Dear Sir/ Madam,

Sub: Fire incident at our Puducherry facility

Further to our intimation to the stock exchanges on 5th November in which we communicated about a fire incident, the Company would like to provide additional updates .

The fire incident occurred at our Pondy facility in C Shift on 4th November 2023 around 9.30 pm.

Out of the 76 blocks, recovery block no-40 and Special Product Packing and warehouse block no-12 were impacted. The resultant fire caused injuries to 14 operators/ contract workers.

The company immediately swung into action and with the help of the Fire department and the support of the Pondy government officials, the fire was brought under control and the injured were shifted to hospitals in Chennai and Pondy.

The company is ensuring utmost care and support is provided to all our employees and contract workers and their families. Currently of the 14 injured, 4 are in critical care and undergoing treatment. The remaining are undergoing treatment and are expected to be discharged soon.

In terms of Business continuity, the facility manufactures Ibuprofen and with the recent approvals from regulators and certain key customers, we don't anticipate any impact on our business.

With regard to our Pondy facility, the major blocks manufacturing Ibuprofen are not impacted by the fire and we expect to commence production of affected blocks once we complete our assessment of the extent of the damages while seeking inputs and approvals to commence production from the local authorities.

We shall keep the exchanges informed of any further material developments.

Thanking you,
Yours faithfully,

For Solara Active Pharma Sciences Limited

S. Murali Krishna
Company Secretary
