Bihar receives heavy rain, red alert for north districts till July 2

Patna, Southwest monsoon remained active over north Bihar, which triggered very heavy rain at a few places while light to moderate rain occurred at remaining parts of the state in the past 24 hours, said officials of Patna Meteorological Centre on Wednesday. Meteorologists said northern districts of the state, especially those situated in the Himalayan foothills, are

likely to witness enhanced rainfall owing to conducive weather mechanisms. As per the daily bulletin issued, Gaunaha received 210 mm rain, Trivenigani and Valmiki Nagar 150 mm each, Dhenbriagad 120mm and Ramnagar 90mm in the past 24 hours. Aarti Gupta, a junior scientist at Patna Meteorological Centre said that the state received

111% surplus rain in June. Bihar received 354 mm rain in June against the monthly rain of 167.7 mm, leading to an excess of 111% rain. Last year, the state recorded 82% surplus rain in June,' she shared. The Met Centre also claimed that Patna recorded 349.4 mm rain in June, which stood 151% above the normal rain and the highest rain recorded in June in past 20 years.' Patna Meteorological Centre issued a special bulletin predicting very heavy to extremely heavy rain coupled with thunderstorm activities at isolated places of north Bihar till July 2. Deliberating meteorological mechanism, Gupta said, 'As per the current numerical model, cloud cover is marked over the north-east region of the state. A monsoon

trough is running from east Uttar Pradesh to northwest Assam via Bihar and sub-Himalayan West Bengal. Besides, most easterly winds are likely to pick up strength within 24 hours. Under the influence, northern districts situated in the foothills of Himalaya are likely to receive heavy or extremely heavy rain accompanied with intense lightning and thunderstorm activities for the next two days.' As per the five-day forecast, fairly widespread to widespread rain is likely across the state till July 4. The Met Centre has also sounded a red-colour warning for north districts, including West Champaran, East Champaran, Araria and Kishanganj while an orange-colour warning has been issued for 22 districts till July 2.

New toxic threat preying on vultures in Gujarat

AHMEDABAD: A new toxic threat to vultures has been identified by researchers - the painkiller nimesulide has been found to be as dangerous as diclofenac, a similar drug known to cause vulture fatalities in Gujarat. Nimesulide is used to relieve pain in both humans and animals. Researchers say if the veterinary use of nimesulide continues, it is bound to take a toll on white-rumped vultures in the state.

A research paper by Kanthan Nambirajan, Subramanian Muralidharan, Aditya Roy, and Shashikant Jadhav reveals that at least four white-rumped vulture deaths can be attributed to nimesulide in recent times in Gujarat. Two of the birds were found in Sanand in Ahmedabad and the other two in Dhrangadhra in Surendranagar.

The research paper stated that after postmortem examinations, tissues of several vultures were received for toxicological investigation at the National Centre for Avian Ecotoxicology, Salim Ali Centre for Ornithology and Natural History. "The tissues were screened for a set of toxic pesticides, and none of them was at a detectable level," the paper said. "Subsequently, the tissues were analyzed for thirteen nonsteroidal anti-inflammatory drugs (NSAIDs) and paracetamol. Of all the drugs tested, only nimesulide was detected in all the tissues, indicative of exposure."

The first vulture census in 2005 found 2,642 birds in Gujarat; the 2018 number was only 820. So the number of avian scavengers in Gujarat has dropped by nearly 70% between 2005 and 2018. "In the four vultures, we found only nimesulide which is as toxic as diclofenac," said Roy, one of the researchers. "Visceral gout was also observed in all the four vultures during postmortem examinations."

Roy added: "Residues of nimesulide in tissues with symptoms of gout indicated that the vultures died due to nimesulide poisoning as no other NSAID was found."

This experience has been made available on the Amazon seller website as well as on the mobile app. Amazon also provides Seller Support Services and Seller University videos and tutorials in Gujarati.
