Dear Madam / Sir,

Subject: Intimation under Regulation 30 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015

In accordance with Regulation 30 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, this is to inform you that:

We, M/s. Aether Industries Limited, are keen about a sustainable and clean future for the future generations to come. Hence, we had planned to switch to Renewable Energy Resources by moving towards Solar Power (to meet the electricity requirements) via 'Solar Captive Power Project' of 16 MW.

The same has already been charged with respect to the CEIG Charging Approval received from Chief Electrical Inspector to Government dated 7th July, 2022. Also, the approval from the concerned Authority for power generation is received now.

For this the EPC Developer that we chose was M/s. KPI Green Energy Limited. The plant is located at Village: Sarod of Bharuch District in Gujarat, India.

Currently our two Manufacturing Facilities (Site I and Site II) will be benefited from the Solar Power Project and the Manufacturing Facility (Site III) will start benefiting from the same from day one of its inception.

We request you to kindly take the information on your records.

Thank you.

For Aether Industries Limited

Chitrarth Rajan Parghi
Company Secretary & Compliance Officer
