Details on Step 2 are mentioned below:

Login method for e-Voting for shareholders other than Individual shareholders holding securities in demat mode and shareholders holding securities in physical mode.

(A) Members whose email IDs are registered with the Company/ Depository Participants (s), will receive an email from Kfintech which will include details of E-Voting Event Number (EVEN), USER ID and password. They will have to follow the following process:

i. Launch internet browser by typing the URL: <https://evoting.kfintech.com/>

ii. Enter the login credentials (i.e., User ID and password). In case of physical folio, User ID will be EVEN (E-Voting Event Number) xxxx, followed by folio number. In case of Demat account, User ID will be your DP ID and Client ID. However, if you are already registered with Kfintech for e-voting, you can use your existing User ID and password for casting the vote.

iii. After entering these details appropriately, click on "LOGIN".

iv. You will now reach password change Menu wherein you are required to mandatorily change your password. The new password shall comprise of minimum 8 characters with at least one upper case (A- Z), one lower case (a-z), one numeric value (0-9) and a special character (@,#,\$, etc.,). The system will prompt you to change your password and update your contact details like mobile number, email ID etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.

v. You need to login again with the new credentials.

vi. On successful login, the system will prompt you to select the "EVEN" i.e., 'NEWGENSOFTWARE TECHNOLOGIES LIMITED- AGM' and click on "Submit"

vii. On the voting page, enter the number of shares (which represents the number of votes) as on the Cut-off Date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and

partially "AGAINST" but the total number in "FOR/ AGAINST" taken together shall not exceed your total shareholding as mentioned herein above. You may also choose the option ABSTAIN. If the Member does not indicate either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the votes for the shares held will not be counted under both head.

viii. Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/ demat accounts.

ix. Voting has to be done for each item of the notice separately. In case you do not desire to cast your vote on any specific item, it will be treated as abstained.

x. You may then cast your vote by selecting an appropriate option and click on "Submit".

xi. A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you have voted on the resolution (s), you will not be allowed to modify your vote. During the voting period, Members can login any number of times till they have voted on the Resolution(s).

xii. Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are also required to send scanned certified true copy (PDF Format) of the Board Resolution/Authority Letter etc., as mentioned in the Notes of this Notice.

(B) Members whose email IDs are not registered with the Company/Depository Participants(s), and consequently the Annual Report, Notice of AGM and e-voting instructions cannot be served, will have to follow the following process:

i. Members who have not registered their email address and in consequence the Annual Report, Notice of AGM and e-voting instructions cannot be served, may temporarily get their email address and mobile number provided with KFinTech, by accessing the link: <https://ris.kfintech.com/clientservices/mobilereg/mobileemailreg.aspx>. Members are requested to follow the process as guided to capture the email address and mobile number for sending the soft copy of the notice and e-voting instructions along with the User ID and Password. In case of any queries, member may write to einward.ris@kfintech.com.

ii. Alternatively, member may send an e-mail request at the email id einward.ris@kfintech.com along with scanned copy of the signed copy of the request letter providing the email address, mobile number, self-attested PAN copy and Client Master copy in case of electronic folio and copy of share certificate in case of physical folio for sending the Annual report, Notice of AGM, and the e-voting instructions.

iii. After receiving the e-voting instructions, please follow all steps above to cast your vote by electronic means.

Details for Step 3 are mentioned below:

Deliver personalized communication across channels at scale

Enable intelligent decision-making by infusing AI into business processes

NewgenONE, AI-led low code platform, helps accelerate enterprise-wide digital transformation. The core modules of the platform are - advanced content management, comprehensive process automation, omnichannel customer communication, and powerful AI capabilities. They are backed by a robust integration ecosystem, low code application development environment, governance, and security. Also,

the modules work in tandem, acting as building blocks to enable organizations to design, develop, and deliver cloud-ready enterprise-grade applications rapidly.

