'Demand for housing largely inelastic'

Housing Development Finance Corporation (HDFC) is in the process of merging with HDFC Bank. Keki Mistry, vice-chairman and CEO, HDFC, tells Ghosh Joydeep between 2017 and mid-2020, housing demand was largely from Tier-2 and Tier-3 cities. However, proactive measures taken by states such as reduction in stamp duty have helped improve demand from Tier-1 cities. Edited

There has been a good demand for housing loans. With interest rates on an upswing and growth slowdown, can this demand sustain?

excerpts:

I believe that you will always see a long-term structural demand for housing due to factors such as improved affordability, favourable demographics, increasing urbanisation and

rising aspirations. Currently, 66% of our population is under the age of 35 years. That means the average age of a first-time home buyer in India is about 38 years. So, two-thirds of the population has still not contemplated buying a home yet. In the coming years, they will get to an age when they will necessarily have to buy a home.

Demand for housing has huge employment creator, sev-

been relatively inelastic even in a higher interest rate environment due to two main reasons. One, it is the single largest long-term investment a person does in his or her life. If the

property is liked by the family and is affordable, most people would buy it, irrespective of the interest rates.

Two, these loans are typically long-term loans with an average of about 15 years. In India, most opt for a floating rate loan so they get the benefit of falling rates and vice-versa. So, it makes much lesser difference from an economic standpoint in a long-term loan compared with a short-term loan.

In the post-Covid environment, has there been any change in the housing demand? For example: has the demand risen in Tier-2 and Tier-3 cities vis a vis Tier-1cities?

The housing demand from Tier-2 and Tier-3 cities has always been strong. In fact, during the period 2017 to mid-2020, the demand was largely from the Tier 2 and Tier 3 towns, while the demand for housing from the more affluent parts of the major metro cities was somewhat subdued.

For instance, if you finance a project in Mumbai or Delhi, it will typically take between three-five years to complete the project depending on the size of the project.

While the HDFC-HDFC Bank merger has received almost all clearances, what the timeline for

completing it? Our best estimate at this point is that the merger process should be completed by June 2023.

> Do you think the relevance of large NBFCs is over with the regula

tory arbitrage benefits gone? What can some of the large

NBFCs do as most of them are owned by corporate houses that are not allowed to enter

banking? In my opinion, Our best estimate at NBFCs often cater this point is that to segments that the merger process banks are unable (of HDFC and to cater to. tion finance loans have a longer unique to that customer base, and hence, can better manage risks while simultaneously driving growth in that sector.

Many unbanked borrowers avail credit from NBFCs and later use their track record to become bankable borrowers. NBFCs, in effect, play the role of intermediaries — particularly in the small-scale and retail sectors.

The financial needs of the Indian economy are diverse and cannot be fulfilled by the banking sector alone. For instance, in India, the consumer credit to GDP ratio stands at 18% — among the lowest in the world for a large economy. In comparison, consumer credit to GDP is 80% in the US and 40% in China. So, the scope to grow and the needs are immense.

Adani port: 80 injured as protesters, police clash

MORE THAN 80 people were wounded as villagers protesting to halt construction of the \$900-million Vizhinjam port project by Adani Group clashed with the police in Kerala.

The protests, by a mostly Christian fishing community against the project led by billionaire Gautam Adani's \$23-billion ports business, have forced the latter to stop work on the port, seen as a potential and lucrative rival to those in Dubai, Singapore and Sri Lanka.

Building has been halted for over three months after villagers blamed the port's development for coastal erosion and depriving them of their livelihood. They have blocked the entrance to the site by erecting a 1,200-square-foot shelter. Over the weekend, police arrested some protesters who blocked Adani's construction vehicles from entering the port, despite a court order for

work to resume. The arrests prompted hundreds of protesters, led by Catholic priests, to march to the police station late on Sunday night, leading to clashes with personnel and leaving police vehicles damaged, according to a police document and footage on local television.— **REUTERS**

Trai to crack down on spam calls

JATIN GROVER

New Delhi, November 28

THE TELECOM REGULA-**TORY** Authority of India (Trai) on Monday said it is taking necessary steps such as implementation of artificial intelligence (AI), machine learning technology and spam detect system to control unwanted calls and messages from unregistered telemarketers.

The statement from the telecom regulator follows complaints from people regarding Unsolicited Commercial Communication (UCC) or spam messages and calls from unregistered telemarketers, which are a major source of inconvenience for the public and affect the privacy of individuals.

Since these unwanted calls and messages become grounds for financial frauds, Trai, along with RBI, Sebi and the ministry of consumer affairs will also frame a joint action plan to curb such frauds.

A recent survey by community social media platform LocalCircles showed that six in 10 people have reported personal data breach by their loan service providers, while four in 10 people have pointed fingers towards insurance

providers or banks.

In August, minister of state for finance Bhagwat Karad told Parliament that private and public banks have reported data frauds amounting to ₹6,861 crore in the April-June quarter.

According to Trai, the implementation of a Distributed Ledger Technology (DLT) in 2019 that requires registration from telemarketers before sending promotional content to consumers has resulted in substantial reduction of customer complaints.

"There are about 250,000 principal entities registered with more than 600,000

headers and approximately 55,00,000 (5.5 million) approved message templates which are being pushed to consumers through registered telemarketers & TSPs (telecom service providers) using DLT platforms. This has resulted in substantial reduction of customer complaints to the extent of 60% for registered telemarketers," Trai said in its

The issue also assumes significance in light of the government's efforts to protect personal data breach with the personal data protection Act, the draft for which is currently in public consultation.

What do current data say about declining unemployment?

