VST Tillers Tractors Ltd Unveils 3 New Tractors at AGRITECHNICA 2023

The company showcased its Indigenously developed Electric Tractor.

Hanover, Germany, 15, November 2023:

VST Tillers Tractors Ltd (VST), a leading farm equipment manufacturer, displayed 3 brand new tractors, including its indigenously developed electric tractor, at the Agritechnica 2023 at Hanover in Germany. VST has showcased its technological superiority by the display of these innovative machines under the FIELDTRAC brand. The 3 products, **929 EV, 932 DI with Stage V engine and 929 with HST Transmission** are displayed at AGRITECHNICA, the 7-day exhibition that commenced on 12th November 2023. VST has also showcased its state-of-the-art **Stage V engine (24.5hp)**

929 EV is the outcome of thorough research and testing by the company's R&D team for the past 3 years, VST has been already supplying EV solutions for agricultural machines and drive trains for electric tractors to leading farm equipment manufacturers in the US.

VST promised to keep unveiling new products to bring in the desired change in farm mechanization practices for sustainability and eco-agriculture. The company introduced 6 tractor models under Series 9 as the most advanced compact range in August this year. In October 2023 VST-ZETOR brand came into existence and new feature-loaded higher HP tractors will soon be available in the Indian market, unveiling of these latest technological models under the VST FIELDTRAC brand will further revolutionize the farm mechanization in this segment and establish VST brand on global Platform.

Mr. Antony Cherukara, CEO, VST Tillers Tractors Ltd said "Agritechnica is of strategic importance for VST as we are showcasing our technical prowess and our feature-filled products to the world. As we are rapidly expanding our global footprint, the trade fair offers the perfect stage for us to showcase our products and meet prospective businesses".

Grow with us

'VST wants to utilize this opportunity to spread awareness of the brand globally, understand the latest innovations and solutions for smart agriculture, and expand our business network with global companies as Agritechnica is expected to see participation from almost all leading international farm equipment brands from countries across the world. The unveiling of these technologically superior products is significant for us as we are planning to expand our footprint globally and looking to enter the US market soon" Mr. Antony Cherukara added.

VST FIELDTRAC 929 EV

VST has introduced its fully in-house developed Electric Tractor, VST FIELDTRAC 929 EV at the Agritechnica. The electric tractor is equipped with a 25kWH battery, and its motor delivers a maximum torque of 110 Nm. VST 929 EV is a feature-filled non-polluting tractor that is equipped with dual-acting power steering, superior styling, and great ergonomics and is suitable for multiple applications. The tractor comes with a lift capacity of 1250 kgs.

FIELDTRAC 932 DI Stage V

The third tractor showcased by VST at Agritechnica 2023 is the VST 932 DI Stage V Techno-Compact Tractor. This 3-cylinder Engine in the 32 HP category gives a maximum torque of 109.4n.m and offers best-in-class power and torque in its segment. VST 932 DI Stage V is capable of handling a wide range of applications and can be used with a range of attachments.

FIELDTRAC 929 HST with Loader

Specially designed smaller operations of landscaping keeping in mind flexibility and ease of operation, better control on steering to ensure more comfort. The HST tractor comes with a power-packed 4-cylinder Stage-V 1306 cc Engine that gives 72.2 nm torque.

Agritechnica is the world's leading trade fair for agricultural machinery. All globally operating agricultural machinery companies are represented at the venue in Hanover. Offering the most comprehensive and varied trade fair programme for international arable and crop farming, Agritechnica presents the whole range of agricultural machinery, from crop protection sprayers to

drones, from tractors to autonomous equipment systems and from combine harvesters to digital assistance systems.

VST Tillers Tractors Limited

VST Tillers Tractors Limited (VST) is India's leading farm equipment manufacturer. VST was established in the year 1967 by the VST Group of companies. With a legacy of more than 55 years, VST continues to drive farm mechanization and empowerment of Indian farmers. The organization is the largest Indian manufacturer of Tillers and Pioneer of 4WD Compact Tractors. Amongst the leading producers of the other categories of Tractors, Engines, Transmission, Power Reaper, and Precision Components. VST also exports products to European, Asian, and African markets.