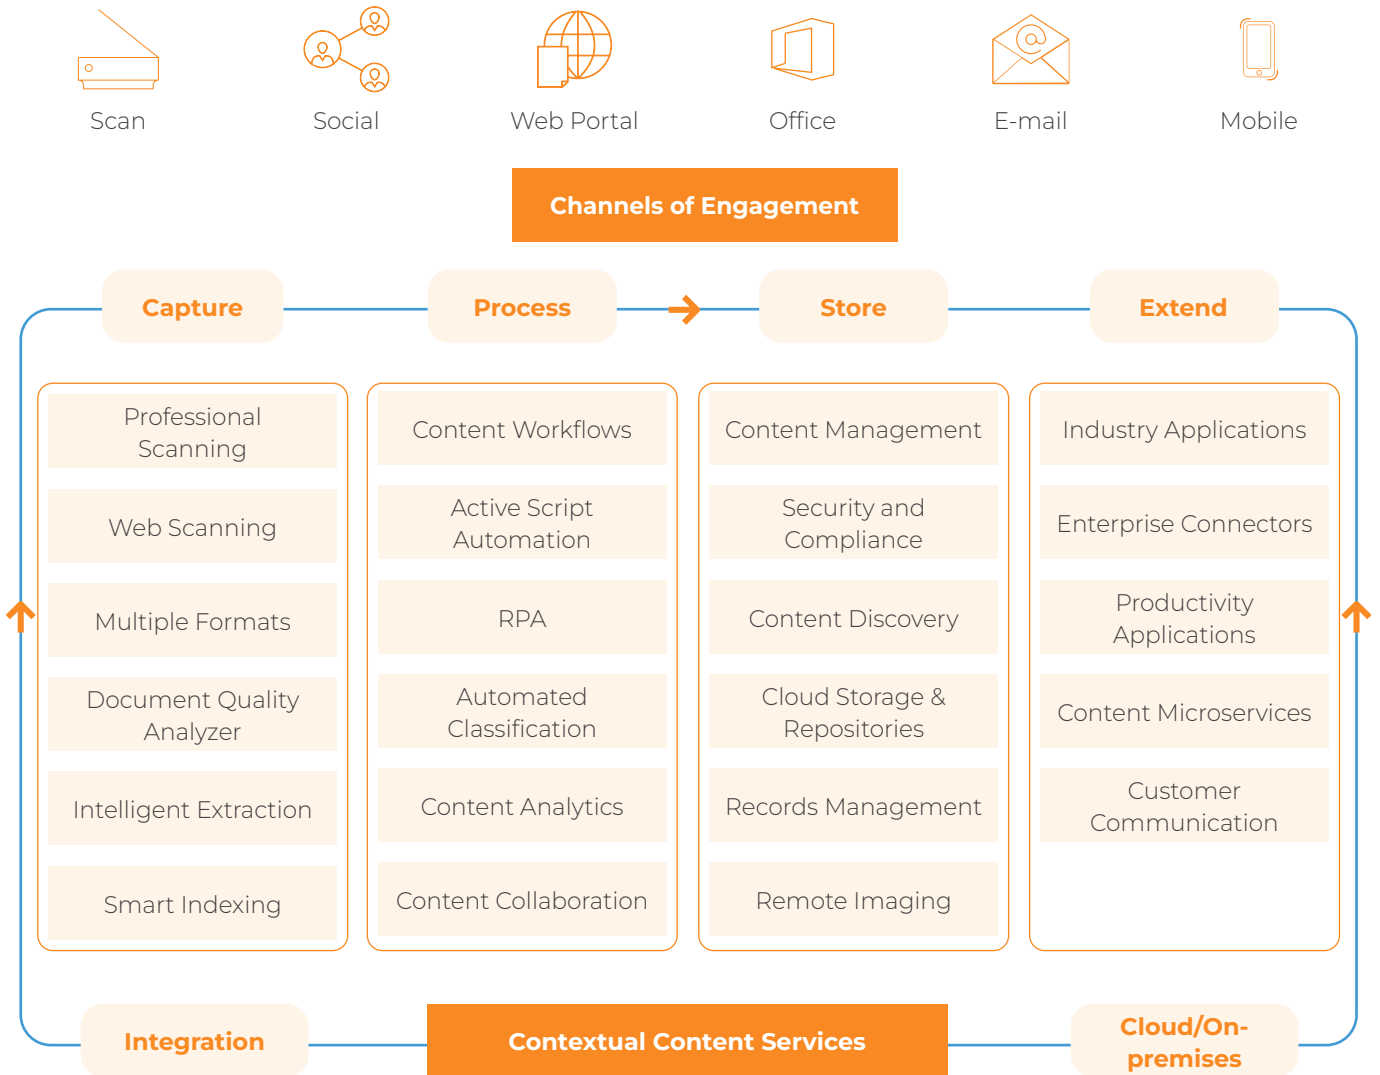

Our platform automates business needs that are complex, content-driven, and involve sophisticated, omnichannel customer interactions. We thus deliver a modern experience and empower users with information, while enabling professional IT developers

with speed and agility. Our platform's capabilities, including mobility, social, analytics, cloud, Robotic Process Automation, and Artificial Intelligence/Machine Learning, accelerate the digital journey of an enterprise, keeping it ahead of the curve.

