MANAGEMENT DISCUSSION AND ANALYSIS

Global Economy

The international FMCG (FMCG) market, encompassing merchandise like food and drinks, toiletries, cleansing merchandise, and personal care gadgets, continues to be a cornerstone of the global financial system. This market is characterized by its ubiquity, speedy-paced nature, and constant innovation, making it a vital part of clients' daily lives. One of the key factors of the FMCG marketplace is population boom.

As the global populace continues to increase, there may be a consistent demand for essential everyday products. Moreover, urbanization and converting existence, such as the upward push of twin-profits families, have brought about increased convenience and packaged items consumption. E-trade and virtual technology have reshaped the FMCG landscape considerably. Online purchasing, subscription services, and cellular apps have revolutionized how customers browse, buy, and obtain FMCG products, presenting more comfort and accessibility. Additionally, records analytics and personalization have turned out to be instrumental in know-how client options and tailoring products and advertising and marketing strategies consequently. Sustainability and fitness-attention have additionally left an indelible mark on the FMCG marketplace. Consumers are increasingly seeking green and healthier alternatives, prompting FMCG corporations to adapt by offering sustainable packaging, natural products, and plant-based total options.

Indian Economy

Indian food processing market size reached US\$ 307.2 billion in 2022 and is expected to reach US\$ 547.3 billion by 2028, exhibiting a growth rate (CAGR) of 9.5% during 2023-2028.

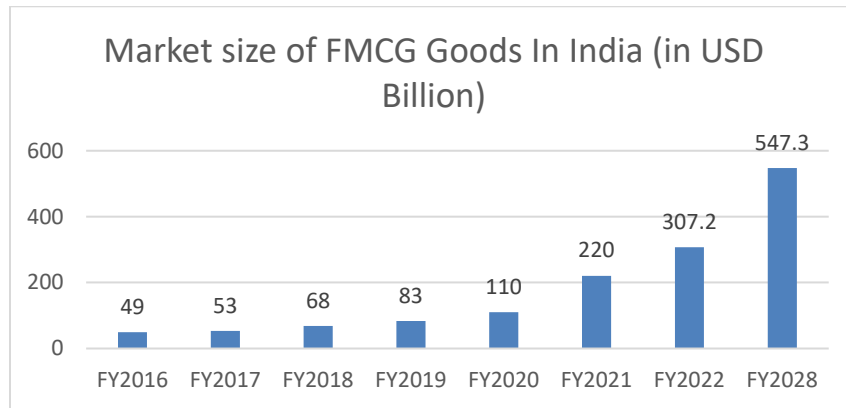

Entrepreneurs interested in setting up the food-related FMCG industry can set up their processing units in the government-designated agro-processing clusters, which helps cut down the plant setup costs. With the advent of online retail and e-commerce, FMCG businesses are

JAY KAILASH NAMKEEN LIMITED

able to market and sell their products across the country without investing much in marketing activities.

Fast-moving consumer goods (FMCG) sector is India's fourth-largest sector and has been expanding at a healthy rate over the years because of rising disposable income, a rising youth population, and rising brand awareness among consumers. The FMCG sector in India expanded due to consumer-driven growth and higher product prices, especially for essential goods. FMCG sector provides employment to around 3 million people accounting for approximately 5% of the total factory employment in India.

Industry Structure and Developments:

According to NielsenIQ's report, in 2024, the FMCG industry in India is expected to grow between 4.5-6.5%, owing to strength in the sector and Indian economy.

Indian food processing market size reached US\$ 307.2 billion in 2022 and is expected to reach US\$ 470 billion by 2028, exhibiting a growth rate (CAGR) of 9.5% during 2023-2028. The Union government approved a new PLI scheme for the food processing sector, with a budget outlay of Rs. 109 billion (US\$ 1.46 billion). Incentives under the scheme will be disbursed for six years to 2026-27.

Rural consumption has increased, led by a combination of increasing income and higher aspiration levels. There is an increased demand for branded products in rural India. On the other hand, with the share of the unorganized market in the FMCG sector falling, the organized sector growth is expected to rise with an increased level of brand consciousness, augmented by the growth in modern retail. Another major factor propelling the demand for food services in India is the growing youth population, primarily in urban regions. India has a large base of young consumers who form most of the workforce, and due to time constraints, barely get time for cooking.

The namkeen market in India is estimated to grow at a CAGR of 8.42% between 2023 and 2027. The size of the market is forecast to increase by USD 3,162.26 million. The growth of the market depends on several factors, including rising retail space in Tier-II and Tier-III cities of India, evolving taste preferences, and a growing preference for savory snacks.

JAY KAILASH NAMKEEN LIMITED

(Disclaimer: The Information were taken from secondary source, there might be some mistakes were there)

Present Scenario in Indian FMCG Sector

In FY24, FMCG companies are anticipated to base their business decisions on inflationary pressures, technological advancements and consumers' value-based purchasing criteria. Following are the recent trends that are driving growth in the FMCG industry.

The rural demand for FMCG products is expected to increase in 2023 as the rural economy exhibits more evidence of normalcy due to an improving labour market and rising terms of trade for rural production. Multiple government initiatives, such as the minimum support price (MSP) for all rabi crops, increased government spending on rural infrastructure projects and rising credit to agriculture and other non-agricultural economic activities, will increase employment and income levels in rural areas, thereby driving demand for FMCG products.

