BANKS LOSING MARKET SHARE: REPORT

FROM THE FRONT PAGE

Disbursals by power finance firms to top ₹2.9 trn in FY24

Asset quality to improve over the medium term

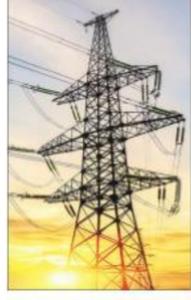

FE BUREAU
Mumbai, January 1

DISBURSEMENTS BY POWER-FOCUSED infrastructure companies are expected to surpass ₹2.9 trillion in 2023-24 (April-March), aided by substantial capital expenditure in the power sector and improving balance sheets, CareEdge Ratings said in a report. Disbursements were at ₹2 trillion in 2022-23.

This growth in disbursements is likely to enable such infrastructure finance companies to continue gaining market share from traditional banks. The companies include Power Finance Corporation, Rural Electrification Corporation and Indian Renewable Energy Development Agency.

Infrastructure finance companies focusing on power comprise 64% of total loan book of NBFC-IFCs (non-banking financial company - infrastructure finance com-

ON GROWTH PATH

■ Growth in disbursements may let infrastructure finance firms gain more market share from banks

■ Such firms focusing on power form 64% of total loan book of NBFC-IFCs and IDF as of March 31, 2023

■ Share of these firms' exposure to power sector in relation to banks rose to 59% as on March 31, 2023, from 55% a year ago

panies) and IDF (infrastructure debt funds) as on March 31, 2023. While the exposure of banks to the power sector has remained largely range bound, non-bank lenders have consistently been growing their loan books, supported by government schemes and improved financial position.

Share of infrastructure finance companies' exposure to the power sector in relation to banks increased to 59% as on March 31, 2023, from 55% as on March 31, 2020. It is expected to rise to 63% by March 31, 2024.

Growth will come from both generation and distribution portfolios, led by the revamped distribution sector scheme and disbursements towards the renewables segment. Traditionally, loan portfolios of power-focused IFCs have been dominated by the generation sector. However, there has been a noticeable shift in the composition of these portfolios.

With the government's

growing emphasis on the renewable energy sector, the share of renewables in these loan portfolios rose to 12% as on March 31, 2023, from 10% as of March 31, 2022. The rating agency expects the share of renewable energy in the overall electricity generation mix to rise to 21% by 2024-25, from 14% in 2023-24. The asset quality metrics for these infrastructure finance companies have shown a continuous improvement due to negligible loan slippages and recoveries from legacy accounts. This improvement has been further supported by government initiatives, which have reduced legacy dues of generation and transmission companies by nearly half over the past year.

Subsequently, these finance companies are expected to maintain the trend of improving asset quality over the medium term. There are potential risks associated with client and sector concentration, increased exposure to the private sector, as well as inflationary pressures and consequent policy tightening, which could impact growth prospects, the report said.

After two robust years, car firms see muted 2024

At ₹1.65 trn, GST mop-up slows in Dec

HYUNDAI, WHICH IS India's second-largest carmaker, will increase prices by an unspecified quantum before January 3. Top Maruti officials will meet on Tuesday to determine the quantum of the hike and the date on which the hike will be brought into effect, a top company official said to FE.

The local PV industry, the third-largest in the world, clocked 4.1 million units in 2023, a jump of 8% over 2022 when 3.79 million units were sold. There are also fears that broader inflationary pressures, an increase in vehicle prices and the high base of 2023 will dampen the industry's prospects, making it difficult to repeat the sales performance of 2023.

December's PV volumes were the best ever for the month at 287,904 units, as per

estimates shared by Maruti. The previous best total for the same month were seen in 2020 when 276,000 PVs were sold. Carmakers work to bring down inventory in December to the lowest possible levels ahead of the new year. There are an estimated 176,500 cars and sports utility vehicles (SUVs) in the channel or around 13 days of stock, according to Srivastava. This is higher than the 110,000 recorded in January 2023.