We possess multi-vertical industry expertise and provide purpose-built applications to meet the requirements of many different verticals.

Contextual Content Services (ECM)

Digitize Workplace with Contextual Automation, Compliance, and Intelligence - OnCloud

NewgenONE allows businesses to effectively capture, organize, and collaborate on content generated across multiple channels and sources while maintaining its security and integrity. The platform's pre-built components and templates can be easily customized to create content applications that meet the specific needs of each organization. With secure access controls, NewgenONE enables authorized access to sensitive information.

The platform facilitates long-term retention and disposition of enterprise records. Organizations can leverage intelligent technologies to automatically extract data from documents, classify bulk documents, visualize data, mine patterns, and employ content analytics to make informed decisions and enhance productivity.

Low Code Process Automation (BPM)

Rapid Application Development for Deep and Complex Business Application - Across Devices

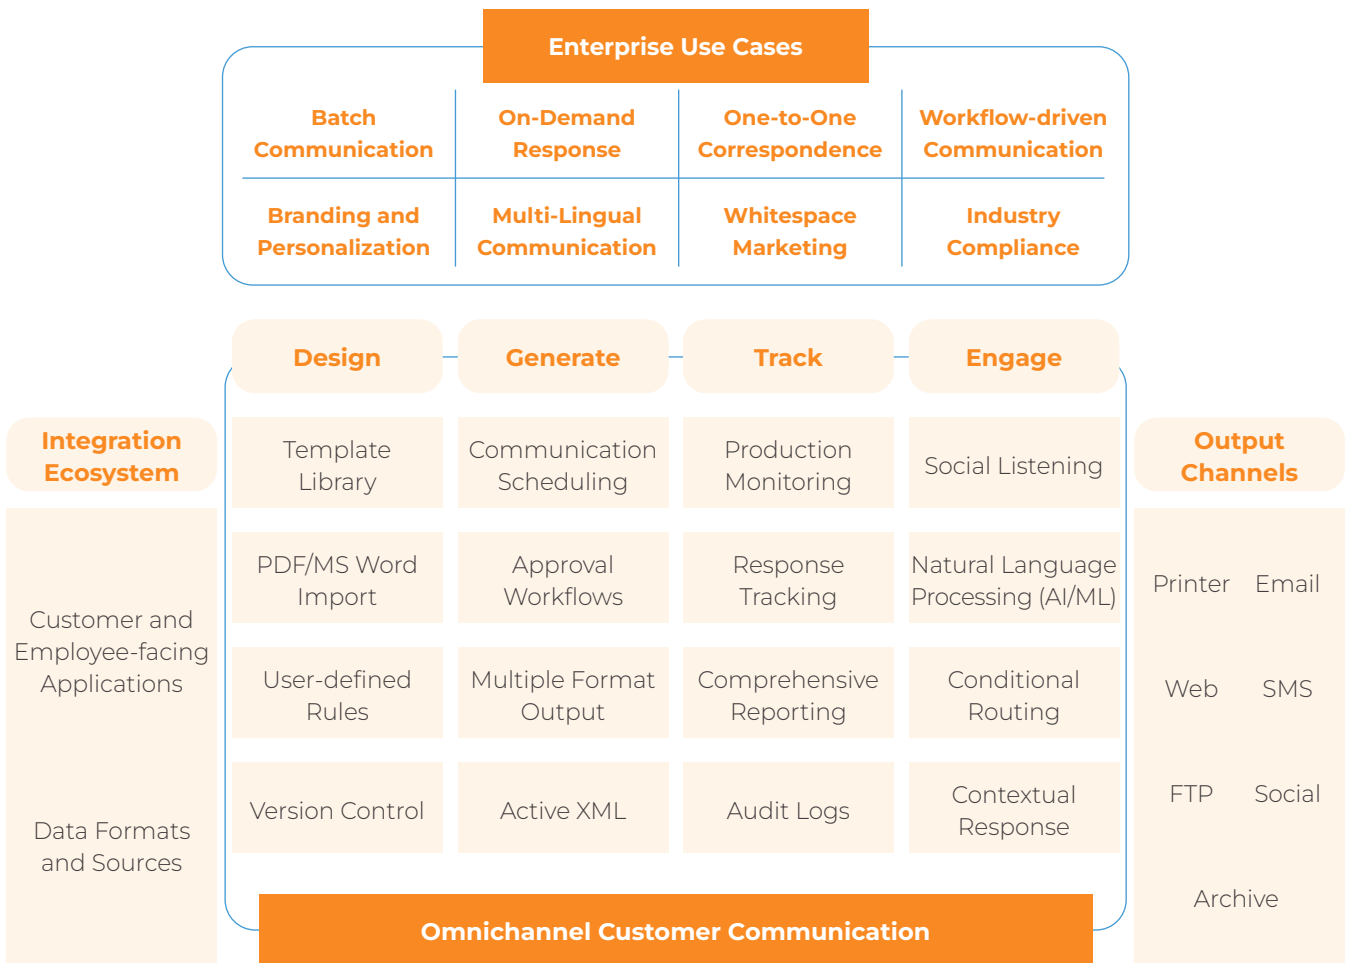

NewgenONE helps organizations automate end-to-end business processes by orchestrating information flow across the enterprise. It helps in creating processes that map organizational workflows. It allows users to create, deploy, and manage complex business decisions, identify bottlenecks and suggests future workloads and automate repetitive tasks to accelerate business processes.

With NewgenONE, Enterprises can rapidly compose business applications through a visual drag-and-drop tool with minimal or no coding. It helps in developing applications across the front office, mid office, and back office using low code philosophy.

Omnichannel Customer Engagement (CCM)

Use the Business Data and Manage the Communication Output – Personalized and at Scale

NewgenONE enables users to design, manage, and distribute communications from a centralized platform, including batch, on-demand, or interactive. The platform enables organizations to offer a superior customer experience by delivering personalized communications through customers' preferred channels. It allows users to tap up-sell and cross-sell opportunities across channels via email, SMS, social, web, and print.

Newgen AI Cloud – A Unified Platform for all Data Science needs

NewgenONE enables organizations to create AI models that deliver intelligence by analyzing trends, identifying critical insights, and discovering new business opportunities. The platform helps visually manage the end-to-end data lifecycle, from preparing and deploying models to monitoring. Equipped with intelligent automation capabilities, it enables citizens and expert data scientists, and engineers to perform key machine-learning tasks. Moreover, the AI models developed facilitate smarter content management, intelligent process automation, and contextual customer engagement.

Chairman's Message

