MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMIC OVERVIEW

Even as India's outlook remains bright, global economic prospects for 2023-24 have been weighed down by the combination of a unique set of challenges expected to impart a few downside risks. Multi-decadal high inflation numbers have compelled central banks across the globe to tighten financial conditions. The impact of monetary tightening is beginning to show in slowing economic activity, especially in Advanced Economies. Besides this, adverse spillovers from the prolonged strains in supply chains and heightened uncertainty due to geopolitical conflict have further deteriorated the global outlook. Hence, global growth is forecasted to slow from 3.2 % in 2022 to 2.7% in 2023 as per IMF's World Economic Outlook, October 2022. A slower growth in economic output coupled with increased uncertainty will dampen trade growth. This is seen in the lower forecast for growth in global trade by the World Trade Organization, from 3.5% in 2022 to 1% in 2023.

INDIAN ECONOMIC OVERVIEW

In 2020-21, India witnessed multiple intense cascading risk scenarios and a major contraction, mainly driven by the Covid-19 pandemic. Overcoming these overwhelming challenges, the economy experienced a strong recovery in 2021-22, supported by accommodating monetary and fiscal policies and widespread vaccine coverage. The resilience continued despite challenges that included disruptions in supply chains, global monetary policy tightening, and inflationary pressures, as the economy made steady progress and registered a recovery in 2022-23. Driven by robust domestic demand, significant infrastructure investments, and strong private consumption, India's real GDP grew by 7.2% in 2022-23, as the country sailed through the global turmoil relatively unscathed. Going forward, the economy is expected to grow by 6.50%, signalling a continued upward trajectory for India's economy in 2023- 24, despite past challenges, as the existing hardships fail to dampen the fundamental grit. Ongoing structural reforms and policies aimed at promoting investment, productivity and controlling inflationary pressures are collectively charting a path for India's sustained economic growth.

In terms of fiscal prudence, the Central Government is expected to achieve its fiscal deficit target of 5.90% of GDP in 2023-24, while state government deficits consolidate, together leading to a decline in the general government deficit. Consequently, the debt-to GDP ratio is projected to stabilize. Additionally, the current account deficit is estimated to narrow down to 2.10% of GDP in 2023- 24, driven by robust service exports and a declining merchandize

trade deficit. (source: <https://www.worldbank.org/en/news/pressrelease/2023/04/04/indian-economy-continues-to-show-resilience-amid-global-uncertainties>) India's strong economic growth and sociopolitical stability has turned it into a favoured destination for foreign direct investment (FDI). This is evidenced by the highest-ever gross FDI inflows of USD 84.57 Billion in 2021-2022. However, in the year 2022-23, the gross inflows of FDI dropped to USD 71 Billion. This drop in inflows is attributed to the policy changes of the US Federal Reserve and the ongoing Russia-Ukraine crisis.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Between 2012 and 2021, the production of Indian ceramic tiles experienced significant growth, with a CAGR of 8.6%. The production volume doubled during this period, reaching an impressive 2.5 billion square meters. This expansion was made possible by the establishment of over 900 highly efficient production lines. According to projections from the MECS research center, India's ceramic tile production is expected to continue its upward trajectory, reaching a volume of more than 3.7 billion square meters by 2026, maintaining a steady year-on-year growth rate of nearly 8%. For the foreseeable future, the majority of this production (about 70%) is likely to be absorbed by domestic demand, indicating a strong domestic market. However, exports are also set to play a significant role, with estimates suggesting that they will exceed 1 billion square meters. The export sector has experienced remarkable growth over the past decade, expanding by an impressive factor of 15, soaring from slightly over 33 million square meters in 2012 to surpassing 483 million square meters in 2021. (source: <https://ceramicworldweb.com/en/economicsand-markets/india-ceramic-tile-market>) The ceramic tiles market is experiencing a consistent upward trend, fueled by the recovery of the construction sector after a prolonged period of decline. The construction industry serves as a crucial catalyst for the expansion of the ceramic tiles market in India. Additionally, the Government of India (GOI) has implemented various programs and investments to promote infrastructure development, further contributing to market growth. Notably, initiatives such as the Pradhan Mantri Awas Yojana (PMAY) and the Smart Cities Mission are anticipated to significantly boost the demand for ceramic tiles in India. (source: <https://www.imaregroup.com/indiaceramictilesmarket#:~:text=Market%20Overview%202023%2D2028%3A,to%20reach%201%2C451.9%20Million%20Sq>)

