**Sub: Intimation of having Framework Agreement with an Accredited International
Aggregator for obtaining and transacting Carbon & Water Credits for Zero Liquid
Discharge system installed by TRL.**

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform that our company has entered into a Framework Agreement with an Internationally Accredited Aggregator for obtaining and transacting Carbon Credits & Water Credits for Zero Liquid Discharge systems installed by TRL, making **TRL the leading company in India to get water credits for its water infrastructure projects.**

The Framework Agreement is for obtaining Water Credits & Carbon Credits for the Zero Liquid Discharge (ZLD) systems installed by TRL through which there will be more efficient end use of treated water generated from the ZLD system. The Water Credits thus obtained can be transacted on Trade Exchanges dealing in Water Quality Credit Trading (WQCT).

Like Carbon Credits, Water Credits are market based instruments for encouraging saving of precious & scarce natural resource – WATER. The idea behind water credits is to have a tradeable certificate which notifies the quantity of water saved by an institution, organization or an individual which would help in maximum utilization of every available drop of water.

Obtaining and enabling Buying/ Selling of such Water Quality Credit Trading (WQCT), the industrial units installing ZLD to **save fresh water** will not only be encouraged but will **also be compensated through revenue generated by sale of such water credits earned by the industrial unit** and foster more Industries to become Waste Water Treatment Compliant

By implementing such ZLD Systems, TRL will help industrial units, PSU's and state municipalities to achieve their Water Neutrality targets and thus contribute responsibly towards conservation of environment. This also makes TRL a holistic solution provider for all types of Waste Water Treatment Problems.

Tel.+ 91 79 40040888 Tel.: (D) + 91 79 40035875

TRL is now working towards becoming an **end to end solution provider in the field of Waste-Water Treatment right from designing the plant up to providing Water credits for the Treated Water.**

This is for your information and record.

Yours Sincerely,

FOR, TAYLORMADE RENEWABLES LIMITED
