Land bank plan in Cabinet soon

DIPAM finalises structure of the company that will sell land parcels of govt departments and PSUs

NIKIINI OHRI New Delhi, 25 May

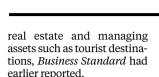

he government will soon move a cabinet note to set up a land bank company that will take over land parcels of public sector undertakings.

The Department of Investment and Public Asset Management (DIPAM) has finalised the structure of the company that will be tasked with selling land parcels including those stuck in litigation —owned by government departments and public sector companies.

"Structuring has been finalised, and some fine-tuning is needed before sending the proposal to the cabinet, said a top government official.

Soon, the proposal will be placed before the Cabinet Committee on Economic Affairs for its approval, he added.

The government is looking to replicate the model of Canada Lands Company, which is a federal government entity that can dispose of and monetise the surplus land of government departments and at the same time specialise in

Taking a cue from the Canadian model and others globally, the land special purpose vehicle (SPV) will be set up as a company, and is likely to take over land parcels of public sector undertakings. The company will then sell land parcels to investors through attractive and specialised arrangements. It is expected to develop them into revenue-generating projects

"The Finance Bill has created an enabling environment for the land SPV as it has exempted the imposition of stamp duty on transfer of immovable property by one government-owned company to another," the official quoted above said.

The amendments to the Finance Bill said: "Transfer of a business or asset or right in any immovable property from a government company, its subsidiary, unit or joint venture, by way of strategic sale or disinvestment or demerger or any other scheme of arrangement, to another government company or to the central government or any state government, after the approval of the central government, shall not be liable to (stamp) duty."

In the Budget Speech, Union Finance Minister Nirmala Sitharaman had proposed incorporating an SPV to monetise surplus land with government departments and public sector units.

"Monetising of land can either be by way of direct sale or concession or by similar means." Sitharaman had said.

Centre deciding jab quota leads to lower allocation, say states

But vax makers say centrally controlled allocation efficient

ΥΙΝΔΥ ΙΙΜΔΡΙΙ & SOHINI DAS Ahmedabad/Mumbai, 25 May

Even as states started procuring Covid vaccines directly from producers for inoculating the 18-44 years age bracket under a 'liberalised' system, the Centre is allocating doses for the same group, claimed state governments.

As a result, some states with higher populations say they are at a disadvantage at a time when vaccine supply is constrained across states.

Sources among vaccine manufacturers, however, say that the system works more efficiently when controlled centrally.

For instance, according to Uttar Pradesh's state immunisation officer Ajay Ghai, it has received fewer vaccines compared to states with lower population than UP.

'The Centre allocates the quota for both above 45 years and 18-44 categories. It is based on the allocation from the Centre that vaccine makers disburse doses to each state. However, many states are still better off than us though we have a large population and need more doses for the drive," Ghai told Business Standard.

The immunisation officer of an eastern state, too, confirmed that the health ministry decides on how many doses the state will get.

"While we place orders directly with vaccine makers, how many doses we will get depends on the central allocation. This is decided mostly on a month-wise manner or whenever batches are released from the Central Drugs Laboratory (CDL), Kasauli," the officer said.

Vaccine makers, too, con-

firm the arrangement. We have to inform the health ministry about the doses we will produce and also about the orders we are getting from both state governments and the private sector. The Centre has said that 50 per cent of the production will be procured by it. The remaining would be divided between states and private hospitals. So, it takes these details and allocates according to needs," a senior official at a vaccine manufacturing The official further said

released from CDL, Kasauli, the Centre not only decides what each state will get, but also which hospital in which geographic zone (north, south, east, west) will get how many doses from that batch.

"This, in fact, makes the system efficient as everyone

India is reportedly producing at least 2.7 million doses daily while vaccination in the first three weeks of May so far has been at an average of 1.62 million doses with states complaining of short-States like Karnataka and

Delhi have, in fact, halted vaccination for the 18-44 yrs age bracket, citing shortage.

States like UP and Gujarat are managing the Covid vaccination drive by regulating the number of operational centres. For instance, according to Ghai, UP began vaccinating the 18-44 years age group in only seven districts where infection rates were the highest and then gradually ramped it up to 23 districts. So far, UP has been able to cover 13.4 million of the total 43.2 million population in the above 45 years group and 1.1-1.2 million of the total 92.8 million target population in the 18-44 years category.

According to Ghai, the state has so far received 3.3 million doses, bulk of which were received just a couple of days ago, as against an order of 5 million doses each of Covaxin and Covishield, leaving the state with two weeks

of stock.

According to a top health department official in Gujarat, the vaccine allocation for even the 18-44 age group seems to be based on states' respective inventory threshold on the joint platform eVIN. According to the official,

producers are also seeing to it that there is no dumping of vaccine in a particular state and are, therefore keeping track of immunisation drives in each state through the por-

As a result, at times certain states receive more doses than others based on how quickly their stock gets over.

According to Gujarat's state immunisation officer Nayan Jani, the state has placed an order for 25 million doses for the 18-44 age bracket of which 1.4-1.5 million doses have been received. "We are trying to regulate the vaccine stock through proper management of the vaccination drive," Jani said.

have created special wards, "The disease is non-communicable but these patients have low immunity and have to be protected from getting any other

infection," Dr Tickoo said. Symptoms and management

The spores of mucormycetes are in the air and a person's immunity usually protects them against it. Post Covid, a combination of factors like high blood glucose, impaired immunity, indiscriminate use of steroids, are creating a conducive environment for this infection to grow in some patients. Doctors say 88 per cent of patients are dia-

Severe headache, loosening of upper teeth, swelling under the eyes, blurring of vision, restriction of eye movement, coloured (brown) discharge from the nose etc are symptoms of the disease. Joshi cautioned that every Covid patient needs to be careful post recovery. "Post Covid, vigilance is necessary for three weeks to three months, especially oral hygiene. One has to monitor blood glucose levels, and also be in touch with the lung

doctor to ensure one is on the right dose of steroids and that it is tapered off quickly," Joshi said.

