# US federal court sets aside proposed Trump-era rule on H-1B visa selection

PRESS TRUST OF INDIA  
Washington, September 18

A US FEDERAL judge has struck down a proposed Trump-era rule that aimed to replace the current H-1B cap lottery system with a wage-level-based selection process.

Judge Jeffrey S White of the US District Court for the Northern District of California vacated a Trump-era H-1B cap selection regulation on the grounds that then-Acting Homeland Security Secretary Chad Wolf was not lawfully serving in his role at the time the regulation was promulgated.

The judge on Wednesday granted the US Chamber of Commerce's motion for summary judgment in the lawsuit challenging the regulation, according to the court order uploaded by the Chamber's litigation centre.

The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupa-

**During Trump's final days in office, USCIS had announced to do away with the traditional lottery system in deciding the successful applicants for H-1B visas**

tions that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

The number of H-1B visas issued each year is capped at 65,000, plus an additional 20,000 reserved for individu-

Former US president Donald Trump REUTERS

als with advanced degrees. The current system for selecting applications for consideration is a hybrid of first-come, first-served and a lottery.

During former president Donald Trump's final days in office, the US Citizenship and Immigration Services (USCIS) announced to do away with the

traditional lottery system in deciding the successful applicants for the H-1B visas.

The USCIS had said it would prioritise wages to protect the economic interests of American workers, and better ensure that the most highly skilled foreign workers benefit from the temporary employment programme.

The H-1B cap allocation regulation was originally set to take effect on March 9, 2021. The Department of Homeland Security (DHS) delayed the effective date of the regulation to December 31, 2021, in response to a Biden administration regulatory freeze.

"Because Mr Wolf was not lawfully appointed as Acting Secretary at the time the Final Rule was approved, the Court concludes the rule must be set aside. In light of this ruling, the Court does not reach Plaintiffs' alternative arguments. Accordingly, the Court vacates the Final Rule and remands this matter to DHS," the judge said in its order.

"Plaintiffs argue the Final Rule must be set aside because Mr Wolf was not lawfully appointed as Acting Secretary at the time the DHS promulgated the rule," he wrote.

The court concluded the plaintiffs were likely to succeed on the merits of their claim that Wolf's appointment was not lawful.

**G20 AGRI MEET**

# Higher investment required in agricultural R&D: India

PRESS TRUST OF INDIA  
New Delhi, September 18

INDIA ON SATURDAY stressed at G20 agriculture meeting that there is a need to increase investment in agricultural research and development amid the challenges of climate change and expected increase in food demand by 2030.

The G20 Agriculture Ministers' Meeting is one of the ministerial meetings organised as part of the G20 Leaders Summit 2021 to be hosted by Italy in October.

Addressing a session on the topic 'Research as a driving force behind sustainability', agriculture minister Narendra Singh Tomar shared that agricultural research has played a major role in transforming India from a net food importer to exporter.

"Today with an annual production of 308 million tonnes of food grains, India is not only in the realm of food security but is also catering to needs of

Agriculture minister Narendra Singh Tomar

other countries," he said and added India has experienced a revolution in the field of agricultural produce due to the efficient research of scientists.

However, the demand for foodgrain is expected to rise to 350 million tonnes with likely increase in India's population to 150 crore by 2030-32.

The demand for food will rise amid depleting natural resources and the challenge of climate change, he said in an official statement.

In this backdrop, the minister said, "There is a need to rethink and adapt agricultural research and development, along with increasing investment in scientific research to achieve adequate and nutritious food along with environmental sustainability." He said research contributes significantly to the three aspects of food security—availability, access and affordability.

To make the country self-reliant, concerted efforts will continue in agricultural research in areas such as genomics, digital agriculture, climate-smart technologies and methods, efficient water use equipment, development of high yielding and bio-friendly varieties, systematic production, quality and safety standards among others, he said. The minister also said the strategy to meet the increased demand revolves around increasing productivity and increasing the income of farmers.

# Australia's cancellation of submarine contract in favour of US deal 'huge mistake', says France

ASSOCIATED PRESS  
Canberra, September 18

FRANCE'S AMBASSADOR TO Australia has described as a "huge mistake" Australia's surprise cancellation of a major submarine contract in favour of a US deal, as the diplomat prepared to leave the country in an unprecedented show of anger among the allies.

