# Coromandel to set up Rs. 1,000 cr phosphoric, sulphuric acid plants

Chennai, Apr 30: Coromandel International Limited, India's leading agri solutions provider, has commenced the project activity to set up its Phosphoric Acid-Sulphuric Acid complex facility at Kakinada, Andhra Pradesh. In an event organised on 26 April 2024, Company's Executive Chairman, Mr. Arun Alagappan, was present for the groundbreaking ceremony and S. With an estimated outlay of Rs 1000 crores, the project is expected to be commissioned in two years' time.

The proposed 650 ton per day (tpd) Phosphoric Acid facility is designed with advanced DA-HF (Dihydrate Attack-Hemihydrate Filtration) process technology and automated DCS system. This will enhance Company's backward integration capacities and provide stable supplies

of phosphoric acid for its fertiliser manufacturing by replacing more than 50% of Kakinada plant's imported acid requirement. The Company also plans to set up an 1800 tpd Sulphuric Acid Plant to meet the captive needs in phosphoric acid manufacturing besides augmenting power from the waste heat generation. Phosphoric acid and Sulphuric acid are used as key intermediates for manufacturing Phosphatic fertilizers like DAP and NPKs.

Arun Alagappan, Executive Chairman, Coromandel International Limited stated, "This investment signifies a pivotal moment in Coromandel's journey towards strengthening its self-sufficiency goals in fertiliser manufacturing. Over the past few years, we have been building our upstream supply chain with investments in mining project and creating intermediate products' capacity at Visakhapatnam for Phosphoric and Sulphuric acid. The

proposed Plant in Kakinada will be built on par with the best technology standards globally and enable stable supplies of phosphatic fertilizers to the farming community. This is in line with Government's vision of "Atma Nirbhar" Bharat in fertiliser sector besides creating employment opportunities in the state of Andhra Pradesh."

During the event, Coromandel signed contracts with technology partners M/s Prayon, Belgium for DA-HF process technology for Phosphoric Acid manufacturing and with M/s MECS, USA for DCDA process technology for Sulphuric Acid manufacturing.
