MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Company's current business activity is trading in Chemicals.

Industry Structure and Developments:

Large number of companies are active in trading of chemicals. About 10 – 12 importers are regularly importing Vinyl Acetate Monomer for trading into India.

Opportunities, Threats, Outlook, Risks and Concerns:

The Company is currently engaged mainly in trading of Vinyl Acetate Monomer. The Company has so far not deemed it appropriate to add other chemicals to its trading activity.

The price and demand of various chemicals undergo fluctuations. Similarly, there are fluctuations in foreign currency rates. Hence, there is an inherent risk in trading activities.

Impact of Covid-19 Pandemic:

The nationwide lockdown imposed due to Covid-19 pandemic has severely impacted the Company's trading operations during the first quarter of the current year. While the market demand is expected to improve in the subsequent quarters, the turnover of the Company is expected to be lower than the previous year.

Segment-wise Performance:

The Company's current business activity has only one primary reportable segment, namely trading in chemicals.

Internal Control Systems and their adequacy:

The Company has adequate internal control procedures commensurate with size and nature of its business. The internal control systems provide for policies, guidelines, authorisations and approval procedures.

The Audit Committee of the Board of Directors periodically reviews the internal audit reports, significant risk area assessment and adequacy of internal controls for ensuring checks and balances. The Company has appointed Internal Auditors who regularly check the adequacy and effectiveness of all internal controls and suggest improvements.

The financial results and performance for the year are elaborated in the Directors' Report.

5	Operating Profit Margin	5.24	5.20
6	Net Profit Margin	2.77	3.01

The Return on Network was lower mainly due to adverse movement of global VAM prices, lower sales due to adverse impact of Covid-19 pandemic and fluctuation in foreign exchange rates.

The other information comprises of the information included in the Management Discussion and Analysis Report, Directors' Report including Annexures to the Directors' Report, Corporate Governance Report and Information for Shareholders but does not include the Standalone Ind AS Financial Statements and Auditor's Report thereon.

Our opinion on the Standalone Ind AS Financial Statements does not cover the other information and we do not express any form of assurance or conclusions thereon.

In connection with our audit of the Standalone Ind AS Financial Statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including Other Comprehensive Income, Cash Flows and Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS. This responsibility also includes

maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS Financial Statements.

- As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also: Identify and assess the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the Standalone Ind AS Financial Statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS Financial Statements, including the disclosures and whether the Standalone Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure “B” to the Independent Auditors' Report

(Referred to in Paragraph 2(f) under the heading of "Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Vinyl Chemicals (India) Limited** (“the Company”) as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of information and explanations given to us, the Company has, in all materials respects, an adequate internal financial control system over financial reporting and such financial controls over financial reporting are operating effectively as at March 31, 2020 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The address of its registered office is Regent Chambers, 7th Floor, Jamnalal Bajaj Marg, 208 Nariman Point, Mumbai 400021. The address of principal place of business is Ramkrishna Mandir Road, Off Mathuradas VasANJI Road, Andheri (E), Mumbai 400059.

Note 2**Significant Accounting Policies****2.1 Basis of accounting & preparation of financial statements**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on the historical cost basis except for certain Financial Assets/Liabilities (including derivative instruments) which have been measured at fair values .

2.2 Property, plant and equipment acquired separately & Depreciation

Freehold land is stated at cost and not depreciated.

Plant and Equipments and furniture are stated at cost less accumulated depreciation and accumulated impairment losses.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and capital work in progress) less their residual values over their useful lives, using the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Impairment of tangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use.

If the recoverable amount of the asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

2.3 Inventories

Inventories are valued at lower of cost and net realisable value. Cost of inventories is determined on FIFO basis.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and estimated costs necessary to make the sale.

Obsolete, defective and slow/non-moving stocks are duly provided for.

2.4 Provisions (other than employee benefits)

A provision is recognised when as a result of past event, the Company has a present legal or constructive obligation which can be reliably estimated and it is probable that an outflow of economic benefit will be required to settle the obligation.