French envoy Jean-Pierre Thebaud delivered his comments Saturday as he left his residence in the capital of Canberra. "This has been a huge mistake, a very, very bad handling of the partnership," Thebaud said, explaining that the arms agreement between Paris

and Canberra was supposed to be based "on trust, mutual understanding and sincerity".

Paris recalled its ambassadors to Australia and the United States on Friday to protest a deal among the United States, Australia and Britain to supply Australia with a fleet of at least eight nuclear-powered submarines. The deal scraps a 90 billion Australian dollar (\$66 billion) contract with French majority state-owned Naval Group, signed in 2016, to build 12 conventional diesel-electric submarines.

"I would like to be able to run into a time machine and be in a situation where we don't end up in such an incredible, clumsy, inadequate, un-Australian situation," the French ambassador added.

Australian foreign minister Marise Payne's office earlier had issued a statement responding to the diplomat's recall and noting Canberra's "regret" over its ally's withdrawal of its representative.

"Australia understands France's deep disappointment with our decision, which was taken in accordance with our clear and communicated national security interests," the statement said.

It added that Australia values its relationship with France and looked forward to future engagements together.

Payne and defence minister Peter Dutton are currently in the United States for annual talks with their US counterparts and their first with President Joe Biden's administration.

Before he was recalled, French envoy Thebaud said on Friday he found out about the US submarine deal: "Like everybody, thanks to the Australian press."

"We never were informed about any substantial changes," Thebaud said.

"There were many opportunities and many channels. Never was such a change mentioned." After the US deal was made public this week, Prime Minister Scott Morrison said he told French President Emmanuel Macron in June that there were "very real issues about whether a conventional submarine capability" would address Australia's strategic security needs in the Indo-Pacific.

Morrison has not specifically referred to the deal, but he said, "I think if there is an element of doubt on me that I could not run (the government) or if there was something else, I feel humiliated the way things have happened," he said. "I can only tell you that I have been a chief minister from the Congress. And I am in the Congress and I will consult my colleagues and then we will decide the future course of politics. I have only resigned for myself."

# 900-km Metro network across cities in India by 2022: Puri

PRESS TRUST OF INDIA  
New Delhi, September 18

NEARLY 740 KM of metro lines are operational currently in various cities in India and the network span is steadily scheduled to rise to over 900 km by 2022, Union housing and urban affairs minister Hardeep Singh Puri said on Saturday. "We are going to cross major milestones," he said, adding

that another 1,000 km metro lines are under construction in various cities in India, so the total span will be close to 2,000 km in coming years.

The overall ridership in metros across the country was 85 lakh in pre-Covid time, he said. The Union minister said the Delhi Metro is a "trailblazer transportation system" in the country and the work on expanding the metro lines was

"literally just a start", and with the Regional Rapid Transit System (RRTS) and other projects "we are poised to take it to a much higher level" in the coming years.

The Union minister emphasised on the importance of urban transportation, but also underlined that a lot of areas in the country have undergone "autonomous urbanisation".

## Humiliated, Amarinder resigns as Punjab CM

Singh's resignation came hours before a crucial meeting of the Congress Legislature Party (CLP) on Saturday evening, pre-empting what was widely being seen as a move to remove him from the CM's post. In the meeting, Punjab Congress MLAs authorised party's national president Sonia Gandhi to pick a new CLP leader and in a unanimously passed resolution praised Amarinder's contribution for Punjab and the Congress.

"I spoke to the Congress president in the morning and I told her that I am resigning today," Amarinder Singh told reporters. "They called the MLAs to Delhi twice and now convened a CLP here in Chandigarh today," he said. "I think if there is an element of doubt on me that I could not run (the government) or if there was something else, I feel humiliated the way things have happened," he said. "I can only tell you that I have been a chief minister from the Congress. And I am in the Congress and I will consult my colleagues and then we will decide the future course of politics. I have only resigned for myself."

Added to that, India also has some of the poorest broadband penetration rates in the world. While the long-term outlook for PCs in India is still positive, it is not going to outshine the US or Western Europe, Aithal said.

In terms of brands, HP maintained its leadership position with shipments up 54% YoY in Q2 2021. It has managed to consolidate its market share by doubling down on consumer products. Lenovo finished second with flatish 3% YoY growth in Q2 2021. This slower-than-average growth was partly because of its strong performance in Q2 2020, when it managed its supply chain better than its competitors and ensured healthy market sell-in.