We have always been at the forefront of innovation and transformation at Newgen and continue to invest 10% of our revenues on various R&D initiatives. We have embraced emerging technologies, trends, and customer needs to drive our growth.

Dear valued Shareholders,

It is with great pleasure that I present to you our Annual Report for the year 2022-23. This year has been remarkable for us as we reached the milestone of ₹ 1,000 crores in total revenues witnessing a growth of 25% year-on-year.

We have made significant progress as an organization and delivered strong performance across key business metrics during the financial year. Our growth has been broad-based across geographies and segments. While accomplishing the growth in revenues, we continued with our smooth transition from license to subscription revenues. The subscription revenues

now comprise 33% of our total revenues, providing more visibility and predictability to the business.

Growing Large Customer Base

We have built strong and lasting relationships across verticals with our customers by consistently providing quality solutions and services. Our solutions today are driving deeper penetration into our customer base. We have been seeing a trend of increasing average ticket sizes per customer. Of the 520+ active customers today, 51 customers had billing in excess of ₹ 5 crores for the year compared to 38 last year. At the same time, we continue to maintain low levels of client concentration.

Innovation – The Foundation of our Growth

We have always been at the forefront of innovation and transformation at Newgen and continue to invest 10% of our revenues on various R&D initiatives. We have embraced emerging technologies, trends, and customer needs to drive our growth.

The new generation of our product suite, NewgenONE has contemporary user interfaces and more integrated development environment. Using low code principles, it produces better applications, attractive portals, efficient Desktop interfaces. This facilitates end-to-end integrated processes at Enterprise scale.

The low code platform now has integrated AI/ML platform, using which, our users can now create suggestive and prescriptive intelligence into their processes.

In our chosen vertical of Lending and Trade Processing, we are incorporating these technologies. We are enriching our lending solutions with AI/ML based auto-decisioning and no-touch, low-touch strategies. Our recently launched trade finance solution is taking us deeper into the banking and financial services verticals and here, we are again using our AI-based strategy for extracting data from paper images and PDF documents.

Our products have been well recognized by various reputed industry analysts like Gartner and Forrester in our categories of Content Platforms, Low Code Application Platforms as well as Robotic Process Automation. We were happy to be recognized as a Leader for the first time in the Forrester Wave – Content Platforms report.

NewgenONE platform is ideally suited to achieve enterprise goals of revenue enhancement, increased productivity, optimization of cost and business operations & team collaborations.

