IN BRIEF

Swiggy secures investors' approval for ₹10,414-crore IPO

Food and grocery delivery major Swiggy has secured shareholders' nod to raise ₹10,414 crore through issue of fresh equity shares and an offer for sale (OFS), according to sources. A special resolution was passed at an extraordinary general meeting of Swiggy on April 23, they said. According to sources, the Bengaluru-based firm plans to raise up to ₹12,750 crore through fresh equity shares, in addition to an OFS component of up to ₹6,664 crore.

'Global recovery offers growth upside; food prices to cool'

March spike in world oil, food prices warrant attention, but concerns from geopolitical tensions seen easing, ministry says in economic review

Vikas Dhotu
NEW DELHI

The global economy is on the mend with major economies seeing a growth rebound and risk perceptions about geopolitical risks receding, offering a potential upside for growth even as India's economic performance stands out and its key indicators for March reflect a buoyant domestic economic landscape, the Finance Ministry said on Thursday.

Terming the high food inflation challenge in several major economies a 'situation' warranting continued attention, the ministry noted in its economic review for March that India's food inflation eased to 8.5% last month, from February's 8.7%, while retail inflation slowed to a 10-month low of 4.85%.

'Monsoon forecast key' Core inflation, which excludes food and energy prices, eased to 3.3% in March, and a further cooling of domestic food prices was on the anvil, the ministry said, citing the above-normal monsoon projection for the year that bodes well for a good harvest. It did, however, caution that the recent uptick in inflationary pressures across nations along with persist-

Upbeat assessment

Global economy is on the mend with major economies seeing a growth rebound that augurs well for India's economy: FinMin

■ **Key above normal monsoon projection for the year bodes well for a good harvest**

■ **Flag increasing occurrence of weather shocks as posing an upside risk to food prices**

■ **Rural demand pickup, robust investment, sustained manufacturing momentum underpinning economic performance'**

tence in core inflation warranted attention.

"Global commodity prices increased in March 2024, driven by both energy and non-energy commodities. Crude oil prices have firmied up since December 2023, partially driven by increasing tension in West Asia and OPEC+ countries deciding to maintain supply constraints until mid-2024," the ministry noted, adding that food prices had also firmied up in March, following a seven-month-long declining trend, driven primarily by rising prices of vegetable oils.

Risk of weather shocks'

"While a record rabi crop will help in moderating cereal prices, the increasing occurrence of weather shocks poses an upside risk to food prices. Geopolitical tensions and their effect on oil prices add to

this risk," the ministry acknowledged.

While geopolitical tensions remain a concern, risk perceptions have softened, offering a potential upside for growth and India continues to exhibit robust economic performance, the ministry said, citing strong domestic demand, rural demand pickup, robust investment, and sustained manufacturing momentum.

The ministry said that improved consumer and investor confidence underpinned the country's ability to navigate global challenges successfully.

"In March 2024, India's economy was marked by record-breaking stock market performance, remarkable GST collections, and substantial growth in the manufacturing and services sectors, reflecting a buoyant domestic economic landscape.

Kotak plunges on RBI order; CEO reassures

Reuters
MUMBAI

Kotak Mahindra Bank's shares plunged on Thursday, a day after the RBI barred India's fourth-biggest private bank by assets from taking on new clients digitally and issuing credit cards, a blow to a lender that relies heavily on online banking.

Kotak fell 10.9% to ₹1,643 on the BSE after sliding 13% intraday to the lowest since November 2020. Jefferies cut its price target for the stock by 4%.

Kotak CEO Ashok Vaswani sought to allay employee concerns, writing in an email, seen by Reuters, "we will emerge stronger" and the issue would be resolved "in short order".

VIL's FPO listing event at the NSE.

Mr. Birla asserted that the successful conclusion of India's largest FPO had been shaped "significantly" by the government's reform package.

"The policy environment today encourages investment, innovation, and competition. India's digital economy is booming, and robust telecom networks are crucial to support this growth. A nation of 1.4 billion people deserves three private telecom players," he said.

The Union government owns 33% in VIL, which is part of Aditya Birla Group.

