Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 (The Act, 2013) in respect of the Special Business to be transacted at the AGM, as set out in the Notice is annexed hereto:-

Item No.4

In terms of the provisions of Section 152 of the Companies Act, 2013 ("the Act") and in accordance with the Articles of Association of the Company, the two third of the total number of Directors, excluding Independent Directors, shall be eligible to retire by rotation, out of which, one-third shall retire. The Directors who are liable to retire by rotation would be those who have been longest in office since their initial appointment.

In pursuance to clause 60(e) of the Articles of Association, Sh. Rajiv Gupta, Chairman & Managing Director, Smt. Arti Gupta, Joint Managing

Director and Sh. Arun Mitter, Executive Director (Non Independent Directors) are eligible to retire by rotation. However, such retirement shall not be deemed as break in service. Since, Sh. Rajiv Gupta was appointed on April 14, 1988 and he being longest in the office since his initial appointment, as per mutual agreement, Sh. Rajiv Gupta will retire by rotation and would be eligible for re-appointment in this Annual General Meeting.

Sh. Rajiv Gupta is a Bachelor in Engineering from IIT, Delhi. He, since 1969, has been actively associated with Leasing & Hire Purchase business during the period when the company was carrying on NBFC activities,. He has worked in various capacities. He was inducted on the Board on April 14, 1988 & since then, he has remained at the helm of affairs of the company. He has been associated as its Chairman & Managing Director since 2005. He has extensive business experience and all around knowledge on issues concerning hire purchase, leasing, corporate finance, real estate, administration, etc. His continued association with the company is concerned absolutely necessary. He heads the MGF Group of companies.

Accordingly, the Board recommends the Ordinary Resolution set out in Item No.4 of the Notice for approval of the members.

None of the Directors or Key Managerial Personnel of the company except Sh. Rajiv Gupta and Smt. Arti Gupta, being husband & wife, are directly or indirectly concerned or interested, financially or otherwise, except to the extent of their respective shareholding, if any, in the company. None of other Directors or Key Managerial Personnel directly or indirectly are interested in the above resolution.

Item No.5

Sh. Onkar Nath Aggarwal is presently Non Executive Independent Director ("NEID") of the company was appointed for a period of 5(five) years starting from March 31, 2015 to March 30, 2020 at the 85th Annual General Meeting held on September 29, 2015.

As per Section 149(1) of the Companies Act, 2013 ("Act") a NEID shall hold office for a term of upto five consecutive years but shall be eligible for re-appointment on passing a Special Resolution by the company for another(second) term of 5(five) consecutive years on the Board of the company, not liable to retire by rotation.

Based on the recommendation of Nomination and Remuneration Committee("NRC") and taking into consideration his performance evaluation done by the Board, the Board at its meeting held on March 19, 2020 re-appointed Sh. Onkar Nath Aggarwal as Non Executive Independent Director not liable to retire by rotation pursuant of provisions of Section 149, 152 read with Schedule IV and other applicable provisions of the Act and SEBI(LODR) Regulations, 2015 ("Listing Regulations"), for second term of 5(five) years commencing from March 31, 2020 to March 30, 2025 subject to approval of members.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31st March, 2020

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
The Motor & General Finance Limited
MGF House, 4/17-B,
Asaf Ali Road,
New Delhi-110002

I, Anjali Yadav, Proprietor of Anjali Yadav & Associates, Company Secretaries, have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **The Motor and General Finance Limited** (CIN No: L74899DL1930PLC000208) (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March 2020 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March 2020 and made available to me, according to the provisions of:

- i. The Companies Act, 2013 ('the Act') and the rules made there under (as amended from time to time)
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under (as amended from time to time)
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under (as amended from time to time)
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made under that Act to the extent applicable to Overseas Direct Investment (ODI) and External Commercial Borrowings (as amended from time to time)
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'): -
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (as amended from time to time)
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 (as amended from time to time)
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (as amended from time to time)
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (as amended from time to time): - **Not applicable to the Company during the audit period.**
 - e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) (Amendment) Regulations, 2008 (as amended from time to time)- **Not applicable to the Company during the audit period.**
 - f) Securities and Exchange Board of India (Issue and Listing of Non-Convertible and Redeemable Preference Shares) Regulations, 2013- **Not applicable to the Company during the audit period.**
 - g) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client (as amended from time to time)
 - h) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (as amended from time to time): - **Not applicable to the Company during the audit period.**
 - i) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 (as amended from time to time) - **Not applicable to the Company during the audit period.**
 - j) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 (as amended from time to time)
- k) Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standard- 1 (Meetings of Board of Directors) issued by The Institute of Company Secretaries of India.

- (ii) Secretarial Standard- 2 (General Meetings) issued by The Institute of Company Secretaries of India

During the audit period, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I, further report that:

Compliance of applicable financial laws including Direct and Indirect Tax laws by the Company has not been reviewed in this Audit and the same has been subject to review by the Statutory Auditors and others designated professionals.

Based on the information provided by the Company, its officers and authorized representatives during the conduct of the audit, in my opinion, adequate systems and processes and control mechanism exist in the Company to monitor and ensure compliance of provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I, further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notices were given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent in advance to all the Directors, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at the Board Meetings and Committee Meetings were carried out unanimously as recorded in the Minutes of the Board of Directors or Committees of the Board, as the case may be.

I further report that, based on the review of the compliance reports and the certificates of the Company Executive taken on record by the Board of Directors of the Company, in my opinion there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliances with applicable laws, rules, regulations and guidelines.

I, further report that:

1. During the period under review, Mr. Abhiram Seth, Independent Director and his relatives had been reclassified from Promoter Group Category to Public Category.
2. During the period under review, Mr. Abhiram Seth, Non-Executive Independent Director (DIN: 00176144) had resigned with effect from 10th October 2019. Necessary returns/ disclosures have been filed within the prescribed period.
3. During the period under review, the Company has obtained shareholder approval in respect of Sub-division of Equity Shares of the Company having a face value of Rs. 10 each into 2(two) Equity Shares of face value of Rs. 5 each and consequently altered the Capital Clause of the Memorandum of Association of the Company and Share Capital and Variation of Right Clause of Articles of Association of the Company through Postal Ballot vide notice dated February 13, 2020 and results in respect of the same were declared on March 30, 2020 and the resolutions were passed. As on the date of signing of this report, the Equity Shares of the face value of Rs. 10/- each stands sub-divided into the face value of Rs. 5/-each. Consequent to sub-division of Equity Shares, the PaidUp Capital of the Company is Rs. 19,36,35,950/- divided into 38727190 Equity Shares of the face value of Rs. 5/- each.
4. During the year under review, the company, vide its letter dated 25th March 2020, informed BSE Limited and National Stock Exchange of India Limited about the closure of office operations as per the directions passed by the Central Government and Local Government to prevent and contain the spread of Novel Corona Virus (COVID-19).

This Report is to be read with my letter of even date which is annexed as **Annexure 1** and forms an integral part of this Report.