Going forward, the Indian ceramic industry is poised to become the world's largest ceramic producer in coming years. The sector has already established itself as a major global player in the ceramic tile market, second only to China in terms of manufacturing, consumption, and export. This expansion is being driven by India's expanding urbanization and construction activity, leading to a surge in demand for various types of tiles, particularly glazed vitrified tiles. These tiles are popular among customers because they are incredibly durable and have a

visually attractive appearance. The development of glazed vitrified and full body vitrified tiles has provided a tremendous impetus to the industry, with vitrified tiles often hailed as the ‘tiles of the future’.(source:<https://www.thetilesindia.com/tile-news/indian-ceramics-asia-2023/>, <https://viterotiles.com/blog/indian-tile-industry-2021>)

FUTURE OUT LOOK

The low per capita consumption of tiles, rapid urbanization, increasing disposable income of nuclear families, untapped rural market and stable replacement demand shall continue to augur well for the Indian tile industry. In addition, forecast of a normal monsoon, improved consumer sentiment and implementation of e-way bill promise healthier performance.

During the year under review, the Company has earned revenue through sale of goods and have made significant efforts towards reviving and refurbishment of the Plant and is optimistic of commencing the production this year.

THREATS, RISKS AND CONCERNS

Alongside the multiple opportunities, the building material sector in India, particularly the ceramic industry and bathware sector, faces a range of challenges as well. These challenges include competition from the unorganized sector, which poses a threat to the organized players. Additionally, the sector faces unstable input costs, which can negatively impact profitability. Furthermore, there are macroeconomic volatilities, including currency fluctuations, that can affect the sector.

Besides, environmental regulations and changing consumer preferences pose a threat to the sector. With the rising awareness of environmental issues, consumers are displaying an escalating preference for eco-friendly building materials, which could lead to a shift in demand away from traditional materials. Supply chain disruptions, such as those caused by the Covid-19 pandemic, can also have a negative impact on the sector. To overcome these challenges and remain resilient in the future, the sector should demonstrate innovation, proactively seek alternative fuel sources, diversify revenue streams. In order to maintain a strong position in the coming years, the industry must also possess flexibility and adaptability to navigate evolving economic circumstances. Likewise, it is crucial for the Company to possess the agility and foresight to effectively address present and future challenges.

OPPORTUNITIES

The coming year presents a plethora of opportunities for the tiles and bathware market which is set to benefit the Company as well as the industry. One potential factor, boosting the prospect, is the reduction of supply chain disruptions, translating into lower freight costs and increased profitability. Moreover, reduced natural gas prices led to lower manufacturing costs, boosting the market competitiveness of products.

The Government's focus on infrastructure development through rising capital expenditure will serve as a catalyst for private players to augment their own capital expenditure. Further, rising awareness towards sustainability and sustainable products is set to drive the demand for eco-friendly building materials. This will provide vast opportunities to capitalize on. Additionally, new technologies such as 3D printing may result in the development of new products and more efficient manufacturing methods. Moreover, rapid urbanization in India will continue to uplift demand for residential and commercial constructions, resulting in increased demand for building materials. These variables, if combined with macroeconomic factors, set in motion a huge development potential in India's building material business in 2023.

Internal control mechanism, which is benchmarked with evolving best practices at regular intervals, ensures Company's adherences to all applicable regulations in letter and spirit. We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the *Auditors responsibility for the Audit of Financial Statements* section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the financial statements.

Material Uncertainty Related to Going Concern

We draw attention to note no. 1 to the financial statements regarding the preparation of the financial statements on a going concern basis, despite erosion of the net worth and no cash inflows from the existing business activities. However, the accompanying financial have been prepared on "Going Concern" basis for the reasons stated in the said note. Our opinion is not modified in respect of this matter.

Key Audit Matters

Except for the matters described in the Basis for Qualified Opinion section and Material Uncertainty Related to Going Concern section, we have determined that there are no other key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued there under and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

Regency Ceramics Limited
39th Annual Report

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1.2) Use of Estimates

The preparation of Financial Statements in conformity with the Indian Generally Accepted Accounting Principles (GAAP) requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and reported amount of income and expenses during the period. Actual figures may differ from these estimates. Any revision to the accounting estimates is recognized prospectively in current and future periods.

