Short Takes

Gadkari Urges Cos to Cash in on New Expressway Projects

NEW DELHI: Union minister Nitin Gadkari on Wednesday urged industry players to cash in on the huge potential that 22 upcoming express highways hold in the areas of alternative fuel, electric highway and charging stations. The road transport, highways and MSME minister said that projects, specially about ₹1 lakh crore Delhi-Mumbai express highway, can offer a smart right of way to players interested in setting up LNG stations, electric charging stations or petrol pumps. Addressing a conference on 'Future Fuels for Transportation' by FICCI, the minister said plans were afoot to set up 2,000 petrol pumps, including LNG. —PTI

Oil Min Pitches for Inclusion of Natural Gas in GST

NEW DELHI: Ahead of the budget, the oil ministry has made a renewed pitch for inclusion of natural gas in the ambit of GST to promote the use of the environment-friendly fuel by reducing the multiplicity of taxes and improving business climate. "Currently natural gas is taxed under the VAT regime with VAT ranging from 3% to 20% across states," the ministry said. If brought under GST, natural gas will attract a uniform rate of tax at the consumption point anywhere in the country after doing away with current rates of excise duty and VAT. This, it said, would result in an increase in state domestic product and socio-economic development owing to increased economic activities. —PTI

New Bill to Prevent Illegal Fishing in EEZs

NEW DELHI: In order to prevent illegal fishing in India's exclusive economic zone (EEZ), the government has drafted a new bill that aims to regulate fishing beyond the country's territorial waters, according to sources. An EEZ is a sea zone generally extending 200 nautical miles from a country's coastline that is reserved for the respective country under the United Nations Convention on the Law of the Sea (UNCLOS) for exploration and use of marine resources, including energy production from water and wind. —PTI

Cargo Traffic at Non-Major Ports up 4.8% in Apr-Dec

NEW DELHI: Cargo traffic at non-major ports jumped 4.8% in April-December period of the current fiscal to 447.21 MT, shipping ministry report has said. These non-major ports had recorded a cargo traffic of 426.53 MT in April-December 2018-19. During April-December 2019-20, Directorate of Ports at Odisha recorded highest growth in traffic at 64.2%.—PTI

Budget May Unveil 2 Mega Agri Initiatives

ON THE ANVIL Handholding, easy credit to make Farmer Producer Organisations viable, crop diversification programme

Rituraj Tiwari@timesgroup.com

New Delhi: The government is likely to announce two mega agriculture initiatives—one related to crop diversification and another on financial assistance to create Farmer Producer Organisations (FPOs)—in the budget. **FPO** was the first to report on October 11 about the ₹7,000-crore FPO programme—a promise made by Finance Minister Nirmala Sitharaman in the previous budget—where the government is expected to help nurture 10,000 such FPOs. These FPOs—organised groups of small and marginal farmers—will help farmers improve their incomes through better market access and collective bargaining power. The agriculture ministry will fund, handhold, train, ensure easy credit and provide other support to FPOs to make them viable. The government will also provide them with technological interven-

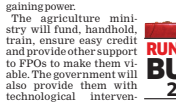

A Rural Push

GOVT LIKELY TO announce mega programmes on crop diversification, FPOs. **ESTIMATED** ₹7,000 cr programme to nurture 10,000 FPOs. **BESIDES** financial aid, FPOs will get handholding, technical assistance. **₹500-600 cr** Estimated value of crop diversification plan to divert farmers from water guzzling crops

insurance and financial assistance of ₹2,000 per acre for the same. "The centre would also announce incentives on the similar lines. In the first year, the government may start a pilot with around 3 lakh hectares," the official said. The government, in 2013-14, had launched a similar diversification programme in Haryana, Punjab and eastern Uttar Pradesh with a budget of ₹500 crore. "The programme could not be implemented as priorities of the government changed. But now, it will launch this with a renewed focus to maintain balance over its crop basket," the official said. The crop diversification will also help government control expenditure towards procurement of paddy and rice. "Since there is guaranteed procurement of rice and wheat, farmers opt for growing these staples despite yields becoming stagnant. By diversification, the government will not only be able to save its outgo on buying grains but also save on power subsidy for pumping groundwater," the official said.