THE DATA ON unemployment and employment continues to give a mixed picture, and varies depending on the indicator considered. As a thumb rule, at a time when the economy has been on the recovery path post the Covid-19 pandemic,

more jobs are likely to have been created. The finance ministry, in its Monthly Economic Report, has said recovery in economic activities across sectors has improved the overall employment situation, citing data from the PLFS, EPFO payroll data, Naukri Job Speak Index,

Employment generation indicators ORIGINALLY, THE NSSO

conducted quinquennial employment surveys. The PLFS is now conducted by the MoSPI to estimate the key employment indicators at an interval of three months for urban areas only, in the Current Weekly Status. An annual report is also released. The Labour Bureau conducts quarterly surveys in nine sectors of the non-farm economy. Of late, the EPFO has begun sharing monthly data on new subscribers, a proxy for the number of formal sector jobs created.

A more frequent barometer is CMIE's Unemployment Rate, computed on a monthly as well as a daily basis (30-day moving average). It provides data for both rural and urban areas. Other private agencies such as PMI and recruitment firms also give such data through their surveys, using different methodologies.

RBI also refers to the of the Economy.

> the Covid-19 pandemic. The situation in the rural areas, however, is not clear. Also, these surveys don't capture the picture in the gig economy where jobs are created but the nature of employment is not always the

and PMI, as well as the demand

for work under the MGNREGS. However, the all-India unemployment rate of the CMIE is up, at 7.77% in October, from 6.43% in September. On the whole, there seems to have been a recovery, but perhaps a patchy one, with job creation in the

formal or organised sector post same as formal employment.

Recalibration likely for central schemes

Niti Aayog, PMEAC jointly reviewing

PRASANTA SAHU New Delhi, November 28

IN ORDER TO reduce unnecessary expenditure, the Niti Aayog and the Economic Advisory Council to the Prime Minister are jointly reviewing all central sector and centrally-sponsored schemes, which account for 40-50% of the annual Budget.

There are about 740 central sector schemes (CS) and centrally-sponsored schemes (CSS), which accounted for ₹16.2 trillion or 41% of the FY23 Budget of ₹39.4 trillion.

The government wants to cut down the number of schemes, merge them or set sunset clauses to stop running them indefinitely.

"Many schemes overlap. Most of the schemes do not have a sunset clause and their outcomes can't be measured easily," a senior official told *FE*.

For example, the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) was rolled out in April 2020 for three months to give succour to people after Covid-19 broke out. It was later extended till November end of 2020.

The scheme was re-introduced in May 2021 in the wake of the second wave of the pandemic and then got extended till FY22 end.

Even though the distress level has come down, the scheme was extended till December of FY23 at a cost of over ₹1.2 trillion, given assembly elections in many

"There was no need to launch a separate scheme (PMGKAY) as it is often politically difficult to roll back schemes. The extra benefits could have been simply extended to the NFSA beneficiaries for a desirable period," the official said.

Concerns arise because even after some recent consolidation, specific-purpose transfers have been channelled through a large number of discretionary cost-

Rise in output, storage keep onion prices stable

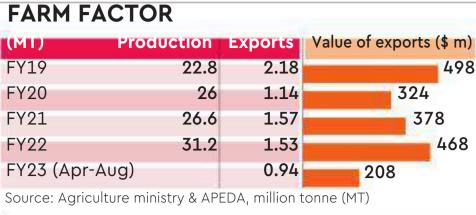

SANDIP DAS New Delhi, November 28

ONION PRICES HAVE remained stable in the last two years due to the rise in onion production and an improvement in storage facilities at the farmers' level.

The usual seasonal spike in prices of onion, a political hot potato, especially during October-November, has not been witnessed in the past two years as there have been adequate supplies.

"Storage of rabi onion at the farm level has improved in the last two years and output has increased too," Balasaheb Misal, former director, Manmard (Maharashtra) mandi board and an onion farmer, told FE. Currently, mandi prices in

Lasalgaon, Nasik, Maharashtra, the hub of onion trade, is ruling around ₹12-14/kg against ₹22-23/kg a year ago. According to the departFY20 1.14

ment of consumer affairs, the modal retail price of onion is currently around ₹28/kg against ₹40/kg a year ago. Onion price inflation was down 20.5% on year in October 2022.

As per the seasonality pattern, rabi onion is harvested during April-June, which accounts for around 65% of the country's onion production and meets the consumers' demand till the kharif crop is harvested in October-November. Kharif onions are not stored because of a higher moisture content, thus entering the market directly. prices till December 2022.

According to the third advance estimates of horticultural crops production for the 2021-22 crop year (July-June) released last month, the production of onion rose by 17% to 31.2 million tonne (MT) in 2021-22 against 26.6 MT reported in the previous year.

According to rating agency Crisil, the rabi onion harvest was 20 MT for 2021-22 season, which was an increase of 17% from the previous year. The agency has predicted a moderate price rise of 4-5% in onion In December 2019, retail

onion prices touched ₹100 a kg in many cities, resulting in the government's ban on onion exports. An official said since January 2021, there has not been any ban on onion exports as used to be a few years back. India exported 1.5 MT of

onion valued at \$468 million in 2021-22. Bangladesh and Malaysia had 46% and 12% share, respectively, in total onion exports in the last fiscal. Close to a million tonne of

onion worth of \$208 million

Recalibration likely for central schemes

Niti Aayog, PMEAC jointly reviewing

PRASANTA SAHU New Delhi, November 28

IN ORDER TO reduce unnecessary expenditure, the Niti Aayog and the Economic Advisory Council to the Prime Minister are jointly reviewing all central sector and centrally-sponsored schemes, which account for 40-50% of the annual Budget.

There are about 740 central sector schemes (CS) and centrally-sponsored schemes (CSS), which accounted for ₹16.2 trillion or 41% of the FY23 Budget of ₹39.4 trillion.