Key Assumptions

1.3) Plant and Equipment-Tangible Assets:

- i. Plant and Equipment are stated at historical cost less accumulated depreciation. Cost directly attributable to acquisition are capitalized until the Plant and Equipment are ready to for use, as intended by the management.
- ii. Subsequent expenditure relating to Plant and Equipment are capitalized only when it is probable that the future economic benefits associated with them will flow to the Company and the cost of the expenditure can be measured reliably. Repairs and Maintenance costs are recognized in the statement of Profit and Loss when they are incurred.
- iii. Depreciation on Plant and Equipment has been provided under Straight Line Method over the useful life of assets estimated by the management which is in line with terms prescribed in Schedule II of the Companies Act-2013 except the assets costing Rs.5000 or less on which depreciation is charged @ 100% in the year of acquisition. Depreciation for assets purchased /sold during the period is proportionately charged. Depreciation methods, useful lives & residual values are reviewed periodically.

The management estimates the useful life of the assets as follows:

Plant and Equipment (Process)	:	25years
Plant and Equipment (Others)	:	15 years

Buildings (Factory Buildings) :	30 years
Buildings (other than Factory Buildings) :	60 years

- iv. Transition to Ind AS: On transition to Ind AS, the Company has selected to continue with the carrying value of all of its Plant and Equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying values as deemed cost of the Plant and Equipment.

1.4) Inventory:

Inventories are valued at the lower of Cost or Net Realizable Value. The cost is determined on Weighted Average basis. Cost of finished goods and work-in-process include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. Stores and Packing Materials are valued at cost on weighted average basis.

1.5) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

A. Financial Assets:

Initial recognition and measurement

All financial instruments are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through Profit & Loss account transaction costs that are attributable to the acquisition of the financial asset, purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognized on the trade date i.e. the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For the purpose of subsequent measurement, financial assets are classified and measured at:

- i. Amortized Cost
- ii. Fair Value Through Profit and Loss (FVTPL)

Financial Asset measured at Amortized Cost

Financial Assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are measured at amortized cost using effective interest rate (EIR) method. The EIR amortization is recognized as finance income in the Statement of Profit & Loss.

The Company, while applying above criteria has classified all the financial assets (except investments in equity shares) at Amortized Cost.

Financial Assets at Fair Value Through Profit and Loss (FVTPL)

Financial Assets are measured at fair value through Profit & Loss if it does not meet the criteria for classification as measured at Amortized Cost or at FVTOCI. All fair value changes are recognized in the Statement of Profit & Loss.

Financial Assets Measured at Fair Value Through Other Comprehensive Income

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at Fair Value Through Other Comprehensive Income. Fair value movements are recognized in the Other Comprehensive Income (OCI). Interest income measured using the EIR method and impairment Losses, if any are recognized in the Statement of Profit and Loss. On de-recognition, cumulative gain or Loss previously recognized in OCI is reclassified from the equity to other income in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment Loss on the debt instruments, that are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance. Expected Credit Loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive.

The management uses a provision matrix to determine the impairment Loss on the portfolio of trade and other receivables. The provision matrix is based on its historically observed Expected Credit Loss rates over the expected life of the trade receivables and is adjusted for forward-looking estimates.

Expected Credit Loss allowance or reversal recognized during the period is recognized as income or expense, as the case may be, in the Statement of Profit and Loss. In case of Balance Sheet, it is shown as reduction from the specific financial asset.

B. Financial Liabilities.

Initial Recognition and Measurement

Financial Liabilities are recognized initially at fair value plus any transaction cost that are attributable to the acquisition of the financial liability except Financial Liabilities at FVTPL that are measured at fair value.

Subsequent Measurement

Financial Liabilities are subsequently measured at amortized cost using the EIR method. Financial Liabilities carried at Fair Value Through Profit and Loss. Gain or Losses on

liabilities held for trading are recognized in the Statement of Profit and Loss.

The Company does not designate any Financial Liability at Fair Value Through Profit and Loss.

Financial Liabilities at Amortized cost
