**Encl.: As above**

## **Anupam Rasayan signs Two Long Term Contracts with one of the Leading European Crop Protection Company**

**Surat, October 17, 2022:** Anupam Rasayan (NSE, BSE: ANURAS), one of India's leading custom synthesis & speciality chemical players, has signed two contracts with one of the leading European crop protection company for supplying two new life science related specialty chemicals. The company will supply these products for the next three years under the contract. These products will be manufactured in our existing manufacturing facilities.

Speaking about the contract, **Anand Desai, Managing Director of Anupam Rasayan**, said, *"We are pleased to announce that we have signed two contracts with one of our top European customers. These contracts are in line with our strategy of increasing wallet share and deepening relationship with our existing customers. With these additions, the tally of number of molecules with this MNC goes to 6.*

*These products were conceptualised within 3 months and it took under 18 months from conceptualisation to commercialisation of these products. We were able to deliver these products in such short period on urgent request of our customer. This further demonstrates our customer centricity as well as strong R&D capabilities.*

*Moreover, both of these products were being manufactured in Europe. Now the customer has decided to source these products exclusively from Anupam. We are starting to see this trend of India being chosen as preferred manufacturing base for strategical products presently being manufactured in Europe. We are working with few more MNC clients and expect 20 to 25 niche products to be added in Anupam's product portfolio in near term as of part of Europe plus one strategy"*

### **About Anupam Rasayan India Ltd. (ARIL):**

Anupam Rasayan India Ltd (ARIL) is one of the leading companies engaged in the custom synthesis (CSM) and manufacturing of specialty chemicals in India. Incorporated in 1984, the speciality chemicals major has two verticals: Life science related Specialty Chemicals comprising products related to Agrochemicals, Personal Care and Pharmaceuticals, Other Specialty Chemicals comprising Specialty Pigment and Dyes, and Polymer Additives. The Company caters to a diverse base of Indian and global customers. It is currently manufacturing products for over 70 domestic and international customers, including 26 multinational companies. The company has a long history of high customer retention and have been manufacturing products for select customers for over a decade. The company caters to a diverse base of Indian and global customers. The Company operates via its six manufacturing facilities in Gujarat, India, with four facilities located at Sachin, Surat and two located at Jhagadia, Bharuch with an aggregate installed capacity of about 27,200 MT, as of 30<sup>th</sup> June, 2022.

ARIL offers multistep synthesis and undertakes complex chemical reactions technologies, for a diverse base of Indian and global customers. The Company is focussed on developing in-house innovative processes for manufacturing products requiring complex chemistries and achieving cost optimization.