Provisions (excluding retirement benefits) are determined based on the best estimate required to settle the obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are not recognised but disclosed in the Notes to the Financial Statements.

Contingent assets are not recognised but disclosed in the Notes to the Financial Statements, where an inflow of economic benefits is probable.

2.5 Financial instruments

2.5.1 Initial recognition & measurement: Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

At initial recognition, financial assets and financial liabilities are initially measured at fair value, except for trade receivables and payables which are measured at their transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

2.5.2 Subsequent measurement of financial assets: All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.5.3 Impairment of financial assets

For Trade receivables, the Company measures loss allowance at an amount equal to lifetime expected credit losses. The Company computes expected credit loss allowance based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

2.5.4 Financial Liabilities

All financial liabilities (other than derivative financial instruments) are classified as subsequently measured at amortised cost using effective interest method where applicable. Interest expense is included in the "Finance costs" line item.

2.5.5 Derecognition of financial assets and liabilities

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or when the Company transfers the contractual rights to receive the cash flows of the financial asset in which substantially all the risks and rewards of ownership of the financial asset are transferred, or in which the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset and does not retain control of the financial asset.

The Company derecognises a financial liability (or a part of financial liability) when the contractual obligation is discharged, cancelled or expires.

2.5.6 Derivative financial instruments

The Company holds derivative financial instruments such as currency options or foreign exchange forward contracts to hedge its exposure to foreign currency exchange rate risks.

Derivatives are initially recognised at fair value at the date the contracts are entered into. Subsequent to initial recognition, these contracts are measured at fair value and changes are recognised in profit or loss.

2.6 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/loss before extraordinary items and tax for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments. Cash flows from operating, investing and financing activities of the Company are segregated.

Cash and cash equivalents for the purpose of cash flow statement comprise of cash at bank & cash in hand, as reduced by bank overdrafts (if any).

2.7 Employee benefits

Employee benefits include Provident Fund, Superannuation Fund, Employee State Insurance Scheme, Gratuity Fund, Compensated Absences, Anniversary Awards, Premature Death Pension Scheme and Total Disability Pension Scheme.

2.7.1 Defined contribution plans

The Company's contribution to Provident Fund, Superannuation Fund and Employee State Insurance Scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

2.7.2 Defined benefit plans

For Defined Benefit Plans in the form of Gratuity Fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses and the return on plan assets (excluding net interest) is reflected immediately in the Balance Sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised immediately for both vested and the non-vested portion. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited taking into account the present value of available refunds and reductions in future contributions to the schemes.

2.7.3 Short term and other long term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period in which the related service is rendered, at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.8 Taxation

- i. **Current tax:** The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using applicable tax rates that have been enacted or substantively enacted by the end of the reporting period and the provisions of the Income Tax Act, 1961 and other tax laws, as applicable.
- ii. **Deferred tax:** Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

- iii. **Current & Deferred tax for the year:** Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9 Revenue Recognition

Revenue is recognised at a point in time when the performance obligation is satisfied & control of promised goods is transferred to customers, for an amount that reflects the consideration which the Company expects to receive in exchange for those goods.

Revenue is based on the transaction price which is the consideration taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government, except otherwise mentioned. Thus, it excludes Sales Tax/VAT/Goods and Services Tax (GST). It is measured at transaction price, net of returns, rebates and discounts.

Claims which are not of material nature/insurance claims etc. are accounted for when no significant uncertainties are attached to their eventual receipt. Negotiated price reduction obtained from supplier is accounted for as a part of 'Other operating revenue'.

2.10 Foreign currency

At the end of each reporting period, monetary items (including financial assets and liabilities) denominated in foreign currencies are re-translated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not re-translated. Gains or losses arising from these translations are recognised in the Statement of Profit and Loss.