Dell came in third with a 12.8% market share, growing 40% annually. Dell was followed by Samsung and Acer, with market shares of 9.8% and 8%, respectively.

IPL resumes in UAE after disruption

While some of the fran-

chises might struggle for momentum after the disruption, Royal Challengers Bangalore captain Virat Kohli said it would not be the case with his team, who are third in the points table sandwiched between Chennai and Mumbai. "Whether you are seven wins in a row... or no wins out of five or six games, which we have experienced as a team, you still have to find motivation and that passion inside you," Kohli told a virtual news conference on Saturday. Bangalore, still chasing their maiden title, began strongly this year and Kohli attributed it to the team culture. "You should not be disheartened by losses and definitely not take wins for granted," the India captain said.

"The focus was on the culture of the team -- enjoyment and keeping up that atmosphere. Yesterday at my first practice, I just felt like we never went away. I felt the same happiness, the same joy."

Table-toppers Delhi have announced that Rishabh Pant will continue as captain for the rest of the tournament even after regular skipper Shreyas Iyer's return from a shoulder injury.

## Pandemic resurrects dying category of tablets; Q2 best qtr

## For OTTs, regional flavour gets stronger

There is an intent from the user side to take to online content consumption. We have to talk to the Indian audience in the language that they understand," said Kalra.

Analysts at EY estimate the share of regional language consumption on OTT platforms to cross 50% of total time spent by 2025, easing past Hindi at 45%.

ZEE5 plans to launch a joint slate of over 30 originals and acquired content across Hindi, Tamil, Telugu and Punjabi through October-March.

As uncertainty persists around the resumption of regular theatrical business and OTT releases continuing to find favour with film producers, ZEE5 is in the midst of striking fresh movie deals. It is, however, not clear if the films will have direct to OTT releases on the platform or ZEE5 will sign up for exclusive digital rights of the movies.

"There will be a few announcements coming up in the next two to three weeks. Bollywood is a key driver for entertainment in the country. We will keep investing in theatricals," added Kalra.

**NOTICE OF EXTRA-ORDINARY GENERAL MEETING (EGM) TO BE HELD THROUGH VIDEO CONFERENCING (VC) OTHER AUDIO-VISUAL MEANS (OAVM)**

The Notice is hereby given that the Extraordinary General Meeting of Stampede Capital Limited (The Company) to be held on **Sunday, October 10, 2021 at 2:30 PM (IST)** through Video Conferencing, to transact the Business, as set out in the Notice of EGM. The Electronic copies of the Notice of EGM have been sent on Saturday, September 18, 2021 to all the members whose email IDs are registered with the Company/Depository Participant(s) as on Friday, September 10, 2021 in accordance with the circulars issued by Ministry of Corporate Affairs dated 8th April, 2020, 13th April, 2020, 5th May, 2020 and 13th January, 2021 along with SEBI circulars dated 12th May, 2020.

The same is also available on Bombay Stock Exchange website <https://www.bseindia.com/>, National Stock Exchange Website <https://www.nseindia.com/> and on the CDSL website [www.evotingindia.com](http://www.evotingindia.com). Members are requested to take note of the fact that already called Extraordinary General Meeting (EGM) of the Company vide Notice dated September 14, 2021 stands cancelled by issuing subsequent Notice by Board of Directors authorized vide its resolution dated September 18, 2021. The outcome of Board Meeting held on September 18, 2021 has been intimated to Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

Members holding shares either in physical form or in dematerialized form, as on the cut-off date of Monday, October 04, 2021 may cast their vote electronically on the Special Business as set out in the Notice of EGM through electronic voting system of CDSL from a place other than venue of EGM ("remote e-voting"). All the members are informed that:

- The Business as set out in the Notice of EGM may be transacted through voting by electronic means.
- The remote e-voting shall commence on, **Wednesday October 06, 2021 (9.00 A.M.) and shall end on Saturday, October 09, 2021 (5.00 P.M.);**
- Cut-off date for determining the eligibility to vote by electronic means or at the EGM is Monday, October 04, 2021.
- Any person, who acquires shares of the Company and become member of the Company after dispatch of the Notice of EGM and holding shares as of the cut-off date Monday, October 04, 2021 may obtain the login ID and password by sending a request at [info@evotingindia.com](mailto:info@evotingindia.com) or [investor@raclegeartech.com](mailto:investor@raclegeartech.com).

