Chairman's Statement

Dear Shareholders,

It gives me immense pleasure to write to you with the conclusion of an eventful year FY2022. During the year, numerous important decisions and initiatives were taken with the objective of building a sustainable and future ready business. Your company, Ddev Plastiks Industries Limited ("Ddev Plastiks" or "the Company"), has now successfully completed the demerger process which started in December 2020 and was listed on the stock exchange on 26th July 2022, an important milestone in the history of the company. The Company will have Compounding business at the core of its business and Ddev Plastiks will now embark upon its independent journey, focusing on objectives outlined by management, such as strengthening business operations, expanding manufacturing capabilities and increasing customer base. I would like to thank our shareholders for their confidence and trust in achieving this milestone.

Ddev Plastiks, is now a leading manufacturer of polymer compounds in India with a capacity of 2,61,500 MTPA. The company is part of the group built over the years and carrying a legacy of over 4 decades in its history. Company's product portfolio consists of PE compounds, PVC compounds, Filler compounds, Master Batches, Footwear compounds, Pipe compounds, Peroxide compounds and has recently been expanded to Engineering Plastic Compounds for White Goods, Automotive and Electrical Appliances. Ddev Plastiks' operations boasts of seven modern and state of art manufacturing plants situated in the state of West Bengal, Daman & Diu and Dadra & Nagar Haveli. The facilities are strategically located at East & West coast of India resulting in not only cost optimization but also providing access to a large customer pool across the country.

Macro-economic and Industry Overview

We, as a society, have been through two years of challenging times due to the global health pandemic and though the worst impact is behind us now but still its ramification continue to be felt with supply chain disruptions and sharp increase in energy, logistics and other input costs. The collective efforts by the medical fraternity, various organisations and governments have enabled the return to normalcy even as we remain cautious.

In the post pandemic scenario, FY 2022 witnessed faster than expected demand recovery during this period Global and Indian economies are expected to recover with the growth of 6.1% and 8.2% respectively.

However there are few emerging challenges which have affected the economic recovery rate. The geo-political tensions arising due to war in Ukraine has triggered a costly humanitarian crisis and at the same time, the economic damage from conflict will contribute to a significant slowdown in both regional and global growth in 2022. We are also seeing the inflationary pressures across geographies with fuel and food prices increasing rapidly, hitting vulnerable populations in low-income countries hardest.

As per IMF April, 2022 Data, the Global growth is projected to slow from an estimated 6.1 percent in 2021 to 3.6 percent in 2022 and 2023. This is 0.8 and 0.2 percentage points lower for 2022 and 2023 than projected in January.

Beyond 2023, global growth is forecast to decline to about 3.3 percent over the medium term.

The current situation demands cautious and peaceful resolutions from central banks and governments, respectively. Multilateral efforts to respond to the humanitarian crisis, prevent further economic fragmentation, maintain global liquidity, manage debt distress, tackle climate change, and end the pandemic are essential and need of hour.

Indian Economy

India continues to maintain positive outlook and withstand these challenges due to its strong fundamentals of the economy. Our country is still the fastest-growing major economy even as the Ukraine conflict impacts the global gross domestic product (GDP). For the fiscal year 2023, India's growth is forecast to be 6 per cent and growth for 2022 is 6.4 per cent, a downward adjustment of 0.3 per cent from January. The Indian economy recovery is expected to remain strong in the near term, in the next year and two, but the downside risk that would come from external channels cannot be completely discounted.

Business Performance Update

The Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT), had vide its Order dated 04.03.2022, approved the Scheme of Arrangement between Kkalpana Industries (India) Limited ("KIL") and Ddev Plastiks Industries Limited ("the Company" or "DPIL") and their respective shareholders and creditors under Sections 230 to 232 read with Section 66 and other applicable provisions of the Companies Act, 2013 with respect to Demerger of Compounding Business of KIL and vesting the same to the Company, with an appointed date of 01.04.2021.

For the year ended 31st March, 2022, Ddev Plastiks has delivered Net Revenue of Rs. 2226.90 Crores. Since the Company was incorporated on 07.12.2020, and FY21, being the first year of its incorporation, the Company did not have operations during such period. Profit after tax, for FY 2021-22 stood at Rs. 54.78 Crores, as against loss of Rs. 0.35 lacs in the previous financial year. The Company's EPS stood at Rs. 5.82 as against Rs. -(minus) 0.35 in the previous financial year.

I am pleased to announce that Board of Directors have recommended dividend of 24% per equity share of Re. 1/- each for FY 2022 consequently the total outgo will be Rs. 225.77 lacs for fiscal year.

Further, considering the NCLT order approving the Demerger with an appointed date of 01.04.2021, the financials of your company have accordingly been classified and presented.

Business Outlook

Ddev Plastiks has the largest compounding capacity in wire & cables in India with a diverse range of PE & PVC based compounds and we look forward to further strengthening our leadership position in the industry. The simplification of business structure will result in exploring and tapping multiple growth opportunities, consequently enhancing operational efficiency and optimizing profitability. Our large and expanding R&D based product portfolio, strong partnerships with customers, multi-location operations, customer centric and innovation-based growth strategy will support in strengthening our business.

Acknowledgements

On behalf of the Board of Directors, I would like to thank all our stakeholders who have been part of our journey. I extend my heartfelt gratitude to the employees who have been relentlessly working to ensure smooth and uninterrupted operations and serve the customers with utmost efficiency. I would like to thank our customers, vendors, suppliers, bankers and shareholders for their continued support. As we continue to embark on our transformation journey, I look forward to sharing many successful milestones in the coming years. I want to thank you for your confidence and trust.

By Order of the Board of Directors
For Ddev Plastiks Industries Limited

28th May, 2022
Place: Kolkata

Tanvi Goenka (ACS 31176)
Company Secretary

Statement pursuant to Section 102 of The Companies Act, 2013

Item No.4

The company is required, under provisions of Section 148 of the Companies Act, 2013 (“the Act”) read with the Companies (Cost Records and Audit) Rules, 2014 (“the Rules”), as amended from time to time, to have the audit of its Cost Records conducted by a Practicing Cost Accountant or a firm of Cost Accountants. Further, in accordance with the provisions of Section 148 of the Act read with the Rules, the remuneration payable to the Cost Auditor has to be ratified by the members of the Company.