Investing for Growth in Sales and Marketing initiatives

We are continuously making disciplined investments towards our global expansion, go-to-market and platform enhancement to address the market opportunity. On the sales and marketing front, we are working on building our direct sales channel along with a focused alliance with our partners especially the system integrators to expand our market footprints. We are driving joint sales and marketing activities and

campaigns as well as joint solution development with our partners. We are also providing them with continuous support through our comprehensive set of training courses, certification programs, partner portal and product lab empowering our partners with the skills and knowledge related to our products and platform and enabling them to create solutions on their own and become certified Newgen specialists.

Focus on Employee Welfare and Productivity

2022-23 marked prioritization of initiatives aimed at enhancing employee engagement, talent management, and capability building. We are utilizing AI technologies internally to enhance employee productivity.

Our focus has been on fostering a culture of inclusion, promoting diversity, investing in learning and development, and empowering our employees. This is essential for driving our long-term goals.

Strengthening Balance Sheet

With another profitable year, we have strengthened our Networth. We have no term debt on the balance sheet. We have a healthy cash and bank balance enhancing our financial stability. Our net cash generated from operating activities during the year was at ₹ 136 crores.

Building a Sustainable Organization

As we scale up, we embark on another long-term goal to build a responsible and sustainable organization. We are aligning our sustainability agenda with our business and technological transitions, and organizational growth, to create long-term sustained value towards business, community and the planet.

Newgen has been actively carrying out various CSR initiatives with the mission to contribute to the social and economic development of the communities in which we operate. We aim to actively contribute to the holistic development of underprivileged children, specifically. Our various CSR programs include imparting digital education, life skills and personality development programs, remedial education programs and mid-day meal programs.

Priorities for 2022-23

Newgen continues to empower enterprises towards a more holistic or enterprise-wide automation which is built for change. This is essential towards building sustainable organizations of the future. We believe generative AI would open up further opportunities for us in areas including content services, search optimization, content creation, etc. It is also expected to provide operational benefits and employee productivity enhancement by augmenting capabilities for engineers. We are focusing on expanding in the mature markets of US, Europe and Australia along with getting deeper into the emerging markets. We continue to enhance our partner network. We believe, we are well equipped to take this journey with our cutting-edge products, focus on innovation, skilled team and deeper customer relationships across the globe.

I extend my heartfelt appreciation to all our stakeholders, customers, partners, investors and employees, for your continued collaboration and trust in us. We are ready to shape the future enterprises and beyond.

CEO's Message

At Newgen, customer-centricity and excellence lie at the heart of our business. Our unwavering focus on building long-term relationships and creating a strong foundation has yielded remarkable results

Dear Shareholders,

I am delighted to present to you another year of exceptional performance and growth at Newgen. We have made significant progress in our journey towards building a sustainable and resilient organization, and I am proud to share the highlights with you.

In FY'23, we achieved strong and profitable growth across

geographies, showcasing a remarkable 25% increase in Total Income compared to the previous year, reaching ₹ 1,000 crores. This growth was primarily driven by our traditional markets, with India leading at 41%, followed by EMEA at 28%, APAC at 17%, and the US at 10%.

While delivering robust revenue growth, we successfully continued our transition from license to subscription-based revenues. Our

subscription revenues have now reached ₹ 323 crores, accounting for 33% of our total revenues. I'm pleased to share that we maintained healthy margins at both operating and net levels throughout the year.

At Newgen, customer-centricity and excellence lie at the heart of our business. Our unwavering focus on building long-term relationships and creating a strong foundation has yielded remarkable

Our Newgen products have earned leadership positions in global reports, and we remain committed to investing in research, learning, and development to keep pace with the rapidly evolving world. Embracing new technologies, change, and AI is crucial to enhancing all aspects of our operations.

results. By providing innovative and world-class solutions, services, and value to our customers, we have established a loyal customer base of 520+ active customers. We are dedicated to shaping the enterprises of tomorrow, fostering agility, adaptability, profitability, and sustainability. Moreover, we are continuously strengthening our partnerships and ensuring seamless support to deliver value to enterprises.

Our Newgen products have earned leadership positions in global reports, and we remain committed to investing in research, learning, and development to keep pace with the rapidly evolving world. Embracing new technologies, change, and AI is crucial to enhancing all aspects of our operations. The latest version of our NewgenONE platform revolutionizes the approach to digital transformation. Its modular design, advanced AI

capabilities, RPA functionalities, and cloud-first approach enable organizations to deliver superior customer experiences, achieve operational excellence, and drive business innovation. Our new solution accelerators in banking and financial services have garnered positive results and opened up exciting new opportunities for us.

