Ebitda margins of auto cos to take the wheel in Q4, again

Analysts indicate that in future, gross margins might come under pressure

SOHINI DAS
Mumbai, 24 April

Riding on the moderation in raw material cost and favourable forex, the automotive industry's Ebitda margins are expected to improve in Q4FY23 for the fourth quarter in a row, analysts said.

Axis Securities analysts pointed out that they expected revenues, Ebitda (earnings before interest, taxes, depreciation, and amortisation) and profit after tax (PAT) to grow by 19 per cent, 29 per cent and 29 per cent, respectively, year-on-year (YoY) in the fourth quarter.

The fourth quarter of the 2023-34 fiscal witnessed a stable demand environment, though there were signs of volume growth moderation in some segments. "Demand largely remained intact for M&HCVs (medium and heavy commercial vehicles), tractors and domestic two-wheelers (2W), whereas growth moderated for passenger vehicles (PV) and light commercial vehicles (LCV). Two-wheeler exports remained weak," highlighted Motilal Oswal analysts.

"In terms of wholesale volumes, we estimate Q4FY23 volumes to grow by 11 per cent YoY for PVs, around 17 per cent for M&HCVs, around 21 per cent for tractors and around 9 per cent for three-wheelers. Two-wheeler volumes were flat YoY due to a 32 per cent decline in exports; however, domestic volumes grew 13 per cent. LCV volumes are estimated to grow by 1 per cent," the brokerage added.

Meanwhile, raw material prices have started resurging from their lows during the quarter. Original equipment manufacturers (OEMs) have also announced fresh price hikes in response to the transition to the BS VI Stage 2 norms (starting April 2023). And semiconductor chip supply issues have also come back to haunt production planning for the coming months.

Some analysts, therefore, expect the gross margins to peak out. For example, ICICI Direct Research noted: "With majority of raw material decline benefits already accrued by OEMs in the past and tyre space set to witness already guided gross margin expansion in Q4FY23, amid a steady rise in key raw material prices, we expect gross margins to largely peak out for our universe in the current quarter (Q4FY23)." It added that on the volume front, two-wheeler market leader

Hero MotoCorp's volumes for the quarter were up 2.5 per cent sequentially. However, at the same time, Royal Enfield at Eicher Motors (premium segment player) saw a 1.3 per cent quarter-on-quarter (QoQ) decline in volumes. For Bajaj Auto, total volumes for the quarter were down 12.8 per cent QoQ at 860,000 units. "In the PV domain, total volumes at Maruti Suzuki came in at 5.1 lakh (510,000) units, up 10.5 per cent QoQ, while total automotive volumes at M&M were at 1.9 lakh (190,000) units, up 7.5 per cent QoQ," ICICI Direct said.

In the commercial vehicles (CV) space, volumes at Ashok Leyland came in healthy at around 60,000 units, up 25.5 per cent QoQ. In the tractor space, it was a seasonally weak quarter, with sales volumes declining in double digits QoQ at both listed players.

Tata Motors is expected to report a healthy Q4FY23, primarily tracking a recovery in wholesale volumes at Jaguar Land Rover (JLR). Total sales volume in Indian operations were at 252,000 units, up 10.4 per cent QoQ, with JLR sales volume (including China JV) anticipated at 108,000 units, up 16.6 per cent QoQ, ICICI Direct said.

The sector is seeing some of the major headwinds, which it has been facing for the last 3-4 years, turn into tailwinds, analysts said. The demand recovery is expected to sustain, with the pace of growth moderating.

Motilal Oswal analysts said, "Exports seem to have largely bottomed out, but a recovery may take a couple of quarters. But new headwinds are emerging in the form of signs of demand moderation in certain segments due to higher inflation or interest rates."

Donations to lower tax slab can make taxman see red

Donate only to legitimate organisations using banking channels

BINDISHA SARANG

The income-tax (I-T) department has issued around 8,000 notices to salaried employees, self-employed individuals, and companies who made significant donations to charitable trusts. The department suspects potential tax evasion, as records of these donations do not correspond with the income and expenses of those making them.

Sandeep Bajaj, managing partner, PSL Advocates & Solicitors, says, "Notices were issued for donations made during the assessment years of 2017-18 through 2020-21."

Section 80G of the I-T Act allows deductions from income for donations made to certain funds and charitable institutions.

Bajaj warns that some taxpayers take advantage of this provision by making substantial donations to charitable trusts to lower their taxable income and ultimately reduce the amount of tax they owe.

Modus operandi

One tell-tale sign of attempted fraud is that donations are for exactly the amount required to lower the tax slab or get a full exemption.

Pallav Pradyumn Narang, partner, CNK, says, "The donor pays in cash and gets a receipt. The party receiving the money deducts a commission and returns the balance to the donor."

A variant of this works as follows.

Keshav Singhania, co-leader, Singhania & Co. LLP, explains: "The assessee makes the bogus donations through cheque/RTGS/NEFT. This amount is re-routed back in cash (directly or indirectly) net of commission charged by intermediaries. The recipient issues a donation receipt, which serves as the basis for claiming the deduction."

Narang adds that when a salaried person pays an exceptionally high amount to tax professionals, that acts as a red flag for tax authorities.

Suresh Surana, founder, RSM India,

PENALTIES FOR UNDERSTATING OR MISREPORTING INCOME

SECTION 270A (i): Penalty of 50 per cent on underreported income

SECTION 270A (ii): The penalty would be enhanced to 200 per cent (conditions apply) for misreporting of income

SECTION 115BBE: In the absence of satisfactory explanations regarding source of income, a tax rate of 60 per cent will apply, further enhanced by 25

per cent surcharge and a 4 per cent cess; a 10 per cent penalty will be imposed, bringing the effective tax rate to 83.25%

234B AND 234C: Simple interest at 1 per cent for a month or part of a month would be levied under both these sections for default in payment of 90 per cent of advance tax and for default in payment of instalment(s) of advance tax

informs that fraudulent donors often claim a 100 per cent deduction under Sections 80G, 80GGB, and 80GGC in their I-T returns (ITRs) and may save up to 30 per cent on tax, depending on their slab rates.

However, regulations are becoming tighter now. Charitable trusts must upload a list of their donors, including their permanent account number (PAN) and donation amounts.

Ankit Jain, partner, Ved Jain & Associates, says, "Taxpayers are also required to provide donation-wise details, including PAN of the charitable trust. Mismatches between these details can lead to the issuance of notices."

Beware penalties

Taxpayers found guilty of tax evasion may face a penalty equal to the amount of tax evaded, along with interest. They could also face prosecution and imprisonment up to seven years.

How to respond to a notice

To avoid penalties or legal issues, Bajaj advises individuals to respond to a notice with all the documents that support their claim of having donated to a charitable trust.

If the individual chooses to pursue litigation, Singhania recommends prepaying the contested tax amount and interest to halt the accumulation

of further interest under Section 234A.

Surana suggests that the individual can alternatively file an updated ITR within 24 months, following the end of the relevant assessment year, along with additional tax. However, an updated return cannot be filed if search proceedings have been initiated, a survey has been conducted, or specific notices have been issued. The individual can request copies of documents obtained during a search operation and evidence collected from charitable organisations that led to the notice being issued and respond to these findings.

Points to remember

Donate only to organisations that qualify for tax benefits. Narang advises individuals to maintain proper documentation, mentioning the donation amount, date, and other details. Make donations through banking channels only.

Jain explains that donations greater than ₹2,000 should be made via bank transfer, and a copy of the bank statement reflecting the transfer, the donation receipt, and the certificate in Form IOBE should be retained.

Finally, file your ITR on time and disclose donations in the relevant sections of the ITR form.

Singhania points out that under the new tax regime, deductions for such charitable deductions are not allowed.

Top cryptocurrency bitcoin could reach \$100,000 by the end of 2024, Standard Chartered said on Monday, saying that the so-called

'crypto winter' is over. Bitcoin could gain from factors including recent turmoil in the banking sector, a stabilisation of risk assets as the US Federal Reserve ends its interest rate-hiking cycle and improved profitability of crypto

mining. Standard Chartered's head of digital assets research Geoff Kendrick said in a note. "While sources of uncertainty remain, we think the pathway to the \$100,000 level is becoming clearer," Kendrick wrote.