The Board of Directors of the Company, on the recommendation of the Audit Committee, at their respective meeting held on 28th May, 2022, has approved the appointment of M/s D. Sabyasachi & Co (Firm Registration No. 000369), Cost Accountants, as the Cost Auditor to conduct the audit of the cost records of the Company for the financial year 2022-23, at a remuneration of Rs. 30,000/- plus taxes, as applicable, and out of pocket expenses incurred in connection with the Cost Audit.

Accordingly, the consent of the members is sought by way of an Ordinary Resolution as set out at Special Business under Item No. 4 of the accompanying Notice convening the Annual General Meeting, for ratification of remuneration amounting to Rs. 30,000/- plus taxes, as applicable, and out of pocket expenses, incurred in connection with the Cost Audit, payable to the Cost Auditors for the financial year ending 31st March, 2023.

The Board of Directors accordingly, commends the ordinary resolution set out at Item No. 4 of the accompanying Notice convening the Annual General Meeting for ratification by the members.

None of the Directors or Key Managerial Personnels of the Company and their respective relatives are, in any way, concerned or interested, financially or otherwise in the resolution.

Item No.5

In accordance with the provisions of Section 20 of the Companies Act, 2013 read with the Rule 35 of the Companies (Incorporation) Rules, 2014, a document may be served on any member by sending it to him/her by registered post, speed post, electronic means or any other mode as may be prescribed. A member may request for delivery of any documents, notices and other correspondences through a particular mode, in consideration of such fees as may be determined by the shareholders in the Annual General Meeting.

Since the cost of providing the document may vary according to the mode of service , weight and destination etc therefore it is proposed that actual expenses that may be borne by the Company for such dispatch will be paid in advance by the shareholder to the company subject to minimum charges as below. Accordingly, Board has recommended charging the following minimum fees for delivery of any documents, notices and other correspondences through a particular mode, subject to the approval of the Shareholders;

Sl.No.	Name of Documents	Fees to be paid (Amt in Rs.)
1.	Memorandum of Association	200/-
2.	Annual Report	200/-
3.	Notice of AG/EGM	100/-
4.	Other Correspondences	50/-

As such, consent of the members is sought for passing an Ordinary Resolution as set out at Special Business under Item No. 5 of the Notice for fees to be paid by the members of the Company for delivery of notices, documents and other correspondences through a particular mode.

The Board recommends the resolution for approval of the members.

None of the Directors or Key Managerial Personnels of the Company and their respective relatives are, in any way, concerned or interested, financially or otherwise in the resolution except to the extent of their shareholdings in the Company.

Item No.6

The Board of Directors appointed Mrs. Ramya Hariharan (DIN 06928511) as Additional Director of the Company, in the recommended category “Independent Director”, with effect from 28th March, 2022, pursuant to the provisions of Section 161(1) of the Companies Act, 2013 (“the Act”) and the Companies (Appointment and Qualification of Directors) Rules, 2014 and Article 106 and 107 of the Articles of Association of the Company.

As an additional director, Mrs. Ramya Hariharan (DIN 06928511) will hold office only upto the date of this Annual General Meeting and is eligible to be appointed as Director. The Company has, in terms of Section 160(1) of the Companies Act, 2013 and relevant provisions of Articles of Association of the Company, received, in writing, a notice from member, proposing her candidature for the office of Director.

Mrs. Ramya Hariharan (DIN 06928511) has also given declaration to the Board, pursuant to Section 149(7) of the Companies Act, 2013, that she meets the criteria of independence as provided in Section 149(6) of the Companies Act, 2013, and has also given her consent to act as Director.

Mrs. Ramya Hariharan (DIN 06928511), aged around 43 years, is a qualified Company Secretary and LLB. She has more than 19 years of experience in dealing with general corporate matters, mergers and acquisitions, projects, banking and finance and insolvency matters. She is the partner in charge of the eastern region of a reputed national law firm. She has advised on several joint ventures, mergers and acquisitions transactions involving listed as well as unlisted companies including cross-border transactions. She also has experience in all forms of restructuring including by way of scheme of arrangement, slump sale, capital restructuring etc. She also has significant experience in handling insolvency and restructuring transactions under the recent insolvency regime and has advised large corporate houses in various insolvency and restructuring transactions. She has also been involved in various financing transactions and has closed project finance transactions over approximately Rs. 7,000 crores. As on date of this notice, in addition to Ddev Plastiks Industries Limited, she also holds directorship in Kkalpana Industries (India) Limited, Texmaco Infrastructure & Holdings Limited, TRF Limited, Amalgam Steel & Power Limited and The Indian Steel & Wire Products Limited. The Board is of the opinion that she is a person of integrity, possesses the relevant expertise/ experience and also fulfills the conditions specified in the Companies Act, 2013 for appointment as Independent Director and is independent of the management and that her induction into the Board will be of benefit to the Company and that it will lend an independent and fair view to the decision making process.

Mrs. Ramya Hariharan is not related to any other Director of the Company. A brief profile of Mrs. Ramya Hariharan (DIN: 06928511), including nature of expertise, is provided in the annexure to the Notice. It may be noted that although the SEBI (listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”) are not applicable to the Company on date of this notice, it is hereby confirmed that the appointment of Mrs. Ramya Hariharan, if made, shall be in conformity with said regulations, specifically Regulation 17 of Listing Regulations and that she fulfills the criteria of independence as specified in Regulation 16 and 25 of said Regulations.

Given her experience and the Company’s adherence to policy on Board Diversity, the Board considers it desirable and in the interest of the Company to have Mrs. Ramya Hariharan (DIN: 06928511) on the Board of Directors of the Company and accordingly recommends the appointment of Mrs. Ramya Hariharan (DIN: 06928511) as Independent Director of the Company for a period of five(5) consecutive years with effect from 28.03.2022, whose period of office shall not be liable to determination by retirement of directors by rotation, as proposed in the resolution no. 6 of the Notice convening the Annual General Meeting, for approval by members.

The terms and conditions of appointment of the above Director shall be open for inspection by the Members, at the Registered Office of the Company, between 10:00am (IST) to 1:00pm (IST) on any working day except Saturday upto the date of meeting and also at the venue during the meeting.

Save and except Mrs. Ramya Hariharan (DIN: 06928511), none of the Directors and Key Managerial Personnel of the Company, and their relatives are, in any way, concerned or interested, financially or otherwise in the aforesaid resolution except to the extent of their respective shareholdings in the Company. The Proposed Special Business does not relate to or affects any other company (financial or otherwise).

5. COVID-19 IMPACT:

The World Health Organization (WHO) declared a global pandemic of the Coronavirus disease (Covid-19) on 11.02.2020. The impact of disease was felt worldwide and had affect on India also. Various measures such as lockdown or restrictions were announced by Central/State Government to curb the spread of Covid-19. As a result of intermittent lockdowns and restrictions, demands in several market segments were affected. However, Financial Year 2020-21, being the 01st year of incorporation, the Company had not commenced its business as at 31.03.2021;

hence the impact of COVID-19 was not adversely felt by the Company in the Financial Year ended 31.03.2021. Although the COVID-19 impact continued to have its effect in the beginning of FY 2021-22, its impact was not felt as much. The business resumed normalcy by July, 2021.

Further, the Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT) vide its Order dated 04.03.2022 approved the Scheme of Arrangement between Kkalpana Industries (India) Limited ("KIIL") and the Company to Demerge the Compounding Business Undertaking of KIIL, having an appointed date 01.04.2021. The Financial Results represented here are in consonance with the said Order and Accounting Principles applicable to the Company in view thereof. In compliance with the said Order the Assets and Liabilities of the Compounding Business Undertaking of KIIL have been vested in the Company as on the appointed date i.e. 01.04.2021 and accordingly accounted for.

6. INDUSTRIAL SCENARIO:

The Covid-19 pandemic has reemphasized the indispensable role of plastics in our daily life. Plastic in terms of personal protective equipment (PPEs) and other single-use medical equipment along with packaging solutions owing to their inherent properties have emerged as a life-savior for protecting health and safety of frontline health workers and the common citizens during the pandemic. The Chemical Industry is a knowledge intensive as well as capital intensive industry. It is an integral constituent of the growing Indian Industry. It includes basic chemicals and its products, petrochemicals, fertilizers, paints, varnishes, pharmaceuticals, gases, soaps, toiletries etc. The diversification within the chemical industry is large and covers more than eighty thousand commercial products. The Industry occupies a pivotal position in meeting basic needs and improving quality of life. The Industry is the main stay of industrial and agricultural development of the country and provides building blocks for several downstream industries, such as textiles, papers, paints, varnishes, soaps, detergents, pharmaceuticals, polymers.

The chemical industry is poised to become a major ingredient in fuelling India's economic growth and has roots spread across a wide range of end-user industries - Personal Care, Home Care, Automobile, Consumer Electronics, Food & Beverages, Paint & Coating, Garment, and others thereby playing a major role in achieving the country's ambitious US \$5 trillion economy goal by 2025. As global corporations seek to diversify their supply chain to decrease dependence on China, a significant opportunity awaits India. Competitive advantages due to recent reduction in corporate taxes, 100% FDI in the chemicals sector, the Petroleum, Chemicals and Petrochemicals Investment Region (PCPIR) scheme, PLI for various downstream industries and other schemes promoting 'Make in India', significant improvement in ease of doing business in India are all positive factors that favour. The scenario for speciality chemicals is even better, with the Indian speciality chemicals market poised to grow at a CAGR (2020-25) of 10-12%, as against the global estimate of 3-4%. India occupies 4% of the global share of speciality chemicals and the per capita consumption levels of speciality chemicals is far below the global average, which provides significant headroom for growth in the speciality chemicals segment in India.

Your directors strongly believe that considering that the pandemic does not surface/re-surface, the present situation will soon get better.

7. OPERATIONS AND STATE OF COMPANYS AFFAIRS:

Pursuant to the Scheme of Arrangement between Kkalpana Industries (India) Limited (KIIL) and the Company and their respective Creditors and Shareholders ("the Scheme") vide Hon'ble National Company Law Tribunal, Kolkata Bench, (NCLT) Order dated 04.03.2022, the Compounding Business of KIIL has been vested to the Company at an appointed date of 01.04.2021. There has been no further change in the nature of business of the company during the financial year ended 31.03.2022. It may further be noted that FY 2020-21 being the 01st year of incorporation the company had not commenced its operation and the comparative year figures to year under review i.e Financial Year 2021-22 reflect accordingly. During the period under review, the turnover of the Company stood at Rs 2,22,690.28 lacs as against Rs. Nil shown in FY 2020-21. The Profit after tax as at 31.03.2022 stood at Rs. 5,478.09 lacs as against Rs. (0.35) lacs as at 31.03.2021.

The Company is a leading manufacturer of polymer compounds in India with a capacity of 261500 MT per annum having a diverse product portfolio consisting of PE compounds, PVC compounds, Filled compounds, Master Batches, Footwear compounds, Pipe compounds, Peroxide compounds expanding to Engineering Plastic compounds for White compounds, automative and electrical appliances. It has 7 (seven) manufacturing units with state of art

machinery, infrastructure, equipment, and R&D facilities. With plants located at both East & West coast of India, the company gains advantage of low freight costs. The inhouse ability for designing and testing new compounds with large fully equipped labs and experienced and skilled team and strong Research and development has resulted in large pipeline of new products under development based on customer feedbacks and requirements. The Multi location setup helps minimize the transportation cost by being closer to suppliers (ports) and customers and wide range of extruder capabilities provide flexibility to produce custom quantities for wide range of customers. The arrangements with most large suppliers and large sourcing quantities result in priority treatment from suppliers and cost effectiveness. Our excellent marketing team comprising of technically qualified and trained personnel focus on customizing products to suit customer processes and strong relationships with suppliers provide inputs for developing new product applications based on critical raw materials.

8. FUTURE PROSPECTS:

As per the Transparency Market Research's latest research report on the global plastic compounding market for the actual year 2020 and the forecast period of 2021 to 2031, rise in demand for plastic compounding in various end-use sectors, is likely to boost the plastic compounding market during the forecast period. Your Company's outlook is optimistic keeping in view that the Indian economy is eyeing "V" shaped recovery and the initiatives like Make in India, Atmanirbhar Bharat, Pradhan Mantri Krishi Sinchayee Yojana, Smart City Project, establishments of plastic parks, Production Link Incentives, other Industry friendly policy measures, tax subvention being announced by the Government. The economic forecasts are projecting above average gross domestic product (GDP) growth rates due to strong industrial and consumer demand trends which have potential to positively impact sales volume and operations of the Company. With focused strategies, market analysis and policies and Research and Development we expect the compounding business to provide an extra edge in the growth of the Company, leading the company to spread its wings in the domestic and international markets. Inflationary impacts on natural gases, crude oil, driven by external macroeconomic and geopolitical factors, remains a potential risk in near term but are expected to be moderate.

