**Sub: Reply to clarification sought**

Dear Sir/Madam,

This in reference to mail received from National Stock Exchange Limited (“NSE”) seeking clarification on the Press Release dated December 24, 2021 regarding “Capacity Expansion of Additional 30,000 MT at Khopoli Plant, Maharashtra”.

In this regard, we would like to clarify the following:

**1. Existing Installed capacity:**

The Total installed Capacity at our unit at Khopoli is **1,32,000 MTPA**. Out of this additional capacity of **60,000 MTPA was added in FY 21**. Now we propose to add a further capacity of 30,000 MTPA in the current expansion.

**2. Existing capacity utilization**

The Khopoli unit has an average monthly installed capacity of 11,000 MTPA (88,000 MTPA for April 21-Nov 21), out of which current capacity utilization for 9 months is 19,028.77 MT, with the monthly avg. being 2,378.60 MT

Please note that the Monthly Installed Capacity of 11,000 MT includes a capacity of **5,000 MT per month on account of the expansion that was completed during the FY21** for separate SKUs. Due to the onset of Covid lockdowns and disruptions in production activities, These SKU’s are under development and still not in full-fledged production. It will come in full-fledged production gradually in next financial year.

**The current Additional Capacity expansion of 30,000 MTPA at Khopoli is for separate line of production, involving new SKUs which is not possible at existing plant production line.**

Kindly take the same on record.

**For Rama Steel Tubes Limited**

**(Kapil Datta)**

**Company Secretary & Compliance Officer**