Our greatest strength lies in our dedicated and hardworking employees, who tirelessly strive to achieve our long-term organizational goals. I express my deepest appreciation to our employees for their unwavering commitment, dedication, and passion. It is through their relentless pursuit of excellence that Newgen continues to soar to new heights. Together, we will continue to foster a culture that nurtures innovation, collaboration, and personal growth, empowering each individual to contribute their very best.

I extend my heartfelt gratitude to all our stakeholders. Your unwavering trust in us and our products serves as a constant source of motivation to achieve even more. Our partners have been instrumental in our growth, and we remain committed to working closely with them to drive mutual success. As we strive to build a sustainable organization and make a positive impact on society, we are dedicated to fostering an inclusive, respectful, and empowering environment for all.

Thank you for your continued support and belief in Newgen. We are excited about the journey ahead and look forward to another successful year of growth and accomplishments together.

Chief Executive Officer

Investing in the Future through Organic and Inorganic Product Investments

As an organization, we are constantly investing in learning and development to meet the fast-changing requirements of the world.

This year the focus has been on improving the following:

User Interface

Modern React-based UI for improved accessibility and user experience

Security

Two-factor authentication across products. Introduced vaults to securely manage user and system credentials during various stages of application deployment

Microservices

Introduced microservices architecture in the IBPS portal and OmniDocs, allowing flexibility in configuring, deploying, and scaling services

Integration

Partnered with leading enterprise application providers to develop an integration portfolio serving both horizontal and vertical use cases

570+

R&D Employees

44

Patents Filings
(with 23 Patents Granted)

10%

of Revenues invested
in R&D in FY'23

We continue to enhance our NewgenONE platform. We have backed it with a cloud-native, multi-persona AI/ML data science platform, enhanced document classification and extraction with AI/ML-based capabilities, integrated process and RPA capabilities, and strengthened our DevOps for easy application deployment/update.

We also launched the Low Code Trade Finance offering. It is a comprehensive, configurable, and future-ready platform that helps banks go paperless and streamline their end-to-end trade processes while ensuring compliance with domestic and international regulations.

As of March 31, 2023, the Company has 44 patent filings to its credit, of which 23 have been granted in India and the US, and 3 applications are under processing.

Expanding Business Presence

Newgen adopts a vertical-based go-to-market strategy through multiple channels - direct sales channel and the partner network (including System Integrators) for its sales across the globe. The Company has a strong presence in the traditional markets of India, the Middle East, Africa and other Asian countries, and continues to expand. There is a concerted focus on expanding its presence in the mature markets of the US, Europe and Australia.

The Company has a sales and marketing team of 330+ employees across geographies which are supported by a large partner network of global Systems Integrators, consulting and advisory partners, value-added resellers and technology partners. Newgen makes disciplined investments towards improving the go-to-market strategy including various in-person and digital initiatives and events, analyst and consultant engagements and customer interactions to further enhance the brand presence and visibility,

generate leads and accelerate the sales pipeline. During the year, we participated in multiple industry events and conducted customer meets across Mumbai, Dubai and New Delhi. We received an overwhelming response and engaged with our customers and stakeholders in person through the various events.

Newgen continues to strengthen the partner ecosystem globally, especially, towards building deeper relationships with System Integrators for making in-roads in the 'Fortune 2000' customers

in mature markets. The Company provides continuous support to the partners on Sales, Marketing, Pre-Sales and Technical support including trainings, certification programs and partner portal. In FY'23, Newgen entered into a strategic alliance with Coforge to accelerate digital for organizations in the US, Europe, and the rest of the world and Anabatic Digital, a leading IT solutions provider in Indonesia, for delivering high-value solutions to financial institutions across Indonesia and Asia-Pacific region.

Shaping the way we work

Close-Knit for Better Collaboration and Collective Growth

As one of the leading software technology companies, Newgen is committed to creating an inclusive and engaging workplace culture that fosters innovation, collaboration, and growth. We believe that the success of our organization is driven by our employees and their unique perspectives, talents, and experiences. This is why we prioritize initiatives aimed at enhancing employee engagement, talent management, and capability building while adhering to our core values of ethics and compliance.

Better Working Together

One of the greatest business challenges of our time has been navigating the COVID-19 pandemic and its aftermath. Reimagining office and work-life post COVID-19, the world looks very different now. Globally, business prospects are brighter. Newgen is attempting to support its employees and keep up with the rapidly-changing demands in a shifting landscape.

Our plans for returning to work have been implemented with careful consideration. We have chosen a hybrid work model considering the changing needs of the workforce and the need to provide a safe working environment. Despite the introduction of flexible work arrangements, the foundation of our work culture continues to be collective development, collaboration within teams and departments, and communication between the Company, its customers, and society.

