MESSAGE FROM THE EXECUTIVE CHAIRMAN

Dear Shareholder,

The past year has been one of resilience and recovery. Businesses and economies bounced back gradually to face the lingering challenges such as supply chain disruptions and inflation, posed by the pandemic; and also the geopolitical crisis. India's proactive economic policies have steered India to become a global economic force. The administration of more than 1 billion Covid vaccine doses was a milestone achievement that helped ease restrictions. Historically low home loan rates, improved market sentiment and instilled confidence in the home-buyers. Several steps taken by the Central and State Governments assisted in a faster revival of the economy.

The Indian real estate sector has greatly benefited from a sustained infrastructure and industry focus. Overall, the government has made great efforts to maintain and improve investor confidence in the Indian market. The reformative stance from the government is expected to continue and gain momentum over the next few years.

The real estate industry is one of the largest contributors to emissions globally and climate action is an urgent imperative for our business. Two COVID-19 waves and ongoing global geopolitical tensions made FY 2021-22 an eventful year. Global economic growth remains a concern with the interest rate response to elevated inflation likely to reduce growth. India is in a relatively strong position with GDP growth expected to be the fastest amongst all major economies. The real estate sector has entered a cyclical upswing demonstrating remarkable resilience despite the many disruptions during the past year. Real estate, the third-largest sector in the country, is expected to reach a market size of \$1 trillion by 2030 and account for over 13% of India's GDP by 2025.

As we celebrate "Azadi Ka Amrit Mahotsav" this year, we continue to be proud of our nation's past achievements and remain confident of advancing further on the path of progress and we remain cautiously optimistic and will continue to build a resilient tomorrow and advance our sustainability agenda.

Your Company is a strong believer in adaptability and has already been attuning itself to altering market sentiments. As a Company, our vision is to create spaces that are aspirational and live beyond our lifetime; developments that set benchmarks for the industry and enhance the entire ecosystem they operate in. As we continue on this assertive growth path, a commitment towards sustainability has been one of the key considerations of the Company's business strategies. While focusing on economic performances, we also give weightage to ensuring safe operations, environmental conservation, and social wellbeing.

Troughs and peaks are part of business cycles. It is this simple philosophy of purpose and principles that has enabled us to navigate through the rough patch. Amidst these trying times, we continue to believe in the power of HOPE! We remain confident and hope that winds of change will soon usher in bright and cheerful days.

To be successful, you have to have your heart in your business and your business in your heart! Believing in this thought, our team is driven by your company's commitment to excellence, sustainability, and diversity. I am grateful to each of them for their exceptional commitment and ambition. We would like to thank our customers, joint venture partners, and business associates for their support.

Finally, we owe thanks to you, our shareholders, for your continued belief in Trescon.

Wishing you all a successful year ahead!

Best Wishes,

Vilas Kharche
Chairman and Wholtime Director

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMY

It has been more than two years since the pandemic began but the world continues to face regular disruptions with several COVID-19 variants. Global economies entered 2022 on a weak note with the spread of the Omicron variant, which had much higher transmissibility but thankfully less severity compared to the Delta variant. According to the World Economic Outlook (WEO) update, the world economic output grew by 6.1% in 2021, after declining by 3.1% in 2020. The economic expansion in 2021 was a result of extraordinary policy support provided by the world central banks. Even as new variants emerge, mortality due to COVID-19 has reduced dramatically because of continued efforts towards vaccinations, with over half of global population having received at least one dose.