The government wants to cut down the number of schemes, merge them or set sunset clauses to stop running them indefinitely.

"Many schemes overlap. Most of the schemes do not have a sunset clause and their outcomes can't be measured easily," a senior official told *FE*.

For example, the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) was rolled out in April 2020 for three months to give succour to people after Covid-19 broke out. It was later extended till November end of 2020.

The scheme was re-introduced in May 2021 in the wake of the second wave of the pandemic and then got extended till FY22 end.

Even though the distress level has come down, the scheme was extended till December of FY23 at a cost of over ₹1.2 trillion, given assembly elections in many

"There was no need to launch a separate scheme (PMGKAY) as it is often politically difficult to roll back schemes. The extra benefits could have been simply extended to the NFSA beneficiaries for a desirable period,"

the official said. Concerns arise because even after some recent consolidation, specific-purpose transfers have been channelled through a large number of discretionary cost-

SANDIP DAS New Delhi, November 28

ONION PRICES HAVE remained stable in the last two years due to the rise in onion production and an improvement in storage facilities at the farmers' level.

The usual seasonal spike in prices of onion, a political hot potato, especially during October-November, has not been witnessed in the past two years as there have been adequate supplies.

"Storage of rabi onion at the farm level has improved in the last two years and output has increased too," Balasaheb Misal, former director, Manmard (Maharashtra) mandi board and an onion farmer, told FE. Currently, mandi prices in

Lasalgaon, Nasik, Maharashtra, the hub of onion trade, is ruling around ₹12-14/kg against ₹22-23/kg a year ago. According to the depart-

As per the seasonality pattern, rabi onion is harvested during April-June, which accounts for around 65% of the country's onion production and meets the consumers' demand till the kharif crop is harvested in October-November. Kharif onions are not stored because of a higher moisture content, thus entering the market directly.

According to the third advance estimates of horticultural crops production for the 2021-22 crop year (July-June) released last month, the production of onion rose by 17% to 31.2 million tonne (MT) in 2021-22 against 26.6 MT reported in the previous year.

According to rating agency Crisil, the rabi onion harvest was 20 MT for 2021-22 season, which was an increase of 17% from the previous year. The agency has predicted a moderate price rise of 4-5% in onion prices till December 2022.

In December 2019, retail onion prices touched ₹100 a kg in many cities, resulting in the government's ban on onion exports. An official said since January 2021, there has not been any ban on onion exports as used to be a few years back. India exported 1.5 MT of

onion valued at \$468 million in 2021-22. Bangladesh and Malaysia had 46% and 12% share, respectively, in total onion exports in the last fiscal.

ment Authority (APEDA), said He said the financial assistance is being provided to onion exporters for building required infrastructure for boosting exports.

Also, APEDA has formed the Onion Export Promotion Forum, which has representatives from concerned ministries, exporters, state agriculture department, Research Institute, etc.

Recalibration likely for central schemes

Niti Aayog, PMEAC jointly reviewing

PRASANTA SAHU New Delhi, November 28

IN ORDER TO reduce unnecessary expenditure, the Niti Aayog and the Economic Advisory Council to the Prime Minister are jointly reviewing all central sector and centrally-sponsored schemes, which account for 40-50% of the annual Budget.

There are about 740 central sector schemes (CS) and centrally-sponsored schemes (CSS), which accounted for ₹16.2 trillion or 41% of the FY23 Budget of ₹39.4 trillion.

The government wants to cut down the number of schemes, merge them or set sunset clauses to stop running them indefinitely.

"Many schemes overlap. Most of the schemes do not have a sunset clause and their outcomes can't be measured easily," a senior official told *FE*.

For example, the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) was rolled out in April 2020 for three months to give succour to people after Covid-19 broke out. It was later extended till November end of 2020.

The scheme was re-introduced in May 2021 in the wake of the second wave of the pandemic and then got extended till FY22 end.

Even though the distress level has come down, the scheme was extended till December of FY23 at a cost of over ₹1.2 trillion, given assembly elections in many

"There was no need to launch a separate scheme (PMGKAY) as it is often politically difficult to roll back schemes. The extra benefits could have been simply extended to the NFSA beneficiaries for a desirable period," the official said.

Concerns arise because even after some recent consolidation, specific-purpose transfers have been channelled through a large number of discretionary cost-

SANDIP DAS New Delhi, November 28

ONION PRICES HAVE remained stable in the last two years due to the rise in onion production and an improvement in storage facilities at the farmers' level.

The usual seasonal spike in prices of onion, a political hot potato, especially during October-November, has not been witnessed in the past two years as there have been adequate supplies. "Storage of rabi onion at the

farm level has improved in the last two years and output has increased too," Balasaheb Misal, former director, Manmard (Maharashtra) mandi board and an onion farmer, told FE.

tern, rabi onion is harvested during April-June, which accounts for around 65% of the country's onion production and meets the consumers' demand till the kharif crop is harvested in October-November. Kharif onions are not stored because of a higher moisture content, thus entering the market directly.

According to the third advance estimates of horticultural crops production for the 2021-22 crop year (July-June) released last month, the production of onion rose by 17% to 31.2 million tonne (MT) in 2021-22 against 26.6 MT reported in the previous year.

According to rating agency Crisil, the rabi onion harvest was 20 MT for 2021-22 season, which was an increase of 17% from the previous year. The agency has predicted a moderate price rise of 4-5% in onion

prices till December 2022.

In December 2019, retail onion prices touched ₹100 a kg in many cities, resulting in the government's ban on onion exports. An official said since January 2021, there has not been any ban on onion exports as used to be a few years back. India exported 1.5 MT of

onion valued at \$468 million in 2021-22. Bangladesh and Malaysia had 46% and 12% share, respectively, in total onion exports in the last fiscal.

