CBI books ABG in ₹22,842-cr bank fraud case

PRESS TRUST OF INDIA
New Delhi, February 12

In its biggest bank fraud case, the Central Bureau of Investigation has booked ABG Shipyard Ltd and its then Chairman and Managing Director Rishi Kamlesh Agarwal along with others for allegedly cheating a consortium of banks led by State Bank of India of over ₹22,842 crore, officials said Saturday.

Besides Agarwal, the agency has also named the then Executive Director Santhanam Muthaswamy, Directors Ashwini Kumar, Sushil Kumar Agarwal and Ravi Vimal Nevetia and another company ABG International Pvt Ltd for alleged offences of criminal conspiracy, cheating, criminal breach of trust and abuse of official position under the IPC and the Prevention of Corruption Act, they said.

The bank had first filed a complaint on November 8, 2019 on which the CBI had sought some clarifications on March 12, 2020.

The bank filed a fresh complaint in August that year. After "scrutinising" for over one and a half-year, the CBI acted on the complaint filing an FIR on February 7, 2022.

The company was sanctioned credit facilities from 28 banks and financial institutions with the SBI having exposure of ₹2,468.51 crore, they said.

The Forensic Audit has shown that between 2012-17, the accused colluded together and committed illegal activities including diversion of funds, misappropriation and criminal breach of trust, they said.

It is the biggest bank fraud case registered by the CBI.

Funds were used for purposes other than for which they were released by banks, it said.

'Fewer patients showed long Covid symptoms this time'

People with weak immunity, co-morbidities more at risk

MONIKA YADAV
New Delhi, February 12

Doctors have observed that a smaller section of people have shown symptoms of long Covid during the current wave as compared to those recovering from the earlier Delta wave.

Long Covid manifests in different ways including headache, breathlessness, throat pain, wet cough, fatigue, stuffy nose, anxiety etc. But in some patients it can take on a more serious nature, affecting the heart, kidney and even brain, say doctors and this is being seen to last from weeks after infection to a year or more.

In Mumbai, nearly 10 per cent of Covid patients have complained of long Covid symptoms, say doctors. Kirti Sabnis at Fortis Hospital (Mumbai) said immunocompromised people and those with multiple co-morbidities show long Covid symptoms. "It is not necessarily linked with age," Sabnis told *BusinessLine*. "Most

of those suffering from long Covid are above 60 years of age. And they are those who have got infected with the Delta variant as it still persists. These people have either co-morbid conditions or have weak immunity," Virendra Yadav, Chief Medical Officer, Gurgaon, stated.

Monitor and manage

"During this wave, those facing Covid symptoms are less than 5 per cent, as against 10-15 per cent during the Delta wave," said Suresh Kumar, MD, LNJP Hospital, Delhi. Narrotam Sharma, Chief Medical Officer in Jaipur, too, echoed

these observations. At Hyderabad's Yashoda Hospitals, Gopi Krishna Yedlapati, Consultant Interventional Pulmonologist, said, "Less than 2-3 per cent have this syndrome this time around. It is also little early to speak about the emerging scenario ... Most patients in ICU are a mixture of Omicron and Delta."

Though the numbers may seem small, the long-term implications are worrying doctors. Long Covid symptoms are monitored, and the person's weight management, nutrition and sleep, among other things are given attention.

WHO adds tocilizumab to 'pre-qualified' treatments list

OUR BUREAU
Mumbai, February 12

The World Health Organization has added tocilizumab, a monoclonal antibody, to its list of pre-qualified treatments for Covid-19, taking the total tally of such treatments to six.

All three pre-qualified presentations (vials of different quantity) are manufactured by the originator company, Roche. The WHO pre-qualification process facilitates low-and middle-income countries to fast-track their adoption.

And in India, Cipla has an alliance with Roche to market the product.

"Tocilizumab is a monoclonal antibody that inhibits the Interleukin-6 (IL-6) receptor. Interleukin-6 induces an inflammatory response and is found in high

levels in patients critically ill with Covid-19," explained WHO.

'No IPR barriers'

Given intravenously, tocilizumab has been seen in clinical studies "to reduce death in certain patients with Covid-19 who are severely ill, are rapidly deteriorating and have increasing oxygen needs, and who have a significant inflammatory response. In the largest clinical trial (RECOVERY), tocilizumab also reduced patients' time in hospital," the WHO said.

Addressing access concerns on the product, WHO

said, "the patent for tocilizumab has expired for most of its uses, which means there should be no intellectual property barriers for this particular IL-6 blocker. However, there is low global availability of quality-assured biosimilars of the product."

Expensive product

The product is expensive and in short supply globally, it said.

"Originator company prices paid in lower-income markets are high — reportedly around ₹500-600 per dose. With demand surging and more manufacturers entering the market, prices could come down," it said, adding that WHO and partners were discussing lower prices and improved access in low- and middle-income countries with Roche.

Debashis Mitra elected as ICAI President

OUR BUREAU
New Delhi, February 12

The CA Institute has a new President in Debashis Mitra for the year 2022-23. In addition to this, Aniket Sunil Talati was elected as Vice President in New Delhi on Saturday.

Mitra will represent ICAI in various committees constituted by the Indian government and regulators, including the Government Accounting Standards Advisory Board (GASAB) and Audit Advisory Board — both constituted by the C&AG of India. He is also a board member of IRDA and a member of SEBI's Primary Market Advisory Committee.

Coal Ministry auctions 10 mines in 5 States

OUR BUREAU
New Delhi, February 12

The Coal Ministry said on Saturday that it has successfully auctioned 10 mines in five states in the latest round of coal auctions. While six mines were CMSP coal mines, the remaining four were MMDR coal mines. The combined coal reserves are estimated at 1,716.21 million tonnes (MT).

The auction of coal mines for commercial mining under the 13th tranche of the Coal Mines (Special Provisions) (CMSP) Act and third tranche of the Mines and Minerals (Development and Regulation) Act began on October 12 last year, the Ministry said in a statement.

"The total geological reserves for these mines are 1,716.211 MT. Nine coal mines are fully explored, while one mine is partially explored. The cumulative PRC (peak rate capacity) for these coal mines is 22.014 MT per annum (MTPA)," it added.

So far, under the commercial coal mining auction process, a total of 42 coal mines, including the above 10 coal mines auctioned in tranche 3, have been successfully auctioned with a total cumulative PRC of 86.404 MTPA, the Coal Ministry said.

The government had launched the actions for commercial coal mining in June 2020 under the CMSP Act and the MMDR Act.