The chemical industry is poised to become a major ingredient in fuelling India's economic growth and has roots spread across a wide range of end-user industries - Personal Care, Home Care, Automobile, Consumer Electronics, Food & Beverages, Paint & Coating, Garment, and others thereby playing a major role in achieving the country's ambitious US \$5 trillion economy goal by 2025. To reach US \$300 billion, the Indian chemicals industry needs to tap attractive business opportunities in petrochemical intermediates, downstream petrochemicals, specialty chemicals, and others. The coming decade is expected to bring in investments worth more than US \$87 billion, particularly in petrochemicals and specialty chemicals. India's strategic location advantage, skilled and competent manpower, good governance, high-quality infrastructure, robust investment policies, strong regulatory framework, promising labor reforms and trade agreements, and lucrative tax incentives have further propelled it into the league of preferred manufacturing destinations.

The main risks of your company are as under:

Business risks

Your company has to face intense competition from unorganized sector pertaining to plastic compounds. Further, the raw material prices remain volatile. It is very difficult to estimate the near future raw material cost.

Technology risks

Quality up gradation and product obsolescence risks are intertwined with your company's business management. However, the high standard of in-house research and development fortifies the technological risks to some extent.

Financial risks

The Company's policy is to actively manage its foreign exchange risk. The company actively manages the interest rate risk by adopting suitable strategies to minimize the impact of interest rate fluctuations, including maintain optimal balance of different loan types and maturities

Credit Risks

The Company sells their products by extending credit to customers, with the attendant risk of payment delays and defaults. To mitigate the risk, appropriate measures like periodic review and rigorous follow-up are put in place for timely collection of dues from the customer. Credit availability and exposure is another area of risk. However all exports and domestic sales of the Company are covered under receivable insurance Policy which further mitigate the risk.

Liquidity Risks

The Company realizes that its ability to meet its obligations to its suppliers and others is linked to timely and regular collection of receivables and maintaining a healthy credit rating. Review of working capital constituents like inventory of raw materials, finished goods and receivables are done regularly by the respective Divisions and closely monitored by Corporate Finance

42. RISK MANAGEMENT

Your company has an elaborate risk Management procedure and adopted a systematic approach to mitigate risk associated with accomplishments of objectives, operations, revenues and regulations. The Board takes responsibility for the overall process of risk management throughout the organization. In terms of requirement of the Companies Act, 2013, the Company has developed and implemented the Risk Management Policy and the Audit Committee of the Board reviews the same periodically. The company considers activities at all levels of the Organization viz. Enterprise level, Division level, Business Unit Level and Subsidiary level in risk management framework. Risk management process of the Company focuses on three elements viz. 1) Risk Assessment 2) Risk Management and 3) Risk Monitoring. The Company's business units and corporate functions address risk through an institutionalized approach aligned to Company's objective. This is further facilitated by Internal Audit which is reviewed by the Board and Audit Committee of the Company. The key risks and mitigating actions are reviewed and significant audit observations and follow up actions thereon are reported to the Audit Committee and Board.

43. ADEQUACY OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS:

The Board has adopted policies and procedures for governance of orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records and timely preparation of reliable financial disclosures. The internal financial controls with reference to the Financial Statements are commensurate with the size and nature of business of your Company. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL PLASTIC INDUSTRY:

The global market volume for plastic compounding is expected to grow from 475.9 billion pounds in 2021 to 540.4 billion pounds by 2026 with a compound annual growth rate (CAGR) of 2.6% for the period of 2021-2026.

The global bioplastics market volume is expected to reach 3.3 million metric tons by 2026 from 2.2 million metric tons in 2021 at a compound annual growth rate (CAGR) of 8.3% for the forecast period of 2021 to 2026.

The role of plastics is extremely crucial in modern industries. Characterized by excellent properties, these materials have gained high prominence across an array of sectors, including automotive, electricals and electronics, manufacturing, medical and others. The overall market demand is expected to further experience lucrative growth on account of rising demand for bioplastics and recycled plastics.

The global plastic compounds market size is expected to reach USD 98.65 billion by 2028. It is projected to expand at a CAGR of 5.1% over the forecast period.

The market is estimated to be driven by packaging applications across the globe. The product demand in the packaging industry is driven by high consumerism in major economies, such as China, India, Germany, the U.S., and Brazil. Various regulatory bodies have stipulated guidelines regarding packaging materials in food contact applications. Polypropylene (PP) compounds offer a cost-effective packaging solution and help enhance impact strength, flexibility, clarity, and process efficiency. High demand for Polyethylene (PE) in the packaging industry has majorly contributed to the growth of the packaging end-use segment.

The global COVID-19 pandemic moderately affected the product demand in packaging application in 2020. The demand for packaging for healthcare products, food products, groceries, and e-commerce transportation increased sharply, while the demand for luxury, industrial, and some B2B transport packaging witnessed decline owing to the slowdown and halt in industrial operations. The recommencing industrial operation is expected to positively influence the demand in industrial, and B2B transport packaging in the coming years.

INDIAN PLASTIC INDUSTRY

The plastic industry in India made a promising beginning in 1957 with the production of polystyrene. Thereafter, significant progress has been made, and the industry has grown and diversified rapidly. The industry spans the country and hosts more than 2,000 exporters. It employs about 4 million people and comprises more than 50,000 processing units, 85-90% of which are small and medium-sized enterprises.

Indian plastics industry produces and export a wide range of raw materials, plastic-moulded extruded goods, polyester films, moulded/ soft luggage items, writing instruments, plastic woven sacks and bags, polyvinyl chloride (PVC), leather cloth and sheeting, packaging, consumer goods, sanitary fittings, electrical accessories, laboratory/ medical surgical ware, tarpaulins, laminates, fishnets, travel ware, and others. The Indian plastics industry offer excellent potential in terms of capacity, infrastructure, and skilled manpower. It is supported by many polymer producers, plastic process machinery and mould manufacturers in the country. Among the industry's major strengths is the availability of raw materials in the country. Thus, plastic processors do not have to depend on import. These raw materials, including polypropylene, high-density polyethylene, low-density polyethylene, and PVC, are manufactured domestically.