**Manner to register/update email addresses:**  
Members who have not registered their e-mail address with the Company or their Depository Participant are requested to register their e-mail address in the following manner:

- For Physical Shareholders
- Send scanned copy of the following documents by email to: [pv@stamptecap.com](mailto:pv@stamptecap.com) / [info@evotingindia.com](mailto:info@evotingindia.com) keeping cc to: [cs@stampedeap.com](mailto:cs@stampedeap.com) / [info@stampedeap.com](mailto:info@stampedeap.com)
- A signed request letter mentioning your name, folio number and complete address
- Self-attested scanned copy of the PAN Card, and
- Self-attested scanned copy of any document (such as Aadhaar Card, Driving Licence, Election Identity card, Passport) in support of the address of the Members as registered with the Company.
- For Electronic Shareholders
- The shareholders holding shares in electronic mode are also requested to register/update their email address, Permanent Account Number (PAN) and Bank Account details with the Depository Participant where their respective dematerialized accounts are maintained.

The remote e-voting as well as e-voting at the EGM on the proposals contained in the Notice of the EGM will be conducted on the e-voting system to be provided by the Company. The details of the e-voting system and process of e-voting will be specified in the Notice of the EGM.

**Members may note that:**

- The remote e-voting module shall be disabled by CDSL after the aforesaid date and time for voting and once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently.
- The facility for voting at the EGM shall be made available through e-voting by CDSL.
- The members who have cast their vote by remote e-voting prior to the EGM may also attend the EGM but shall not be entitled to cast their vote again.
- A person whose name is recorded in the register of members or in the register of beneficial owners maintained by the depositories as on the cut-off date shall be entitled to avail the facility of remote e-voting.
- Member who has cast their vote by remote e-voting may also attend the EGM, but shall not be allowed to vote again in the EGM.

FRANCE'S AMBASSADOR TO Australia has described as a "huge mistake" Australia's surprise cancellation of a major submarine contract in favour of a US deal, as the diplomat prepared to leave the country in an unprecedented show of anger among the allies.

French envoy Jean-Pierre Thebaud delivered his comments Saturday as he left his residence in the capital of Canberra. "This has been a huge mistake, a very, very bad handling of the partnership," Thebaud said, explaining that the arms agreement between Paris

and Canberra was supposed to be based "on trust, mutual understanding and sincerity".

Paris recalled its ambassadors to Australia and the United States on Friday to protest a deal among the United States, Australia and Britain to supply Australia with a fleet of at least eight nuclear-powered submarines. The deal scraps a 90 bil-

lion Australian dollar (\$66 billion) contract with French majority state-owned Naval Group, signed in 2016, to build 12 conventional diesel-electric submarines.

"I would like to be able to run into a time machine and be in a situation where we don't end up in such an incredible, clumsy, inadequate, un-Australian situation," the French ambassador added.

Australian foreign minister Marise Payne's office earlier had issued a statement responding to the diplomat's recall and noting Canberra's "regret" over its ally's withdrawal of its representative.

"Australia understands France's deep disappointment with our decision, which was taken in accordance with our clear and communicated national security interests," the statement said.

It added that Australia values its relationship with France and looked forward to future engagements together.

Payne and defence minister Peter Dutton are currently in the United States for annual talks with their US counterparts and their first with President Joe Biden's administration.

Before he was recalled, French envoy Thebaud said on Friday he found out about the US submarine deal: "Like everybody, thanks to the Australian press."

"We never were informed about any substantial changes," Thebaud said.

"There were many opportunities and many channels. Never was such a change mentioned." After the US deal was made public this week, Prime Minister Scott Morrison said he told French President Emmanuel Macron in June that there were "very real issues about whether a conventional submarine capability" would address Australia's strategic security needs in the Indo-Pacific.

Morrison has not specifically referred to the deal, but he said, "I think if there is an element of doubt on me that I could not run (the government) or if there was something else, I feel humiliated the way things have happened," he said. To a question on joining any other party, he said, "Whatever you have to say, you can say. I can only tell you that I have been a chief minister from the Congress. And I am in the Congress and I will consult my colleagues and then we will decide the future course of politics. I have only resigned for myself."