INDEPENDENT AUDITOR'S REPORT**To The Members of The Motor & General Finance Limited****Report on the Audit of the Standalone Financial Statements****Opinion**

We have audited the accompanying standalone financial statements of **The Motor & General Finance Limited** (“the **Company**”), which comprise the Balance Sheet as at 31st March 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement, the Statement of Changes in Equity for the year then ended, notes to the financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the standalone financial statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its loss, total comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibility for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.No	Key Audit Matters	Auditor's Response
1.	Recoverability of carrying amounts of investments in associates and other entities	Audit Procedure Applied
	Refer to note no. 5 to the standalone financial statements. The Company has investments in Associates and other entities which are listed on Stock Exchange in India. These investments are valued at fair value based on market information. Therefore, the valuation of the investments has a significant impact on the financial results of Company. Management performed assessment at the end of each reporting period whether there is any indication that investments in associates and other entities may be impaired. Should indication of impairment exist, an impairment assessment will be performed accordingly. The recoverable amounts of investments in associates are assessed by current	<p>We obtained an understanding on the Company's policies and procedures to identify impairment indicators on investments in associates and other entities, and performed the following procedures in relation to management's impairment assessment:</p> <ul style="list-style-type: none"> evaluated the internal sources and external sources of information to identify impairment indications, if any; Recalculation of amounts recognised as impairment, on the basis of latest available information from stock exchanges Testing and assessment of the completeness, appropriateness and adequacy of the disclosure in Company's financial statements with regards to the measurement of investment

	market price of the listed entity on stock exchange. Management has concluded that there is a reversal of impairment in respect of investments in associates as at 31- March 2020. This area is significant to our audit because of the significance of the carrying amounts of the investment and results of impairment assessment and the significant management judgement involved in determining the value of investment.	
2.	Company's Investment in Investment Property	Audit Procedure Applied
	Investment Properties is significant to our audit due to their magnitude and their value. Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the Director's Report, Management Discussion and Analysis and Corporate Governance Report but does not include the standalone financial statements and our auditor's report thereon.

The Director's Report, Management Discussion and Analysis and Corporate Governance Report are expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above, when it becomes available, and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Director's Report, Management Discussion and Analysis and Corporate Governance Report, if we conclude, that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds

and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern, basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Referred to in paragraph 1(f) of the Independent Auditors’ Report of even date to the members of The Motor & General Finance Limited on the standalone financial statements for the year ended 31st March 2020

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of The Motor & General Finance Limited (“the Company”) as of 31st March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material

respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of Significant Accounting Policies and other Explanatory Statements of Standalone Financial Statements for the year ended March 31, 2020

NOTE – 1

SIGNIFICANT ACCOUNTING POLICIES

1.1 COMPANY OVERVIEW

The Motor & General Finance Limited (referred to as “MGF” or “the Company” was incorporated under the laws of the Republic of India with its registered office at MGF House, 4/17-B, Asaf Ali Road, New Delhi-110002, is the flagship company of MGF Group. Incorporated in 1930, MGF was one of the oldest finance companies of India. The Company is engaged in the single primary business of “Rental/ leasing of Immovable Property”, and has only one reportable segment.

1.2 GENERAL INFORMATION AND STATEMENT OF COMPLIANCE WITH INDAS

The Company is headquartered in New Delhi, India. The shares of the Company are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE).

The Standalone Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (INDAS) notified under Companies (Indian Accounting Standards) Rules, 2015.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- I. Certain Financial Assets and Financial Liabilities and Contingent Consideration that are measured at fair value
- II. Assets held for sale measured at lower of cost or fair value less cost to sell
- III. Defined benefit plan assets measured at fair value

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the date of respective transactions.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

All amounts are stated in ₹. All amounts disclosed in the financial statement and notes have been rounded off to the nearest ₹, unless otherwise stated.

The Standalone Financial Statements for the year ended 31st March, 2020 were authorized and approved for issue by the Board of Directors on 29th June, 2020.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Standalone Financial Statements have been prepared using the Accounting Policies and measurement basis summarized below.

2.1 PROPERTY, PLANT AND EQUIPMENT

2.1.1 RECOGNITION

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost, less accumulated depreciation/amortized and impairments, if any. Historical cost includes taxes, duties, freight and other incidental expenses related to acquisition & installation.

2.1.2 SUBSEQUENT MEASUREMENT

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

All other repairs & maintenance are charged to profit or loss.

2.1.3 DEPRECIATION

Depreciation on Property, Plant and Equipment is charged on straight line method on useful life prescribed under Part C of Schedule II of the Companies Act, 2013.

The following useful lives are applied:

Asset category	Estimated useful life (in years)
Land	
- Lease Hold (Finance Lease)	Over the Lease period
- Perpetual Lease	Treated as free hold land due to perpetuity
Buildings	
- Building	55 – 80 Years
- Leasehold Building	Over the Lease Period
Furniture and Fittings	10 Years
Motor Vehicles	
- Hire Purchase & Owned	08 - 10 Years
Office Equipment & Electrical Installations	05 - 15 Years
Computers	
- End user devices viz. desktops, laptops, etc.	03 Years

Leasehold land is amortised on a straight line basis over the unexpired period of their respective lease. Leasehold improvements are depreciated on straight line basis over their initial agreement period. Premium paid on land where lease agreements have been executed for specified period are written off over the period of lease proportionately.

Property, Plant and Equipment individually costing upto ₹ 10,000 are fully depreciated in the year of acquisition.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.1.4 DE-RECOGNITION

An item of Property, Plant and Equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss account when the asset is derecognised.

2.2 INVESTMENT PROPERTIES

2.2.1 RECOGNITION

Property (land or a building-or part of a building-or both) that is held (by the owner or by the lessee under a finance lease) for long term rental yields or for capital appreciation or both is recognized as Investment Property, except

- i. Use in the production or supply of goods or services or for administrative purposes; or
- ii. Sale in the ordinary course of business:

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs.

2.2.2 SUBSEQUENT MEASUREMENT

Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

2.2.3 DEPRECIATION

Depreciation is provided on all Investment Property on straight line basis, based on useful life of the assets determined in accordance with depreciation on Property Plant & Equipment above. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes.

2.2.4 DE-RECOGNITION

An investment property is derecognised (eliminated from the balance sheet) on disposal or when the investment property is

permanently withdrawn from use and no future economic benefits are expected from its disposal.

An investment property is also derecognised when property is transferred to owner-occupied property; or commencement of development with a view to sale, or transfer to inventories.

2.3 IMPAIRMENT OF NON FINANCIAL ASSETS

Carrying amount of assets is reviewed at each reporting date where there is any indication of impairment based on internal/ external indicators. An impairment loss is recognised in the Statement of Profit and Loss where carrying amount exceeds recoverable amount of assets. Impairment loss is reversed, if, there is change in recoverable amount and such loss either no longer exists or has decreased or indication on which impairment was recognised no longer exists.

2.4 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.4.1 FINANCIAL ASSETS

2.4.1.1 INITIAL RECOGNITION AND MEASUREMENT

Financial Assets are recognised when the Company becomes a party to the contractual provisions of the Financial Instrument and are measured initially at fair value adjusted for transaction costs that are attributable to the acquisition of the financial asset.

2.4.1.2 SUBSEQUENT MEASUREMENT

Debt Instruments at Amortised Cost– A ‘debt instrument’ is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such Financial Assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. All other debt instruments are measured at Fair Value through Other Comprehensive Income (FVOCI) or Fair value through Profit and Loss (FVTPL) based on Company’s business model.

- **Equity Investments** – All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at Fair Value through Profit and Loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through Other Comprehensive Income (FVOCI) or Fair Value through Profit and Loss (FVTPL) on an instrument to instrument basis.
- **Other Investments** – All Other Investments in scope of Ind-AS 109 are measured at Fair Value through Profit and Loss (FVTPL).

2.4.1.3 IMPAIRMENT OF FINANCIAL ASSETS

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets that are debt instruments, and are measured at amortised cost e.g., Loans, Debt Securities, Deposits and Trade Receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows ‘Simplified Approach’ for recognition of impairment loss allowance on trade receivables. The application of simplified recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

- **Financial Assets measured as at amortised cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- **Debt instruments measured at FVTPL:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. The change in fair value is taken to the statement of Profit and Loss.
- **Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as ‘Accumulated Impairment Amount’ in the OCI. The

Company does not have any Purchased or Originated Credit Impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

2.4.1.4 DE-RECOGNITION OF FINANCIAL ASSETS

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- i. The rights to receive cash flows from the asset have expired, or
- ii. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'passthrough' arrangement~ and either
 - (a) The Company has transferred substantially all the risks and rewards of the asset, or
 - (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

2.4.2 FINANCIAL LIABILITIES

2.4.2.1 INITIAL RECOGNITION AND MEASUREMENT

Financial liabilities are classified at initial recognition as financial liabilities at fair value through Profit or Loss, Loans and Borrowings, and Payables, net of directly attributable transaction costs. The Company's financial liabilities include Loans and Borrowings including Bank Overdraft, Security Deposit received against lease of building including investment properties and Other Payables.