Steering Change through Employee Engagement

At Newgen, we understand that employee engagement is critical to our success. We believe that by fostering a sense of community and collaboration, we can drive positive change within our organization and create an environment where every employee feels valued and supported.

We are delighted to report that our past efforts on employee engagement have yielded significant results, as confirmed by the Global Employee Engagement Survey. The survey results revealed a jump in employee engagement, reflecting the

success of our engagement levers. Our focus on fostering a culture of inclusion, promoting diversity, investing in learning and development, and empowering our employees has resulted in a workplace where every employee feels valued, supported, and motivated to contribute to our organization's success. We are proud of this achievement and remain committed to building on this success to drive innovation, collaboration, and growth within our organization.

Imbibing Values and Culture of Inclusion

Newgen is embarking on an exciting journey towards greater diversity and inclusion

in the workplace. We believe that a diverse and inclusive workforce is essential to driving innovation, enhancing employee engagement, and creating a workplace culture that reflects our values. We have already taken several steps towards this goal, including promoting equal employment opportunities, providing training on unconscious bias, and encouraging managers to lead by example through their actions and behavior.

We are proud of the examples set by our managers and employees in upholding our values in action, such as mentoring and sponsoring employees from diverse backgrounds, celebrating cultural festivals, and promoting a safe and welcoming workplace for all. We remain committed to building on these efforts and creating a workplace where every employee feels valued and supported, regardless of their background or identity.

Our commitment to diversity and inclusion is reflected in our policies, practices, and culture. We believe that by promoting diversity and inclusivity, we can leverage the unique strengths and perspectives of our employees to drive innovation and growth.

Newgen is committed to crafting policies that promote diversity and inclusion. Our vision on D&I (Diversity and Inclusion) is aimed at creating an environment where every employee feels valued and supported, regardless of gender, race, religion, or sexual orientation. We believe that by promoting diversity and inclusivity, we can drive innovation, enhance employee engagement, and foster a culture of excellence.

As part of this commitment, we focus on empowering women in leadership positions and crafting more inclusive policies that promote equal employment opportunities for all, including PwDs (People with Disabilities) and transgender persons.

Empowering People with Skills and Knowledge for Career Progression

At Newgen, we believe that empowering our employees is critical to driving organizational success. We offer a range of career development opportunities, including mentorship programs, leadership development programs, and job rotation opportunities aimed at supporting employee growth and progression. We believe that by empowering our employees, we can foster a culture of excellence and drive innovation and growth.

We believe that by investing in the growth and development of our employees, we can enhance their skills, knowledge, and capabilities, while also driving the retention

of our top talent. To this end, we have implemented a robust talent management framework that provides our employees with clear career paths, regular performance feedback, and targeted learning and development opportunities. We also encourage internal mobility, allowing our employees to explore diverse roles and functions within the organization. By empowering our employees with the tools and resources they need to succeed, we are confident that we can continue to attract, retain, and develop the best talent in the industry.

Flagship projects were introduced by the L&D (Leadership and Development) Team with much-appreciated results. From investing in leadership development to focusing on strengthening Newgen's culture, the year marked the introduction of several new initiatives:

Some of the key programs introduced this year include:

- Initial Learning Track for Software Engineers and Application Engineers

Shaping the way we work

- New Course Design for Associate Business Analysts
- Sales and Marketing Enablement Program [SMEP] launched on a global scale
- Introduction of Learning Carnival for Implementation Teams
- Signing-in programs for new Project Leaders and Project Managers
- Established Learning Councils across Products and Implementation Teams
- Other programs include Building Capability of Campus Cadres at various Learner Levels, Customer Centricity Workshop, Low Code Philosophy Workshop, Being Newgen – Our Signature Program and many more

Enhancing Talent Management through Learning and Development

At Newgen, we believe that our success is driven by our employees' skills, knowledge and expertise. This is why we prioritize talent management and learning, and development initiatives aimed at enhancing employee skills, promoting innovation, and supporting career growth. We offer a range of training and development programs that focus on building technical, leadership, and communication skills to ensure that our employees are equipped with the knowledge and tools they need to succeed.

We recognize the importance of capability management in driving organizational performance and growth. Our capability

management initiatives are aimed at identifying skill gaps, promoting skill development, and leveraging employee strengths to enhance our organizational capabilities. We believe that by investing in capability management, we can improve our ability to innovate, adapt to changing market conditions, and drive growth.

