Credit cost (net of recoveries from written-off accounts) down to lowest level in last 12 quarters

Credit Cost (Annualised)

Our long term average credit cost has been 100-115 bps

Credit Costs: FY03 to FY18

- 'Net' Credit Costs**
- Over the long term, annualised Credit Cost for the Bank has averaged **115 bps**
 - The Bank consistently writes off accounts into prudential write off (PWO) pool, after making 100% provisions
 - Recoveries from these PWO accounts are reflected under 'other income', and not as a release of prior period provisions
 - If we notionally net these recoveries, the resultant "Net Credit Costs" averages **100 bps** over the long term
 - The gap between the two credit cost metrics tends to widen in the years immediately after credit cycle peaks (e.g. FY05-07 & FY11-14)
 - The Bank presently has an accumulated PWO portfolio of ₹18,772 crores. 84% of this was written off in the last 8 quarters