All Financial Liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the Financial Liabilities is also adjusted. Financial Liabilities are classified as amortised cost.

The measurement of financial liabilities depends on their classification, as described below:

- i. **Financial liabilities at Fair Value Through Statement of Profit and Loss** - Financial liabilities at Fair Value through statement of Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at Fair Value through statement of Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.
- ii. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss. Financial liabilities designated upon initial recognition at fair value through statement of profit and loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. All other changes in fair value of such liability are recognised in the statement of profit and loss.
- iii. **Loans and Borrowings** - After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (hereinafter referred as EIR) method. Gains and Losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as Finance Costs in the statement of profit and loss.
- iv. **Security Deposit** - After initial recognition, interest free security deposits are subsequently measured at amortised cost using the Effective Interest Rate (hereinafter referred as EIR) method. The difference between carrying amount of the deposits and fair value is transferred as deferred income. The EIR amortisation is included as Finance Income in the statement of profit and loss.
- v. **Other Payables** - These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

2.4.2.2 SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, these liabilities are measured at Amortised Cost using the Effective Interest Rate (EIR) method.

2.4.2.3 DE-RECOGNITION OF FINANCIAL LIABILITIES

A Financial Liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. Consequently, write back of unsettled credit balances is done on the previous experience of Management and actual facts of each case and recognised in Other Income. When an existing Financial Liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

2.4.3 OFFSETTING OF FINANCIAL INSTRUMENTS

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.5 INVESTMENTS IN ASSOCIATES

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not in control or joint control over those policies.

Investments in associates are carried at cost as per Ind AS 28 less impairment recognised. The cost comprises price paid to acquire investment and directly attributable cost.

2.6 INVENTORIES**2.6.1 BASIS OF VALUATION**

- i. **Stock in Trade - Project** are valued at lower of cost or net realisable value.

2.6.2 METHOD OF VALUATION

- i. Stock in Trade Project includes total amount of expenditure incurred upto the date of certificate of completion. Subsequent expenditure which relates to an item of capital nature is added into the cost of stock in trade.

2.7 TRADE RECEIVABLES

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

2.8 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash in hand, Balances in Bank Account, Remittance in Transit, Cheques in hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than 3 months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

2.9 TAXES**2.9.1 CURRENT INCOME TAX**

Current Income Tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside Profit or Loss is recognised outside profit or loss (either in Other Comprehensive Income or in Equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.9.2 DEFERRED TAX

Deferred Income Taxes are calculated using Balance Sheet Approach, on temporary differences between the tax bases of

assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax expense for the year comprises of current tax and deferred tax.

2.9.3 INDIRECT TAX

Expenses and assets are recognised net of the amount of GST/ Service Tax paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- ii. When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.10 EQUITY AND RESERVES

- i. **Share Capital** represents the nominal value of shares that have been issued. Any transaction costs associated with the issuing of shares are deducted from retained earnings, net of any related income tax benefits.
- ii. **Other Components of Equity** includes Other Comprehensive Income (OCI) arising from actuarial gain or loss on re-measurement of defined benefit liability and return on plan assets and Net (loss)/gain on FVTOCI equity securities. The balance in OCI may be transferred from OCI to retained earnings when the asset is retired from use or disposed by the company.
- iii. **Retained Earnings** include all current and prior period retained profits.
- iv. **Revaluation Reserve:** When the value of fixed assets is written up in the books of account of a company on revaluation, a corresponding credit is given to the Revaluation Reserve. Such reserve represents the difference between the estimated present market values and the book values of the fixed assets. The balance in Revaluation Reserve will be transferred to retained earnings when the asset is retired from use or disposed by the company.

2.11 DIVIDEND PAYMENTS

Annual dividend distribution to shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable and corresponding tax on Dividend Distribution is recognised directly in equity.

2.12 REVENUE RECOGNITION

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, incentive schemes, if any, as per contracts with customers. Taxes collected from customers on behalf of Government are not treated as Revenue.

2.12.1 RENTAL INCOME

Rental income arising from lease on investment properties is accounted for on straight line basis over the period for which the investment property is given on rent.

2.13 INCOME RECOGNITION**2.13.1 INTEREST INCOME**

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all contractual terms of the financial instrument but does not consider the expected credit losses.

2.13.2 DIVIDEND INCOME

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.13.3 OTHER INCOME

Other claims including interest on outstanding are accounted for when there is virtual certainty of ultimate collection.

2.14 EXPENDITURE

Expenses are accounted on accrual basis.

2.15 EMPLOYEE BENEFIT SCHEMES**2.15.1 SHORT-TERM EMPLOYEE BENEFITS**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

2.15.2 COMPENSATED ABSENCES

Company provides for the encashment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment / availment. The liability is provided based on the number of days of unutilized leave at each Balance Sheet date on the basis of an independent actuarial valuation.

2.15.3 GRATUITY

Liabilities with regard to the gratuity benefits payable in future are determined by actuarial valuation at each Balance Sheet date using the Projected Unit Credit method. Gratuity is unfunded.

Actuarial gains and losses arising from changes in actuarial assumptions are recognized in Other Comprehensive Income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

2.15.4 PROVIDENT FUND

Eligible employees of the Company receive benefits from a Provident Fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary.

2.16 FUNCTIONAL AND PRESENTATION CURRENCY

The Standalone Financial Statements are presented in Indian Rupee (₹), which is Company's functional Currency and presentation currency.

2.17 LEASES

The company has applied Ind AS 116 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under Ind AS 17.

2.17.1 COMPANY AS A LESSEE

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at

or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

SHORT-TERM LEASES AND LEASES OF LOW-VALUE ASSETS

The company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of real estate properties that have a lease term of 12 months. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

2.17.2 COMPANY AS A LESSOR

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

2.18 EARNINGS PER SHARE

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares.

- i. **Basic EPS** is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.
- ii. **Diluted EPS** is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

2.19 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

2.19.1 PROVISIONS

Provisions represent liabilities to the Company for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost.

2.19.2 CONTINGENT LIABILITIES

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management of the Company has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

2.19.3 CONTINGENT ASSETS

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

2.20 CASH FLOW STATEMENT

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit/ (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.21 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting to the Chief Operating Decision Maker "CODM" of the Company.

2.22 CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

- i. An asset is classified as current when it is:
 - a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
 - b) Held primarily for the purpose of trading,
 - c) Expected to be realised within twelve months after the reporting period, or
 - d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- ii. All other assets are classified as non-current.
- iii. A liability is classified as current when it is:
 - a) Expected to be settled in normal operating cycle,
 - b) Held primarily for the purpose of trading,
 - c) Due to be settled within twelve months after the reporting period, or
 - d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- iv. All other liabilities are classified as non-current.
- v. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.
- vi. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.23 FAIR VALUE MEASUREMENT

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

Other Fair Value related disclosures are given in the relevant notes.

2.24 EXCEPTIONAL ITEMS

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments of subsidiaries, associate and joint ventures and impairment losses/ write down in the value of investment in subsidiaries, associates and joint ventures and significant disposal of fixed assets.

