For and on behalf of the Board of Directors of

growth has slowed. So far India is concerned, over macroeconomic fundamentals and the financial sector stability remain resilient," Das said.

Defending the RBI's intervention in the currency market Das said that it is incorrect to say that the central bank has used the foreign exchange reserves indiscriminately. "We picked these reserves only for this rainy day. And when it rains, I have said earlier also, you have to pick your umbrella and use it," Das said. On autonomy of the RBI Das said that there has to be proper coordination between the monetary authorities, as coordination does not mean compromise of autonomy. "Nobody interferes in each other's work, but we share our views," he said.

Carmakers picking CNG over diesel

Hyundai sells the Grand i10 NIOS and the Aura in CNG — Grand i10 NIOS was earlier available in diesel. Automotiv analysts told FE that despite rising prices of CNG — these have risen 11% in one year, from ₹52.04 per kg to ₹78.61 per kg — it offers the lowest running costs among conventional fuels and that's why CNG cars are in good demand, making carmakers turn to this fuel to replace their diesel portfolio.

Saket Mehra, partner, Grant Thornton Bharat, said CNG cars are the most economical to run as these have a fuel efficiency improvement of about 30% over petrol and have a far lower maintenance cost over diesel. Carmakers also know that elevated CNG prices may be a temporary phenomenon — due to the spike in international prices of natural gas triggered by the Russia-Ukraine war.

"As far as product development is concerned, we plan 3-5 years in advance," Shashank Sastava, senior executive director, marketing & sales, Maruti Suzuki India, told FE. "Geopolitical factors usually have a temporary impact." He added that despite the recent spike in prices and the higher sticker price of CNG cars vis-à-vis petrol cars, the total cost of operation of a CNG car is lower than petrol and diesel. CNG was earlier associated only with entry-level cars, the owners of which are very sensitive to high running costs.