The Indian plastics industry is aggressively progressing on national and exports fronts by achieving USD 13 billion of exports in the year 2021-22 with a 30 per cent growth and eyeing for USD 25 billion of exports by 2025, which will take India into the prime spot in global plastics exports. The Indian plastics industry has done well on the exports and domestic fronts and contributed significantly during the pandemic, particularly in supporting the healthcare supplies to the country. The Central Government was supporting the plastic manufacturers, particularly to ensure that more MSMEs should take the advantage of national and global market opportunities and provide more job opportunities to marginalised sector.

Industry Structure and Developments

Indian plastic Industry has over 50,000 plastic processing units employing more than 50 Lacs people across the Country. Almost 85% to 90% of the total manufacturing units are in small & medium scale sector. The Industry is very fragmented and majority of the manufacturers are from unorganized sector and very few are from organized sector. Plastic industry consumes around seventy five percent of the petrochemicals production, which is quite significant.

The revival process post pandemic one in a way, tested the fundamentals of all businesses particularly the supply chain system, the ability to ramp up production amidst restrictions, efficient working capital management, and the inherent strength of the distribution network.

The Department of Chemicals and Petrochemicals has approved 10 Plastic Parks in the country, out of which 6 parks have been given final approval in the below states:

- Assam- 1
- Madhya Pradesh-2
- Odisha-1
- Tamil Nadu-1
- Jhrakhand-1

The Detailed Project Reports are under evaluation for two Plastic Park in Uttarakhand and Chhattisgarh, respectively and proposal for setting up of two new Plastic Parks are under process. These Plastic Parks will help to achieve environmentally sustainable growth and increase employment.

A. MEASURES TAKEN

Evolving and Integrating the Basic Technologies to create new products and technology cultivated at Ddev Plastiks Industries Limited since its inception. The intensive Research and Development (R&D) has led us to be the leaders of Specialty Polymer Compounding Industry for more than a decade. This has been possible due to the state of art R&D at Surangi unit and Quality Assurance facilities at all our Units. Our R&D team comprises of highly qualified and experienced Technologists who are focused at accelerating the development speed along with a firm understanding of customer and product needs. Our facility is also equipped with the systems to continue seeking out the needs of the times.

We are constantly working on developing Polymer Compounds to the Advancing, High Performance Specialty Products for Increasing Complex Applications (Low, Medium to High Voltage Cables- Insulation, Semicon & Jacket Compounds). Your company strives to make continuous investments towards improvement in its existing product lines and undertakes development efforts in that area.

The following are our on-going projects:

- High Track and Erosion resistant Jacket compound for Covered Conductors (a novel compound for covering the overhead transmission conductors) meeting European Standards.
- Halogen Free Fire Resistant Jacket cum Insulation for Solar Cable (Outdoor) application meeting European Standards.
- Cost effective Tree -Retardant XLPE for 66 KV application.

The above compounds would increase our exports many folds and also open a new avenue to our Indian Customers.

Specific areas in which R & D is carried out by your company.

- Horizontal and vertical expansion of Company's product profile.
- New & Improved Product Development.
- Up gradation of R&D lab to develop state of the art R&D to cater to the growing demand for Hi- Tech products.
- Evaluation of the alternative materials or additives to reduce the cost of raw materials
- Modify the mould and dyes to improve the cycle time to get higher production from the same machinery.
- To modify the process parameters to improve the quality

B) BENEFITS DERIVED AS A RESULT OF R & D.

Our ongoing study in the following areas would also help to reduce cost of conservation and improve the quality of products:

- Penetration into the Solar Cables Market and increase in product profile.
- Improving the output/input ratio to gain maximum finished products from per kilogram of raw material
- Waste management is highly focused and monitored through corporate management and recycling the product by using good waste management process

Other benefits derived as a result of our efforts are

- i) Efficiency and yield improvement, loss reduction and modernization programme.
- ii) Import Substitution
- iii) Increased Market share for various products.
- iv) Better market penetration of various products.
- v) Developments of various grades of PVC & XLPE compounds to meet changing market needs.
- vi) Increased output and labor saving
- vii) Conservation of natural resources with prime focus on energy and water management with Zero Discharge Philosophy
- viii) Environment Protection for sustainability to reduce, recycle and reuse waste
- ix) Knowledge and skills sharing across company initiatives for benchmarking the best practices
- x) Easy and fast installations to save time, labor and cost
- xi) Hygienic and safe operations
- xii) Opportunities to expand business in new areas
- xiii) Product improvement and development and cost reduction.

INDEPENDENT AUDITOR'S REPORT

To the Members of Ddev Plastiks Industries Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Ddev Plastiks Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31 2022, the Statement of Profit & Loss (including the Statement of Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements") in which are included all the assets and liabilities of the Compounding Business Undertaking of Kkalpana Industries (India) Ltd which stands transferred to the Company with effect from the Appointed date, i.e., 1 April 2021 (as per the scheme of arrangement approved by the Hon'ble National Company Law Tribunal, Kolkata Bench ('NCLT'), vide its order dated 4 March 2022 .

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS ") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profits (including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Auditor's Response
Inventory- existence and valuation Refer to note 10 to the standalone financial statements. The Company is having the Inventories of Rs.27,571 lacs as on 31 st March 2022. As described in the accounting policies in the standalone financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgement in determining the appropriate provisions for obsolete stock based upon a detailed analysis of old inventory ,net realisable value below cost based upon future plans for sale of inventory.	We have obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions and management assertion regarding existence and ownership by:- Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. Performing procedures to ensure that the changes in inventory between the last verification date and date of the balance sheet are properly recorded (Roll forward procedures).