2.25 SIGNIFICANT MANAGEMENT JUDGEMENT IN APPLYING ACCOUNTING POLICIES AND ESTIMATION UNCERTAINTY

The preparation of Standalone Financial Statements requires management to make estimates and assumptions that affect the reported balances of assets, liabilities and disclosure of contingent liabilities at the date of the financial statements and reported amounts of income & expenses during the periods. Although these estimates and assumptions used in accompanying financial statements are based upon management's evaluation of relevant facts and circumstances as of date of financial statements which in management's opinion are prudent and reasonable, actual results may differ from estimates and assumptions used in preparing accompanying financial statements. Any revision to accounting estimates is recognized prospectively from the period in which results are known/ materialise in accordance with applicable Indian accounting standards.

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below.

2.26 SIGNIFICANT MANAGEMENT JUDGEMENTS

The following are Significant Management Judgements in applying the Accounting Policies of the Company that have the most significant effect on the Financial Statements.

2.26.1 EVALUATION OF INDICATORS FOR IMPAIRMENT OF ASSETS

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

2.26.2 EVALUATION OF LEASE OF LAND AS FINANCE LEASE OR OPERATING LEASE

One important consideration for evaluating lease of land is that land has an indefinite economic life and it is expected that the value of land generally appreciates. Where in substance there is no transfer of risks and rewards, it should be considered as an operating lease. Some of the indicators to consider in the overall context of whether there is transfer of risks and rewards incidental to ownership include the lessee's ability to renew lease for another term at substantially below market rent, lessee's option to purchase at price significantly below fair value etc.

Accordingly, classification as operating or finance lease requires exercise of judgement based on evaluation of facts and circumstances in each case, while considering the indicators envisaged as above.

2.27 ESTIMATION UNCERTAINTY

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below.

2.27.1 REVENUE RECOGNITION

Where revenue contracts include deferred payment terms, the management of Company determines the fair value of consideration receivable using the expected collection period and interest rate applicable to similar instruments with a similar credit rating prevailing at the date of transaction.

2.27.2 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENT

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as Liquidity Risk, Credit Risk and Volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.27.3 IMPAIRMENT OF FINANCIAL ASSETS

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

2.27.4 RECOVERABILITY OF ADVANCES/RECEIVABLES

The Company from time to time review the recoverability of advances and receivables. The review is done at least once in a financial year and such assessment requires significant management judgement based on financial position of the counterparties, market information and other relevant factors.

2.27.5 INCOME TAXES

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

2.27.6 PROVISIONS AND CONTINGENCIES

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

2.27.7 DEFINED BENEFIT OBLIGATION (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may impact the DBO amount and the annual defined benefit expenses.

2.27.8 ESTIMATION OF UNCERTAINTIES RELATING TO THE GLOBAL HEALTH PANDEMIC FROM COVID-19

In view of the unprecedented COVID-19 pandemic and economic forecasts, the Management has evaluated the impact on its financial results for the current quarter and made appropriate adjustment to revenue, debtors provisioning and actuarial assumptions. In assessing the recoverability of its assets including receivables and inventories, the Company has considered internal and external information up to the date of approval of these financial statements including economic forecasts. The Company has performed analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

Note -16A**Nature and purpose of Other Reserves****CAPITAL RESERVE**

The reserve was created on merger of companies under common control.

SECURITIES PREMIUM

The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve. In case of equity-settled share based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium reserve.

REVALUATION RESERVE

When the value of fixed assets is written up in the books of account of a company on revaluation, a corresponding credit is given to the Revaluation Reserve. Such reserve represents the difference between the estimated present market values and the book values of the fixed assets.

GENERAL RESERVE

General Reserve represents the Statutory Reserve, this is in accordance with Corporate law wherein a portion of profit is apportioned to General Reserve. Under Companies Act, 1956 it was mandatory to transfer amount before a company can declared dividend, however under Companies Act, 2013 transfer of any amount to General Reserve is at the discretion of the Company.

RETAINED EARNINGS

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

OTHER COMPREHENSIVE INCOME

Other Comprehensive Income Reserve represents the balance in equity for items to be accounted in Other Comprehensive Income. OCI is classified into i). Items that will not be reclassified to profit and loss ii). Items that will be reclassified to profit and loss.

Risks Associated with Plan Provisions

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Company is exposed to various risks as follow:

Salary Risk	The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.
Interest Risk (Discount Rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability
Mortality Risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-14) ultimate table. A change in mortality rate will have a bearing on the plan's liability.

PRACTICAL EXPEDIENTS APPLIED

In applying Ind AS 116 for the first time, the Company has used the following practical expedients

- Relying on previous assessments on whether leases are onerous as an alternative to performing an impairment review – there were no onerous contracts as at 1st April, 2019.
- Accounting for operating leases with a remaining lease term of less than 12 months as at 1st April, 2019 as short-term leases.
- Using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

COMPANY AS LESSOR

The Company has entered into operating leases on its Investment Property, Portfolio consisting of certain office and manufacturing buildings. These leases have terms of between five and 20 years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions.

For future minimum rentals receivable under non-cancellable operating leases as at 31st March, 2020 refer Note 4B

Note -35

FAIR VALUE HIERARCHY

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(All amounts in ₹ unless stated otherwise)

Financial assets and liabilities measured at fair value - recurring fair value measurements as on March 31, 2020	Note Reference	Level 1	Level 2	Level 3	Total
Financial Assets					
Investments	5	3,38,45,589	-	-	3,38,45,589
Investments property	4C	-	-	1,01,80,16,173	1,01,80,16,173

(All amounts in ₹ unless stated otherwise)

Financial assets and liabilities measured at fair value - recurring fair value measurements as on March 31, 2019	Note Reference	Level 1	Level 2	Level 3	Total
Financial Assets					
Investments	5	5,95,93,875	-	-	5,95,93,875
Investments property	4C	-	-	1,76,24,68,587	1,76,24,68,587

The fair value of financial instruments as referred to in note above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The Company's policy is to recognize transfers into and transfer out of fair value hierarchy levels as at the end of the reporting period.

Note -36

FINANCIAL RISK MANAGEMENT

The Company's businesses are subject to several risks and uncertainties including financial risks. The Company's documented risk management policies, act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

36.1 MARKET RISK

The Company's size and operations result in its being exposed to the following market risks that arise from its use of financial instruments:

Price Risk;

Interest Rate Risk

The above risks may affect the Company's income and expenses, or the value of its financial instruments. The Company's exposure to and management of these risks are explained below.

36.1.1.PRICE RISK - POTENTIAL IMPACT OF RISK & MANAGEMENT POLICY

The Company is mainly exposed to the price risk due to its investment in Equity Shares & Mutual Funds. The price risk arises due to uncertainties about the future market values of these investments.

The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in Equity Shares & Mutual Funds.

The majority of investments of the Company are publicly traded and listed in BSE Index. Carrying amounts of the Company's investment in Equity Shares at the end of the reporting period are given in Note No. 5.

Notes to Standalone Financial Statements

36.1.2. PRICE RISK - SENSITIVITY TO RISK

The following tables demonstrate the sensitivity to a reasonably possible change in equity index where investments of the Company are listed. The impact on the company profit before tax is due to changes in the BSE Index.