PRESS TRUST OF INDIA  
New Delhi, September 18

NEARLY 740 KM of metro lines are operational currently in various cities in India and the network span is steadily scheduled to rise to over 900 km by 2022, Union housing and urban affairs minister Hardeep Singh Puri said on Saturday. "We are going to cross major milestones," he said, adding

that another 1,000 km metro lines are under construction in various cities in India, so the total span will be close to 2,000 km in coming years.

The overall ridership in metros across the country was 85 lakh in pre-Covid time, he said. The Union minister said the Delhi Metro is a "trailblazer transportation system" in the country and the work on expanding the metro lines was

"literally just a start", and with the Regional Rapid Transit System (RRTS) and other projects "we are poised to take it to a much higher level" in the coming years.

The Union minister emphasised on the importance of urban transportation, but also underlined that a lot of areas in the country have undergone "autonomous urbanisation".

From the Front Page

## Humiliated, Amarinder resigns as Punjab CM

Singh's resignation came hours before a crucial meeting of the Congress Legislature Party (CLP) on Saturday evening, pre-empting what was widely being seen as a move to remove him from the CM's post. In the meeting, Punjab Congress MLAs authorised party's national president Sonia Gandhi to pick a new CLP leader and in a unanimously passed resolution praised Amarinder's contribution for Punjab and the Congress.

"I spoke to the Congress president in the morning and I told her that I am resigning today," Amarinder Singh told reporters. "They called the MLAs to Delhi twice and now convened a CLP here in Chandigarh today," he said. "I think if there is an element of doubt on me that I could not run (the government) or if there was something else, I feel humiliated the way things have happened," he said. To a question on joining any other party, he said, "Whatever you have to say, you can say. I can only tell you that I have been a chief minister from the Congress. And I am in the Congress and I will consult my colleagues and then we will decide the future course of politics. I have only resigned for myself."

December 2019.

Since the overall wireless subscriber base rose only marginally to 1,153.77 million in 2020 from 1,151.44 million in 2019, a net addition of mere 2.34 million, it means that primarily, customers are merely changing their operators. During 2020, Reliance Jio added 38.76 million subscribers followed by 11.41 million by Bharti Airtel and 590,000 by BSNL. In contrast, Vodafone Idea lost 48.36 million subscribers during the year, indicating that Jio and Airtel got those subscribers.

Due to the steep loss of subscribers, the market share of Vodafone Idea declined to 24.64% in 2020 against 28.89% in 2019. In fact, Vodafone Idea has been losing customers consistently and has now reached the third position in terms of subscriber market share from being the top player when the two companies merged in 2018.

Vodafone Idea has a laggard on virtually all the fronts. The company's average revenue per user (ARPU) is the lowest among the three private players and it has not been able to invest in network while losing customers at a very high pace.

chises might struggle for momentum after the disruption, Royal Challengers Bangalore captain Virat Kohli said it would not be the case with his team, who are third in the points table sandwiched between Chennai and Mumbai.

"Whether you are seven wins in a row... or no wins out of five or six games, which we have experienced as a team, you still have to find motivation and that passion inside you," Kohli told a virtual news conference on Saturday. Bangalore, still chasing their maiden title, began strongly this year and Kohli attributed it to the team culture. "You should not be disheartened by losses and definitely not take wins for granted," the India captain said.

"The focus was on the culture of the team -- enjoyment and keeping up that atmosphere. Yesterday at my first practice, I just felt like we never went away. I felt the same happiness, the same joy."

Table-toppers Delhi have announced that Rishabh Pant will continue as captain for the rest of the tournament even after regular skipper Shreyas Iyer's return from a shoulder injury.

## Pandemic resurrects dying category of tablets; Q2 best qtr

Added to that, India also has some of the poorest broadband penetration rates in the world. While the long-term outlook for PCs in India is still positive, it is not going to outshine the US or Western Europe, Aithal said.

In terms of brands, HP maintained its leadership position with shipments up 54% YoY in Q2 2021. It has managed to consolidate its market share by doubling down on consumer products. Lenovo finished second with flatish 3% YoY growth in Q2 2021. This slower-than-average growth was partly because of its strong performance in Q2 2020, when it managed its supply chain better than its competitors and ensured healthy market sell-in.

Dell came in third with a 12.8% market share, growing 40% annually. Dell was followed by Samsung and Acer, with market shares of 9.8% and 8%, respectively.

## For OTTs, regional flavour gets stronger

"There is an intent from the user side to take to online content consumption. We have to talk to the Indian audience in the language that they understand," said Kalra.

Analysts at EY estimate the share of regional language consumption on OTT platforms to cross 50% of total time spent by 2025, easing past Hindi at 45%.

ZEE5 plans to launch a joint slate of over 30 originals and acquired content across Hindi, Tamil, Telugu and Punjabi through October-March.

As uncertainty persists around the resumption of regular theatrical business and OTT releases continuing to find favour with film producers, ZEE5 is in the midst of striking fresh movie deals. It is, however, not clear if the films will have direct to OTT releases on the platform or ZEE5 will sign up for exclusive digital rights of the movies.

"There will be a few announcements coming up in the next two to three weeks. Bollywood is a key driver for entertainment in the country. We will keep investing in theatricals," added Kalra.

## Despite relief, VI revival uphill battle

The company has been losing customers every month. In fact, of the four telecom operators (including state-owned BSNL), only Vodafone Idea's customer base declined in the 2020 calendar year.

As per data released by the Telecom Regulatory Authority of India (Trai) for 2020, Vodafone Idea's wireless subscriber base declined to 284.26 million in December 2020 against 332.61 million in December 2019, decreasing by 14.54%. In contrast, Reliance Jio's subscriber base rose by 10.47% to reach 408.77 million in December 2020 against 370.02 million in December 2019, while that of Bharti Airtel witnessed a jump of 3.49% to reach 338.71 million from 327.30 million during the reported period. Even state-run BSNL, which has been facing customer churn due to lack of 4G services, managed to marginally increase its subscriber base to 118.71 million in December 2020 compared to 118.12 million in

# US federal court sets aside proposed Trump-era rule on H-1B visa selection

PRESS TRUST OF INDIA  
Washington, September 18

A US FEDERAL judge has struck down a proposed Trump-era rule that aimed to replace the current H-1B cap lottery system with a wage-level-based selection process.

Judge Jeffrey S White of the US District Court for the Northern District of California vacated a Trump-era H-1B cap selection regulation on the grounds that then-Acting Homeland Security Secretary Chad Wolf was not lawfully serving in his role at the time the regulation was promulgated.

The judge on Wednesday granted the US Chamber of Commerce's motion for summary judgment in the lawsuit challenging the regulation, according to the court order uploaded by the Chamber's litigation centre.

The H-1B visa is a non-immigrant visa that allows US companies to employ foreign workers in speciality occupa-

**During Trump's final days in office, USCIS had announced to do away with the traditional lottery system in deciding the successful applicants for H-1B visas**

tions that require theoretical or technical expertise. Technology companies depend on it to hire tens of thousands of employees each year from countries like India and China.

The number of H-1B visas issued each year is capped at 65,000, plus an additional 20,000 reserved for individu-

Former US president Donald Trump

REUTERS

als with advanced degrees. The current system for selecting applications for consideration is a hybrid of first-come, first-served and a lottery.

During former president Donald Trump's final days in office, the US Citizenship and Immigration Services (USCIS) announced to do away with the

traditional lottery system in deciding the successful applicants for the H-1B visas.

The USCIS had said it would prioritise wages to protect the economic interests of American workers, and better ensure that the most highly skilled foreign workers benefit from the temporary employment programme.

The H-1B cap allocation regulation was originally set to take effect on March 9, 2021. The Department of Homeland Security (DHS) delayed the effective date of the regulation to December 31, 2021, in response to a Biden administration regulatory freeze.

"Because Mr Wolf was not lawfully appointed as Acting Secretary at the time the Final Rule was approved, the Court concludes the rule must be set aside. In light of this ruling, the Court does not reach Plaintiffs' alternative arguments. Accordingly, the Court vacates the Final Rule and remands this matter to DHS," the judge said in its order. "Plaintiffs argue the Final Rule must be set aside because Mr Wolf was not lawfully appointed as Acting Secretary at the time the DHS promulgated the rule," he wrote.

The court concluded the plaintiffs were likely to succeed on the merits of their claim that Wolf's appointment was not lawful.

## G20 AGRI MEET

# Higher investment required in agricultural R&D: India

PRESS TRUST OF INDIA  
New Delhi, September 18

INDIA ON SATURDAY stressed at G20 agriculture meeting that there is a need to increase investment in agricultural research and development amid the challenges of climate change and expected increase in food demand by 2030.

