“FY20 was the best ever year for KPDL in terms of collections - highest ever in the company’s three-decade history. Further, we closed the financial year with positive sales momentum that has allowed us to achieve our stated guidance. It is noteworthy, that in absence of any launches, the sales performance was driven entirely by sustenance sales in existing projects across Pune, Mumbai and Bengaluru. This evidences our robust sales machinery as well as brand recognition.

While liquidity has been a challenge for the sector, during FY20, there has been a reduction of Rs. 83 crore in KPDL’s net debt. Our liquidity remains stable given our strong saleability, collections, internal accruals and low debt. Further, we have a good pipeline of new launches, sufficient sold and unreleased inventory in ongoing projects and minimal completed unsold inventory which will further improve our free cash flows.

During the year, we continued to drive execution across all our projects and delivered 1.86 msf (OC for 1,601 units). Our Mumbai story continues to shape well with OC for Jai Vijay and IOD approvals for Goregaon and Dahisar redevelopment projects. We are happy to share we have resumed construction activities at Pune and Bengaluru with 40% of the workforce. We are focused on gradually scaling up in line with ecosystem developments and expect to reach optimum levels in 3-6 months. This will benefit collections and our overall operations meaningfully. Further, we are exploring increased use of technology to fasten the pace of construction going forward.

While Covid-19 pandemic and the resultant lockdown of human and economic activity across the country has subdued consumer sentiment, demand trends have been incrementally positive each passing month. We believe in the structural demand theme of real estate and are optimistic that traction will first return to Affordable and MIG segments, which is the majority of our project portfolio. Efficient management of capital, human resources, supply chain and customers is the recipe for thriving in the current scenario.

The Company has built a very strong digital platform to ensure virtual collaboration, communication & secure data transmission with its customers while working from home. KPDL stepped up, so that its customers don’t have to step out. The rapid digitisation of sales channel, novel offerings along with brand Kolte-Patil allowed the Company to witness decent bookings traction despite the lockdown and ramp up sales to ~60-65% of the normal quarterly run rate.

In the midst of uncertain markets, we effected a unique deal with a global real estate developer like Planet Smart City for Sector R10 in our township project Life Republic in Pune. This deal earns us land monetization benefits as well as profit sharing cash flows from the incremental planned development, resulting in strong returns. Further, it highlights the brand equity of Kolte-Patil as well as the value creation prospects of Life Republic as a project.

Our growing brand equity, execution capabilities and balance sheet strength will be the differentiators in the Indian real estate sector allowing us to capture growth opportunities and create value over the longer term.”
