NIIF, iSquared Capital, Edelweiss betting big on railway privatisation

VIKAS SRIVASTAVA
Mumbai, July 16

INDIA'S NATIONAL INVESTMENT and Infrastructure Fund (NIIF) and global private equity funds Macquarie, iSquared Capital and Edelweiss Group are among the companies which are keen to lap up the ₹30,000-crore investment opportunity presented for the first time by the ministry of railways for operation of passenger trains by private sector entities.

"These players were present under the stakeholder concession agreement was drafted and have shown their willingness to participate in the privatisation process," sources said.

When contacted, NIIF, and Macquarie declined to comment while response from iSquared was awaited till the time of going to the press.

On July 2, the ministry of railways invited a RFQ for private participation in operation of passenger train services over 109 pair of routes through introduction of 151 modern trains or rakes. The last date for application under the RFQ is September 8, 2020, and the announcement of shortlisted bidders will happen within 60 days of the application due date.

The rolling stock (wagons, locomotives) operators such as Alstom, Bombardier, CAF and Talgo can see huge opportunity in the privatisation process and are likely to participate in the RFQ and the RFP stage. "Either they

can bid themselves or they can lease out to successful bidders. Both the options are available to them under a flexible structuring of the concession agreement. If the rolling stock manufacturer doesn't want to take the operational risk, it can lease out the rolling stock to the successful bidder. This combination is likely to play out really well," said Anuja Tiwari, partner, energy and infrastructure, DSK Legal.

Tata Realty and Infrastructure, which is working on modernisation of railway stations, and Adani Group might also have significant interest in bidding for these projects, sources said. However, Adani Group declined to comment.

Manish Saigal, MD, Alvarez & Marsal, said, that privatisation of the container train operations in 2007 had mixed experience for private players and investors as tar-

iff, railway infrastructure were controlled by Indian Railways. "What can work well for the privatisation of passenger train operations is to see how to bring in better trains and customer experience using better technology and competency while staying competitive on passenger tariff on the routes operated by the private entities. We need to also think of overall commercial viability of this model for private sector, learning from metro and other transport infra models should be considered," Saigal said.

Arvind Tembhurne, a Mumbai-based investment banker with Ekam Advisors said, there is greater advantage with investment in railways unlike in road sector as there can be no parallel roads that can be set up at a short distance to throttle the cargo movement or affect the competitiveness.

NGT asks industrial units across Gujarat to pay over ₹300 crore penalty

FE BUREAU
Ahmedabad, July 16

AMID COVID-LED RECESSION, the chemical industries in Gujarat are hit with a double whammy as recently National Green Tribunal (NGT) whacked over ₹300 crore penalties on industrial units situated across Gujarat.

Sources close to the development said that many units in Dahej, Ankleshwar, Vapi and Bharuch are penalised for flouting environmental laws. A senior official in Gujarat Pollution Control Board (GPCB) confirmed that apart from chemical units situated in Southern Gujarat, some of the units at Vatava and Naroda industrial estates in Ahmedabad were also fined for the same reason.

"Most of the units penalised by NGT are producing chemicals, agro-chemicals, intermediates and dyestuff. Of these erring units, maximum are situated in Vapi, known for large number of chemical industries,"

said the official requesting anonymity.

According to him, a unit situated at Dahej has been fined Rs 25 crore and another unit in Ankleshwar Industrial Estate is slapped with the fine of Rs 1 crore. Many other chemical units were fined in the range of Rs 25 lakh to Rs 1 crore, he added. Not only chemical units, textile processing units in Ahmedabad were also fined, he said adding that though amount of penalties are in the range of Rs. 2 lakh to

Rs 15 lakhs.

Raising the issue of penalty imposed on Gujarat based units by NGT, Gujarat Dyestuff Manufacturers' Association (GDMA) as well Gujarat Chamber of Commerce and Industry (GCCCI) has made representation to the Union Ministry of Industry and Commerce as well as Union Ministry of Forest and Environment.

"As many as 38 Common Effluent Treatment Plants (CETP) are functional in different industrial estate across Gujarat.

Most of the industries are being following environment related norms. Despite the fact NGT is taking stringent action against these units that too at a time when most of the industrial units are passing through tough period," said Yogesh Parikh, president of GDMA.

Parikh who is also chairman of GCCCI environment committee said that if such practices wouldn't be stopped, not only industries, but Gujarat's economy would be affected adversely.

SC seeks govt's response on contempt plea for not reviewing 4G ban in J&K

FE BUREAU
New Delhi, July 16

THE SUPREME COURT on Thursday sought response from the Centre on a petition by a body of media professionals seeking initiation of contempt proceedings against the Union home secretary and the chief secretary of J&K administration for failing to conduct periodic review of its orders for re-summing internet services in Jammu and Kashmir.

The Centre and the J&K administration told a bench headed by justice NV Ramana that no contempt has been committed by the authorities as they have complied with the May 11 directive of the apex court.

Attorney general KK Venugopal said that a special committee headed by secretary, ministry of home affairs, had been constituted to consider the issue of restoration of 4G internet services in the UT and the panel has already met twice since then. The AG also told the judges that high incidences of terrorist activities had forced the government to continue with the 2G internet services only. He also agreed to place the minutes of the committee meetings in a sealed cover.

However, the bench gave a week's time to the government to file its response de-

tailing the setting up of the committee and also the decisions taken by it.

"If you have complied with the orders given in May, then it is needed to be published in public domain," justice Ramana said.

High-speed internet in the Union Territory was suspended since August 5, 2019 when the Centre announced revocation of its special status and bifurcation of the state into union territories of Ladakh and Jammu and Kashmir.

The court was hearing a contempt petition by NGO Foundation for Media Professionals (FMP) that sought initiation of contempt proceedings against the Union home secretary and chief secretary of J&K administration for their alleged "wilful disobedience" in complying with the May 11 order for

setting up a "special committee" to consider restoration of 4G internet services in the Union Territory.

Senior counsel Huzefa Ahmadi, appearing for FMP, argued that the purpose of the May order "was not to form a committee, pass orders and keep it in a drawer. The SC judgment required the committee to review the ban every week and publish their decisions," he said, adding that people in J&K were suffering due to lack of 4G internet services. "People continue to suffer. Medical facilities continue to suffer. Children cannot take online classes. What the entire country enjoys, only J&K cannot," Ahmadi said.

Sponge iron makers ask govt to put 30% export duty on pellets

FE BUREAU
New Delhi, July 16

SPONGE IRON MAKERS have urged the government to impose a 30% export duty on pellets, an improvised version of iron ore, which attracts zero duty currently. Both iron ore fines and lumps having 58% and above iron content attract 30% export duty now.

"We request you to kindly consider our proposal for levy of 30% export duty on iron ore pellets and ban all exports above 63% Fe to safeguard the domestic steel producers especially the secondary steel producers having no captive iron ore mine," Chhattisgarh Sponge Iron Manufacturers' Association has written to PM Narendra Modi.

India exported 12.6 million tonne (MT) pellets in 2019-20, up from 9.3 MT a year ago.

Sponge iron makers use pellets as their raw material. India is the world's largest producer of sponge iron, a substitute of scrap, used in the production of billets, blooms and other semi-finished products. India's sponge iron production rose to 37.14 MT in 2019-20 from 22.43 MT in 2015-16.
