Dear sir/Madam,

Izmo is pleased to announce that it has won a major multi-crore contract for its Part Velocity Web Platform and Android App from a leading European Automotive OEM. The product will be rolled out by the OEM to its network in more than 10 countries in Europe over the next 12 months. This is a very significant breakthrough for the company in the European market and is a result of the thrust which the company has placed on innovation and R&D in new product development in the last 3 years. We expect many more such contract wins in the next few months.

Thanking You,
For IZMO Ltd

Mr. Suraj Kumar Sahu
Company Secretary & Compliance Officer
