In preparing the Standalone Financial Results, the Board of Directors are responsible for assessing the Company's ability, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities

(a) Audit of the Standalone Financial Results for the year ended March 31, 2021

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results for the year ended March 31, 2021 as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Deloitte Haskins & Sells LLP

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Annual Standalone Financial Results, including the disclosures, and whether the Annual Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the Annual Standalone Financial Results of the Company to express an opinion on the Annual Standalone Financial Results.

Materiality is the magnitude of misstatements in the Annual Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Annual Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Annual Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

(b) Review of the Standalone Financial Results for the quarter ended March 31, 2021

We conducted our review of the Standalone Financial Results for the quarter ended March 31, 2021 in accordance with the Standard on Review Engagements ("SRE") 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the ICAI. A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with SAs specified under section 143(10) of the Act and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In the quarter ending on March 31, 2021, – Quarter 4 of FY 2020-21 – Bosch Limited posted a total revenue from operations of INR 3,218 crores, thus registering an increase of 43.8 percent compared to the corresponding quarter in 2020. PBT for the current quarter stood at INR 640 crores, 77.2 percent increase over the same period of previous year.

“India is witnessing an alarming spike in COVID-19 cases in the second wave of the pandemic. While the central and state governments are doing their bit to accelerate the vaccination drives and ensure the safety of its citizens, we must act responsibly by following the guidelines set by them. The welfare of our employees and people around us is a priority for Bosch. Apart from converting our sports complex into a COVID Care Center for BBMP, donating close to four million medical grade masks to frontline workers and giving free vaccination to all our staff and their dependents, we are also investing in an in-house oxygen generation unit for business purposes as well as an aid to healthcare infrastructure.” added Bhattacharya.

Total revenue of Bosch Limited’s Mobility Solutions Business sector increased by 56.6 percent in the quarter ending on March 31, 2021. Within this business sector, total revenue of the Powertrain Solutions division increased by 65.6 percent. The Two-Wheeler and Powersports along with Automotive Aftermarket witnessed a continued growth during the quarter.

Business development in FY 2020-21

Bosch Limited’s Mobility Solutions business sector increased by 2.4 percent in 2020-21, amidst lockdown in April and part of May 2020. Domestic sales increased by 1.2 percent. Within the Mobility Solutions sector, the Powertrain Solutions division registered an increase of 1.8 percent owing reasons mentioned above. Business beyond Mobility solutions has recorded a decline of 11.7 percent. Considering the company’s performance, the Board of Directors recommended a dividend of INR 115 per share for this twelve-month period.

Bosch Limited: Outlook for fiscal year 2021-22

Speaking about the outlook for the upcoming fiscal year, Bhattacharya commented: “The auto industry was seeing itself on a road of recovery until early this year and Bosch Limited’s positive results is a validation to it. However, with the second wave being more severe, there is a clear uncertainty in the market. With 80 percent of our revenues driven through mobility business, we have been

affected adversely. The challenge will be to manage the fluctuating demand, supply chain crisis and changing consumer behavior all at once.”

Bosch has a long-term strategy to shape the market in key technologies with innovative products and solutions. Bosch Limited thus continues its stance to be a technology agnostic partner to customers, government, and other stakeholders. While we have successfully managed the transition from BS IV to BS VI, next challenge will be transitioning to TREM 4 and 5, adoption of CAFE norms phase 2 and BS VI stage 2. Amidst the crisis, Bosch in India will continue with the investments in competence development in addition to the solutions designed and developed in India and for India. For all Bosch businesses beyond Mobility Solutions, the company has a two-pronged approach. On one hand, Bosch continues to bring-in ‘Fit for market’ products and solutions while on the other, the company will increase its ‘Go to Market’ footprint using both offline and digital platforms. Scaling up E-commerce activities will remain one of the key initiatives in FY2021-22.

Bosch Group: Outlook for 2021 and strategic course

The Bosch Group achieved a positive result in 2020 despite the coronavirus pandemic and had a successful start to the first quarter of 2021. “Bosch came through the first year of the coronavirus pandemic well,” said Dr. Volkmar Denner, the chairman of the board of management of Robert Bosch GmbH. However, the company expects another challenging year, primarily due to ongoing pandemic risks. To develop new business opportunities on the back of the profound technological and ecological changes currently occurring, Bosch is combining the internet of things (IoT) with artificial intelligence (AI) and is concentrating on electromobility. “We are one of the winners in the transition to electromobility, and we are significantly expanding our software business by tying in artificial intelligence,” said Denner.

Global efforts to combat climate change are boosting electrification and green hydrogen. Electrification offers Bosch new opportunities in several business areas, since it requires solutions not only for electric driving in cars, but also for electric heating in buildings. In powertrain technology, electromobility is establishing itself as Bosch’s core business. Fuel cells convert hydrogen into electricity, and Bosch is developing both stationary and mobile fuel-cell solutions. From 2021 to 2024, Bosch plans to invest one billion euros in fuel-cell technology.

Bosch is pressing ahead with its own climate action targets as planned, and has reached a major milestone with the climate-neutral status of its more than 400 locations worldwide in spring 2020. This has already been confirmed by independent testing. As a result, Bosch is the first global industrial company whose own locations no longer leave a carbon footprint – this also includes the sites in India. Bosch also aims to reduce CO₂ emissions along its entire value chain, from suppliers to customers, by 15 percent by 2030 from their 2018 level – a reduction of 67 million metric tons of carbon dioxide emissions.