Key Audit Matters	Auditor's Response
<p>Revenue Recognition</p> <p>Revenue from the sale of goods is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers (collectively 'trade spends').</p> <p>There is a risk that revenue may be overstated because of pressure local management may feel to achieve performance targets. Revenue is also an important element of how the company measures its performance, upon which management is incentivized.</p>	<p>Verifying for a sample of individual products that costs have been correctly recorded.</p> <p>Identified and assessed a sample of aged and obsolete inventory.</p> <p>We also analysed the level of slow-moving inventory and the associated provision.</p> <p>We have reviewed the historical accuracy of inventory provisioning and the level of inventory write-offs during the financial year.</p> <p>Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.</p> <p>Performing substantive analytical procedures to test the correctness of inventory existence and valuation.</p> <p>Testing the accuracy of inventory reconciliations with the general ledger at period end, including test of reconciling items.</p> <p>The procedures performed gave us a sufficient evidence to conclude about the inventory existence and valuation.</p> <p>Our audit procedures included:</p> <p>We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards.</p> <p>We evaluated the design, tested the implementation and operating effectiveness of key internal controls including general IT controls and key IT application controls over recognition of revenue.</p> <p>We performed substantive testing by selecting samples of revenue transactions recorded during the year by testing the underlying documents which included invoices, good dispatch notes, customer acceptances and shipping documents (as applicable).</p> <p>We carried out analytical procedures on revenue recognised during the year to identify unusual variances.</p> <p>We tested, on a sample basis, specific revenue transactions recorded before and after the financial year-end date to determine whether the revenue had been recognised in the appropriate financial period.</p> <p>We tested manual journal entries posted to revenue to identify unusual items.</p>

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, but does not include financial statements and our auditors' report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty

exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2) As required by section 143(3) of the Act, we report that:
 - i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief are necessary for the purpose of our audit.
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - iii. The Balance Sheet, Statement of Profit & Loss (including other comprehensive income), Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - iv. In our opinion, the aforesaid financial statements comply with the accounting standards specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.
 - v. On the basis of written representations received from the Directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of section 164(2) of the Act.
 - vi. With respect to the adequacy of the internal financial controls with reference to the financial statement of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
 - vii. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, during the year the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act . The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. - b) On the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.
- c) On the basis of our examination of the records of the Company, the Company has not raised Term Loan during the year.
- d) On the basis of our examination of the records of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary or joint venture.
- f) The Company has not raised loans during the year on the pledge of securities held in its subsidiary or joint venture.
- X.
- a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable to the Company.
- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable to the Company.
- XI. To the best of our knowledge:
- a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) To the best of our knowledge, no report under subsection (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (vi) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Ddev Plastic Industries Limited of even date)

Report on the Internal Financial Controls with reference to financial statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statement of Ddev Plastiks Industries Limited (“the Company”) as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (Guidance Note) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies , the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statement based on our audit. We conducted our audit in accordance with the Guidance Note issued by ICAI and the Standards on auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statement and their operating effectiveness. Our audit of internal financial controls with reference to financial statement included obtaining an understanding of internal financial controls with reference to financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statement.

Meaning of Internal Financial Controls with reference to Financial Statement

A company’s internal financial control with reference to financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statement includes those policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide

reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls with reference to Financial Statement

Because of the inherent limitations of internal financial controls with reference to financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statement to future periods are subject to the risk that the internal financial control with reference to financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statement and such internal financial controls with reference to financial statement were operating effectively as at March 31, 2022, based on the internal control with reference to financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

1. COMPANY INFORMATION

DDEV PLASTIKS INDUSTRIES LIMITED ("the Company") was incorporated in India on 7th of December 2020. The registered office is located at 2B Pretoria Street, Kolkata- 700071. The Company is engaged in the manufacturing of Plastic Compounds.

The financial statements of the Company for the year ended 31st March, 2022 were authorised for issue in accordance with a resolution of the Board of Directors as on 28.05.2022

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

2.1 Statement of Compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.2 Basis of Measurement

The financial statements have been prepared on a historical cost basis (which includes deemed cost as per Ind AS 101), except for the following assets and liabilities which have been measured at fair value:

- (i) Derivative financial instruments
- (ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).
- (iii) Defined benefits plans - Plan assets measured at fair value

2.3 Key Accounting Estimates And Judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of financial statements and reported amount of revenue and expenses during the period. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Notes to the financial statements for the year ended 31st March, 2022

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes below :-

(i) Estimation of employee defined benefit obligations

Ind AS 19 requires the exercise of judgment in relation to various assumptions including future pay rises, inflation and discount rates and employee and pensioner demographics. The Company determines the assumptions in conjunction with its actuaries, and believes these assumptions to be in line with best practice, but the application of different assumptions could have a significant effect on the amounts reflected in the income statement, other comprehensive income and balance sheet. There may be also interdependency between some of the assumptions.

(ii) Estimation of current tax expenses

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible.

Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

(iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

(iv) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts.

(v) Allowance for credit losses on receivable

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

Notes to the financial statements for the year ended 31st March, 2022

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue Recognition

The Company recognizes revenue, whenever control over distinct goods or services is transferred to the customer; i.e. when the customer is able to direct the use of the transferred goods or services and obtains substantially all of the remaining benefits, provided a contract with enforceable rights and obligations exists and amongst others collectability of consideration is probable taking into account customer's creditworthiness.

Revenue is the transaction price the Company expects to be entitled to. In determining the transaction price, the Company considers effects of variable consideration, the existence of significant financing contracts, noncash consideration and consideration payable to the customer, if any. The Company considers whether there are other promises in the contract that are separate performance obligations to which the transaction price needs to be allocated (e.g. warranties etc.).

Variable Consideration

If the consideration in a contract includes a variable amount, the company estimates the amount of consideration to which it will be entitled to in exchange for transferring goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved. Some contracts with the customers provide them with a right to return and volume rebates. The right to return and volume rebates gives rise to variable consideration.

The amount of variable consideration is calculated by either using the expected value or the most likely amount depending on which is expected to better predict the amount of variable consideration. Consideration is also adjusted for the time value of money if the period between the transfer of goods or services and the receipt of payment exceeds twelve months and there is a significant financing benefit either to the customer or the Company. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the Company reasonably estimates those.

Revenue is recognized for each performance obligation either at a point in time or over time.

Sale of goods: Revenues are recognized at a point in time when control of the goods passes to the buyer, usually upon either at the time of dispatch or delivery. Revenue from sale of goods is net of taxes and recovery of charges collected from customers like transport, packing etc.

Contract balances:

Trade Receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e. only a passage of time is required before payment of the consideration is due).

Notes to the financial statements for the year ended 31st March, 2022

Contract liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the company transfer goods and services to the customer, a contract liability is recognised when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognised as revenue when the company performs under the contract.