Recalibration likely for central schemes

Niti Aayog, PMEAC jointly reviewing

PRASANTA SAHU New Delhi, November 28

IN ORDER TO reduce unnecessary expenditure, the Niti Aayog and the Economic Advisory Council to the Prime Minister are jointly reviewing all central sector and centrally-sponsored schemes, which account for 40-50% of the annual Budget.

There are about 740 central sector schemes (CS) and centrally-sponsored schemes (CSS), which accounted for ₹16.2 trillion or 41% of the FY23 Budget of ₹39.4 trillion.

The government wants to cut down the number of schemes, merge them or set sunset clauses to stop running them indefinitely.

"Many schemes overlap. Most of the schemes do not have a sunset clause and their outcomes can't be measured easily," a senior official told *FE*.

For example, the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) was rolled out in April 2020 for three months to give succour to people after Covid-19 broke out. It was later extended till November end of 2020.

The scheme was re-introduced in May 2021 in the wake of the second wave of the pandemic and then got extended till FY22 end.

Even though the distress level has come down, the scheme was extended till December of FY23 at a cost of over ₹1.2 trillion, given assembly elections in many

"There was no need to launch a separate scheme (PMGKAY) as it is often politically difficult to roll back schemes. The extra benefits could have been simply extended to the NFSA beneficiaries for a desirable period,"

the official said. Concerns arise because even after some recent consolidation, specific-purpose transfers have been channelled through a large number of discretionary cost-

SANDIP DAS New Delhi, November 28

ONION PRICES HAVE remained stable in the last two years due to the rise in onion production and an improvement in storage facilities at the farmers' level.

The usual seasonal spike in prices of onion, a political hot potato, especially during October-November, has not been witnessed in the past two years as there have been adequate supplies.

"Storage of rabi onion at the farm level has improved in the last two years and output has increased too," Balasaheb Misal, former director, Manmard (Maharashtra) mandi board and an onion farmer, told FE. Currently, mandi prices in

Lasalgaon, Nasik, Maharashtra, the hub of onion trade, is ruling around ₹12-14/kg against ₹22-23/kg a year ago. According to the depart-

As per the seasonality pattern, rabi onion is harvested during April-June, which accounts for around 65% of the country's onion production and meets the consumers' demand till the kharif crop is harvested in October-November. Kharif onions are not stored because of a higher moisture content, thus entering the market directly.

According to the third advance estimates of horticultural crops production for the 2021-22 crop year (July-June) released last month, the production of onion rose by 17% to 31.2 million tonne (MT) in 2021-22 against 26.6 MT reported in the previous year.

According to rating agency Crisil, the rabi onion harvest was 20 MT for 2021-22 season, which was an increase of 17% from the previous year. The agency has predicted a moderate price rise of 4-5% in onion prices till December 2022.

In December 2019, retail onion prices touched ₹100 a kg in many cities, resulting in the government's ban on onion exports. An official said since January 2021, there has not been any ban on onion exports as used to be a few years back. India exported 1.5 MT of

onion valued at \$468 million in 2021-22. Bangladesh and Malaysia had 46% and 12% share, respectively, in total onion exports in the last fiscal.

"Besides focussing on traditional countries such as Bangladesh, Malaysia and the UAE, we are aiming at expanding onion exports to non-traditional markets such as Indonesia," M Angamuthu, chairman, Agri cultural and Processed Food Products Exports Develop-

ment Authority (APEDA), said He said the financial assistance is being provided to onion exporters for building required infrastructure for boosting exports.

Also, APEDA has formed the Onion Export Promotion Forum, which has representatives from concerned ministries, exporters, state agriculture department, Research Institute, etc.

Maharashtra, Madhya Pradesh, Karnataka and Gujarat contribute 75% of the country's onion production.

• KEKI MISTRY, VICE-CHAIRMAN & CEO, HDFC

'Demand for housing largely inelastic'

Housing Development Finance Corporation (HDFC) is in the process of merging with HDFC Bank. Keki Mistry, vice-chairman and CEO, HDFC, tells Joydeep Ghosh that between 2017 and mid-2020, housing demand was largely from Tier-2 and *Tier-3 cities. However,* proactive measures taken by states such as reduction in stamp duty have helped improve demand from Tier-1 cities. Edited excerpts:

There has been a good demand for housing loans. With interest rates on an upswing and growth slowdown, can this demand sustain?

I believe that you will always see a long-term structural demand for housing due to factors such as improved affordability, favourable demographics, increasing urbanisation and rising aspirations.

Currently, 66% of our population is under the age of 35 years. That means the average age of a first-time home buyer in India is about 38 years. So, two-thirds of the population has still not contemplated buying a home yet. In the coming years, they will get to an age when they will necessarily have to buy a home.

Demand for housing has

been relatively inelastic even in a higher interest rate environment due to two main reasons. One, it is the single largest long-term investment a person does in his or her life. If the property is liked by the fam-

ily and is affordable, most people would buy it, irrespective of the interest rates. Two, these loans are

typically long-term loans with an average of about 15 years. In India, most opt for a floating rate loan so they get the benefit of falling rates and vice-versa. So, it makes much lesser difference from an economic standpoint in a long-term loan compared with a short-term loan.

In the post-Covid environment, has there been any change in the housing demand? For example: has the demand risen in Tier-2 and Tier-3 cities vis a vis Tier-1cities?

The housing demand from Tier-2 and Tier-3 cities has always been strong. In fact, during the period 2017 to mid-2020, the demand was largely from the Tier 2 and Tier 3 towns, while the demand for housing from the more affluent parts of the major metro cities was somewhat subdued.

