Dear Sir,

**Scrip Code: 540614**  
**BSE Scrip ID: GGENG**

**Sub: Intimation under Regulation 30 of the SEBI (LODR) Regulations, 2015,**  
**G G Engineering expands its product line by launching "Sanitizing Tunnel and Automatic Sanitizer dispenser or Touchless Hand sanitizer"**

G G Engineering Limited with a view to increase its product line has commenced manufacturing of **Sanitizing Tunnel also** known as Sanitizing Chamber **and Automatic Sanitizer dispenser or Touchless Hand sanitizer"** for the purpose to sanitize the entrants of the premises like hospitals, department stores, apartment buildings e.t.c. The product be completely "Made in India" and automatic software.

The entire world has been fighting the Corona Pandemic for the last 4 months and unfortunately, its still continue. A primary reason that the Coronavirus is spreading so rapidly is its ability to transmit from one person to other through surface & body contact which has caused the second and third infection to spread so vigorously. An important measure to contain Corona is to understand and control the level of infection spread from a healthcare point of and also from an organizational point of view. In order to contain the spread, it is essential to keep all buildings, public places, religious places, etc., hygienic and sanitized. Corona can survive and spread from a contaminated garment or accessory that a person may be wearing and be the cause of infection for that person and many others in his/her close proximity and the company expects to carve a niche in the segment.

Please take it on your record and oblige us.
