Sub.: Launch of personal cooling device 'Duet Mini'

Dear Sir/ Madam,

Symphony has always been focused on developing innovative products in air-cooling, keeping in mind the changing needs of the consumers. Continuing with this tradition, we are pleased to inform you about the introduction of our newest member, 'Duet Mini', in Symphony's wide range of air coolers.

With the increasing temperatures throughout summers, the need for personal cooling has grown extensively in the Indian market. We have identified a need gap in the market where people want a truly personal and highly portable cooling device. The small coolers presently available in the Indian market either compromise on the quality, aesthetics, or the size. Hence personal cooling solutions that are completely portable, aesthetically pleasing, deliver good cooling performance and have good build quality are practically unavailable in the Indian market.

Duet Mini is a personal air cooler with 3-speed modes to provide varying levels of cooling. It comes with a unique portable design and is easy to carry. It can run on any USB power source, including power banks, laptops, car adapters, etc. which enhances its portability multi-fold. Being smaller in size, it is the perfect solution to the personal cooling needs of any individual. It has a wide range of usage such as while working at your desk, in the kitchen, at the counters on our neighborhood stores, and so on. It can even be carried around for on-the-go cooling on a hot day. It also comes with a touchscreen for easy operation that doesn't compromise on looks. This compact product is the perfect combination of functionality and aesthetics.

Duet Mini

Also operates on

Laptop

Power bank

Car adapter

Symphony has always stayed focused on making functionality and aesthetics accessible to our consumers. We are certain that with this new product, Symphony will revolutionize personal portable cooling and further strengthen its leadership position in air cooling across the globe.

We are very happy to add that orders for this product have already been received from some western countries.

This is for the purpose of dissemination of information widely to the members of the Company.

Thanking You,

Yours Truly,

For, Symphony Limited