However, the prospects of an expected global economic recovery have dramatically worsened since the onset of the Russia-Ukraine war which will have global repercussions. The IMF has slashed the global growth forecast to 3.6% for 2022 from its earlier forecast of 4.4%, while the growth rate for 2023 has been projected at 3.6% (as against 3.8% earlier). The estimates factor a growth slowdown due to the possibility of an extension of sanctions to Russian energy exports along with the threat from the virus that could result in new lockdowns and production disruptions. Amongst advanced economies, the United States is expected to grow by 3.7% in 2022 and 2.3% in 2023, while other advanced economies are expected to return to their pre-COVID levels only in 2023. In addition to the war, frequent and severe lockdowns in China including in key manufacturing hubs could lead to new bottlenecks in global supply chains. Higher commodity cost inflation and persistent price pressures could also lead to a tightening of monetary policy in many countries. In emerging markets and developing economies, the rise in food and fuel prices could significantly increase the risk of social unrest. The pandemic and war led disruption has resulted in global supply chain challenges and inflation has become the most prominent concern globally. The higher interest rates regime will also make borrowing more expensive worldwide, straining public finances. In an era of multi-decade high inflation, global economies will have to make the tough choice between fiscal consolidation and increased necessity of higher social and defense spending. Also, high post-pandemic debt burden will pose an ongoing challenge for many countries over the next few years.

INDIAN ECONOMY

The Indian economy has been fairly resilient in the last year despite pandemic related challenges, however few headwinds could impact economic recovery in FY2022-23. India's GDP grew by 5.4% in Q3 FY2021-22 as against 8.5% growth in the previous quarter. The RBI slashed the FY2022-23 GDP forecast to 7.2% (from 7.8% earlier) in its April 2022 Monetary Policy Committee meeting, citing the impact of escalating geopolitical tension on the economic outlook. The central bank also raised its FY2022-23 retail inflation estimate to 5.7% from 4.5% earlier. Global disruptions, shortages and escalating prices of commodities as a result of geopolitical tensions and sanctions have so far persisted which pose a substantial risk of unusually high inflation.

RBI is expected to hike interest rates in order to control inflation and continue with its accommodative stance to ensure gradual economic recovery. There is a high probability of the country's fiscal deficit breaching the target level which was earlier pegged at 6.4% of GDP for FY2022-23. India's core sector growth slowed to 4.3% in March after it grew 6.0% in February 2022 due to a decline in the output of coal and crude oil, while the Index of Industrial Production (IIP) rose by 1.7% in February.

According to the World Economic Outlook update, India's GDP growth is expected to grow by 8.2% in FY 2022-23, which is the highest amongst global economies despite being reduced by 80bps in April 2022 from 9.0%. The downgrade in expected growth rate reflects a possible weaker domestic demand as a result of higher oil prices which could weigh on private consumption and investments. Additionally, India's growth projection for FY2023-24 has been reduced to 6.9% from 7.1% earlier.

While the short-term outlook seems challenging given external supply shocks and geopolitical tension, we do believe the government is doing the right things to ensure a sustainable growth path for the country. The union budget presented this year was very supportive of the long-term growth of the real estate sector in India through its focus on urban infrastructure and the digital economy. The government's sharply expanded capital expenditure target for the year is expected to create job opportunities and higher economic activity.

REAL ESTATE SECTOR

The Indian real estate sector which was virtually written off during the first wave of COVID-19 had proven to be resilient and was recovering well when the second wave struck in April 2021. The second wave was much more severe with a far higher number of casualties. However, its impact on the real estate sector was short-lived. With lessons learnt from the first wave, developers have dealt better with the second wave especially with respect to online real estate sales and managing worker shortages. The residential sector has shown healthy growth after several years of slowdown. The demand picked up well with rising number of launches and declining inventory across Tier-1 cities.

At the same time, the pandemic has led to a paradigm shift in the attitude of customers towards residential properties. The uncertainty caused by the pandemic has reinstated the importance of home ownership. New trends emerged as a result of the pandemic such as preference for larger sized apartments, inclination towards reputed developers and a rising demand for township projects.

While the residential segment witnessed strong revival, the recovery for commercial sector has been moderate. The biggest challenge to office space demand has been the work from home trend, while local restrictions and delay in consumption recovery has been a challenge for the retail real estate sector. The IT sector is doing well which bodes well for office space. With an expected economic recovery, the retail real estate segment should witness a healthy recovery in the current year.