Maruti saw a 6% y-o-y decline in domestic volumes during December to 104,778 units, while Hyundai's domestic volumes grew by 10% y-o-y to 42,750 units.

Tata Motors beat Hyundai in December in terms of volumes to clinch the second spot yet again. The Mumbai-based company sold 8% more PVs during the month to clock a

total of 43,675 units (including electric vehicles) compared with the same month last year.

Shailesh Chandra, managing director, Tata Motors Passenger Vehicles and Tata Passenger Electric Mobility, said: "Both EV and CNG segments posted growth greater than 90% and 25%, respectively, signalling a growing preference for green and smart technologies by Indian customers."

SUV specialist Mahindra & Mahindra (M&M) posted a rise of 24% y-o-y in sales volumes to 35,174 to retain the fourth position in the rankings.

Veejay Nakra, president, automotive division, M&M, said there were some supply challenges on select parts. "We are working closely with our suppliers to mitigate these challenges going forward" Nakra said.

THE GOVERNMENT SETTLED ₹40,057 crore to CGST and ₹33,652 crore to SGST from IGST collections in December.

Post settlement, the CGST mop-up stood at ₹70,501 crore and SGST at ₹71,587 crore, in December. "Increased GST collection over a nine-month period is an indicator of a stable Indian economy, better tax administration and increased consumption," said Saurabh Agarwal, tax partner, EY.

Pratik Jain, Partner Price Waterhouse & Co LLP, said: "The collection in January is expected to be even higher, partly attributable to an increase in GST audits and notices in the last few months to meet the statutory timelines."

Private share up but new projects down 78% in Q3

THE SHARE OF private sector in new projects rose from 62.5% in the September quarter to 87.4% in the subsequent one, which was also the second-highest quarterly share of the sector in recent years, after a 88.4% rise in the quarter ended March, 2023.

New projects announced by the government have been falling sequentially since the three months to June this year. From ₹1.7 trillion in January-March this year, they dropped to an all-time low of ₹0.3 trillion in the three months to December, indicating that the government is going slow on capital expenditure.

Projects completed in the quarter ended December this year dropped to ₹1.2 trillion from ₹1.9 trillion in the same quarter last year and down from ₹1.4 trillion in the quarter ended September this year.

The government's final consumption expenditure grew 12.4% in Q2FY24, albeit on a negative growth of 4.1% during Q2FY23.

Chief economic adviser V

Anantha Nageswaran had recently underlined that private capital formation is the most important catalyst to spur the growth engine. While external uncertainties would always remain, it should not deter the private sector from investing, he said.

Amid concerns that the much-delayed private capex cycle may not have taken root yet, Corporate India recently said with capacity utilisation in many sectors being 75-80%, if not higher, a strong momentum in private investments was firmly around the corner.

Pointing out that fresh investments have already started in many sectors, senior company executives maintain that strong corporate balance sheets and an incipient revival in the rural economy would aid private capex.

The data from CMIE show that the total value of projects completed in the three months to December 2023 was ₹1.2 trillion, lower than ₹1.9 trillion in the same quarter the year before. Also, the total value of investment projects dropped to ₹3.3 trillion in October-December 2023, lower than ₹3.6 trillion during October-December 2022.

IT union accuses TCS of stopping pay to 900 staff

AN EMAIL TO one of the affected employees reads, "This is with reference to your transfer order to TCS Mumbai followed by the transfer email directing you to report to the said branch within 14 days and complete your transfer process. However, it has been noted that you have failed to report to the transferred branch till date."

It adds, "Considering your failure to report to the transferred location and offering your services, even after 14 days of given timeline, the company is initiating stoppage of your salary with immediate effect. The company is proceeding with further disciplinary action against you for your continued failure to obey company order and breach of term of your employment."