Realising that housing is a huge employment creator, several states introduced timebound relief measures during the pandemic, such as reducing stamp duty, to promote housing to create job opportunities in the cities. As a result, demand for housing in the metros began to increase and this growth momentum has continued.

The demand today is coming from across the country, including the metros. During the earlier three years leading up to mid-2020, house prices in metros had generally remained unchanged while the income levels of people had continued to rise.

If one assumes an average rise in annual income by about 7% to 8%, over a 3 to 4-year time frame, incomes would have increased by n ore than 30%. With higher incomes and more or less the same property price as before, affordability improved.

HDFC's exposure to con-

struction finance has been consistently going down – from 14% to 9%. Going forward, has HDFC taken a corscious decision to prune its exposure in this segment? It has not been a con-

scious decision to reduce the exposure. The reason for the

decline was that the period between 2017 and 2020 saw some degree of stress in the real estate sector in metros, especially Mumbai and Delhi. And because of this stress, developers were left with unsold properties, which were ready but had not been sold. And because of this, there were not too many projects that were launched during that time. The real estate sector in metros started

picking up from October 2020. So, after 2020, several new projects have got launched. RBI's recent bulletin has stated

We see a healthy pipeline of construction finance loans. However, needs to be noted that construc-

compared with

the pre-pan-

demic levels.

tion f nance loans have a longer disbursement period as they are d sbursed based on the progress of construction and aftert ie developer has brought in his equity. For instance, if you finance a project in Mumbai or Delhi, it will typically take between three-five years to complete the project depending on he size of the project.

While he HDFC-HDFC Bank has received almost all clearances, what the timeline for completing it?

Our best estimate at this point is that the merger process should be comple ted by June 2023.

Do you think the relevance of large NBFCs is over with the regula-

tory arbitrage benefits gone? What can some of the large NBFCs do as most of them are owned by corporate houses that are not allowed to enter

banking? In my opinion, Our best estimate at NBFCs often cater this point is that to segments that the merger process banks are unable (of HDFC and to cater to. Many

unique to that customer base, and hence, can better manage risks while simultaneously driving growth in that sector.

Many unbanked borrowers avail credit from NBFCs and later use their track record to become bankable borrowers. NBFCs, in effect, play the role of intermediaries — particularly in the small-scale and retail sectors.

The financial needs of the Indian economy are diverse and cannot be fulfilled by the banking sector alone. For instance, in India, the consumer credit to GDP ratio stands at 18% — among the lowest in the world for a large economy. In comparison, consumer credit to GDP is 80% in the US and 40% in China. So, the scope to grow and the needs are immense.

Adani port: 80 injured as protesters, police clash

MORE THAN 80 people were wounded as villagers protesting to halt construction of the \$900-million Vizhinjam port project by Adani Group clashed with the police in Kerala.

The protests, by a mostly Christian fishing community against the project led by billionaire Gautam Adani's \$23-billion ports business, have forced the latter to stop work on the port, seen as a potential and lucrative rival to those in Dubai, Singapore and Sri Lanka.

Building has been halted for over three months aftervillagers blamed the port's development for coastal erosion and depriving them of their livelihood. They have blocked the entrance to the site by erecting a 1,200-square-foot shelter. Over the weekend, police arrested some protesters who blocked Adani's construction vehicles from entering the port, despite a court order for work to resume.

The arrests prompted hundreds of protesters, led by Catholic priests, to march to the police station late on Sunday night, leading to clashes with personnel and leaving police vehicles damaged, according to a police document and footage on local television.— **REUTERS**

Trai to crack down on spam calls

JATIN GROVER New Delhi, November 28

THE TELECOM REGULA-**TORY** Authority of India (Trai) on Monday said it is taking necessary steps such as implementation of artificial intelligence (AI), machine learning technology and spam detect system to control unwanted calls and messages from unregistered telemarketers.

telecom regulator follows complaints from people regarding Unsolicited Commercial Communication (UCC) or spam messages and calls from unregistered telemarketers, which are a major source of inconvenience for the public and affect the privacy of individuals.

Since these unwanted calls messages become grounds for financial frauds, Trai, along with RBI, Sebi and the ministry of consumer affairs will also frame a joint action plan to curb such frauds.

A recent survey by commu-The statement from the nity social media platform LocalCircles showed that six in 10 people have reported personal data breach by their loan service providers, while four in 10 people have pointed fingers towards insurance

providers or banks.

In August, minister of state for finance Bhagwat Karad told Parliament that private and public banks have reported data frauds amounting to ₹6,861 crore in the April-June quarter.

According to Trai, the implementation of a Distributed Ledger Technology (DLT) in 2019 that requires registration from telemarketers before sending promotional content to consumers has resulted in substantial reduction of customer complaints.

"There are about 250,000 principal entities registered with more than 600,000

headers and approximately 55,00,000 (5.5 million) approved message templates which are being pushed to consumers through registered telemarketers & TSPs (telecom service providers) using DLT platforms. This has resulted in substantial reduction of customer complaints to the extent of 60% for registered telemarketers," Trai said in its statement.

The issue also assumes significance in light of the government's efforts to protect personal data breach with the personal data protection Act, the draft for which is currently in public consultation.

Need for employment data

THE AVAILABILITY OF DATA on the labour force at regular intervals is crucial to ensure economic policies have the desired results. Employment generation is a priority on the agenda of the government. As per the ILO, indicators that measure the ability of an economy to generate sufficient employment can provide insights into its overall performance.

These indicators include unemployment rates, employmentto-population ratios, labour force participation rates, and the employment intensity of growth or elasticity of employment vis-a-vis output. However, India, unlike many developed economies, does not have any official high frequency indicators on jobs that come out on a weekly or monthly basis.

conducted quinquennial employment surveys. The PLFS is now conducted by the MoSPI to estimate the key employment indicators at an interval of three months for urban areas only, in the Current Weekly Status. An annual report is also released. The Labour Bureau conducts quarterly surveys in nine sectors of the non-farm economy. Of late, the EPFO has begun sharing monthly data on new subscribers, a proxy for the number of formal sector jobs created.

A more frequent barometer is CMIE's

within the government and in academia. Generally, the government prefers to use its own official data such as the PLFS, Labour Bureau surveys and the EPFO payroll data to talk about job creation, though there have been recalls too.

Many economists feel that the EPFO's payroll data and the PLFS data have their own set of limitations, including volatility and inadequacy of coverage. As a result, many economists, researchers as well as media organisations also refer to the CMIE unemployment rate; this is seen as more up to date and is out on a monthly basis. It also gives a picture of what is happening in the rural economy, as employment data is often not available for this segment. The monthly bulletin of the RBI also refers to the CMIE data in its article on the State of the Economy.

What do current data say about declining unemployment?

THE DATA ON unemployment and employment continues to give a mixed picture, and varies depending on the indicator considered. As a thumb rule, at a time when the economy has been on the recovery path post the Covid-19 pandemic.

'Demand for housing largely inelastic'

Housing Development Finance Corporation (HDFC) is in the process of merging with HDFC Bank. Keki Mistry, vice-chairman and CEO, HDFC, tells Joydeep Ghosh that between 2017 and mid-2020, housing demand was largely from Tier-2 and Tier-3 cities. However, proactive measures taken by states such as reduction in stamp duty have helped improve demand from Tier-1 cities. Edited excerpts:

There has been a good demand for housing loans. With interest rates on an upswing and growth slowdown, can this demand sustain?

I believe that you will always see a long-term structural demand for housing due to factors such as improved affordability, favourable demographics, increasing urbanisation and

rising aspirations. Currently, 66% of our population is under the age of 35 years. That means the average age of a first-time home buyer in India is about 38 years. So, two-thirds of the population has still not contemplated buying a home yet. In the coming years, they will get to an age when they will necessarily have to buy a home.

Demand for housing has huge employment creator, sev-

been relatively inelastic even in a higher interest rate environment due to two main reasons. One, it is the single largest long-term investment a person does in his or her life. If the property is liked by the family and is affordable, most people would buy

Two, these loans are typically long-term loans with an average of about 15 years. In India, most opt for a floating rate loan so they get the benefit of falling rates and vice-versa. So, it makes much lesser difference from an economic standpoint in a long-term loan compared with a short-term loan.

interest rates.

it, irrespective of the

In the post-Covid environment, has there been any change in the housing demand? For example: has the demand risen in Tier-2 and Tier-3 cities vis a vis Tier-1cities?

The housing demand from Tier-2 and Tier-3 cities has always been strong. In fact, during the period 2017 to mid-2020, the demand was largely from the Tier 2 and Tier 3 towns, while the demand for housing from the more affluent parts of the major metro cities was somewhat subdued.

Realising that housing is a reduce the exposure. The reason for the

eral states introduced timebound relief measures during the pandemic, such as reducing stamp duty, to promote housing to create job opportunities in the cities. As a result, demand for housing in the metros began to increase and this growth momentum has continued.

The demand today is coming from across the country, including the metros. During the earlier three years leading up to mid-2020, house prices in metros had generally remained unchanged while the income levels of people had continued to rise.

If one assumes an average rise in annual income by about 7% to 8%, over a 3 to 4-year time frame, incomes would have increased by more than 30%. With higher incomes and more or less the same property price as before, affordability improved.

HDFC's exposure to construction finance has been consistently going down – from 14% to 9%. Going forward, has HDFC taken a conscious decision to prune its exposure in this segment? It has not been a conscious decision to

decline was that the period between 2017 and 2020 saw some degree of stress in the real estate sector in metros, especially Mumbai and Delhi. And because of this stress, developers were left with unsold properties, which were ready but had not been sold. And because of this, there were not too many projects that were launched during that time. The real estate sector in metros started picking up from October 2020.

So, after 2020, several new

digit growth in October 2022 compared with the pre-pandemic levels.

We see a healthy pipeline of construction finance loans. However, needs to be noted that construc-

tion finance loans have a longer disbursement period as they are disbursed based on the progress of construction and after the developer has brought in his equity. For instance, if you finance a project in Mumbai or Delhi, it will typically take between three-five years to complete the project depending on the size of the project.

While the HDFC-HDFC Bank has received almost all clearances, what the timeline for

completing it? Our best estimate at this point is that the merger process should be completed by June 2023.

> Do you think the relevance of large NBFCs is over with the regula-

tory arbitrage benefits gone? What can some of the large NBFCs do as most of them are owned by corporate houses

that are not allowed to enter banking?

In my opinion, NBFCs often cater to segments that banks are unable to cater to. Many NBFCs specialise should be completed in lending to a particular sector, developing skill sets that are

unique to that customer base, and hence, can better manage risks while simultaneously driving growth in that sector.

Many unbanked borrowers avail credit from NBFCs and later use their track record to become bankable borrowers. NBFCs, in effect, play the role of intermediaries — particularly in the small-scale and retail sectors.

The financial needs of the Indian economy are diverse and cannot be fulfilled by the banking sector alone. For instance, in India, the consumer credit to GDP ratio stands at 18% — among the lowest in the world for a large economy. In comparison, consumer credit to GDP is 80% in the US and 40% in China. So, the scope to grow and the needs are immense.

protesters, police clash

Adani port: 80 injured as

MORE THAN 80 people were wounded as villagers protesting to halt construction of the \$900-million Vizhinjam port project by Adani Group clashed with the police in Kerala.

The protests, by a mostly Christian fishing community against the project led by billionaire Gautam Adani's \$23-billion ports business, have forced the latter to stop work on the port, seen as a potential and lucrative rival to those in Dubai, Singapore and Sri Lanka.

Building has been halted for over three months after villagers blamed the port's development for coastal erosion and depriving them of their livelihood. They have blocked the entrance to the site by erecting a 1,200-square-foot shelter. Over the weekend, police arrested some protesters who blocked Adani's construction vehicles from entering the port, despite a court order for work to resume.

The arrests prompted hundreds of protesters, led by Catholic priests, to march to the police station late on Sunday night, leading to clashes with personnel and leaving police vehicles damaged, according to a police document and footage on local television.— **REUTERS**

Trai to crack down on spam calls

JATIN GROVER

New Delhi, November 28

THE TELECOM REGULA-**TORY** Authority of India (Trai) on Monday said it is taking necessary steps such as implementation of artificial intelligence (AI), machine learning technology and spam detect system to control unwanted calls and messages from

unregistered telemarketers. The statement from the telecom regulator follows complaints from people regarding Unsolicited Commercial Communication (UCC) or spam messages and calls from unregistered telemarketers, which are a major source of inconvenience for the public and affect the privacy of individuals.

Since these unwanted calls and messages become grounds for financial frauds, Trai, along with RBI, Sebi and the ministry of consumer affairs will also frame a joint action plan to curb such frauds.

A recent survey by community social media platform LocalCircles showed that six in 10 people have reported personal data breach by their loan service providers, while four in 10 people have pointed fingers towards insurance

providers or banks.

In August, minister of state for finance Bhagwat Karad told Parliament that private and public banks have reported data frauds amounting to ₹6,861 crore in the April-June quarter.

According to Trai, the implementation of a Distributed Ledger Technology (DLT) in 2019 that requires registration from telemarketers before sending promotional content to consumers has resulted in substantial reduction of customer complaints.

"There are about 250,000 principal entities registered with more than 600,000

headers and approximately 55,00,000 (5.5 million) approved message templates which are being pushed to consumers through registered telemarketers & TSPs (telecom service providers) using DLT platforms. This has resulted in substantial reduction of customer complaints to the extent of 60% for registered telemarketers," Trai said in its

The issue also assumes significance in light of the government's efforts to protect personal data breach with the personal data protection Act, the draft for which is currently in public consultation.

THE AVAILABILITY OF DATA on the labour force at regular intervals is crucial to ensure economic policies have the desired results. Employment generation is a priority on the agenda of the government. As per the ILO. indicators that measure the ability of an economy to generate sufficient employment can provide insights into its overall performance.

These indicators include unemployment rates, employmentto-population ratios, labour force participation rates, and the employment intensity of growth or elasticity of employment vis-a-vis output. However, India, unlike many developed economies, does not have any official high frequency indicators on jobs that come out on a weekly or monthly basis.

गहलोत-पायलट विवाद पर राहुल ने कहा, दोनों नेता कांग्रेस की संपत्ति

इदौर, 28 नवंबर (भाषा)।

राजस्थान प्रदेश कांग्रेस के पूर्व अध्यक्ष सचिन पायलट को मुख्यमंत्री अशोक गहलोत द्वारा गद्दार कहे जाने पर मचे विवाद पर राहल गांधी ने सोमवार को दोनों नेताओं को पार्टी की संपत्ति बताया । उन्होंने कहा कि किसी भी नेता की बयानबाजी का भारत जोड़ो यात्रा पर असर नहीं पड़ेगा।

पायलट को गद्दार बताने संबंधी गहलोत के बयान पर राहुल ने संवाददाताओं से कहा, 'मैं इसमें नहीं जाना चाहता कि किसने क्या कहा। दोनों नेता (गहलोत और पायलट)

कांग्रेस की संपत्ति हैं। मैं आपको इसकी गारंटी दे सकता हं कि इसका (बयानबाजी का) भारत जोड़ो यात्रा पर कोई असर नहीं पड़ेगा।'

गहलोत ने एनडीटीवी को हाल ही में दिए साक्षात्कार में पायलट को गद्दार करार देते हुए कहा कि उन्होंने वर्ष 2020 में कांग्रेस के खिलाफ बगावत की थी और प्रदेश सरकार गिराने की कोशिश की थी, इसलिए उन्हें मुख्यमंत्री नहीं बनाया जा सकता। गहलोत ने यह बयान ऐसे वक्त दिया. जब भारत जोडो यात्रा की राजस्थान में चार दिसंबर को दाखिल होने की उल्टी गिनती शुरू हो गई है। गांधी ने इस बात का जवाब टाल दिया कि क्या

मौका मिलने पर वह दोबारा अमेठी से चुनाव लड़ना चाहेंगे । उन्होंने कहा कि इस सवाल का जवाब साल-डेढ़ साल बाद मिल सकेगा और अभी उनका पूरा ध्यान भारत जोड़ो यात्रा पर केंद्रित है। उन्होंने कहा, 'आप चाहते हैं कि अखबार कल यह बताए कि मैं अमेठी से अगला चुनाव लडूंगा या नहीं? मैं चाहता हूं कि अखबार भारत जोड़ो यात्रा के फलसफे के

बारे में लिखें।' गांधी ने कहा कि देश के तीन-चार उद्योगपतियों के हाथों में सारा धन केंद्रित होने से बेरोजगारी बढ रही है, और कांग्रेस इस समस्या को हल करने के लिए छोटे और

