PM Cares for children: ₹4,000/month & more

AGREES New Delhi, 30 May

The students who lost both their parents due to Covid-19 will get a monthly stipend of ₹4,000 a month, Prime Minister Narendra Modi announced on Monday. The monthly stipend will be disbursed under the PM Cares for Children Scheme, Modi said.

Prime Minister Narendra Modi gave students a passbook of PM CARES for Children, and a health card under Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana.

"If someone needs an education loan for professional courses, or for higher education, then PM Cares will help in that too. ₹4,000 have also been arranged for them every month through other schemes for other daily needs," he said. "The youth from 18-23 years of age will get a stipend every month and when they are 23 years old, they will get the amount of ₹10 lakhs," he added. Modi said PM Cares for Children was a reflection of the fact that every citizen

was standing with them. The prime minister said that under the scheme if someone needed an education loan for professional courses, for higher education, then PM Cares would help in that too. Modi transferred ₹100 crore to school-going children. Also, a passbook of PM Cares

for Children, and a health card under Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana was handed over to children during the programme.

pandemic "because of this, many lives could be saved and the future of many families could be saved," he said.

He said in that atmosphere of negativity during the pandemic, India relied on its strength.

"We trusted our scientists, doctors, and our youth. And, we came out a very of hope not a worry for the world. We did not become the problem, but we became the solution-giver," he added.

He also said that coming out of the negative impact of Covid, India has become one of the fastest growing economies in the world. Motivating children who lost their parents in the pandemic, PM Modi said even in the biggest atmosphere of despair, if we believe in ourselves, then a ray of light is definitely visible. Our country itself is the biggest example of this.

ED arrests Satyendar Jain under PMLA

PRESS TRUST OF INDIA New Delhi, 30 May

Delhi minister Satyendar Jain was arrested by the Enforcement Directorate (ED) on Monday in a money laundering case, with Am Admi Pradya (AAP) calling it a political move ahead of the Himachal Pradesh assembly polls.

Tuesday, The arrest has been made by the federal agency in connection with alleged money dealings.

Reacting sharply to the arrest, Delhi Deputy Chief Minister Manish Sisodia said Jain had been held in an eight-year-old "fake" case as he is the AAP's in-charge for the Himachal Pradesh elections.

ent times so far. The ED had stopped calling him for some time. He did not and anything against him.

"The BJP is afraid of losing the elections and hence he was arrested to prevent him from going to the BJP's biggest example of this."

has been arrested in a fake case," Sisodia added.

Markets...

Analysts said a bit of rebalancing from institutional investors could have also contributed to improved sentiment.

The S&P 500 rose 0.5 per cent last week, its biggest weekly gain since November 2020. The US inflation-adjusted consumer spending data released last week rose 0.2 per cent, the most in three months. The softening of inflation further boosted sentiment as investors expected the US Fed to be less aggressive with monetary tightening.

Crude oil prices rose on Monday and were trading at \$130 per barrel amidst the easing of lockdown in China and the European Union working on a plan to ban the import of Russian crude oil. The early arrival of the monsoon in Kerala raised hopes of a favourable impact on agricultural crops and boosted sentiment.

The market breadth was strong on Monday, with 1,332 stocks advancing and 1,136 declining on the BSE. All the 19 sector indices of the BSE ended up with gains. The BSE IT index jumped nearly 4 per cent following last week's rebound in Nasdaq.

LIC...

This week out to dividend of ₹96 crore that the insurance

behemoth will pay to the government for FY22. On a consolidated basis, the insurer earned a net profit of ₹2,409 in the quarter in Q4 FY22.

On a consolidated basis, net profit of the insurer fell 17 per cent year-on-year (YoY) to ₹2,409 in the quarter compared to ₹2,917 crore in the corresponding period of the last fiscal year.

LIC earned net premiums to the tune of ₹1.43 trillion in Q4, up 18 per cent from ₹1.21 trillion in the corresponding period a year ago. In FY22, net premium of the insurer stood at ₹4.27 trillion, an increase of 6.2 per cent from ₹4.02 trillion in FY21. Income on investment of LIC, which is one of the largest asset managers, is flat at ₹67,993.15 crore in the fourth quarter and for the full year, it earned ₹292 trillion from its investments.

"The figures of quarter ended March 31, 2022, and the corresponding quarter ended in the previous year, are the best in our history between audited figures in respect of full financial year and published audited/unaudited year-to-date figures up to the end of the third quarter of the relevant financial year," LIC said in its notes to accounts.

LIC had a single 'life fund' under Section 80C of the Income Tax Act was amended by the government to bring its surplus distri-

bution mechanism at par with private life insurers. Post the amendment, the life fund has been segregated to two funds - participating policyholders fund and non-participating policyholders fund.

Consequently, the surplus distribution in the participating policyholders' fund has been modified to 90:10 in a phased manner, wherein 90 per cent will go to policyholders and 10 per cent to shareholders. Further, 100 per cent of the surplus generated out of the non-participating business will be available for distribution to all shareholders.

According to LIC Chairman MK Kumar, this change will help LIC increase its profitability, a metric that will now be closely tracked post the listing.

Eateries...

Like elsewhere, at The Claridges, New Delhi, the pandemic and the ongoing Russia-Ukraine war caused difficulty in sourcing imported meat, cheeses, sauces etc. "We have now shifted to high-quality locally produced cheese from Uttarakhand and Gujarat," says Vivek Rana, the executive chef.

The shift did not result in any change in the menu. "We continue to serve items if they reduce the cost of import and warehousing. Whatever be the case, the pandemic has made a strong case for restaurants going local."

Voda Idea...

The NPV of the interest liability on the moratorium period amounts to ₹1,510 crore towards Aarogee (adjusted gross revenues) and deferred spectrum liabilities.

"The investor will come in once this process (government acquisition) has been completed," the source said. The investors became interested in putting money in Vodafone Idea after the government took steps to help the telecom sector. In March this year, the DoT issued a direction to return the financial bank guarantees related to 5G spectrum auctions to the company.

To date, bank guarantees worth ₹1,000 crore have been returned, thus helping the company financially.

Besides, both promoters - Aditya Birla Group and Vodafone IIC - have invested in the telecom through a fresh preferential equity infusion of ₹4,500 crore. The shares were issued to the promoters at ₹13.30 per equity share. Of this, Vodafone contributed ₹3,735 crore and Aditya Birla Group ₹1,125 crore.

home-curing the meat and are sourcing fish from Kolkata instead of using imported salmon. Chef Vandana Bhatia, an OMO café, an ingredient forward place that opened in Gurgaon in March this year, adds, "Things like parmesan cheese, avocados, asparagus and celery root were suddenly unavailable (because of the Russia-Ukraine conflict). But we had to keep serving our patrons, so we got in touch with a few farmers and found that there are good-quality local alternatives available for almost everything."

"Now we proudly use our own meat that our avocados come from Manipal and vanilla is sourced from Coorg," Bhatia adds. The artisanal cheese, earlier imported, is also now home-sourced.

The shift to indigenous produce has not necessarily reduced costs for some.

"The sourcing cost has increased substantially since all the imported products were supplied to us in bulk," says Rana. Now, while the supply is underutilized and high-quality, the quantity is limited, so the cost is high, he adds.

Chef Irfan Akram, director of culinary at Conrad Bengaluru, however, says that since locally sourced ingredients are readily available, it reduces the cost of import and warehousing.