One of the challenges in managing

the disease is that it requires a multidisciplinary approach, which small nursing homes may find difficult to follow. Rahul Pandit, director - Critical Care, Fortis Hospital, Mulund, Mumbai and member of Maharashtra's Covid taskforce, said: "Surgeries require multi-disciplinary teams, including dental surgeons, maxillofacial surgeons, ENT surgeons,"

Doctors say if patients avail of treatment in the early stages of the disease then endoscopic removal of the dead tissue in the nasal and sinus cavities may be sufficient, but the surgery becomes complex in late stages. M Babu Manohar, senior consult-

ant. ENT, head and neck surgeon, Apollo Hospitals, Chennai, said: "If it spreads to the eyes and damages them, then, removing the dead tissue may involve removing the eye-ball."

Hospitals like Apollo have stepped up efforts to procure Amphotericin-B. Dr Manohar said they have procured conventional Amphotericin, and are trying to procure Liposomal Amphotericin (which is relatively less toxic to the kidneys).

The Centre has also been looking to increase the supply of Amphotericin-B. Union Health Minister Harsh Vardhan said recently that it was importing 900,000 vials, "Of this 50,000 vials have been received and around 300,000 vials will be available in the next 7 days," he had said.

Meanwhile, Ganga Ram Hospital has seen rare cases of mucormycosis of small intestine in two patients recently. "Ulceration of Jejunum (first part of small intestine) in the patient raised my suspicion of fungal disease and the patient was immediately started on antifungal treatment. We sent the portion of removed intestine for biopsy, which confirmed mucormycosis," said Ushast Dhir, senior consultant in the department of surgical gastroenterology and liver transplantation, Sir Ganga Ram Hospital. Intestinal or GI mucormycosis is a very rare disease and most commonly involves stomach or large intestine.

कोरोना महामारीमुळे संपूर्ण जगाच्या अर्थव्यवस्थेवर विपरित परिणाम झाला असून ही अर्थव्यवस्था रुळावर आणण्यासाठी आता प्रयत्न सुरू झाले आहेत दुसऱ्या लाटेचा भारतीय अर्थव्यवस्थेवर नेमका किती परिणाम झाला आहे याबाबत आता केंद्र सरकारने मुल्यांकनाला सुरूवात केली आहे. कोरोना महामारीच्या दुसऱ्या लाटेचा विविध क्षेत्रांवर विपरित परिणाम झाला आहे. त्यामुळे सरकारने आता हा परिणाम नेमका किती झाला आहे, याबाबतच्या मुल्यांकनाला सुरुवात केली आहे. त्यामुळे भारताची अर्थव्यवस्था रुळावर आणण्यात मदतच होणार आहे.

जीएसटी अर्थात वस्तु व सेवा कर तसेच काही

आर्थिक निर्देशांक आणि तयार करण्यात येणारा मुल्यांकनाचा अहवाल इत्यादींमुळे भारताच्या अर्थव्यवस्थेवर आणखी प्रकाश पडू शकणार आहे. अशी माहिती सुत्रांनी दिली आहे. हॉस्पिटॅलिटी, पर्यटन, हवाई उड्डाण इत्यादी क्षेत्रांनाही कोरोनाच्या दुसऱ्या लाटेचा फटका बसला असून ही क्षेत्रे आता हळुहळू सावरत असल्याचेही सुत्रांनी म्हटले आहे. या क्षेत्रांनाही सरकारकडून सहकार्याची आवश्यकता आहे. सुक्ष्म, लघु आणि मध्यम उद्योग क्षेत्रांमध्ये कर्मचाऱ्यांचे प्रमाण मोठे असून कृषी क्षेत्रानंतर या क्षेत्रांचा क्रमांक लागतो. या क्षेत्रांनाही सरकारला आर्थिक सहकार्य करावे लागणार आहे. या क्षेत्रांसह विविध क्षेत्रांना आर्थिक तसेच इतर सहकार्य करण्यासाठी सरकार लवकरच उपाययोजना करण्याची शक्यता असल्याचेही सुत्रांनी

म्हटले आहे. सध्याच्या घडीला सुक्ष्म, लघु आणि मध्यम उद्योगांचा जीडीपीमध्ये ३० टक्के म्हणजेच जवळपास ६.५ कोटींचा वाटा आहे.

कोरोना महामारीच्या दुसऱ्या लाटेचा प्रभाव प्रचंड वाढल्यामुळे तसेच कोरनाबाधितांची संख्या आणि मृत्युचे प्रमाणही लक्षणीय असल्यामुळे विविध राज्यांमध्ये लागू करण्यात आलेले कडक लॉकडाऊन आणि निर्बंधही उठवण्याची गरज असल्याचेही सूत्रांनी स्पष्ट केले आहे. एकीकडे कोरोना महामारीने घातलेले थैमान, कोरोनाबाधितांची वाढलेली संख्या आणि मृत्युचे प्रमाण तर दुसरीकडे गुंतवणूकदारांमध्ये असलेले नकारात्मक वातावरण याचाही भारतीय अर्थव्यवस्थेवर विपरित परिणाम झाला असून राज्यांमध्ये लागू करण्यात आलेले निर्बंध हटविण्याची गरज आहे.