Interest Income

Interest income is recognised using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

Dividend Income

Revenue is recognised when the right to receive the payment is established by the reporting date.

Other Claims / Receipts

Insurance claims and other receipts including export incentives, where quantum of accruals cannot be ascertained with reasonable certainty, these receipts are accounted on receipt basis.

Commission Income

When the Company Acts in the capacity of an agent rather than as the principal in a transaction the revenue recognised is the net amount of the commission earned by the Company.

3.2 Property, Plant and Equipment

Property, Plant and Equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises purchase price including import duties and other non-refundable duties and taxes, borrowing cost if capitalization criteria are met and other directly attributable cost for bringing the Assets to its present location and condition.

The cost of replacing part of an item of Property, Plant and Equipment is recognised in the carrying amount of the item only when it is probable that future economic benefits embodied within the part will flow to the Company and the cost of the item/part can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

When parts of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

Gains or losses arising on retirement or disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Property, Plant and Equipment which are not ready for intended use as on the date of Balance sheet are disclosed as "Capital Work-in-progress".

Items of Property, Plant and Equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Notes to the financial statements for the year ended 31st March, 2022

The Assets which are held for Sale shall be reclassified to Current Assets only if its carrying amount will be recovered principally through a sale transaction (within one year) rather than through continuing use.

Depreciation and Ammortization:-

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed in Part - C under Schedule II to the Companies Act, 2013.

Particulars

Factory Building	30
Plant & Machinery	25
Electrical Installation	10
Lab Equipments	10
Furniture and Fixtures	10
Motor Car	8
Air Conditioner	15
Scooter, Moped and Cycle	10
Office Equipment	5
Computer	3

Useful life of Plant and Machinery has been considered 25 years as against 15 years as prescribed in Shedule II of the Companies Act, 2013 which is based on the prevailing practices of the comparable industries and our past experience for last 30 years.

3.3 Intangible Assets :

Separately purchased intangible assets are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortised on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets are as follows :-

Particular	Years
Technical Knowhow	10
Computer Software	10

The Intangible Assets are derecognised either when they are being disposed off or no future economic benefit is expected from its use or disposal, the difference net disposal proceeds and the carrying amount of Assets is recognised in the statement of Profit and Loss in the period of dereognition.

3.4 Non Current Assets held for Sale

Non-current assets or disposal groups comprising assets and liabilities are classified as 'held for sale' when all of the following criteria are met : (i) decision has been made to sell. (ii) the assets are available for immediate sale in its present condition (iii) the assets are being actively marketed and (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Notes to the financial statements for the year ended 31st March, 2022

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

3.5 Investment Property

Investment Property comprises Free-Hold Lands that are held for Capital Appreciation as it has been held for a currently undetermined future use and are recognised at cost.

An Investment Property are derecognised either when they are disposed off or when they are permanently withdrawn from use and no future economic benefit is expected. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in statement of profit and loss in the period of derecognition.

3.6 Lease

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings, machineries and warehouses. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Notes to the financial statements for the year ended 31st March, 2022

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

3.7 **Impairment of non-financial assets**

As at each balance sheet date, the Company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, if any, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:-

- a) In the case of an individual asset, at the higher of the fair value less cost to sell and the value in use ; and
- b) In the case of cash generating unit (a group of asset that generates identified, independent cash flow), at the higher of the cash generating unit's fair value less cost to sell and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discounting rate that reflect the current market assessment of the time value of the money and the risk specific to the asset. In determining fair value less cost of disposal, recent market transaction is taken into account. If no such transaction can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

3.8 **Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A) **Financial Assets**

Initial Recognition and measurement of Financial Assets

All financial assets are recognised initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, in the same manner as described in subsequent measurement.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date the Company commits to purchase or sell the asset

Notes to the financial statements for the year ended 31st March, 2022

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- (a) Financial assets at amortised cost
- (b) Financial assets at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets at fair value through profit or loss (FVTPL)
- (d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

(a) Financial assets at amortised cost

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- i) Business model test : The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).
- ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Effective Interest Rate (EIR) method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period to the net carrying amount on initial recognition

(b) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

- i) Business model test : The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- ii) Cash flow characteristics test : The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the financial statements for the year ended 31st March, 2022

(c) Financial assets at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch') that would otherwise arise from measuring financial assets and financial liabilities or recognising the gains or losses on them on different bases.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

(d) Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If an equity investment is not held for trading, an irrevocable election is made at initial recognition to measure it at fair value through other comprehensive income with only dividend income recognised in the statement of profit and loss.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from other comprehensive income to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's financial statement) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:

(i) the Company has transferred substantially all the risks and rewards of the asset, or

(ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Notes to the financial statements for the year ended 31st March, 2022

Write Off

An entity shall directly reduce the gross carrying amount of a Financial Asset when the entity has no reasonable expectation of recovering a financial asset in its entity or for a portion thereof.

Investment in joint ventures and subsidiaries:

The Company has accounted for its investment in joint ventures and subsidiaries at cost.

Impairment of financial assets

The Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial assets:

- (a) Financial assets measured at amortised cost
- (b) Financial assets measured at fair value through other comprehensive income (FVTOCI)

Expected Credit Losses are measured through either 12 month ECL or lifetime ECL and it is assessed as following:

For recognition of impairment loss on financial assets, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in the subsequent period, credit quality of the instrument improves, such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Company follows a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historical observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Notes to the financial statements for the year ended 31st March, 2022

B) Financial liabilities

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include loans and borrowings, trade and other payables and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

(a) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied.

(b) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

(c) Financial Guarantee Contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Notes to the financial statements for the year ended 31st March, 2022

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments and hedge accounting

The Company enters into derivative contracts such as forward currency contract, option contract and cross currency and interest rate swaps to hedge foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to statement of profit and loss when the hedge item affects profit or loss.

3.9 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprises cash in hand, cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, cash at banks and short-term deposits, as defined above, net of outstanding bank overdrafts, if any, as they are considered an integral part of the cash management.

3.10 Foreign currency Transactions

The Company's financial statements are presented in Indian Rupee (Rs.) which is also Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rates prevailing on the date of transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange rate differences that arise on settlement of monetary items or on translating of monetary items at each balance sheet reporting date at the closing rate are recognised as income or expense in the period in which they arise except exchange difference on monetary items that qualify as a hedging instrument in a cash flow hedge are recognised initially in OCI to the extent the hedge is effective.