(All amounts in ₹ unless stated otherwise)

PARTICULARS	IMPACT ON PROFIT AFTER TAX		IMPACT ON OTHER COMPONENTS OF EQUITY AFTER TAX	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019

BSE Index Decrease by 5%	(16,84,691)	(29,67,790)	(7,589)	(11,903)

36.1.3. INTEREST RATE RISK - POTENTIAL IMPACT OF RISK & MANAGEMENT POLICY

The Company is mainly exposed to the interest rate risk due to its investment in term deposits with banks. The Company invests in term deposits for a period of up to one year. Considering the short-term nature, there is no significant interest rate risk pertaining to these deposits.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates and term deposits. The Company's fixed rate borrowings and deposits are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate of borrowings.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(All amounts in ₹ unless stated otherwise)

PARTICULARS	As at March 31, 2020	As at March 31, 2019

Fixed rate borrowings	-	13,82,757
Total borrowings	4,38,92,891	4,24,11,445

36.1.4. INTEREST RATE RISK – SENSITIVITY

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

(All amounts in ₹ unless stated otherwise)

Interest Rate – Increase/ Decrease by 50 basis point (50 bps)	19,212	13,676	(19,212)	(13,676)

36.2. CREDIT RISK

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company is exposed to credit risk from its operating activities (primarily trade receivables and also from its investing activities including deposits with banks and cash and cash equivalents).

In respect of its investments, the Company aims to minimize its financial credit risk through the application of risk management policies. Credit limits are set based on a counterparty value. The methodology used to set the list of counterparty limits includes, counterparty Credit Ratings (CR) and sector exposure. Evolution of counterparties is monitored regularly, taking into consideration CR and sector exposure evolution. As a result of this review, changes on credit limits and risk allocation are carried out.

For financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by international credit-rating agencies. Defined limits are in place for exposure to individual counterparties in case of mutual funds schemes and bonds. The carrying value of the financial assets other than cash represents the maximum credit exposure.

Notes to Standalone Financial Statements

None of the Company's cash equivalents, including flexi deposits with banks, are past due or impaired.

Trade receivables are subject to credit limits, controls & approval processes. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. The credit quality of the Company's customers is monitored on an ongoing basis and assessed for impairment where indicators of such impairment exist. Due to large geographical base & number of customers, the Company is not exposed to material concentration of credit risk. Basis the historical experience, the risk of default in case of trade receivable is low. Provision is made for doubtful receivables on individual basis depending on the customer ageing, customer category, specific credit circumstances & the historical experience of the group. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Where receivables are impaired, the Company actively seeks to recover the amounts in question and enforce compliance with credit terms.

The Company assesses and manages credit risk of Financial Assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of Financial Assets.

36.3. LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2020 and 31st March, 2019.

Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

Note -37**CAPITAL MANAGEMENT****37.1. RISK MANAGEMENT**

Capital management is driven by Company's policy to maintain a sound capital base to support the continued development of its business. The Board of Directors seeks to maintain a prudent balance between different components of the Company's capital. The Management monitors the capital structure and the net financial debt at individual currency level. Net financial debt is defined as current and non-current financial liabilities less cash and cash equivalents and short term investments.

The Company monitors capital using gearing ratio, which is net debt divided by total capital. The Company's policy is to keep the Gearing Ratio within 30%.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the Director's Report, Management Discussion and Analysis and Corporate Governance Report but does not include the Consolidated Financial Statements and our auditor's report thereon.

The Director's Report, Management Discussion and Analysis and Corporate Governance Report are expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above, when it becomes available, and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the director's Report, Management Discussion and Analysis and Corporate Governance Report, if we conclude, that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial

performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Company including its Associates in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the company and of its Associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company, its Associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the Company, its Associates are responsible for assessing the ability of the Company, its Associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Company and its Associates are responsible for overseeing the financial reporting process of the Company and its Associates.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability and its Associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its Associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the business activities within the Company and its associates to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by the other auditor, such other auditor remains responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- (a) The Consolidated Financial Statements also include the Company's share of net profit/loss of ₹ NIL for the year ended 31st March, 2020, as considered in the Consolidated Financial Statements, in respect of an associate, whose financial statements / financial information have not been audited by us. ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT**Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended 31st March, 2020, we have audited the internal financial controls over financial reporting of The Motor & General Finance Limited (hereinafter referred to as “Company”) and its associate companies as of that date.

Management’s Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Company, associate companies is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

3. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company and associate companies internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion to the best of our information and according to the explanations given to us, the Company and its associate companies have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial

controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Other Matter

9. Our aforesaid report under Section 143(3) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 2 associate companies, is based on the corresponding reports of the auditors of such companies. Our opinion is not qualified in respect of this matter.

Summary of Significant Accounting Policies and other Explanatory Statements of Consolidated Financial Statements for the year ended March 31, 2020

NOTE – 1

SIGNIFICANT ACCOUNTING POLICIES

1.1 COMPANY OVERVIEW

The Motor & General Finance Limited (referred to as “MGF” or “the Company”) was incorporated under the laws of the Republic of India with its registered office at MGF House, 4/17-B, Asaf Ali Road, New Delhi-110002, is the flagship Company of MGF Group, Incorporated in 1930, MGF was one of the oldest finance companies of India. The Company is engaged in the single primary business of “Lease/Renting of Immovable Property”, and has only one reportable segment.

1.2 GENERAL INFORMATION AND STATEMENT OF COMPLIANCE WITH IND AS

The Company is headquartered in New Delhi, India. The shares of the Company are listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE).

The Consolidated Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards (IND AS) notified under Companies (Indian Accounting Standards) Rules, 2015.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:

- I. Certain Financial Assets and Financial Liabilities and Contingent Consideration that are measured at fair value
- II. Assets held for sale measured at lower of cost or fair value less cost to sell
- III. Defined benefit plan assets measured at fair value

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services at the date of respective transactions.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

All amounts are stated in ₹. All amounts disclosed in the financial statement and notes have been rounded off to the nearest ₹, unless otherwise stated.

The Consolidated Financial Statements for the year ended 31st March, 2020 were authorized and approved for issue by the Board of Directors of Company on 29th June, 2020.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Consolidated Financial Statements have been prepared using the Accounting Policies and measurement basis summarized below.

2.1 BASIS OF CONSOLIDATION

2.1.1 BASIS OF ACCOUNTING

- i. The Financial Statements of the Associates in the consideration are drawn up to the same reporting date as of the Company for the purpose of consolidation.
- ii. The Consolidated Financial Statements have been prepared in accordance with Indian Accounting Standard (Ind AS) 110 – ‘Consolidated Financial Statements’ and Indian Accounting Standard (Ind AS) 28 – ‘Investments in Associates and Joint Ventures’ specified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

2.1.2 PRINCIPLES OF CONSOLIDATION

The Consolidated Financial Statements comprise the financial statements of the Company and its Associates as at 31st March, 2020.

An Associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Consolidated Financial Statements have been prepared as per the following principles:

- i. The results, assets and liabilities of associates are incorporated in the consolidated financial statements using equity method of accounting after making necessary adjustments to achieve uniformity in application of accounting policies, wherever applicable. An investment in Associate is initially recognised at cost and adjusted thereafter to recognise the Company’s share of profit or loss and Other Comprehensive Income of the Associate.
- ii. Gain or loss in respect of changes in Other Equity of Associates resulting in dilution of stake in the Associates is recognised

in the Statement of Profit and Loss. On acquisition of investment in an Associate, any excess of cost of investment over the fair value of the assets and liabilities of the joint venture, is recognised as goodwill and is included in the carrying value of the investment in the associate. The excess of fair value of assets and liabilities over the investment is recognised directly in equity as capital reserve. The unrealised profits/ losses on transactions with associates are eliminated by reducing the carrying amount of investment.

- iii. The carrying amount of investment in Associates is reduced to recognise impairment, if any, when there is objective evidence of impairment.
- iv. When the Company's share of losses of an associate exceeds the Company's interest in that Associate (which includes any long term interests that, in substance, form part of the Company's net investment in the Associate), the Company discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

2.2 PROPERTY, PLANT AND EQUIPMENT

2.2.1 RECOGNITION

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost, less accumulated depreciation/amortized and impairments, if any. Historical cost includes taxes, duties, freight and other incidental expenses related to acquisition & installation.