BUDGET 2022 – TAKEAWAYS

The union budget presented this year was supportive of the long-term growth of the real estate sector in India through its focus on urban infrastructure and the digital economy. The Government's rising focus on infrastructure capex will create a backdrop of opportunity for the real estate sector. Some of the key measures include:

- **Housing for All**

The Government allocated Rs. 48,000 Crore under the Pradhan Mantri Awas Yojna (PMAY) initiative which will be used for both urban and rural markets. The government plans to complete ~80 lakh houses, which will be allocated to persons eligible under the scheme. In addition, it plans to make the land and construction approval process more efficient.

- **Urban Development Plan**

The government announced reforms to accommodate rising urbanization including modernization of development bylaws, Town Planning Schemes (TPS), and Transit Oriented Development (TOD) which will facilitate reforms for people to live and work closer to mass transit systems. A committee of urban planners, economists, and institutions will be formed to make recommendations on urban sector policies, capacity building, planning, implementation, and governance.

- **Digitalization of Land Records**

The government has formed the Unique Land Parcel Identification Number (ULPIN) program to facilitate IT based management of records. It intends to promote a National Generic Document Registration System (NGDRS) with the "One-Nation One-Registration Software" to make the process for registration of deeds and documents uniform.

- **Withdrawal of Interest Deduction Benefit for Affordable Housing**

The additional tax deduction available for affordable housing under Section 80EEA of the IT Act will not be available from April 1, 2022. In the Union Budget 2022-23, the government has done away with this tax break, which was available for financial years 2019-2022.

OUTLOOK

In 2022, we expect the sector to leverage the government's continued focus on infrastructure development and industrial growth. Capital values across both the mid-end and high-end residential segments are expected to witness an uptick in 2022 due to factors such as robust sales momentum and rising input material cost that could force developers to pass on the increase to homebuyers. With the elongated period of remote working and home schooling likely to continue, factors such as larger homes, plotted developments with flexibility on configurations and ancillary amenities are likely to remain key focus areas for developers.

Continued policy push, a revival in economic activity coupled with a low mortgage rate regime are some of the key factors driving residential growth.

Basis for opinion

We conducted our audit of the financial statement in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Information other than the financial statements and auditors' report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Financial Statements and our auditors' report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard as no other information as described above has been made available for review.

Management's responsibility for the financial statements

The Company's board of directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them

all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Notes forming part of the financial statements

1. CORPORATE INFORMATION

TRESCON LIMITED, a public limited company is incorporated in India under provisions of the Companies Act applicable in India. The Company is engaged primarily in the business of real estate development and allied operations on its own or joint ventures with others.

“Registered office of the Company is situated at 203-204, Second Floor, Orbit Plaza, New Prabhadevi Road, Prabhadevi, Mumbai, Maharashtra, 400025, India. The shares of the Company are listed on the BSE Limited.”

The financial statements for the year ended March 31, 2022 were approved by the Board of Directors and authorized for issue on May 28, 2022.

2. SIGNIFICANT ACCOUNTING POLICIES

A. Statement of Compliance

These financial statements are prepared in accordance with Indian Accounting Standards (“Ind AS”), and the provisions of the Companies Act, 2013 (“the Act”) (to the extent notified). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. Basis of Preparation of Financial Statements:

The financial statements have been prepared on the historical cost and accrual basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the considerations given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability

The standalone Ind AS financial statements are presented in Indian Rupee (“INR”) and all values are presented in INR Lakh and rounded off to the extent of 2 decimals, except when otherwise indicated.

C. Use of Estimates:

The preparation of financial statements in conformity with Ind AS requires the management of the company to make judgement, estimates and assumptions to be made that affect the reported amounts of assets and liabilities (including contingent liabilities) on the date of financial statements, and the reported amounts of income and expenses during the reported period and accompanying disclosures. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/ materialize.

