Thanking you

Yours Sincerely,

For **One 97 Communications Limited**

Amit Khera
Company Secretary & Compliance Officer

Encl.: As above

Paytm broadens offline payments distribution, partners with Samsung stores to deploy smart PoS devices and offers Paytm Postpaid

- Drives convenience for consumers and merchants with its smart payments offerings with deployment of PoS devices
- Enables consumers to pay flexibly using Paytm Payment Instruments like Paytm UPI, Paytm Wallet, Paytm Postpaid (buy-now-pay-later) and also all major debit cards, credit cards and prepaid cards
- Offers No Cost EMI options along with attractive offers for payments made through Paytm PoS devices or Paytm Wallet

India's leading digital payments and financial services company and the pioneer of QR and mobile payments, has partnered with Samsung authorized stores across India to facilitate smart payments as well as Paytm Postpaid (Buy Now, Pay Later) at their retail outlets through deployment of PoS devices. With this partnership, Paytm will enable consumers to make digital payments seamlessly at Samsung Authorized stores spread across the country.

Now, consumers purchasing Samsung devices — from laptops, smartphones to television sets, smart watches, refrigerators and more — from any authorized store in the country will be able to pay via a host of flexible payment options offered by Paytm including— Paytm UPI, Paytm Wallet, Paytm Postpaid and also all major debit cards, credit cards and prepaid cards.

The option to pay using Paytm Postpaid or 'Buy now, pay later' through PoS devices deployed at Samsung stores will be hugely beneficial to consumers, allowing them to purchase products without having to worry about budget. Consumers can easily opt for Paytm Postpaid, which is offered in association with financial partners, and get a monthly credit limit of up to Rs 60,000. They can use this credit for buying products at authorized stores and repay through flexible EMIs at low interest rates. In addition to Paytm Postpaid, consumers can opt for low-cost personal loans up to Rs 2 lakh – offered by Paytm's financial institution partners – to purchase goods.

To bring further convenience to consumers, Paytm will also offer No Cost EMI options along with attractive offers for payments made through Paytm PoS devices. The company's PoS devices also bring several exciting features for merchants including simplified billing, integrated payments, targeted promotions or real-time inventory status among others. Paytm PoS devices drive payments as well as transaction confirmations and reconciliation – for sound, visual and print-based merchant solutions.

Bhavesh Gupta, CEO - Lending & Head Payments - Paytm said, “We continue to drive innovation in the offline payments market and with our PoS devices, merchants are able to drive higher customer loyalty. The partnership with Samsung stores will enable us to further extend the convenience of smart payments to a larger customer base.”

After having pioneered the QR and mobile payments revolution in India, Paytm’s technology-oriented platform remains focused on delivering innovative solutions to strengthen its payments ecosystem and empower small businesses. Paytm’s devices like the Paytm Soundbox, Paytm POS devices, all-in-one QR code among others are well-recognized and accepted by merchants across the country. Paytm continues to maintain its leadership in offline payments with rapid growth in merchant base and device adoption, enabling the company to maximize monetization opportunities. As of July 2022, the company has deployed 4.1 million devices across the country.

About Paytm:

Paytm is India's payment Super App offering consumers and merchants the most comprehensive payment services. Pioneer of the mobile QR payments revolution in India, Paytm’s mission is to bring half a billion Indians into the mainstream economy through technology-led financial Services. Paytm enables commerce for small merchants and distributes various financial services offerings to its consumers and merchants in partnership with financial institutions.