2.2.2 SUBSEQUENT MEASUREMENT

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

All other repairs & maintenance are charged to profit or loss.

2.2.3 DEPRECIATION

Depreciation on Property, Plant and Equipment is charged on straight line method based on useful life prescribed under Part C of Schedule II of the Companies Act, 2013.

The following useful lives are applied:

Asset category	Estimated useful life (in years)
Land	
- Lease Hold (Finance Lease)	Over the Lease period
- Perpetual Lease	Treated as free hold land due to perpetuity
Buildings	
- Building	55 – 80 Years
- Leasehold Building	Over the Lease Period
Furniture and Fittings	10 Years
Motor Vehicles	
- Hire Purchase & Owned	08 - 10 Years
Office Equipment & Electrical Installations	05 - 15 Years
Computers	
- End user devices viz. desktops, laptops, etc.	03 Years

Leasehold land is amortised on a straight line basis over the unexpired period of their respective lease. Leasehold improvements are depreciated on straight line basis over their initial agreement period. Premium paid on land where lease agreements have been executed for specified period are written off over the period of lease proportionately.

Property, Plant and Equipment individually costing upto ₹ 10,000 are fully depreciated in the year of acquisition.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.2.4 DE-RECOGNITION

An item of Property, Plant and Equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss account when the asset is derecognised.

2.3 INVESTMENT PROPERTIES

2.3.1 RECOGNITION

Property (land or a building-or part of a building-or both) that is held (by the owner or by the lessee under a finance lease) for long term rental yields or for capital appreciation or both is recognized as Investment Property, except

- i. Use in the production or supply of goods or services or for administrative purposes; or
- ii. Sale in the ordinary course of business:

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs.

2.3.2 SUBSEQUENT MEASUREMENT

Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

2.3.3 DEPRECIATION

Depreciation is provided on all Investment Property on straight line basis, based on useful life of the assets determined in accordance with depreciation on Property Plant & Equipment's as above. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes.

2.3.4 DE-RECOGNITION

An investment property is derecognised (eliminated from the balance sheet) on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal.

An investment property is also derecognised when property is transferred to owner-occupied property; or commencement of development with a view to sale, or transfer to inventories.

2.4 IMPAIRMENT OF NON FINANCIAL ASSETS

Carrying amount of assets is reviewed at each reporting date where there is any indication of impairment based on internal/ external indicators. An impairment loss is recognised in the Statement of Profit and Loss where carrying amount exceeds recoverable amount of assets. Impairment loss is reversed, if, there is change in recoverable amount and such loss either no longer exists or has decreased or indication on which impairment was recognised no longer exists.

2.5 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.5.1 FINANCIAL ASSETS

2.5.1.1 INITIAL RECOGNITION AND MEASUREMENT

Financial Assets are recognised when the Company becomes a party to the contractual provisions of the Financial Instrument and are measured initially at fair value adjusted for transaction costs that are attributable to the acquisition of the financial asset.

2.5.1.2 SUBSEQUENT MEASUREMENT

Debt Instruments at Amortised Cost– A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such Financial Assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. All other debt instruments are measured at Fair Value through Other Comprehensive Income (FVOCI) or Fair Value through Profit and Loss (FVTPL) based on Company's business model.

- **Equity Investments** – All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at Fair Value through Profit and Loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through Other Comprehensive Income (FVOCI) or Fair Value through Profit and Loss (FVTPL) on an instrument to instrument basis.

- **Other Investments** – All Other Investments in scope of Ind-AS 109 are measured at Fair Value through Profit and Loss (FVTPL).

2.5.1.3 IMPAIRMENT OF FINANCIAL ASSETS

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets that are debt instruments, and are measured at amortised cost e.g., Loans, Debt Securities, Deposits and Trade Receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'Simplified Approach' for recognition of impairment loss allowance on trade receivables. The application of simplified recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

- **Financial Assets measured as at amortised cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- **Debt instruments measured at FVTPL:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. The change in fair value is taken to the statement of Profit and Loss.
- **Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'Accumulated Impairment Amount' in the OCI. The Company does not have any Purchased or Originated Credit Impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

2.5.1.4 DE-RECOGNITION OF FINANCIAL ASSETS

A financial asset (or, where applicable, a part of a financial asset or part of the Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'passthrough' arrangement~ and either
 - The Company has transferred substantially all the risks and rewards of the asset, or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

2.5.2 FINANCIAL LIABILITIES

2.5.2.1 INITIAL RECOGNITION AND MEASUREMENT

Financial liabilities are classified at initial recognition as financial liabilities at fair value through Profit or Loss, Loans and Borrowings, and Payables, net of directly attributable transaction costs. The Company's financial liabilities include Loans and Borrowings including Bank Overdraft, Security Deposit received against lease of building including investment properties and Other Payables.

All Financial Liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the Financial Liabilities is also adjusted. Financial Liabilities are classified as amortised cost.

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at Fair Value Through Statement of Profit And Loss** - Financial liabilities at Fair Value through statement of Profit and Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at Fair Value through statement of Profit and Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.
- Gains or losses on liabilities held for trading are recognised in the statement of profit and loss. Financial liabilities

designated upon initial recognition at fair value through statement of profit and loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. All other changes in fair value of such liability are recognised in the statement of profit and loss.

- iii. **Loans and Borrowings** - After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (hereinafter referred as EIR) method. Gains and Losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as Finance Costs in the statement of profit and loss.
- iv. **Security Deposit** - After initial recognition, interest free security deposits are subsequently measured at amortised cost using the Effective Interest Rate (hereinafter referred as EIR) method. The difference between carrying amount of the deposits and fair value is transferred as deferred income. The EIR amortisation is included as Finance Income in the statement of profit and loss.
- v. **Other Payables** - These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

2.5.2.2 SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, these liabilities are measured at Amortised Cost using the Effective Interest Rate (EIR) method.

2.5.2.3 DE-RECOGNITION OF FINANCIAL LIABILITIES

A Financial Liability is de-recognised when the obligation under the liability is discharged or cancelled or expired. Consequently write back of unsettled credit balances is done on the previous experience of Management and actual facts of each case and recognised in Other Income. When an existing Financial Liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

2.5.3 OFFSETTING OF FINANCIAL INSTRUMENTS

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.6 INVENTORIES

2.6.1 BASIS OF VALUATION

- i. **Stock in Trade - Project** are valued at lower of cost or net realisable value.

2.6.2 METHOD OF VALUATION

- i. Stock in Trade Project includes total amount of expenditure incurred upto the date of certificate of completion. Subsequent expenditure which relates to an item of capital nature is added into the cost of stock in trade.

2.7 TRADE RECEIVABLES

Trade receivables are amounts due from customers for services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

2.8 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash in hand, Balances in Bank Account, Remittance in Transit, Cheques in hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than 3 months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

2.9 TAXES

2.9.1 CURRENT INCOME TAX

Current Income Tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside Profit or Loss is recognised outside profit or loss (either in Other Comprehensive Income or in Equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.9.2 DEFERRED TAX

Deferred Income Taxes are calculated using Balance Sheet Approach, on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax expense for the year comprises of current tax and deferred tax.

2.9.3 INDIRECT TAX

Expenses and assets are recognised net of the amount of GST/ Service Tax paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- ii. When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.10 EQUITY AND RESERVES

- i. **Share Capital** represents the nominal value of shares that have been issued. Any transaction costs associated with the issuing of shares are deducted from retained earnings, net of any related income tax benefits.
- ii. **Other Components of Equity** includes Other Comprehensive Income (OCI) arising from actuarial gain or loss on re-measurement of defined benefit liability and return on plan assets and Net (loss)/gain on FVTOCI equity securities. The balance in OCI may be transferred from OCI to retained earnings when the asset is retired from use or disposed by the company.
- iii. **Retained Earnings** include all current and prior period retained profits.
- iv. **Revaluation Reserve:** When the value of fixed assets is written up in the books of account of a company on revaluation, a corresponding credit is given to the Revaluation Reserve. Such reserve represents the difference between the estimated present market values and the book values of the fixed assets. The balance in Revaluation Reserve will be transferred to retained earnings when the asset is retired from use or disposed by the company.