Notes to the financial statements for the year ended 31st March, 2022

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates prevailing at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are reported using the exchange rates prevailing at the date when fair value is determined.

When a gain or loss on non-monetary items is recognised in OCI any exchange component of that gain / loss shall be recognised in OCI, conversaly when a gain or loss on a non-monetary item is recognised in Profit / loss any exchange component of that gain/loss shall be recognised in Profit / Loss.

3.11 **Fair Value Measurement:**

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Notes to the financial statements for the year ended 31st March, 2022

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.12 Inventories

Raw materials : Inventories are valued at cost or net realisable value whichever is lower. Cost is determined by using the Weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Finished Goods and Traded Goods: Inventories are valued at lower of cost and net realisable value. Finished goods include cost of conversion and other cost incurred for bringing the inventories to their present location and condition and Traded Goods includes purchase price and other cost incurred for bringing the inventories to their present location and condition.

Stores & Spareparts : Store and Spare Parts are valued at Cost.

3.13 Employee Benefits

Short Term Employee Benefits

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be settled wholly before twelve months after the year end, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably. It includes Salary, wages, paid annual leave.

Post Employment Benefits

Defined Contribution Plan

Retirement benefits in the form of contribution to Provident fund are defined contribution plans. The contributions are charged to the statement of profit and loss as and when due monthly and are paid to the Government administered Provident Fund towards which the Company has no further obligation beyond its monthly contribution. Superannuation benefit scheme is not existing in the Company.

Defined benefit plans:

The Company operates defined benefit plan viz., gratuity. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out for the plan using the projected unit credit method.

Defined benefit costs are comprised of:

- a) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- b) Net interest expense or income; and
- c) Re-measurement.

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs. Re-measurement of net defined benefit liability/ asset pertaining to gratuity comprise actuarial gains/

Notes to the financial statements for the year ended 31st March, 2022

losses (i.e. changes in the present value resulting from experience adjustments and effects of changes in actuarial assumptions) and is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

3.14 **Borrowing Cost**

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which it is incurred.

Borrowing costs include interest expense calculated using the effective interest rate method as described in Ind AS 109- Financial Instruments, finance charges in respect of finance leases are recognised in accordance with Ind AS 116- Leases and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

3.15 **Income Taxes**

Income tax expense represents the sum of the tax currently payable and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current Tax

Current income tax represents the tax currently payable on the taxable income for the year and any adjustment to the tax in respect of the previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Notes to the financial statements for the year ended 31st March, 2022

Deferred tax assets and liabilities are offset only if:

- (i) entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the Other Comprehensive Income or directly in equity. In this case, tax is also recognised in other comprehensive income or directly in equity, respectively.

3.16 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Assets

Contingent Liabilities are not recognised but are disclosed in the notes. A disclosure for a contingent liability is made where there is a possible obligation arising out of past event, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising out of past event where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent Assets are not recognised but disclosed in the financial statements when economic inflow is probable.

3.17 Earnings per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period after deducting any attributable tax thereto for the period by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.18 Current and Non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non current classification.

An asset is current when:

- It is expected to be realised or intended to be sold or consumed in normal operating cycle (twelve months),

Notes to the financial statements for the year ended 31st March, 2022

- It is held primarily for the purpose of trading,
- It is expected to be realised within twelve months after the reporting period,
- It is cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle (twelve months),
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period,

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

3.19 **Business Combination**

Business combinations, if any, are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Company. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognised at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the Goodwill computed as per IND AS 103 is negative, the acquirer needs to reassess the identification and measurement of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of combination. If negative goodwill remains, this is recognised immediately in OCI and accumulated in equity as Capital Reserve. The Company recognises any non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. The Company recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognised in the Statement of Profit and Loss.

Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognised in the statement of Profit and Loss.

If there is an acquisition of an asset or a group of assets that does not constitute a business. In such cases the Company shall identify and recognise the individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost of the group shall be allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

41 FAIR VALUE MEASUREMENT

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- (1) Fair value of cash and short-term deposits, trade and other short term receivables, trade payables , other current liabilities, short-term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments.
- (2) Financial instruments with fixed and variable interest rate are evaluated by the Company based on parameter such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effects on the recorded fair value that are not based on observable market data.

The following tables provides classification of financial instruments and the fair value hierarchy of the Company's assets and liabilities.

42 FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables and advances from customers. The main purpose of these financial liabilities is to finance the Company's operations, projects under implementation and to provide guarantees to support its operations. The Company's principal financial assets include Investment, loans and advances, trade and other receivables and cash and bank balances that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Managing Board.

All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes to be undertaken. The Board of Directors reviews and finalises policies for managing each of these risks, which are summarised below.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Interest rate risk, Currency risk and Commodity price risk. Financial instruments affected by market risk include investments and deposits, foreign currency receivables, payables, loans and borrowings and derivative financial instruments.

Notes to the financial statements for the year ended 31st March, 2022

(Rs. In Lacs)

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies and ensuring compliance with market risk limits and policies.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regard to interest income and interest expenses to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the unhedged portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	2021-22	2020-21
	(+/-) 50	(+/-) 50
	Basis Points	Basis Points
Effect on profit before tax due to interest rate sensitivity	52.17	-

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating and financing activities. The Company manages its foreign currency risk by hedging transactions that are expected to realise in future.

52 LEASES

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" using modified retrospective approach. The Company's lease asset classes primarily consist of leases for buildings, machinery and warehouses. These leases were classified as "Cancellable Operating Leases" under Ind AS 17. On transition to Ind AS 116 "Leases", the Company has used following practical expedient, when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17.

- The company didn't recognized Right to Use and Lease liabilities for lease for which the lease terms pertaining to the uncancellable period ends within 12 months on the date of initial transition and low value assets.
- The Company excluded initial direct cost from measurement of the Right to Use assets at the date of initial application.
- The Company uses hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Hence, the Company has recognised the lease payments associated with those leases as an expense on a straight line basis over the lease term. Lease liabilities were measured at the present value of remaining lease payments, discounted at the Company's actuarial discounting rate. Right to Use is measured at an amount equal to the lease liability adjusted by the amount of any prepaid or accrued lease payments.
