14.8% growth in August **FE BUREAU** Mumbai, September 9 **NEW BUSINESS PREMIUMS** 

(NBP) of life insurers saw a growth of 14.79% in August at ₹27,039.79 crore, against ₹23,554.94 crore in the same month last year, led by a surge in the group single premium business. Categories such as individual single premiums and individual non-single premiums recorded a decline in August. According to Kotak Institu-

tional Equities, individual annualised premium equivalent (APE) declined 6% y-o-y for private players in the month under review, broadly similar to the past two months. "Staggered lockdowns disrupting physical channels, weakness in capital markets, focus on cash conservation and moderation in protection business post rate hikes dampened the pace of recovery," said the Kotak report. APE is the sum of annu-

alised first year premiums on regular premium policies and 10% of single premiums, written by insurance companies during any period from both

retail and group policyholders. The data from Insurance Regulatory and Development Authority of India (Irdai) show that private life insurers saw the growth of 13.74% in their NBP at ₹7,325.59 crore in August. The NBP for Life Insurance Corporation of India (LIC) stood at ₹19,714.21 crore, a rise of 15.19%.

Kotak in its report also said LIC's strong growth was likely driven by traction in endowment and annuity-based products. However, officials from insurance companies said lack of participation from individual investors can be a cause for concern for the industry. Irdai data show that the NBP of individual single-premium and individual non-single premi ums delivered negative growth of 9.74% and 1.33%, respectively, in August.

"In August, growth came due to the group single premium business, while individual investors are still staying away. We expect the individual business to pick up in the months to come as situation improves on the economic as well as on the pandemic fronts," said an industry official.

Private life insurers saw the NBP for individual single premium at ₹1,097.79 crore, a growth of 59.52% against the same period last year. However, LIC saw its NBP for individual single premium down by 17.02% at ₹5,429.57 crore in August, compared to ₹6,543.35 crore in the year-ago period.

The company invested huge resources in developing technology, infrastructure, marketing, promotions, business process and fulfillment services over the last three years in order to expand its retail network and customer base. Since it is an innovative process of Retailing where the company orchestrates 3rd party physical retail stores with virtual inventory, the business model requires continuous investments till it reaches the breakeven point and turns profitable.

In March 2017, the company had been classified into the Graded Surveillance Measure (GSM) list by BSE. The criteria for classifying the company into GSM was not very clear to us. The impact of classifying company in GSM by BSE had led to trade restrictions and a complete 'roadblock' in terms of raising additional capital from new investors. Thus new fund raising had became an extremely challenging and a daunting task. Consequent to classifying into GSM and failing in raising fresh capital for Internet Retail business, the company has suspended its Internet Retail operation wer 1st April, 2017.