2.11 DIVIDEND PAYMENTS

Annual dividend distribution to shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable and corresponding tax on Dividend Distribution is recognised directly in equity.

2.12 REVENUE RECOGNITION

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, incentive schemes, if any, as per contracts with customers. Taxes collected from customers on behalf of Government are not treated as Revenue.

2.12.1 RENTAL INCOME

Rental income arising from lease on investment properties is accounted for on straight line basis over the period for which the investment property is given on rent.

2.13 INCOME RECOGNITION**2.13.1 INTEREST INCOME**

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all contractual terms of the financial instrument but does not consider the expected credit losses.

2.13.2 DIVIDEND INCOME

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.13.3 OTHER INCOME

Other claims including interest on outstanding are accounted for when there is virtual certainty of ultimate collection.

2.14 EXPENDITURE

Expenses are accounted on accrual basis.

2.15 EMPLOYEE BENEFIT SCHEMES**2.15.1 SHORT-TERM EMPLOYEE BENEFITS**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

2.15.2 COMPENSATED ABSENCES

Company provides for the encashment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment / availment. The liability is provided based on the number of days of unutilized leave at each Balance Sheet date on the basis of an independent actuarial valuation.

2.15.3 GRATUITY

Liabilities with regard to the gratuity benefits payable in future are determined by actuarial valuation at each Balance Sheet date using the Projected Unit Credit method. Gratuity is unfunded.

Actuarial gains and losses arising from changes in actuarial assumptions are recognized in Other Comprehensive Income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

2.15.4 PROVIDENT FUND

Eligible employees of the Company receive benefits from a Provident Fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary.

2.16 FUNCTIONAL AND PRESENTATION CURRENCY

The Standalone Financial Statements are presented in Indian Rupee (₹), which is Company's functional Currency and presentation currency.

2.17 LEASES

The company has applied Ind AS 116 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under Ind AS 17.

2.17.1 COMPANY AS A LESSEE

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

SHORT-TERM LEASES AND LEASES OF LOW-VALUE ASSETS

The company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of real estate properties that have a lease term of 12 months. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

2.17.2 COMPANY AS A LESSOR

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

2.18 EARNINGS PER SHARE

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares.

- i. **Basic EPS** is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.
- ii. **Diluted EPS** is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

2.19 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

2.19.1 PROVISIONS

Provisions represent liabilities to the Company for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost.

2.19.2 CONTINGENT LIABILITIES

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management of the Company has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

2.19.3 CONTINGENT ASSETS

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

2.20 CASH FLOW STATEMENT

Cash flows are reported using indirect method as set out in Ind AS -7 "Statement of Cash Flows", whereby profit/ (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.21 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting to the Chief Operating Decision Maker "CODM" of the Company.

2.22 CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Company presents assets and liabilities in statement of financial position based on current/non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

- i. An asset is classified as current when it is:
 - a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
 - b) Held primarily for the purpose of trading,
 - c) Expected to be realised within twelve months after the reporting period, or
 - d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- ii. All other assets are classified as non-current.
- iii. A liability is classified as current when it is:
 - a) Expected to be settled in normal operating cycle,
 - b) Held primarily for the purpose of trading,
 - c) Due to be settled within twelve months after the reporting period, or
 - d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- iv. All other liabilities are classified as non-current.
- v. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.
- vi. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.23 FAIR VALUE MEASUREMENT

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

Other Fair Value related disclosures are given in the relevant notes.

2.24 EXCEPTIONAL ITEMS

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments of subsidiaries, associate and joint ventures and impairment losses/ write down in the value of investment in subsidiaries, associates and joint ventures and significant disposal of fixed assets.

2.25 SIGNIFICANT MANAGEMENT JUDGEMENT IN APPLYING ACCOUNTING POLICIES AND ESTIMATION UNCERTAINTY

The preparation of Standalone Financial Statements requires management to make estimates and assumptions that affect the reported balances of assets, liabilities and disclosure of contingent liabilities at the date of the financial statements and reported amounts of income & expenses during the periods. Although these estimates and assumptions used in accompanying Companying financial statements are based upon management's evaluation of relevant facts and circumstances as of date of financial statements which in management's opinion are prudent and reasonable, actual results may differ from estimates and assumptions used in preparing accompanying Companying financial statements. Any revision to accounting estimates is recognized prospectively from the period in which results are known/ materialise in accordance with applicable Indian accounting standards.

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below.

2.26 SIGNIFICANT MANAGEMENT JUDGEMENTS

The following are Significant Management Judgements in applying the Accounting Policies of the Company that have the most significant effect on the Financial Statements.

2.26.1 EVALUATION OF INDICATORS FOR IMPAIRMENT OF ASSETS

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

2.26.2 EVALUATION OF LEASE OF LAND AS FINANCE LEASE OR OPERATING LEASE

One important consideration for evaluating lease of land is that land has an indefinite economic life and it is expected that the value of land generally appreciates. Where in substance there is no transfer of risks and rewards, it should be considered as an operating lease. Some of the indicators to consider in the overall context of whether there is transfer of risks and rewards incidental to ownership include the lessee's ability to renew lease for another term at substantially below market rent, lessee's option to purchase at price significantly below fair value etc.

Accordingly, classification as operating or finance lease requires exercise of judgement based on evaluation of facts and circumstances in each case, while considering the indicators envisaged as above.

2.27 ESTIMATION UNCERTAINTY

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below.

2.27.1 REVENUE RECOGNITION

Where revenue contracts include deferred payment terms, the management of Company determines the fair value of consideration receivable using the expected collection period and interest rate applicable to similar instruments with a similar credit rating prevailing at the date of transaction.

2.27.2 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENT

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using various valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as Liquidity Risk, Credit Risk and Volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.27.3 IMPAIRMENT OF FINANCIAL ASSETS

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

2.27.4 RECOVERABILITY OF ADVANCES/ RECEIVABLES

The Company from time to time review the recoverability of advances and receivables. The review is done at least once in a financial year and such assessment requires significant management judgement based on financial position of the counter-parties, market information and other relevant factors.

2.27.5 INCOME TAXES

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

2.27.6 PROVISIONS AND CONTINGENCIES

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

2.27.7 DEFINED BENEFIT OBLIGATION (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may impact the DBO amount and the annual defined benefit expenses.

2.27.8 ESTIMATION OF UNCERTAINTIES RELATING TO THE GLOBAL HEALTH PANDEMIC FROM COVID-19

In view of the unprecedented COVID-19 pandemic and economic forecasts, the Management has evaluated the impact on its financial results for the current quarter and made appropriate adjustment to revenue, debtors provisioning and actuarial assumptions. In assessing the recoverability of its assets including receivables and inventories, the Company has considered internal and external information up to the date of approval of these financial statements including economic forecasts. The Company has performed analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

Note -16A**CAPITAL RESERVE**

The reserve was created on merger of companies under common control.

SECURITIES PREMIUM

The amount received in excess of face value of the equity shares is recognised in Securities Premium Reserve. In case of equity-settled share based payment transactions, the difference between fair value on grant date and nominal value of share is accounted as securities premium reserve.

REVALUATION RESERVE

When the value of fixed assets is written up in the books of account of a company on revaluation, a corresponding credit is given to the Revaluation Reserve. Such reserve represents the difference between the estimated present market values and the book values of the fixed assets.