The affected employee who

didn't want to go on record said, "We were on bench for about 3-4 months after our project got into some financial problem. During that time, I was asked to go to some other location, without being given a project there. If I am in bench, how does it matter to the company whether I am in Hyderabad or Bengaluru or Mumbai?"

Another affected employee said on condition of anonymity, "In every location, the company has bench strength. So, why have we been sent to other locations just to be in bench? We have joined TCS at this level of salary considering the cost of living in our base location. It will be a real deal for us to go to a bigger city that has a higher cost of living and lacks family support."

Govt extends PLI for auto, parts by a year

"THE PROVISION AIMS to ensure a level playing field for all approved firms and safeguard those who preferred to front-load their investments."

"The amendment also includes changes to the table indicating the incentive outlay, with the total indicative incentive amounting to ₹25,938 crore." Last month, FE reported that allocation for the auto PLI scheme is expected to remain unspent in the current financial year and will be reflected in the budget savings

as certification of products eligible for benefits is taking time.

Many of the selected companies are struggling with designing products that meet the eligibility criteria. One big issue coming in the way is the stipulation that for availing of the incentives, 50% local value addition is a must.

The companies that are next in line are Ola, TVS, Minda, Toyota and Hero. The PLI scheme for the automobile and automotive component industry was launched in 2021 with a total outlay of ₹25,938 crore.

It offers financial incentives to boost domestic manufacturing of advanced automotive technology products and attract investment in the automotive value chain.

सरकारी बैंकों के वित्तीय प्रदर्शन की समीक्षा में साइबर सुरक्षा पर चर्चा

नई दिल्ली, 30 दिसंबर (भाषा)।

वित्त मंत्री निर्मला सीतारमण ने शनिवार को सार्वजनिक क्षेत्र के बैंकों (पीएसबी) के प्रमुखों के साथ बैठक की और उनके वित्तीय प्रदर्शन की समीक्षा की। सूत्रों ने बताया कि बैठक के दौरान साइबर सुरक्षा से संबंधित चिंताओं और वित्तीय क्षेत्र से जुड़े जोखिमों पर चर्चा हुई।

उन्होंने बताया कि इस दौरान धोखाधड़ी और जानबूझकर कर्ज नहीं चुकाने वालों से जुड़े मुद्दे और राष्ट्रीय परिसंपत्ति पुनर्गठन कंपनी लिमिटेड (एनएआरसीएल) की प्रगति पर भी चर्चा हुई।

वित्त मंत्री ने बताया कि इस दौरान धोखाधड़ी और जानबूझकर कर्ज नहीं चुकाने वालों से जुड़े मुद्दे और राष्ट्रीय परिसंपत्ति पुनर्गठन कंपनी लिमिटेड की प्रगति पर भी चर्चा हुई।

संभवतः आखिरी पूर्ण समीक्षा बैठक है। पीएसयू बैंकों ने चालू वित्त वर्ष के पहले छह महीनों के दौरान लगभग 68,500 करोड़ रुपए का शुद्ध लाभ कमाया है। इन बैंकों के नतीजों के मुताबिक 2022-23 के दौरान उनकी बैलेंस शीट स्वस्थ गति से बढ़ी, तथा जमा और ऋण वृद्धि दोनों में तेजी आई।

इस महीने की शुरुआत में वित्त मंत्रालय ने पीएसबी के प्रमुखों के साथ एक समीक्षा बैठक की थी और उन्हें अपनी खराब संपत्तियों के प्रबंधन के तहत सभी मामलों, विशेष रूप से शीर्ष 20 दिवाला और शोधन अक्षमता संहिता (आइबीसी) मामलों की निगरानी करने के लिए कहा। पीएसबी के प्रबंध निदेशकों और सीईओ के साथ एक बैठक के दौरान वित्तीय सेवा सचिव विवेक जोशी ने उनसे शीर्ष 20 आइबीसी मामलों की मासिक समीक्षा करने को कहा।
