The Company has declared First Interim Dividend for FY24 of Rs. 1.25 per share.

Prem Kishan Gupta, Chairman and Managing Director, commented, "Train running was impacted this quarter by the Biparjoy cyclone when the rail network & port operations were shut for some time in Gujarat, along with some double stack restrictions imposed temporarily by Indian Railways during the quarter as well. However, the volumes have been catching up and we are starting to see signs of improvement in the Export volumes as well which have been low in the last few quarters due to lesser demand in Western Europe and North America, especially for retail products manufactured in India for those markets. As the overall EXIM demand continues to grow, we are now adding three trains to our fleet over the next 6 months. On the expansion front, we are also on track to finalise new locations in the hinterland to expand our container terminal network."
