Performance Highlights

- **Revenue:** The Company witnessed a high demand for PVs in line with the market trends while a minor slowdown was witnessed in LCVs resulting in only a marginal increase in revenue.
- **Operational Efficiency:** Overall marginal volume growth with better product mix, increased productivity and cost-optimization measures resulted in improved EBITDA and PAT margins. The Company has identified additional cost-optimization measures that would be implemented in Q4 FY24. The Company expects increased business from existing & new customers and tooling in next quarter.
- **Non-Auto business:** The Company received and has started executing orders for solar trackers, base structures, aluminum extrusion from non-auto customers including railways. The Company expects increased business from Q4 FY24 onwards.
- **Sanand Plant:** Our strategy to set up a plant at Sanand, Gujarat to cater to OEMs including Tata Motors, and other non-auto business augurs well for the Company post Vibrant Gujarat as it opens newer business opportunities. Currently pre-production and pilot batch productions are in progress with controlled timelines. Production is expected to commence from Q4FY24. The Company is also eligible for capital subsidies as per government policies.
- **Fund raise and Expansion:** The Company raised funds in the form of Compulsorily Convertible Debenture to the tune of ₹43.18 crores from new investors and share warrants of ₹5.64 crores from Promoter group. These funds would be used for increasing capacity to meet growing demands of OEMs and the Company expects to complete the expansion by Q3FY25.
- **Extinguishment of debt:** The Company has extinguished its debt obligations in entirety with JM ARC. This would help the Company to upgrade its credit ratings.