Significant accounting judgements, estimates and assumptions used by management. Refer Note “Q”

D. Current/non-current classification:

The Company as required by Ind AS 1 presents assets and liabilities in the Balance Sheet based on current/non-current classification. Deferred tax assets and liabilities are classified as non-current assets and liabilities. Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

E. Revenue Recognition:

Revenue from contracts with customer is recognised, when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Group concluded that it is acting as a principal in all of its revenue arrangements. The specific recognition criteria described below must also be met before revenue is recognised.

F. Current and Deferred Taxes:

Current Tax:

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in Other Comprehensive Income (OCI) or in Equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in Equity.

Deferred Tax:

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill.

Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Minimum Alternate Tax ('MAT') paid in a year is charged to the Statement of Profit and Loss as current tax for the year. MAT credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the entity will pay normal income tax during the specified period. In the year in which the Company recognises MAT credit as an asset in accordance with Ind AS 12, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "Deferred Tax". The Company reviews the MAT Credit asset at each reporting date and reduces to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the MAT to be utilised.

Current tax and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

G. Impairment:

Financial Assets (other than at fair value):

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired.

Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Non-financial Assets:

Property, Plant & Equipment and Intangible assets (PPE&IA):

At each Balance Sheet date, the Company reviews the carrying amounts of its PPE&IA to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss. Recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset. Reversal of impairment loss is recognised as income in the Statement of Profit and Loss as and when they arise.

H. Borrowing Cost:

Borrowing costs consist of interest and other costs. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset, is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

I. Property, Plant & Equipment and Intangible assets:

Property, Plant & Equipment and Intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and any cost directly attributable to bringing the assets to its working condition for its intended use.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation amortisation on Property, Plant & Equipment is charged based on straight line method on an estimated useful life as prescribed in Schedule II to the Act.

The estimated useful lives and residual values of the Property, Plant & Equipment and Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

J. Financial instruments:

Initial recognition:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets at amortised cost:

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value:

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised as profit or loss.

Financial liabilities and equity instruments:

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities are measured at amortised cost using the effective interest method.

Financial liabilities at FVTPL are stated at fair value, with gains and losses arising on re-measurement recognised in Statement of profit and loss.

Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

K. Earnings per share:

The Company reports basic and diluted earnings per share in accordance with Ind AS - 33 on 'Earnings per Share'. Basic earnings per share is computed by dividing the net profit or loss for the year by the weighted average number of Equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit or loss for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

L. Cash and cash equivalents:

Cash and cash equivalent in the financial statement comprise cash at banks and on hand, demand deposit and short-term deposits, which are subject to an insignificant risk of changes in value.

M. Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably may not, require an outflow of resources. A contingent liability also arises in extreme cases where there is a probable liability that cannot be recognised because it cannot be measured reliably. Where there is a possible obligation or a present obligation such that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements but are disclosed.

N. Employee Benefits:

Short-term and other long-term employee benefits: -

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

No provision for gratuity has been made as no employee has put in qualifying period of service entitlement of this benefit.

O. Leases:

The Company accounts for the lease arrangement as follows:

As a lessee:

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straightline basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

As a lessor:

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

P. Cash Flow Statement:

Cash flows statement is prepared under Ind AS 7 'Statement of Cashflows' specified under Section 133 of the Act. Cash flows are reported using the indirect method, whereby profit / (loss) before tax and is adjusted for the effects of transactions of non-cash nature.

Q. Significant management judgement in applying accounting policies and estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgment, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the related disclosures.

Significant management judgements:

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements.

1. Recognition of deferred tax assets:

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

2. Evaluation of indicators for impairment of assets:

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

3. Contingent liabilities

At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However the actual future outcome may be different from this judgement.

R. Significant management estimates:

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be different.

1. Fair value measurements:

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

2. Useful lives of depreciable/ amortisable assets:

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

New Accounting Standards, Amendments to Existing Standards, Annual Improvements and Interpretations Effective Subsequent to March 31, 2022:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian

Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and the impact is not expected to be material.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.
