation is from NHB Residex weighed with population of constituent cities

Fluctuation in property price inflation has no direct correlation with the repayment capability of LAP borrowers