Tata Steel UK to invest £1.25 billion at Port Talbot, shut operations partly

IMPACT. The investment will preserve 5,000 jobs and secure future supplies to customers

Our Bureau
Mumbai

Tata Steel will invest £1.25 billion to build a modern electric arc furnace in Port Talbot and commence closure of the existing heavy-end assets in the following months.

A Voluntary Redundancy Aspiration process will be launched across Tata Steel UK from May 15.

The move follows seven months of formal and informal national level discussions with the UK trade unions, said Tata Steel, in a statement, on Thursday.

Tata Steel has agreed to detailed terms with the UK Government on the proposed grant package to support the £1.25 billion investment, with final documents

IN THE WORKS. Discussions will continue with the trade unions on a potential memorandum of understanding on the business and the impact of the restructuring on employees across

to be executed in the coming weeks.

Tata Steel has informed the trade unions that two blast furnaces will close by June and September end. The investment in UK will preserve 5,000 jobs and secure future supplies to customers.

ardy, it said. The company said discussions will continue with the trade unions during the next two weeks on a potential memorandum of understanding on the business and the impact of the restructuring on employees.

Tata Steel will place equipment orders for the electric arc furnace by September, begin preparatory works at the site by December and begin construction by next August.

The company has secured most of the required substrate for the full transition period for the UK's downstream mills.

Tata Steel UK has already had to supplement its own production with imported material of 333,000 tonnes during the last six months, to serve its customers. In the

FY24, Tata Steel UK has recorded a negative EBITDA of £373 million and negative free cashflow of £623 million.

TV Narendran, Managing Director, Tata Steel, said the fresh investment is the most viable proposal, in contrast to the unions' unaffordable plan which has high inherent operational and safety risk.

The company also reached alignment with the UK Steel Committee that production on the Coke Ovens and one Blast Furnace needed to cease by mid-2024.

Rajesh Nair, CEO, Tata Steel UK, said while the company has agreed to keep the hot strip mill running through the transition, the unions' plan presents significant financial, operational and safety challenges and delays the transition to green steel by two years.

IIFL Samasta Finance adds three members to its Board

KR Srivatsa
New Delhi

IIFL Samastastrategic Finance, a non-banking finance company (NBFC-MFI), has appointed three members including former Nabard Chairman, Govinda Rajulu Chintala to its Board of Directors.

'WhatsApp will End If It's Made to Break Encryption of Messages'

Messaging app tells HC people use the platform as privacy is assured

Our Bureau

New Delhi: WhatsApp LLC on Thursday told the Delhi High Court that the popular messaging platform will end if it is made to break encryption of messages.

"As a platform, we are saying, if we are told to break encryption, then WhatsApp goes," counsel Tejas Karia, appearing for WhatsApp, told the court which comprising acting chief justice Manmohan and Justice Mamet Pratim Singh Avera.

WhatsApp said the contents of the exchanges shared on its platform can only be traced by another party other than the sender and the receiver as it send-to-end encrypted in order to protect the privacy of the parties.

People use the messaging platform because of the privacy of the content, he said. "If it is made to break messages are end-to-end encrypted," Karia added.

The HC was hearing a petition by WhatsApp and its parent company Facebook Inc (now Meta) challenging a circular of the Information Technology (Intermediary Guidelines and Digital Media Ethics

PRIVACY vs TRACING CHATS

Delhi HC has called for a balance to be struck and posted the case for further hearing on August 14

Code) Rules 2021, which makes it obligatory for social media intermediaries requiring the messaging app to trace chats and make provisions to identify the first or second recipient of information on the user's order.

This, the messaging platform said, undermines encryption of content as well as the privacy of the users. It also violates fundamental rights of the citizens, it said. "Somewhere the balance has to be done," the HC observed.

tution of India.

"There is no such rule anywhere else in the world. Not even in Brazil," Karia said, adding that the requirement was against the privacy of users and would result in a violation without any consultation.

"We will have to keep a complete chain and we don't know which messages will be asked to be decrypted. It means millions and millions of messages have to be decrypted for a number of years," he said.

However, counsel Kirtman Singh, appearing for the central government, argued that the idea behind the guidelines was to trace the origin of the messages. Ultimately there has to be some mechanism to trace the messages as this is the need of the hour and WhatsApp has already faced some very difficult situations before the United States Congress, he contended.

