STRONG PERFORMANCE
ONGC profit zooms 251% to ₹15,206 cr

FE BUREAU
New Delhi, August 12

ONGC ON FRIDAY reported a 251% year-on-year rise in its standalone net profit in the April-June quarter to ₹15,206 crore on the back of strong operating performance and top-line growth. The standalone revenue from operations grew by 84% to ₹42,321 crore. The company registered a 91% y-o-y growth in offshore business at ₹27,990.4 crore and onshore business increased by 72% to ₹14,330.3 crore during the quarter. The company said its operating margin improved 49.57% compared with 32.01% a year ago. Net profit

margin was 35.93% compared with 18.83% in the first quarter of the last fiscal. While its net realisation from the nominated oil blocks increased by 73.4% to ₹8,384 a barrel, the realisation from joint venture blocks rose by 71.7% to ₹8,467 a barrel. On a consolidated basis, ONGC's net profit for the quarter rose by 25.3% to ₹8,581 crore compared with ₹6,847 crore a year earlier. Gross revenue went up by 69% to ₹1.82 trillion. Including its joint ventures, ONGC's crude oil production during the quarter increased by 1.9% to 5.494 million tonne, while gas production improved by 1.4% to 5.383 billion cubic metre (BCM).

SUMIT DEB, CHAIRMAN & MD, NMDC
'Iron ore prices have bottomed out'

For the first time since April, state-run iron ore miner NMDC increased prices of fines on Thursday — ₹100/tonne on fines and ₹200/tonne for lump ore. CMD Sumit Deb told Surya Sarathi Ray that the prices of the steel-making raw material may have bottomed out. Edited excerpts:

You have recently raised prices. Does it indicate the prices will go up further?
Iron ore prices have bottomed out. NMDC had taken the lead in reducing prices so that steel can become affordable and pressure on inflation reduces. Steel prices have now fallen considerably. Our latest price hike has been very marginal. But it does not offer any indication that prices will go up from here. Also, because of the huge rainfall in our mining areas, production was a constraint.

In the first quarter, your sales were down by 17% because of subdued demand from the

steel industry. Are you seeing demand pick-up?
Definitely, there has been some improvement in offtake in the current quarter. Currently, whatever we are producing is getting sold. There is no issue on offtake.

Last year, NMDC produced 42 million tonne (MT) iron ore. What is your target for production for the current fiscal and in the long term?
We are looking at 47-48 MT production this fiscal. By 2025, we plan to increase our production to 67 MT and 100 MT by 2030. We are ramping up capacity at both Bailadalia in Chhattisgarh and Donimalai, Karnataka.

What's the progress on de-merger of the steel plant?
We'll complete the process by the end of current quarter.

How much

investment have you made in the steel plant so far and how much additional investment is required to become operational?
We have already made ₹22,000-crore investment in the steel plant. Some additional investment is required before the plant goes on stream, but that would be marginal. The plant would be operational by September this year.

Do you plan to set up another steel unit going forward?
No, we don't have any such plan.

What will be your focus areas going forward?
The

focus will mostly be on iron ore and value addition of the raw material through pelletisation. We have a 1.2 mtpa pellet unit in Karnataka and are putting up a two mtpa at Jagdalpur in Chhattisgarh. We are also looking at putting up pellet units in Vizag and other places so that we can have a six mtpa pellet capacity by 2025.

You are also looking for some mines abroad for acquisition. Yes, we are open to that. NMDC has always been on the look-out. We have done explorations outside in various geographies, including Africa. Through our Australia-based exploration arm, we are looking at gold, cobalt, lithium and nickel assets.

You don't need coking coal, still you have 26% stake in International Coal Ventures (ICVL). Are you going to continue with that?
It is a strategic investment and we are going to continue with that.

Zephyr Peacock plans 7-9 investments from \$100-m third fund in next 2 years

TUSHAR GOENKA
Bengaluru, August 12

ZEPHYR PEACOCK — the Indian investing wing of New York-headquartered private equity (PE) firm Zephyr Management — plans to make 7-9 investments in the country over the next 18-24 months. The third fund — which has a total corpus of \$100 million — will make a total of about 14-15 investments, Pankaj Raina, MD, investments, told FE. The PE firm, from its third

fund — which started disbursing capital from 2020 — has already made investments in six Indian companies, namely:

Shiksha Finance, Loanzen, Aqgromalin, Poshn, ZippMat and Ripplr. Raina, who said the PE firm is sector-specific — will bet on the financial services, food and agriculture and infrastructure ancillaries space for its new investments. "We are largely skewed towards climate finance, by the way of EVs, we'll also continue and focus on digitisation of supply chains. Within food and agri, we'll look at farming models which address climate change. High growth and large under-

erved markets where there's an absence of dominant players and provides an opportunity for small businesses to become market leaders are a few things we are attracted to," Raina said. He added the initial investments in each company will be limited to a maximum of \$3 million. "Our investments will be anywhere around \$1-3 million and invest more as they continue to grow, there's no point in sinking more money. The 7-9 investments will mark the end of our third fund," he added.

Grasim profit rises 16% to ₹1,933 cr on all-round growth

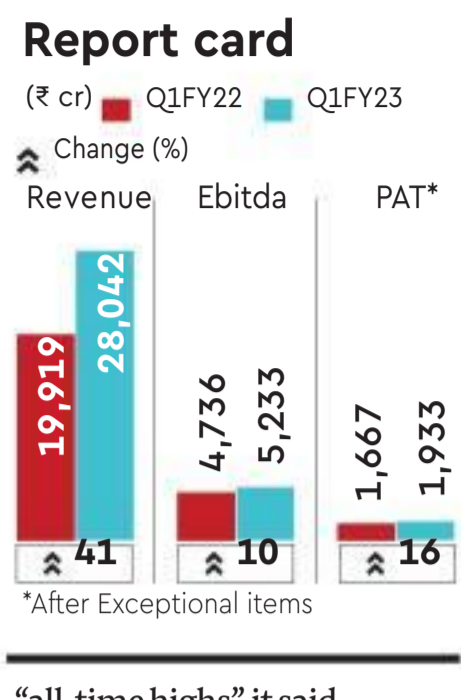

FE BUREAU
Mumbai, August 12

GRASIM INDUSTRIES, THE flagship company of Aditya Birla Group, on Friday posted a 16% rise in consolidated net profit at ₹1,933 crore for the all-round growth in key businesses.

The company had posted a net profit of ₹1,667 crore for the same quarter of the previous financial year.

The firm's revenue rose 41% to ₹28,042 crore on a consolidated basis from ₹19,919 crore posted during the same period a year ago. Consolidated Ebitda rose 10% to ₹5,233 crore from ₹4,736 crore recorded in the first quarter of the previous fiscal, a company statement said.

On a standalone basis, the company's net profit rose 68% to ₹809 crore (from ₹482 crore in the year-ago period), while revenue rose 93% to ₹7,253 crore (₹3,763 crore) and Ebitda rose 69% to ₹1,364 crore (₹805 crore). The standalone revenue and operating Ebitda have hit

"all-time highs", it said. Grasim's sales volume of Viscose Staple Fibre (VSF) business rose 76% to 197 kilotonne (KT), with its 600-tonne per day brownfield plant at Vilayat, Gujarat, contributing about 51 KT to the sales. The India-centric demand for textiles remained strong during the quarter, it said, adding that cotton prices — which peaked in June this year — have softened on fears of a global recession leading to demand slowdown.