मध्यम उद्यमों को बढावा देगी तथा खासकर शिक्षा एवं स्वास्थ्य के क्षेत्रों में सरकारी निवेश को प्रोत्साहित करेगी।

उन्होंने आरोप लगाया कि भाजपा और राष्ट्रीय स्वयंसेवक संघ भारत जैसे गतिशील देश को अपनी सोच के मुताबिक 'अड़ियल तंत्र' से चला रहे हैं और जनता की आवाज की अनसूनी कर रहे हैं। 'भारत जोड़ो यात्र-ा के दौरान गांधी के कपड़ों और दाढ़ी को लेकर जारी निजी हमलों पर उन्होंने कहा, भाजपा की समस्या यह है कि उसने मेरी छवि खराब करने में हजारों करोड़ रुपए खर्च कर दिए हैं।

'तीसरे पक्ष के सहयोग के बिना कार्यवाही का सीधा प्रसारण नहीं'

जनसत्ता ब्यूरो नई दिल्ली, 28 नवंबर।

सुप्रीम कोर्ट और राष्ट्रीय सुचना विज्ञान केंद्र (एनआइसी) के पास वर्तमान में तीसरे पक्ष के सहयोग के बिना अदालती कार्यवाही के सीधे प्रसारण (लाइव-स्ट्रीम) के लिए पर्याप्त तकनीक नहीं है। अदालत की रजिस्ट्री ने राष्ट्रीय स्वयंसेवक संघ के पूर्व विचारक केएन गोविंदाचार्य की याचिका के जवाब में यह जानकारी दी है।शीर्ष अदालत ने 17 अक्तूबर को गोविंदाचार्य की याचिका पर रजिस्टी को नोटिस जारी किया था।

सुप्रीम कोर्ट के कंप्यूटर प्रकोष्ठ के रजिस्ट्रार एचएस जग्गी ने अदालत में दाखिल हलफनामे में कहा है कि प्रौद्योगिकी में लगातार सुधार हो रहा है और अदालत की रजिस्ट्री आत्मनिर्भर प्रणाली विकसित करने के लिए लगातार काम कर रही है। पर वर्तमान में न केवल रजिस्ट्री, ट्यूब के साथ एक विशेष व्यवस्था बल्कि एनआइसी के पास भी पर्याप्त तकनीक और ऐसा बुनियादी ढांचा

नहीं है, जिससे बिना किसी तीसरे पक्ष के अनुप्रयोग और समाधान के 'लाइव स्टीमिंग' की जा सके याचिका में गोविंदाचार्य ने कहा है कि सुप्रीम कोर्ट की कार्यवाही की लाइव स्ट्रीमिंग इस मुद्दे पर सुप्रीम कोर्ट के फैसले के अनुसार की जानी चाहिए जिसमें यह कहा गया था कि लाइव-स्ट्रीम की गई कार्यवाही पर कापीराइट 'सरेंडर' नहीं किया जा सकता और डाटा वर्तमान मामले में यूटयूब जैसे प्लेटफार्म द्वारा न तो मुद्रीकृत किया जा सकता है और न ही व्यावसायिक रूप

नवी दिल्ली, दि. २८ (वृत्तसंस्था) : गेल्या तीस वर्षांतील सर्वांत मोठी मंदी. मालाला उठाव नाही. त्यात जीएसटीचा जाच, त्यामुळे सुरत टेक्सटाइल मार्केट अर्थात सिल्क सिटीमधील व्यापारी व उद्योजक यांची अस्वस्थ घालमेल सुरू आहे. त्यांच्या मनात नेमके काय चाललेय, हे उघड न करता ही मंडळी शेवटी येणार तर मोदीच हे एकदाच सांगून आपला पिच्छा सोडवून

जीएसटी लागू होण्यापूर्वी सुरतमध्ये सहा लाखांहून अधिक हातमाग होते. जीएसटीनंतर त्यातील लाख ते दीड लाख बंद झाले. शहरातील व्यापाऱ्यांची संख्या आता ५० हजारांपर्यंत खाली आली असून, त्यापैकी ५० टक्क्यांहुन अधिकांनी त्यांना व्यापारात तोटा झाल्याचे म्हटले आहे, अशी माहिती फेडरेशन ऑफ सुरत टेक्सटाईल ट्रेंड असोसिएशनने दिली आहे. येथील कापड निर्मितीही प्रचंड घटली आहे.

मेहता म्हणाले, नियतीपेक्षा जास्त कुणाला काही मिळत नाही. धंदा आज नाहीतर उद्या होईल पण, सुरक्षेसाठी मोदी हवेतच. स्थानिक उमेदवार कोण, याचे मला काही घेणे-देणे नाही. रिंग

रोडवरील जेएस मार्केटमधील सुमित राजपुरोहित घटली व मासिक आयसुद्धा तीस म्हणाले, जीएसटीचा फटका मोठा आहे. परंतु, हजारांपर्यंत खाली आली. या महागाईमध्ये उघड कोण बोलणार?

शहरात १५ लाखांहून अधिक स्थलांतरीत कामगार असून, त्यातील पाच लाखांहून अधिकांना विणकर युनिटमध्ये काम मिळते, तर चार लाखांहून अधिक कामगार प्रक्रिया उद्योगात आहेत. हा उद्योग जीएसटीने काळवंडला आहे.

जीएसटीचा मतदानावर काही परिणाम होणार का, हे जाणून घेण्याचा प्रयत्न 'लोकमत'ने केला. २०१७च्या निवडणुकीपूर्वी त्याचे परिणाम तेव्हा फारसे उमटले नव्हते, आता मात्र जीएसटीचे परिणाम स्पष्ट दिसत असून, गेल्या ३० वर्षांत नव्हती अशी मंदी बाजारात दिसते आहे, असे
