Press Release

10th February, 2022, Hyderabad, India

Consolidated Total Income & EBITDA grew by 10% & 42% respectively for Q3 FY 21-22 as compared to Q3 FY 20-21

The Board of Directors of Krishna Institute of Medical Sciences Limited (KIMS Hospitals) today approved the financial results for the period ended December 31st, 2021. A brief snapshot of Consolidated Financial and Operational highlights are as follows:

Financial highlights

The current quarter, Q3 FY 22 saw the business coming back on track to pre Covid levels. For Q3 FY 22, Total Income was Rs. 3960 mn, EBITDA was at 1322 mn and PAT was at Rs. 842 mn.

9M FY22 revenue and EBITDA growth are partly on account of the low base during the last financial year due to lockdown, which makes 9M FY21, not a comparable period.

Clinical achievements during the Quarter

- Over 1000 Epilepsy surgeries done till date by KIMS Neuro Sciences Dept

- Unique case in Asia where a 12 year old boy hailing from Uttar Pradesh was treated by doctors by successfully treating him on ECMO for 65 days.
- Conducted India's First Breathing Lung Transplant by using an organ condition system manufactured by Swedish medical technology.
- First PDA surgery was done on 800 grams newly born twins without open heart surgery.
- Doctors save a 7 year old girl child suffering from a rare Cervical Tumor.
- A complex kidney surgery (known as right nephrectomy with inferior vena cava) repair was performed by doctors on a 46 years patient suffering from kidney stones.
- Doctors performed Femoral popliteal bypass surgery on 68 years old patient suffering from severe block of blood in iliac arteries.
- Patient suffering from ascending aortic aneurysm and aortic and mitral valve diseases was treated through a complex open heart surgery. Only five out of every one lakh people are affected by such a problem.
- First left main bifurcation stenting was placed on a 40 years patient suffering from severe chest pain due to the blood blockage in artery.
- After battling for 14 days, a newly born baby suffering from multiple organ failures due to multisystem inflammatory syndrome was successfully discharged.
- Doctors treated first of its kind PDA issues in premature twins who were born weighing 735 grams each and suffering from cardiac problems.
- Appendix measuring an abnormally large 19 cm removed from a 27 years young patient.

Successful treatment of such critical cases is a matter of great professional satisfaction and speaks volumes about the professional expertise and medical infrastructure available with us.

Commenting on the performance, Dr. B. Bhaskara Rao, Managing Director said:

"Q3 has been a busy quarter for the hospital sector. With COVID wave ebbing, the footfalls at OPD as well as high end elective surgery work have now come back to near pre Covid levels. We are fairly confident now that India has successfully navigated the current Covid challenge, new variants notwithstanding. We are optimistic that the business momentum seen across all our units will be on course for the set growth trajectory. I am happy to note that a lot of challenging medical work got done in this quarter, including India's first Breathing Lung transplant."
