## Jet Freight to create employment opportunity of 100 logistics professional across India.

**Mumbai:** Jet Freight, a multimodal logistics service provider, accelerates its growth by announcing the employment generation of 100 skilled logistics professional as a strategic plan for expanding the business vertical. The jobs offered are in operations, sales, and pricing profiles. This is an excellent opportunity for those looking for a logistics career.

Jet Freight is also expanding its wings to new regions in the country like Goa, Lucknow, and Jaipur, apart from its existing presence in 13 cities across country, as they are experiencing high demand for its services from these regions.

With the new team coming in, Jet Freight plans to adapt for best employee policy, flexible development opportunities and workplace diversity, brand equity, and inclusion focus will be at the forefront in hiring and retaining strategy. The new team will be responsible for an influx in demand for logistics solutions and the Company's best offerings in their respective region.

Dax Theknath, Executive Director of Jet Freight, states, " We have announced Mission Excel transformation strategy accelerating 5-fold business growth within 5 years and employment generation is one of the key decisions we are making to achieve what we aspire for. We believe in offering quality logistical advice and services, and a suitable team set will make it happen."

### **About JFLL:**

Established in 1986 with a vision to be the front-runner in the logistics industry, JFLL is one of the Indian listed freight forwarders offering multimodal logistics solutions. JFLL is servicing over 150 nations via multimodal transport, committing to last-mile delivery carrying over 250 tonnes daily for export and import. Their infrastructure is well-equipped with advanced technological enhancements to handle sensitive daily shipments under tight schedules. They have a strong presence in 10+ cities in India and branches in Dubai and Netherlands, having state-of-art technology supporting round-the-clock operational processes for enhanced efficiency and quicker response rates.