GENERAL RESERVE

General Reserve represents the statutory reserve, this is in accordance with Corporate law wherein a portion of profit is apportioned to general reserve. Under Companies Act, 1956 it was mandatory to transfer amount before a company can declared dividend, however under Companies Act, 2013 transfer of any amount to General Reserve is at the discretion of the Company.

RETAINED EARNINGS

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

OTHER COMPREHENSIVE INCOME

Other Comprehensive Income Reserve represents the balance in equity for items to be accounted in Other Comprehensive Income. OCI is classified into i). Items that will not be reclassified to profit and loss ii). Items that will be reclassified to profit and loss.

Risks Associated with Plan Provisions

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Company is exposed to various risks as follow:

Salary Risk	The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.
Interest Risk (Discount Rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability
Mortality Risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-14) ultimate table. A change in mortality rate will have a bearing on the plan's liability.

PRACTICAL EXPEDIENTS APPLIED

In applying Ind AS 116 for the first time, the Company has used the following practical expedients

- Relying on previous assessments on whether leases are onerous as an alternative to performing an impairment review – there were no onerous contracts as at 1st April, 2019.
- Accounting for operating leases with a remaining lease term of less than 12 months as at 1st April, 2019 as short-term leases.
- Using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

COMPANY AS LESSOR

The Company has entered into operating leases on its Investment Property, Portfolio consisting of certain office and manufacturing buildings. These leases have terms of between five and 20 years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions.

For future minimum rentals receivable under non-cancellable operating leases as at 31st March, 2020 refer Note 4B

FAIR VALUE HIERARCHY

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(All amounts in ₹ unless stated otherwise)

Financial assets and liabilities measured at fair value - recurring fair value measurements as on March 31, 2020	Note Reference	Level 1	Level 2	Level 3	Total
Financial Assets					
Investments	5	2,92,70,040	-	-	2,92,70,040
Investments property	4C	-	-	1,01,80,16,173	1,01,80,16,173

(All amounts in ₹ unless stated otherwise)

Financial assets and liabilities measured at fair value - recurring fair value measurements as on March 31, 2019	Note Reference	Level 1	Level 2	Level 3	Total
Financial Assets					
Investments	5	3,94,13,208	-	-	3,94,13,208
Investments property	4C	-	-	1,76,24,68,587	1,76,24,68,587

The fair value of financial instruments as referred to in note above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The Company's policy is to recognize transfers into and transfer out of fair value hierarchy levels as at the end of the reporting period.

FINANCIAL RISK MANAGEMENT

The Company's businesses are subject to several risks and uncertainties including financial risks. The Company's documented risk management policies, act as an effective tool in mitigating the various financial risks to which the business is exposed to in the course of their daily operations. The risk management policies cover areas such as liquidity risk, commodity price risk, foreign exchange risk, interest rate risk, counterparty and concentration of credit risk and capital management.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

36.1. MARKET RISK

The Company's size and operations result in its being exposed to the following market risks that arise from its use of financial instruments:

Price Risk;

Interest Rate Risk

The above risks may affect the Company's income and expenses, or the value of its financial instruments. The Company's exposure to and management of these risks are explained below.

36.1.1. PRICE RISK - POTENTIAL IMPACT OF RISK & MANAGEMENT POLICY

The Company is mainly exposed to the price risk due to its investment in Equity Shares & Mutual Funds. The price risk arises due to uncertainties about the future market values of these investments.

The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in Equity Shares & Mutual Funds.

The majority of investments of the Company are publicly traded and listed in BSE Index. Carrying amounts of the Company's investment in Equity Shares at the end of the reporting period are given in Note No. 5.

Notes to Consolidated Financial Statements

36.1.2. PRICE RISK - SENSITIVITY TO RISK

The following tables demonstrate the sensitivity to a reasonably possible change in equity index where investments of the Company are listed. The impact on the company profit before tax is due to changes in the BSE Index.

(All amounts in ₹ unless stated otherwise)

PARTICULARS	IMPACT ON PROFIT AFTER TAX		IMPACT ON OTHER COMPONENTS OF EQUITY AFTER TAX	
	As at March 31, 2020	As at March 31, 2019	As at March 31, 2020	As at March 31, 2019
BSE Index Increase by 5%	14,55,913	19,58,757	7,589	11,903
BSE Index Decrease by 5%	(14,55,913)	(19,58,757)	(7,589)	(11,903)

36.1.3. INTEREST RATE RISK - POTENTIAL IMPACT OF RISK & MANAGEMENT POLICY

The Company is mainly exposed to the interest rate risk due to its investment in term deposits with banks. The Company invests in term deposits for a period of up to one year. Considering the short-term nature, there is no significant interest rate risk pertaining to these deposits.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates and term deposits. The Company's fixed rate borrowings and deposits are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate of borrowings.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(All amounts in ₹ unless stated otherwise)

PARTICULARS	As at March 31, 2020	As at March 31, 2019

Fixed rate borrowings	-	13,82,757
Total borrowings	4,38,92,891	4,24,11,445

36.1.4. INTEREST RATE RISK – SENSITIVITY

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

(All amounts in ₹ unless stated otherwise)

Interest Rate – Increase/ Decrease by 50 basis point (50 bps)	19,212	13,676	(19,212)	(13,676)

36.2. CREDIT RISK

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company is exposed to credit risk from its operating activities (primarily trade receivables and also from its investing activities including deposits with banks and cash and cash equivalents).

In respect of its investments, the Company aims to minimize its financial credit risk through the application of risk management policies. Credit limits are set based on a counterparty value. The methodology used to set the list of counterparty limits includes, counterparty Credit Ratings (CR) and sector exposure. Evolution of counterparties is monitored regularly, taking into consideration CR and sector exposure evolution. As a result of this review, changes on credit limits and risk allocation are carried out.

For financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by international credit-rating agencies. Defined limits are in place for exposure to individual counterparties in case of mutual funds schemes and bonds. The carrying value of the financial assets other than cash represents the maximum credit exposure.

Notes to Consolidated Financial Statements

None of the Company's cash equivalents, including flexi deposits with banks, are past due or impaired.

Trade receivables are subject to credit limits, controls & approval processes. These terms and conditions are determined on a case to case basis with reference to the customer's credit quality and prevailing market conditions. The credit quality of the Company's customers is monitored on an ongoing basis and assessed for impairment where indicators of such impairment exist. Due to large geographical base & number of customers, the Company is not exposed to material concentration of credit risk. Basis the historical experience, the risk of default in case of trade receivable is low. Provision is made for doubtful receivables on individual basis depending on the customer ageing, customer category, specific credit circumstances & the historical experience of the group. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Where receivables are impaired, the Company actively seeks to recover the amounts in question and enforce compliance with credit terms.

The Company assesses and manages credit risk of Financial Assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of Financial Assets..

36.3. LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2020 and 31st March, 2019.

Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

Term Loan from Bank is secured by way of mortgage of one of company's properties and hypothecation of trade receivables including all present and future lease rentals and personal guarantee of two directors. The counterparties have an obligation to return the securities to Company. Bank Overdraft is secured by personal guarantee of one of the directors of the Company.

There are no other significant terms and conditions associated with the use of collateral.

Note -37**CAPITAL MANAGEMENT****37.1. RISK MANAGEMENT**

Capital management is driven by Company's policy to maintain a sound capital base to support the continued development of its business. The Board of Directors seeks to maintain a prudent balance between different components of the Company's capital. The Management monitors the capital structure and the net financial debt at individual currency level. Net financial debt is defined as current and non-current financial liabilities less cash and cash equivalents and short term investments.

The Company monitors capital using gearing ratio, which is net debt divided by total capital. The Company's policy is to keep the Gearing Ratio within 30%.