Push for MSMEs to Join Ecommerce Exports

Kirtika Suneja@timesgroup.com

New Delhi: The government is in talks with e-commerce firms to help MSMEs to export goods through their platforms. The move aims to provide a platform for MSMEs to reach global markets and to identify district-wise products that can be promoted globally, amid sagging exports. "The idea is to increase overall exports, especially of small enterprises which are located in remote areas," said an official aware of the details. "E-commerce platforms are a good way to do so. Discussions are on." The move comes ahead of the government finalising the e-commerce policy. The government is urging e-commerce platforms to push exports and ensure that smaller units are included, the official added. Exports have been hovering around \$300 billion since 2011-12. In the April-December period, exports fell 1.96% YoY to \$229.29 billion while imports fell 0.9% to \$377.39 billion, leaving a trade deficit of \$138.10 billion. In FY19, total trade deficit was a record \$176.42 billion. The government had in 2018 increased the value limit for availing export incentives under the Merchandise Export from India Scheme to ₹5 lakh per consignment sold via e-commerce platform, courier or foreign post offices from ₹25,000 earlier for handloom products, books and periodicals, leather footwear, toys, and customised fashion

Onboarding Plans

► **DPIT** asks e-comm cos to onboard SMEs in remote areas
► **Commerce dept** identifies districts with unique products
► **Govt** has urged benefits to toys, books exported through e-comm platforms
► **Draft e-comm policy** pitched for India Post's tie ups with global freight carriers

garments. India exported products worth \$1.2 billion via the e-commerce channel in 2018-19, according to Local Circles. About 75,000 exporters currently engage in e-commerce. **POSTAL SUPPORT** "The cost of Speed Post needs to reduce to one-third from the current base," said Sachin Taparia, chairman of Local Circles. "Foreign clients should be made to reduce the cost of international shipments and tracking facility should be introduced."

Rly Corporatisation from FY21

Nishtha Saluja@timesgroup.com

New Delhi: The Indian Railways will begin the process of corporatising its production units in FY21 as it takes a coordinated approach towards improving the efficiency of the railway network. The idea of hiving off the seven production units of the Indian Railways into a single entity, called the Indian Railways Rolling Stock Company, was floated as part of the 100-days action plan of the Indian Railways last year. "Ultimately, our production units will have to produce coaches and locos, which are fit for a speed of 160 kmph," Railway Board chairman VK Yadav said. The railways has assigned the task of undertaking study on corporatisation of the rolling stock units to RITES. "They are also preparing the report on what will happen to our existing employees, how they will be redeployed," Yadav said. Yadav said once RITES completes the study, trade unions, among other stakeholders, will be roped in for discussions. "In this financial year, we will start the process," he added. The railways has seven production units—Chittaranjan Locomotive Works, Integral Coach Factory, Diesel Locomotive Works, Diesel Modernization Works, Wheel & Axle Plant, Rail Coach Factory and Modern Coach Factory. In its original plan, the corporatisation exercise was to begin at the Modern Coach Factory in Raebareilly. Yadav said the railways is working with a holistic approach to modernise its infrastructure to make its network feasible

Future Plans

More private train operators to be roped in eventually
► Centre should bear social obligation costs
► 6 more bullet train corridors identified
► 4 more freight corridors being studied
► Multi-tracking work to be complete across network by 2024
► FY20 operating ratio likely to be 97-98%

for running high speed and semi-high speed trains. By 2024, the work on multi-tracking, which is essentially laying additional tracks on a particular route, will be complete across its network. This would help the national transporter meet additional demand for passenger trains, Yadav said. Currently, the railways runs around 13,000 passenger trains on its network, but around 20,000 trains are required to meet the demand, Yadav said. "Normally, after multi-tracking, the capacity is doubled, but we would expect if not double then at least 60-70% jump," Yadav said. For meeting the demand, the railways has allowed private operators to run passenger trains, while at the same time working to increase the capacity of its production units. Yadav added that after 150 trains are successfully run by private operators, which is not before two years, more trains will be brought in following the phase. **FY20 OPERATING RATIO PICTURE GRIM** The national transporter is likely to miss its operating ratio target of 95% set for FY20, amid its growing social obligations, Yadav said. "This time we are in stress, and we are expecting a deficit of ₹15,000 to ₹20,000 crore as of today. We are trying to balance that," Yadav said. The railways has reached out to the finance ministry to bear its pension obligation of ₹50,000 crore, perhaps in a phased manner, Yadav said. **6 MORE BULLET CORRIDORS IDENTIFIED** Yadav said the railways has sanctioned work on a detailed project report for six more bullet trains, which will be finalised in one year. After a detailed study is conducted, the government will take a call on whether these will be high-speed or semi-high speed train networks, Yadav said. Delhi-Varanasi, Delhi-Almora, Delhi-Mumbai, Mumbai-Nagpur, Mumbai-Hyderabad, Chennai-Mysuru and Delhi-Amritsar are among the routes identified.
