Rating Action: Moody's upgrades Yes Bank's rating to B2 from B3; changes outlook to positive

10 Nov 2021

Singapore, November 10, 2021 -- Moody's Investors Service has upgraded Yes Bank Limited's long-term foreign currency issuer rating and long-term foreign and local currency bank deposit ratings to B2 from B3. Moody's has also upgraded Yes Bank's Baseline Credit Assessment (BCA) and Adjusted BCA to b3 from caa2.

At the same time, Moody's has changed the outlook on Yes Bank's ratings where applicable to positive from stable, reflecting Moody's expectation of a further improvement to the bank's credit profile, driven by a cleanup of legacy stressed assets and/or improvements to its capital and profitability.

For a detailed list of the affected ratings for both Yes Bank Limited and Yes Bank, IFSC Banking Unit Branch, please refer to the end of this press release.

RATINGS RATIONALE

Moody's has upgraded Yes Bank's issuer rating to B2 from B3 because its funding and liquidity have substantially improved in the past year, which have strengthened depositor and credit confidence in the bank. The rating action also reflects the fact that despite the significant economic challenges since the onset of the pandemic, Yes Bank's asset quality has deteriorated only modestly while its capital has remained stable.

The improved financials metrics are reflected in the two-notch upgrade of the bank's BCA to b3 from caa2. Moody's has also lowered government support assumption for Yes Bank to moderate from high, which results in a one-notch uplift to the B2 issuer rating from the b3 BCA. The support assumption is in line with the support expected for other private sector banks in India.

Yes Bank's deposits have increased over 65% between 30 September 2021 and 31 March 2020, after Indian regulators rescued the bank. Its deposit quality has also improved; current and savings account and retail term deposits represent 45% of total funding as of 30 September 2021, compared with just 31% as of 31 March 2020.

Concurrently, the bank has reduced its share of market funding, while its average liquidity coverage ratio (LCR) improved to 118% as of 30 September 2021 from 40% as of 31 March 2020.

Yes Bank's asset quality remains weak and continues to pose risks to its profitability and capital. While its reported nonperforming loan (NPL) ratio declined moderately to 15% as of 30 September 2021 from 17% as of 31 March 2020, the bank's off-balance sheet exposures to NPLs, restructured loans and loans overdue for more than 60 days, which represent 5.5% of total loans as of 30 September 2021, pose risks.

The bank plans to transfer a large share of NPLs to an asset reconstruction company over the next 12 months. Subject to the terms and conditions of the transaction, Moody's expects the NPL transfer will be credit positive as it will ease management burden on resolving legacy problem assets and help the bank focus on growing its assets and liabilities.

High NPLs and a moderation in credit growth have hurt Yes Bank's revenues, while operating costs remain high relative to its revenues. Moody's expects that boosting profitability will remain a credit challenge until the bank manages to stabilize its franchise, lower NPLs and grow its assets.

The bank's Common Equity Tier 1 ratio of 11.5% as of 30 September 2021 provides moderate cushion against unexpected risks. Moody's expects Yes Bank will need to raise new equity capital in the next 12 months to support asset growth because its modest profitability does not support internal capital generation.

FACTORS THAT COULD LEAD TO AN UPGRADE OR DOWNGRADE OF THE RATINGS

Given the positive outlook, Moody's could upgrade Yes Bank's ratings if the bank's asset quality and/or capital

materially improve.

Moody's could downgrade the bank's ratings and BCA if its capital deteriorates significantly because of a strain on its asset quality, or if its funding and liquidity deteriorate.

PRINCIPAL METHODOLOGY

For ratings issued on a program, series, category/class of debt or security this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series, category/class of debt, security or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

The ratings have been disclosed to the rated entity or its designated agent(s) and issued with no amendment resulting from that disclosure.

These ratings are solicited. Please refer to Moody's Policy for Designating and Assigning Unsolicited Credit Ratings available on its website www.moodys.com.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.
