Dear Sirs,

Sub: Update regarding buyback of not exceeding 1,90,12,345 fully paid-up equity shares of face value of INR 1/- each (the “Equity Shares”) of Tanla Solutions Limited (the “Company”) at a price of INR 81/- per Equity Share through the tender offer process, pursuant to the provisions of the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018, as amended and the Companies Act, 2013, as amended (“Buyback”) – Broadcast of advertisement regarding the tendering period

This is in continuation to our intimation dated June 28, 2020 whereby we had informed the stock exchanges that pursuant to the SEBI circular bearing reference number SEBI/CIR/CFD/DCR1/CIR/P/2020/83 dated May 14, 2020, where certain relaxations were granted relating to procedural matters for takeovers and buybacks (“**Relaxation Circular**”), we had published advertisements in certain newspapers regarding the completion of the dispatch of the Letter of Offer along with Tender Form electronically to the Eligible Shareholders holding Equity Shares of the Company as on record date (i.e. June 10, 2020) and whose email IDs have been registered with the depositories/Company.

This is to inform you that pursuant to the Relaxation Circular, the Company has also made an advertisement (attached as Annexure 1) providing the details of the Buyback on the following websites:

www.bseindia.com	www.businessinsider.in	www.business-standard.com

NSE Daily Circuit Filters - 5% Circuit Filter Stocks

Circuit Filters or Daily Circuit Filters sets the limit to fluctuations of stock prices. Circuit filters are set by stock exchanges to stop any unduly rising or falling of a stock price.

They are numeric percent limits set on individual scripts. National Stock Exchange of India (NSE) define circuit filters in 5 categories including 2%, 5%, 10%, 20% and no circuit filter.

Circuit filters works in either ways. I.e. if circuit set for equity is 10%, stock price cannot move further +10% to lower then -10%.

Circuit filter changes every day and stock keeps moving between one circuit filter categories to other based on previous day's closing price. Below is the list of current circuit filters at NSE:
