Lockdown lockdowns hit recovery momentum: Puri

ISHITA AYAN DUTT
Kolkata, 4 September

ITC Chairman Sanjiv Puri said localised lockdowns were impacting recovery momentum for the firm, at the annual general meeting on Friday.

Addressing shareholders, he added that near-term outlook remained uncertain despite progressive normalisation in segments except hotels, education, and stationary products. Constant evolution in consumer trends and industry dynamics, owing to the pandemic and shape of economic recovery, has kept the outlook uncertain, Puri said.

Cigarette business, which accounts for 40 per cent of ITC's revenues, faced challenges during the lockdown. However, it showed signs of improvement since June. In July and August, however, distribution was impacted, Puri told shareholders.

ITC started hedging against tobacco more than a decade back. Puri said while respond-

"The company's innovation engine was at work 24x7 and it rapidly introduced over 40 high-quality, first-to-market products and variants"

SANJIV PURI
ITC Chairman

ing to shareholder concerns about the stock price, the company realised that there could be headwinds as far as tobacco-related stocks were concerned amid a mixed multiple drivers of growth.

In the past three years, earnings per share have gone up by 40 per cent. So the performance is there but it is not recognised, he said. The ITC stock on Friday closed at ₹367.0, down by 2.56 per cent. A year ago, it was at ₹244.35 on the BSE.

Even though there were short-term challenges in the wake of the pandemic, Puri reassured shareholders that ITC would respond with agility to strengthen its market standing while sharply focusing on cost-reduction measures.

initiated by the government to open up opportunities and it is stepping up farmer engagement in wheat, potato, chickpea, and pulses and vegetables through a crop value chain cluster model to connect small farmers to markets.

The company plans to support 3,000 FPOs, with more than a million farmers across 24 crop value chain clusters in 21 states, shaping competitive agrivalue chains and enhancing farmer incomes, Puri said.

These value chains will be anchored by ITC's large investments in food processing, its vibrant brands as well as exports," he added. The company's agri-business segment revenue is ₹10,200 crore.

But perhaps, the biggest challenge that ITC is facing is the "hotels" business. According to Puri, in the first 11 months of the year, the hotel's business delivered strong performance, with the new icon properties gaining excellent response, before the debacle crippled the sector.

Remdesivir prices may rise after Gilead gets approval from USFDA

SOHINI DAS
Mumbai, 4 September

Prices of a key drug used to treat hospitalised Covid-19 patients, remdesivir, may rise once the innovator, Gilead, gets approval from the US drug regulator, said industry sources. Currently, generic manufacturers make and sell remdesivir in India under a voluntary licensing agreement and are not required to pay any royalty to the innovator.

This is because remdesivir is an investigational drug and not approved as a therapy for Covid-19. It has an emergency use authorisation from the USFDA and also the Indian regulator in the wake of the pandemic. Gilead had indicated while signing the licensing agreement that they may revisit the royalty payment part once the drug is approved as a treatment," said one of the license partners of Gilead in India.

In August, Gilead filed an application with the US Food and Drug Administration (USFDA) seeking full approval for remdesivir (Veklury). Speaking

BDR Pharma to launch 400 mg favipiravir pills

BDR Pharmaceuticals on Friday said it plans to launch 400 mg favipiravir tablets, used for treating covid patients. The 'BDRVAF' 400 mg tablets will be priced at ₹990 for a strip of 10 tablets, BDR Pharma said. Each tablet will cost ₹99. In August, the company launched 200 mg favipiravir tablets. **PII**

with 11 India-based generic pharma manufacturers to develop Hepatitis C compounds (sofosbuvir, ledipasvir, velpatasvir and voxilaprevir for distribution in 105 developing countries.

According to these agreements, the generic licensees have the right to develop and market generic versions of Gilead's HCV medicines. While the companies may set their own prices and receive a complete technology transfer of Gilead's manufacturing process, they have to pay a royalty to Gilead.

Firms did not provide details of the royalty arrangements they have with Gilead. For HCV, Hetero, Zydus Cadila, Cipla, etc. have agreements with Gilead.

OTD said at the event that when Gilead started in January, it could make up to 5,000 treatment courses (one patient needs 5-6 doses). By the end of 2020, it would have the capacity to manufacture two million treatment courses, a 40-fold increase. The US, however, has booked a bulk of the supplies through September.

at a media event on Thursday, Gilead's Chairman and CEO Daniel O'Day said the company had met all requirements for a full authorisation for remdesivir, and expected the approval to come soon.

Gilead is also conducting 36 clinical trials for different formulations of remdesivir and combination therapies with other drugs like tocilizumab.

Prices of remdesivir are very competitive in India. Last month, Ahmedabad-based Zydus Cadila launched, which is perhaps the cheapest remdesivir

'We will be profitable again by the end of the year'

Working spaces, which are hit by the pandemic, are expected to grow, thanks to demand for flexible working spaces, property experts have said. Global co-working spaces company WeWork India signed ₹90 million in its Indian unit. Though it lost 15 per cent of its clients, WeWork India has signed large corporates. It expects to be profitable again by the end of the year, its chief executive officer (CEO) **KARAN VIRMANI** tells *Raghavendra Kamath*. Edited excerpts:

Can you tell us about the recent fund infusion by your parent company?
We raised \$100 million from WeWork Global and it picked up a 20 per cent stake. It valued us \$500 million. We have enough capital to come out of this pandemic.

What has the pandemic's impact been on profitability?
We were already profitable in the first four months of the year. But virus-related issues impacted our profitability. Smaller

members and start-ups were hit. We also saw construction delays. But we added big clients and will be profitable again by the end of the year.

How long do you see Covid-19 impacting your business?
We have seen the situation working for us. Even as business cycles change and lifestyles change, WeWork is here to provide flexibility. We rolled out 'All Access' to users to use WeWork anywhere in the world. We have also launched 'WeWork On Demand', where anybody who wants to use our centre can sign up and show up at any place and work for half an hour, one hour and so on. Education institutions are also using our spaces. The current situation has posed challenges but it has also provided us opportunities.

How have your clients reacted?
Hot desk and smaller members said they will come back once things get normal. Enterprise members, who account for 70 per cent of the business, are paying us but not using the centres. We have done 90 per cent collections during the lockdown.

What kind of terminations have you seen in business?
May be 15 per cent of people left us. But we have added clients like Khaitan, WhiteHr. Our revenues have grown 25 per cent since the beginning of the year.

What kind of waiver have you given to your clients?
We have given relaxation to companies that found it difficult to pay but we have asked them to stay on for another six months. We have given 70 per cent discount in April, which our clients have appreciated.

Janne Einola, H&M India head, quits after 23 years

Janne Einola, country manager for H&M India, has resigned from the post citing personal reasons. Einola, who served in the Swedish fashion retail major, was in charge of its India operations since H&M's entry into the market in mid-2015. Starting his career at H&M in Finland as a department manager in 1997, Einola held several different positions within the company in different functions and markets in Scandinavia and Eastern Europe. During his tenure in India, Einola built H&M's business from the ground up. Today, the brand has close to 50 stores across 15 cities. In 2018-19, its total revenue surged 39 per cent year-on-year to ₹1.236 crore and net profit grew 29 per cent to ₹45 crore. "For the past 5 years, he has driven India's fast expansion and locally relevant customer experience, just has now decided to move on for personal reasons. He will be taking a break before deciding on the next course of his professional life", H&M management informed *Business Standard*. **ARNAB DUTTA**