2.11 Earnings Per Share

In determining the earnings per share, the Company considers the net profit after tax and post tax effect of any extra-ordinary/exceptional item is shown separately. The number of shares considered in computing basic earnings per share is the number of shares outstanding at the end of the year.

2.12 Critical accounting judgements and key sources of estimation of uncertainty

The preparation of the Company's financial statements requires Management i.e. the Directors of the Company to make judgements, estimates and assumptions that affect the application of accounting policies, reported amounts of assets, liabilities, income and expenses and accompanying disclosures and the disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Actuarial gains and losses in respect of defined benefit plans are recognised in the financial statements through Other Comprehensive Income.

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under-perform compared to the government bonds' discount rate, this will create or increase a deficit.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

Changes in bond yields

A decrease in government bond yields will increase plan' liabilities, although this is expected to be partially offset by an increase in the value of the plan's bond holdings.

Life expectancy

The majority of the plan's obligations are to provide benefits for the service life of the member, so increases in service life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in service life expectancy.

iii. **Financial risk management objectives**

The Company's Corporate Treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk, credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide written principles on foreign exchange risk, credit risk, the use of financial derivatives and non-derivative financial instruments and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

iv. **Market risk**

The Company's activities expose it primarily to the financial risk of changes in foreign currency exchange rates (see note below). The Company enters into vanilla currency options or forward foreign exchange contracts to manage its exposure to foreign currency risk of imports.

v. **Foreign currency sensitivity analysis**

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Particulars	Forward contracts/options Value in Foreign Currency		Value (₹)	
	31st March, 2020	31st March, 2019	31st March, 2020	31st March, 2019
Amounts payable in foreign currency on account of the following:				
USD	1,00,38,912	1,18,62,075	75,71,34,744	82,06,18,323
Average Exchange rate USD Buy (₹ per USD)			71.01	69.99

The Company is mainly exposed to the USD

The following table details the Company's sensitivity to a 2% increase and decrease in the INR against the relevant foreign currency. 2% is the sensitivity rate used when reporting foreign currency risk internally to Key Management Personnel and represents Management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 2% change in foreign currency rates.

A negative number below indicates a decrease in profit or equity where the INR weakens 2% against USD. For a 2% strengthening of the INR against USD, there would be a comparable impact on the profit or equity and the balances below would be positive.

Particulars	USD impact	
	F.Y. 2019-20	F.Y. 2018-19
Impact on profit or loss for the year	(1,51,42,695)	(1,64,12,367)

This is mainly attributable to the exposure outstanding on USD payables towards imports.

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

The line-items in the balance sheet that include the above hedging instruments are "Other financial liabilities".

The aggregate amount of MTM loss/gain under options/forward foreign exchange contracts recognised in profit or loss for the year, is Gain of ₹ 2,31,69,669 (Loss of ₹ 1,83,77,300 in F.Y. 2018-2019).

vi **Credit risk management**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company.

Trade receivables consist of customers spread across diverse industries and geographical areas.

Apart from Pidilite Industries Ltd., the largest customer of the Company, the Company does not have significant credit risk exposure to any single counter party.

The credit risk on liquid plus funds and derivative financial instruments is limited because the counter parties are fund houses and banks with high credit ratings assigned by international credit rating agencies.

vii **Liquidity risk management**

As the Company is engaged in trading of chemicals, it enjoys a higher credit period from its suppliers as compared to the credit period extended to its customers. Consequently, the Company's liquidity position is normally strong thereby substantially reducing the requirement of obtaining external finances.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Note given below sets out details of additional undrawn facilities that the Company has at its disposal to further reduce liquidity risk:

Financing facilities	As at 31 st March, 2020 ₹	As at 31 st March, 2019 ₹

- amount unused	9,00,00,000	9,00,00,000

viii **Fair value measurements**

Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period.

This note provides information about how the Company determines fair values of various financial assets and financial liabilities:

Sr. No.	Financial assets/ Financial liabilities	Fair value (₹) as at		Fair value hierarchy	Valuation technique(s) and key input(s)