After brief arguments, the HC called for a balance to be struck and posted the case for further hearing on August 14. "...privacy rights were not abrogated and 'somewhere' the balance has to be done," the HC observed.

NCLT Admits Insolvency Plea Against Two Essel Group Cos

Maulik.Vyas@timesgroup.com

Mumbai: The bankruptcy court on Thursday admitted two Essel Group entities Pricomen Media Distribution Ventures and Essel Homes under the corporate insolvency resolution process (CIRP) after Gres Realtech Pvt Ltd, an affiliate entity, defaulted on its dues of ₹200cr or more where these companies provided corporate guarantees.

The Essel Group of the National Company Law Tribunal (NCLT), in applications filed by Indiabulls Housing Finance Ltd, also appointed Ravi Prakash Ganti as interim resolution professional (IRP) for these companies.

"We are of the considered view that the financial creditor has proved the existence of debt and default," said the division bench of judicial member Lakshmi

Gurnaray and technical member Charanjit Singh Gulati in their order against Pricomen Media Distribution Ventures. "Also, the petition filed is within limitation. Therefore, we hereby admit this company petition," said the bench further.

However, rejecting the arguments of the respondent companies, the bench said that both companies under the insolvency resolution process.

The tribunal has also put a moratorium on the companies and has restrained the institution of further proceedings in pending suits or proceedings against the corporate debtors Essel Homes and Pricomen Media.

The tribunal also restrained the promoters or any other person from transferring, encumbering, alienating or disposing of company's assets.

On the other hand, the court

ruled that the respondents

had failed to pay ₹100cr in June

2020. The corporate debtor company Gres Realtech defaulted on its dues on September 30, 2021.

Concurring Kothli, counsel Vinay Malvani, appearing for the debtors, said the companies argued that the debt had been disbursed to Gres Realtech, not the corporate debtor. The Essel Group companies also claimed that respondents (Essel Homes and Pricomen Me-

dium Distribution Ventures) have merely pledged Gres Realtech shares as security against the loan to Gres. The petitioner Indiabulls Housing Finance is, therefore, not a financial creditor.

However, rejecting the arguments of the respondent companies, the bench said that both companies under the insolvency resolution process.

The tribunal has also put a moratorium on the companies and has restrained the institution of further proceedings in pending suits or proceedings against the corporate debtors Essel Homes and Pricomen Media.

The tribunal also restrained the promoters or any other person from transferring, encumbering, alienating or disposing of company's assets.

Statkraft India Head Rahul Varshney Quits

kraft's construction workers which include better healthcare, food and social security for their families in line with European standards.

Varshney is credited with leading the development of multiple hydro power projects in different regions, including Hirakud, Pradeep and around tributaries of the Brahmaputra. Industry executives said a notable feature of Varshney's tenure was his project to provide "living wages" to Statkraft's construction workers which include better healthcare, food and social security for their families in line with European standards.

Varshney started his career at Aditya Birla Group as per his LinkedIn profile. During his tenure, Statkraft attempted to file a petition in the court for a stay on the execution of a successful bid under a bankruptcy process for Lancom Hydro Power's project near Kedarnath which was washed out by flash floods in 2013.

Mohit.Bhalla@timesgroup.com

New Delhi: Rahul Varshney has quit Europe's largest renewable power generator Statkraft after helping its Indian operations for 15 years, according to people aware of the development.

Varshney could possibly set up his own venture in the energy transition segment, they said.

Statkraft, which is owned by Norway's

government, has been operating in India for more than two decades, mainly in the hydro power generation sector.

Varshney is credited with leading the development of multiple hydro power projects in different regions, including Hirakud, Pradeep and around tributaries of the Brahmaputra. Industry executives said a notable feature of Varshney's tenure was his project to provide "living wages" to Statkraft's construction workers which include better healthcare, food and social security for their families in line with European standards.

Varshney started his career at Aditya Birla Group as per his LinkedIn profile. During his tenure, Statkraft attempted to file a petition in the court for a stay on the execution of a successful bid under a bankruptcy process for Lancom Hydro Power's project near Kedarnath which was washed out by flash floods in 2013.