The G20 Agriculture Ministers' Meeting is one of the ministerial meetings organised as part of the G20 Leaders Summit 2021 to be hosted by Italy in October.

Addressing a session on the topic 'Research as a driving force behind sustainability', agriculture minister Narendra Singh Tomar shared that agricultural research has played a major role in transforming India from a net food importer to exporter.

"Today with an annual production of 308 million tonnes of food grains, India is not only in the realm of food security but is also catering to needs of

Agriculture minister Narendra Singh Tomar

other countries," he said and added India has experienced a revolution in the field of agricultural produce due to the efficient research of scientists.

However, the demand for food grain is expected to rise to 350 million tonnes with likely increase in India's population to 150 crore by 2030-32.

The demand for food will rise amid depleting natural resources and the challenge of climate change, he said in an official statement.

In this backdrop, the minister said, "There is a need to rethink and adapt agricultural research and development, along with increasing investment in scientific research to achieve adequate and nutritious food along with environmental sustainability." He said research contributes significantly to the three aspects of food security—availability, access and affordability.

To make the country self-reliant, concerted efforts will continue in agricultural research in areas such as genomics, digital agriculture, climate-smart technologies and methods, efficient water use equipment, development of high yielding and bio-friendly varieties, systematic production, quality and safety standards among others, he said. The minister also said the strategy to meet the increased demand revolves around increasing productivity and increasing the income of farmers.

# Australia's cancellation of submarine contract in favour of US deal 'huge mistake', says France

ASSOCIATED PRESS  
Canberra, September 18

FRANCE'S AMBASSADOR TO Australia has described as a "huge mistake" Australia's surprise cancellation of a major submarine contract in favour of a US deal, as the diplomat prepared to leave the country in an unprecedented show of anger among the allies.

French envoy Jean-Pierre Thebaud delivered his comments Saturday as he left his residence in the capital of Canberra. "This has been a huge mistake, a very, very bad handling of the partnership," Thebaud said, explaining that the arms agreement between Paris

and Canberra was supposed to be based "on trust, mutual understanding and sincerity".

lion Australian dollar (\$66 billion) contract with French majority state-owned Naval Group, signed in 2016, to build 12 conventional diesel-electric submarines.

"I would like to be able to run into a time machine and be in a situation where we don't end up in such an incredible, clumsy, inadequate, un-Australian situation," the French ambassador added.

Australian foreign minister Marise Payne's office earlier had issued a statement responding to the diplomat's recall and noting Canberra's "regret" over its ally's withdrawal of its representative.

"Australia understands France's deep disappointment with our decision, which was taken in accordance with our clear and communicated national security interests," the statement said.

It added that Australia values its relationship with France and looked forward to future engagements together.

Payne and defence minister Peter Dutton are currently in the United States for annual talks with their US counterparts and their first with President Joe Biden's administration.

Before he was recalled, French envoy Thebaud said on Friday he found out about the US submarine deal: "Like everybody, thanks to the Australian press."

"We never were informed about any substantial changes," Thebaud said.

"There were many opportunities and many channels. Never was such a change mentioned." After the US deal was made public this week, Prime Minister Scott Morrison said he told French President Emanuel Macron in June that there were "very real issues about whether a conventional submarine capability" would address Australia's strategic security needs in the Indo-Pacific.

# 900-km Metro network across cities in India by 2022: Puri

PRESS TRUST OF INDIA  
New Delhi, September 18

NEARLY 740 KM of metro lines are operational currently in various cities in India and the network span is steadily scheduled to rise to over 900 km by 2022, Union housing and urban affairs minister Hardeep Singh Puri said on Saturday.

"We are going to cross major milestones," he said, adding that another 1,000 km metro lines are under construction in various cities in India, so the total span will be close to 2,000 km in coming years.

The overall ridership in metros across the country was 85 lakh in pre-Covid time, he said. The Union minister said the Delhi Metro is a "trailblazer transportation system" in the country and the work on expanding the metro lines was

"literally just a start", and with the Regional Rapid Transit System (RRTS) and other projects "we are poised to take it to a much higher level" in the coming years.

The Union minister emphasised on the importance of urban transportation, but also underlined that a lot of areas in the country have undergone "autonomous urbanisation".

## From the Front Page

### Humiliated, Amarinder resigns as Punjab CM

Singh's resignation came hours before a crucial meeting of the Congress Legislature Party (CLP) on Saturday evening, pre-empting what was widely being seen as a move to remove him from the CM's post. In the meeting, Punjab Congress MLAs authorised party's national president Sonia Gandhi to pick a new CLP leader and in a unanimously passed resolution praised Amarinder's contribution for Punjab and the Congress.

"I spoke to the Congress president in the morning and I told her that I am resigning today," Amarinder Singh told reporters. "They called the MLAs to Delhi twice and now convened a CLP here in Chandigarh today," he said. "I think if there is an element of doubt on me that I could not run (the government) or if there was something else, I feel humiliated the way things have happened," he said. To a question on joining any other party, he said, "Whatever you have to say, you can say. I can only tell you that I have been a chief minister from the Congress and I am in the Congress and I will consult my colleagues and then we will decide the future course of politics. I have only resigned for myself."

December 2019. Since the overall wireless subscriber base rose only marginally to 1,153.77 million in 2020 from 1,151.44 million in 2019, a net addition of mere 2.34 million, it means that primarily, customers are merely changing their operators. During 2020, Reliance Jio added 38.76 million subscribers followed by 11.41 million by Bharti Airtel and 590,000 by BSNL. In contrast, Vodafone Idea lost 48.36 million subscribers during the year, indicating that Jio and Airtel got those subscribers.

Due to the steep loss of subscribers, the market share of Vodafone Idea declined to 24.64% in 2020 against 28.89% in 2019. In fact, Vodafone Idea has been losing customers consistently and has now reached the third position in terms of subscriber market share from being the top player when the two companies merged in 2018.

Vodafone Idea has been a laggard on virtually all the fronts. The company's average revenue per user (Arpu) is the lowest among the three private players and it has not been able to invest in network while losing customers at a very high pace.

### Pandemic resurrects dying category of tablets; Q2 best qtr

Added to that, India also has some of the poorest broadband penetration rates in the world. While the long-term outlook for PCs in India is still positive, it is not going to outshine the US or Western Europe, Aithal said.

In terms of brands, HP maintained its leadership position with shipments up 54% YoY in Q2 2021. It has managed to consolidate its market share by doubling down on consumer products. Lenovo finished second with flattish 3% YoY growth in Q2 2021. This slower-than-average growth was partly because of its strong performance in Q2 2020, when it managed its supply chain better than its competitors and ensured healthy market sell-in.

Dell came in third with a 12.8% market share, growing 40% annually. Dell was followed by Samsung and Acer, with market shares of 9.8% and 8%, respectively.

chises might struggle for momentum after the disruption, Royal Challengers Bangalore captain Virat Kohli said it would not be the case with his team, who are third in the points table sandwiched between Chennai and Mumbai.

"Whether you are seven wins in a row... or no wins out of five or six games, which we have experienced as a team, you still have to find motivation and that passion inside you," Kohli told a virtual news conference on Saturday. Bangalore, still chasing their maiden title, began strongly this year and Kohli attributed it to the team culture. "You should not be disheartened by losses and definitely not take wins for granted," the India captain said.

"The focus was on the culture of the team -- enjoyment and keeping up that atmosphere. Yesterday at my first practice, I just felt like we never went away. I felt the same happiness, the same joy."

Table-toppers Delhi have announced that Rishabh Pant will continue as captain for the rest of the tournament even after regular skipper Shreyas Iyer's return from a shoulder injury.

### For OTTs, regional flavour gets stronger

"There is an intent from the user side to take to online content consumption. We have to talk to the Indian audience in the language that they understand," said Kalra.

Analysts at EY estimate the share of regional language consumption on OTT platforms to cross 50% of total time spent by 2025, easing past Hindi at 45%.

ZEE5 plans to launch a joint slate of over 30 originals and acquired content across Hindi, Tamil, Telugu and Punjabi through October-March.

As uncertainty persists around the resumption of regular theatrical business and OTT releases continuing to find favour with film producers, ZEE5 is in the midst of striking fresh movie deals. It is, however, not clear if the films will have direct to OTT releases on the platform or ZEE5 will sign up for exclusive digital rights of the movies.

"There will be a few announcements coming up in the next two to three weeks. Bollywood is a key driver for entertainment in the country... we will keep investing in theatricals," added Kalra.

### IPL resumes in UAE after disruption

While some of the fran-
