ANNEXURE V TO THE DIRECTOR'S REPORT

REPORT ON MANAGEMENT'S DISCUSSIONS AND ANALYSIS

● **MANAGEMENT DISCUSSION AND ANALYSIS**

I. GLOBAL ECONOMY:

A tentative recovery in 2021 has been followed by increasingly gloomy developments in 2022 as risks began to materialize. Global output contracted in the second quarter of this year, owing to downturns in China and Russia, while US consumer spending undershot expectations. Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the United States and major European economies—triggering tighter financial conditions; a worse-than anticipated slowdown in China, reflecting COVID- 19 outbreaks and lockdowns; and further negative spillovers from the war in Ukraine.

II. WORLD ECONOMIC OUTLOOK:

The war in Ukraine has triggered a costly humanitarian crisis that demands a peaceful resolution. At the same time, economic damage from the conflict will contribute to a significant slowdown in global growth in 2022 and add to inflation. Fuel and food prices have increased rapidly, hitting vulnerable populations in low-income countries hardest. Global growth is projected to slow from an estimated 6.1 percent in 2021 to 3.6 percent in 2022 and 2023. This is 0.8 and 0.2 percentage points lower for 2022 and 2023 than projected in January. Beyond 2023, global growth is forecast to decline to about 3.3 percent over the medium term. War-induced commodity price increases and broadening price pressures have led to 2022 inflation projections of 5.7 percent in advanced economies and 8.7 percent in emerging market and developing economies—1.8 and 2.8 percentage points higher than projected last January.

Multilateral efforts to respond to the humanitarian crisis, prevent further economic fragmentation, maintain global liquidity, manage debt distress, tackle climate change, and end the pandemic are essential. (Source: IMF World Economic Outlook, April 2022)

III. INDIAN ECONOMY:

As 2022 was coming to a close, there was optimism in the air. India was gearing up for a strong economic recovery—several forecasters such as the International Monetary Fund expected growth to exceed 9% this fiscal. This optimism received a jolt early this year as a wave of omicron infections swept through the country (which, thankfully, did not last long), and then in February, Russia invaded Ukraine. These events aggravated the preexisting challenges such as surging inflation, supply shortages, and shifting geopolitical realities across the world with no definite end in sight. And the subsequent confluence of headwinds such as surging commodity prices and disruption in trade and financial transactions quickly deteriorated economic fundamentals that were trending up a few months back.

IV. INDUSTRY OVERVIEW:

There is ever increasing potential in the edible oil business and growing consumption across the population. The company is positive in its outlook for demand for its refined edible oil and other agro based products. The future outlook particularly in the area of food grains is encouraging. However, given international trends, the oil division may come under some pressure, on account of low margins prevalent

V. Opportunities and Threats:

Opportunities may arise once the severity of corona virus infections go down and normalcy returns to poultry sector in India and abroad. There are positive signs from Bangladesh, a major importer, which presents opportunity during the coming year. The predominant threat this financial year continues to be the COVID-19 pandemic. It is difficult to assess material impact on business given the volatile nature of infection and the steps taken by government to deal with it on a situation based basis.

The products of the Company are largely agro based and performance would depend to a large extent on the vagaries of the monsoon. A serious threat to the oil division is the availability of imported edible oil at comparatively

lower prices, which continues to have a significant impact on the prospects of the Company. However, the Company is able to sustain profitability by strict adherence to quality and standards.

The consistent rise in import of edible oil to bridge the demand – supply gap impacts the trade imbalance and results in significant outflow of foreign exchange. There is strong need to improve the production and productivity of domestic oil seed sector and promote domestic supply of edible oil to address the growing the demand – supply gap imbalance.

- **Risk and Concerns**

Your Company is exposed to commodity price fluctuations in its business. All major raw materials as well as finished goods being agro-based are subject to market price variations. Prices of these commodities continue to be linked to both domestic and international prices, which in turn are dependent on various Macro/ Micro factors. Also Commodities are increasingly becoming asset classes. Prices of the Raw materials and finished products manufactured by your Company fluctuate widely due to a host of local and international factors. Your Company continues to place a strong emphasis on the risk management and has successfully introduced and adopted various measures for hedging the price fluctuations in order to minimize its impact on profitability. Also, your Company has initiated setting-up of a framework to upgrade itself to a robust risk management system.

- **Internal control systems and their adequacy**

The Company has adequate internal control systems with appropriate controls and checks. Effective measures are taken to ensure that all assets of the Company are protected and all transactions are recorded in conformity with accepted accounting principles. As stated in the report of the board, it is implementation of systems, particularly cost control measures that has resulted in the increased profitability. The internal audit department regularly conducts review of the financial and operating controls in all areas of the Company's operations including transaction checks and significant issues, if any, are brought to the attention of the audit committee.

- **Material developments in Human Resources/Industrial Relations Front including number of people employed.**

The Company continues to focus on its core values of quality, integrity, leadership, and respect for people. Relations between the Company and the employees continue to be cordial at all locations.

- **Cautionary Statement**

Statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include unavailability of finance at competitive rates, competition, significant changes in economic environment in India, regulatory provisions, tax laws, litigations, exchange rate fluctuations, interest and other costs

We have examined the internal financial control over financial reporting of Poona Dal and Oil Industries Limited, as of 31st March, 2022 in conjunction with our audit of financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial statements, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (b) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
