Merged HDFC entity can sustain growth: Analysts

Bank confident of gaining a market share in deposits and loans

AJAY RAMANATHAN Mumbai, May 25

THE MERGER OF Housing Development Finance Corporation with HDFC Bank is expected to be completed in the next four-to-five weeks, the bank's management said at a meeting with analysts.

Once the merger is completed, the bank management expects loan growth to be healthy due to improving credit penetration, expanding customer base, network expansion, and an increase in cross-selling of products to existing customers of the HDFC group. The bank is confident of gaining a market share in deposits and loans with mortgages, personal loans, and micro, small and mediumsized enterprises segments witnessing strong traction. It expects to maintain a return on assets of 1.9-2.1% even after the merger. On the other hand, the net interest margin is seen lower at 3.7-3.8%.

"HDFC Bank is confident of maintaining a high incremental market share of deposits and loans even on a high, merged base. We believe this is achievable given the bank's expanding distribution, catch-up on digital and well-proven execution," brokerage firm Nuvama Institutional Equities said in a report.

"The RBI dispensation on prioritysector lending norms for the merger will support near-term earnings."

In fact, a majority of brokerages

have a 'buy' rating on the bank's stock due to its continued growth momentum, strong profitability and stable asset quality. "HDFC Bank appears well positioned to sustain healthy growth, supported by new initiatives, robust branch additions and expansion of digital offerings," according to Motilal Oswal Financial Services.

"It has delivered strong business growth in comparison to peers, resulting in constant market share gains."

Apart from the retail segment, the bank expects its commercial and rural banking segments to be profitable going ahead. It expects to double its commercial and rural banking portfolio over the next three years supported by robust distribution and increasing branch presence.

The growth in the corporate segment will be driven by the addition of new clients, growth in existing products to existing clients, and growth in new products to existing clients. Currently, HDFC Bank is the second largest player in corporate banking with a market share of 10.5%.

"HDFC Bank can remain a dominant and superior force in the Indian banking space for years to come, if execution on deposits falls in place, especially if the bank is able to maintain deposit granularity and keep its cost of funds low," says Antique Stock Broking.

Focus on profitable market share: LIC chairman

MITHUN DASGUPTA Kolkata, May 25

AMID FALLING MARKET share, Life Insurance Corporation (LIC) on Thursday said more focus will be on "profitable" market share.

Measured by first year premium income, LIC's market share fell 67 basis points to 62.58% for FY23 from 63.25% for FY22, according to data provided by insurance regulator Irdai. The market share of the insurance behemothwas 66.24% during FY19.

"When you say market share, my understanding is profitable market share. We will grow that," said LIC chairman Siddhartha Mohanty, at a conference call with analysts and investors, a day after the company declared its fourth quarter results. Mohanty, however, hastened to add that LIC would not ignore the conventional way that market share is defined.

LIC on Wednesday reported an overfive-foldyear-on-yearjumpinits net profits to ₹13,427.81 crore on a standalone basis for Q4FY23 as it transferred ₹7,229.15 crore from non-participating policyholders' accounts to shareholder's accounts.

Its market share was 40.58% in individual business and 76.65% in group business for the year ending March 31, 2023. On a comparable

basis, for the year ended March 31, 2022, the respective market share for individual and group business were 43.77% and 76.16%, respectively.

On the back of heightened competition from the private sector life insurers, LIC modified as many as eight products, in terms of feature and pricing, last fiscal to improve margins.

Mohanty said value of new business (VNB) margin will "definitely" grow this fiscal. It increased by 110

bps to 16.2% for FY23.

The Indian Embedded Value (IEV) of the company was determined as ₹5,82,243 crore as on March 31, 2023 as compared to ₹5,41,492 crore on March 31, 2022 and ₹5,44,291 crore in September 30,2022.

"The key highlight was 7.5% y-o-y growth in EV (embedded value) on the back of a 20% VNB growth, higher rate of unwind due to increase in riskfree rate and positive changes in operating assumptions due to increase in persistency experience. MTM losses due to market movements and interest rate increase negatively affected the EV by ~₹172 billion," Macquarie Capital said in a note on LIC's performance for FY23.

On investment in Adani Group

Mohanty said its investment policy is in place and a single stock movement does not affect the policy.

"We do not go by a single stock. We

see the total portfolio growth in our basket, what is the fund size, total investment portfolio and what is now at the end of the year. If that grows and we give decent return to all our investors and policyholders, there should not be any concern," Mohanty told ET Now when asked about Adani Group stocks. LIC's investments in Adani group of companies rose to Rs LIC Intra-day on BSE (₹) 615 603.60 610

SHARES OF LIC ended nearly 2% higher on Thursday after the company posted more than five-fold jump in consolidated net profit in the fourth quarter. The stock ended with a gain of 1.69% at ₹603.60 on the BSE. During the day, it rallied 3.72% to ₹615.65.

RIL best-positioned for \$150-bn e-comm play: Bernstein

PRESS TRUST OF INDIA

New Delhi, May 25

RELIANCE INDUSTRIES IS the bestpositioned player in the \$150-billion Indian e-commerce market ahead of Amazon and Walmart due to it owning the potent combination of largest retail store network, dominant telecom operations and strong digital media, an analyst said. In a new report, Bernstein Research said India is evolving into a three-player market with Amazon, Walmart and Reliance.

The conventional retail business model starts out either offline (Walmart) or online (Amazon).

"Given distribution challenges and India's propensity to 'skip a generation' in most technologies, we believe the Indian e-commerce market will be different. An integrated model (offline plus online plus prime), strong distribution capability and superior cost advantage (against online players) are required from the start," it said. Reliance Industries is building the largest digital ecosystem in India. Its telecom arm Jio has 430 million mobile subscribers, its retail arm has 18,300 retail stores in India (\$30 billion in sales), and its digital mix is scaling up 17-18% (\$6 billion, e-commerce).

"It's a disruptive playbook -- integrate offline + online + prime makes it the strongest competitor to Amazon/Walmart," Bernstein

said. Reliance has 400,000-plus

people in its retail business. It has, since January this year, hired about 69,000 new employees to replenish turnaround (about 66,500 employees exited the company). The turnaround in the companyis lower than the 30-

India's e-commerce market is expected to reach \$150 billion by 2025, with online penetration doubling in the next 5 years. Flipkart (\$23 billion gross merchandise value or GMV) and Amazon (\$18-20 billion GMV) lead on scale with about 60% market share. Reliance is No. 3 (\$5.7 billion e-commerce sales) driven by attractive categories of fashion (Ajio) and JioMart (e-grocery). All three players are focused on -
