Modi should take moral responsibility and resign: Jairam Ramesh

New Delhi, June 4: As the Bharatiya Janata Party is still lagging behind the majority mark in the Lok Sabha polls, Congress leader Jairam Ramesh on Tuesday urged Prime Minister Narendra Modi to resign. "He used to pretend that he was extraordinary. Now it has been proved that the outgoing Prime Minister is going to become former. Take moral responsibility and resign. This is the message of this election," Jairam Ramesh posted on X.

According to the Election Commission of India, BJP is currently ahead on 242 seats. The majority mark is 272. Congress is leading on 95 seats, Samajwadi Party on 36, DMK on 21 seats, Trinamool Congress on 31, Shiv Sena (Uddhav Thackeray) on 10 seats, NCP (SP) on 7 seats, CPI(M) on 4 seats and Aam Aadmi Party on 3 seats. Prime Minister Narendra Modi is leading followed by the Congress' Ajay Rai from Varanasi.

Around 642 million people voted in Lok Sabha elections held over seven phases in a mammoth six-week period. The counting of votes began starting with postal ballot papers amid tight security.

The counting for State Legislative Assemblies of 175 Assembly constituencies in Andhra Pradesh and 147 Assembly constituencies in Odisha and results of bypolls in 25 Assembly constituencies also began. Strict security has been put in place for the smooth conduct of counting of votes for over 8,000 candidates in this general election.

The Bharatiya Janata Party is eyeing a third straight term in power, while the Opposition under the umbrella of the INDIA bloc is seeking to wrest control from the ruling party.

Most exit polls predicted a straight term for Prime Minister Narendra Modi, with quite a few of them projecting a two-thirds majority for the ruling BJP-led NDA.

FSSAI directs removal of 100% Fruit Juices claim

New Delhi, Jun 4: The Food Safety and Standards Authority of India (FSSAI) has directed mandating all food business operators (FBOs) to remove any claim of so-called '100 per cent fruit juices' from the labels and advertisements with immediate effect.

"We all love to consume packaged fruit juices, and there are several companies that sell these fruit juices with a claim they contain 100 per cent pure fruit juices, while the sugar percentage is on the higher side. However, this claim has come under the scanner of the food safety regulatory body Food Safety and Standards Association of India (FSSAI) and they have directed the companies

not to claim 100 per cent Fruit Juice on canned products. The companies will also have to avoid such claims during the marketing and advertising of their products. FSSAI has asked all Food Business Operators (FBO) to take immediate action in this regard.

As per an official statement from the Food Safety and Standards Authority of India (FSSAI), "Directive mandating all Food Business Operators (FBOs) to remove any claim of '100% fruit juices' from the labels and advertisements of reconstituted fruit juices with an immediate effect." FSSAI had received information that many companies are constantly making such misleading claims. This harms the health of customers. All FBOs have been instructed to eliminate the already printed packaging material before September 1, 2024.

According to Food Safety and Standards (Advertising and Claims) Regulation - 2018, no company can claim 100 per cent fruit juice. All these juices contain the highest amount of water. Adding a small amount of fruit juice or pulp does not make it 100 per cent juice. According to FSSAI, such misleading claims should be completely banned. Also, all FBOs have been asked to work within the rules of Food Safety and Standards Regulation.

As per the directive, the companies must mention the word 'reconstituted' against the name of the juice that is reconstituted from the concentrate. Also, most of these juices contain sugar to increase the taste. As per the FSSAI directive, if these fruit juices contain more than 15 grams of sugar per kg, then they will have to label their product as sweet juice. FSSAI said that it constantly tries to strongly implement the rules of food safety and it will not allow any company to harm the customers by making misleading claims. All companies will have to follow the rules made regarding fruit juice.