Consumers choose food products based on their utilization efficacy, in addition to perceived value and shelf life. In an environment of rising prices, consumers also seek innovation in various FMCG products. This requires manufacturers to consider how their business processes, products and marketing collectively represent their brand. Alignment with the criteria of the intended consumer can stimulate and predict spending patterns.

INDIAN PACKAGED FOODS INDUSTRY OVERVIEW

The Indian packaged food industry ranks sixth globally in terms of production, consumption, exports and anticipated growth. There is an increasing demand for specialty and high-value processed or packaged foods, in addition to ready-to-eat and ready-to-cook foods. The Indian Packaged Food Market is anticipated to reach USD 3.4 billion by 2027, expanding at a CAGR of 4.6% between 2022 and 2027, according to a research report by Industryarc.com. Various packaged foods, including savoury snacks, baked products, breakfast cereals, processed meat, frozen sweet corn and ready-to-eat meals, are readily available in retail stores.

The Indian packaged food market is segmented into offline channels such supermarkets, hypermarkets, convenience stores, brick-and-mortar businesses and e-commerce. Due to their well-established infrastructure, convenient shopping, profitable sale deals and one-stop solution, supermarkets are attracting billions of people worldwide. The majority of Indian purchases are made offline because more than 60% of the population lives in rural areas with poor to moderate e-commerce services.

Key Drivers of Packaged Food Industry in India:

Continuous urban population growth and increased employment rates have caused consumers to live a hectic lifestyle. Due to the lack of time available for culinary and meal preparation, processed foods such as ready-to-eat products and snacks have gained popularity in urban areas.

JAY KAILASH NAMKEEN LIMITED

India has one of the world's largest working populations. With rising discretionary incomes, this demographic can be considered the largest consumer of processed foods. This population is further anticipated to increase steadily over the next five years.

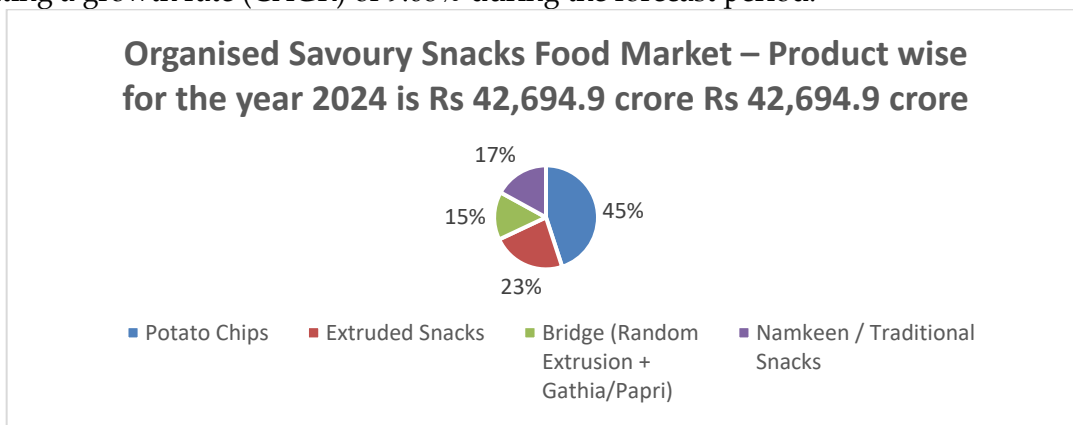

In both urban and rural areas, the proportion of women who are employed has been steadily rising. As a consequence of their hectic lifestyle, they have less time for domestic tasks such as cooking. This is resulting in an increase in the demand for industrialized and ready-to-eat foods.

SNACKS FOOD MARKET

Snacks consist of a vast array of foods that are consumed in small quantities as an appetiser between meals. These include, namkeen, potato chips, extruded snacks, popcorn, nut mixes, granola bars, biscuits, cakes and dried fruits, among others.

They are widely available in sweet, salted, sour and spicy flavours and include maize, potatoes, cereals, seeds, legumes, pulses and flour among other ingredients. Snacks are packaged in airtight containers or sealed packets to prevent contamination from moisture, grime, pollen and germs.

According to a report published by market research company IMARC Group, the Indian snacks market size was Rs 42,694.9 crore in 2024 and is expected to reach Rs 95,521.8 crore by 2032, exhibiting a growth rate (CAGR) of 9.08% during the forecast period.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024 and its profit and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our Auditor's Report thereon.

JAY KAILASH NAMKEEN LIMITED

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to Report that fact. We have nothing to Report in this regard.

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financials position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the other accounting Standards specified under Section 133 of the Act. In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial Reporting process.

JAY KAILASH NAMKEEN LIMITED

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the

JAY KAILASH NAMKEEN LIMITED

Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our Report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure “B” to the Independent Auditor's Report

(Referred to in Paragraph 2(f) under the heading of “Report on Other Legal and Regulatory Requirements” of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Jay Kailash Namkeen Limited** (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

JAY KAILASH NAMKEEN LIMITED

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of

JAY KAILASH NAMKEEN LIMITED

changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of information and explanations given to us, the Company has, in all materials respects, an adequate internal financial controls system over financial reporting and such financial controls over financial reporting are operating effectively as at March 31, 2024 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
