Subject: Clarification w.r.t to query vide email dated 22 June, 2024

The company had received the SEBI order on 20th June 2024. The delay in intimation to the exchanges within 24 hours was due to unforeseen delay which arose due to long internal discussions with the top management of the company for identifying the further course of action.

Our company understands the importance of adhering to SEBI regulations and sincerely regret the delay in compliance. Moving forward we would earnestly take steps to comply with the prescribed timelines for all material dissemination to the exchanges.

We request your good office to condone the delay and take our response on record.

The above response was already issued through a reply email to the stock exchange on 24th June 2024. However on the instruction of the stock exchange the company is filing the additional clarification through corporate announcement.