Enabling Individuals with Effective Correspondence and Organizational Commitment

Newgen's capacity to engage clients in their computerized change venture is driven by the aggregate greatness of our kin. We have implemented the following initiatives with a special focus on leadership development and improving our employee experience:

- Regular communication by CXOs to align all Newgenites with a common vision and purpose
- Open house gatherings are coordinated to convey past success and the way ahead through collaborative efforts to achieve the organizational vision
- Vital HR projects have been implemented to guarantee that Newgen continues to have a flourishing working environment – such as Global D&I Sentiment Surveys, Employee Engagement Surveys, gathering feedback on L&D-related aspirations and much more
- Online Award and Acknowledgment (R&R) program to feature remarkable commitments and drive commitment, combined with other motivators
- Other communications like #EmployeeAppreciationMonth, #NewgenitesSpeak #PrideMonth #EES #DidYouKnow

- Hackathons and cross-functional teams drive authoritative worth by fostering innovation as one of our core values
- Special recruitment drives organized with a preference for women candidates to fill mid and senior leadership positions
- ESOPs issued for incentivizing and retaining top talent, aligning employee and company interests, and driving long-term value creation for all stakeholders

Committed to Ethics and Compliance

At Newgen, we are committed to upholding the highest standards of ethics and compliance. We believe that operating with integrity and transparency is critical to building trust with our employees, customers, and stakeholders.

Newgen is committed to upholding the highest standards of ethics and compliance in all aspects of our operations. We recognize the importance of aligning with the laws of the land which flow out through the values of the organization to ensure that we provide a fair, safe, and inclusive workplace for all employees.

While many of the policies have been implemented in letter and spirit, Newgen is on its journey to promote diversity, prevent discrimination and harassment, and protect the rights of our employees, including those with disabilities or belonging to marginalized communities. By upholding these values, we are proud to contribute to building a more ethical, diverse, and inclusive society.

We have robust compliance policies and procedures in place that promote ethical behavior

ensure regulatory compliance, and protect our company's reputation. We believe that by operating with integrity, we can create a culture of trust and accountability that supports our organizational goals.

Thus, we see that the last year has set the stage for Newgen to be fostering a more inclusive and engaging work culture that promotes innovation, collaboration, and growth. We believe that our employees are our most valuable asset, and we prioritize initiatives aimed at enhancing the employee experience, talent management, and capability development. We are committed to upholding the highest standards of ethics and compliance and creating a workplace where every employee feels valued and supported.

CSR - Making an Impact

Newgen initiated its CSR activities in 2016 with the mission to actively contribute to the social and economic development of the communities in which we operate. The core philosophy is to empower the less privileged sections of society through a holistic approach to help them realize their full potential and ensure a good quality of life.

In 2022-23, Newgen continued its flagship CSR initiative, Newgen Digital Discovery Paathshala (Digital education) along with driving partner-supported programs with KHUSHII (Education), The Akshaya Patra Foundation (Mid-day Meal), KK Academy (Education) and I Am Foundation (Personality Development).

Newgen Digital Discovery Paathshala (NDDP)

Newgen Digital Discovery Paathshala (NDDP) is designed to impart knowledge to girls studying in government schools, using web-based technology and transform traditional classroom teachings into fun learning sessions. Classroom education is made very simple and interesting by engaging students through role-plays, quizzes, movies, presentations, audio-visuals, iPads, and other digital mediums. They are encouraged to do research and create content using iPads/tablets. The initiative focuses on promoting quality digital learning among government school students.

In FY 2022-23, the implementation strategy incorporated a hybrid model for conducting digital learning sessions at the adopted secondary government schools for girls, in Harkesh Nagar and Tekhand, in Delhi, where we are reaching out to 3,000 girl students from class 6th to 8th. At the end of the fiscal year, over 1,200 students received digital devices and recharged SIM cards to assist them with online classes.

NDDP Alumni

Once the students graduate from NDDP, they become a part of our NDDP alumni – classes 9th to 12th – where we focus on their personality development and career counseling. The current batch of NDDP alumni has over 500 girl students.

Self-Motivation and Self-Development Program (SMSDP)

Under Personality Development (PD), Self-Motivation and Self-Development Program (SMSDP) has been created. The sessions cover various topics like time management, critical thinking, problem-solving, health and hygiene, emotion management and ethical behavior.

Career Counseling

Counseling helps students from classes 9th to 12th in selecting the right stream and identifying their career goals. For FY 2022-23, extensive career counseling was conducted for students appearing in class 12th. Handholding them to get into regular and vocational colleges remains a key feature of the program.

NDDP Maargdarshaks

This program has been created in collaboration with the meritorious 12th grade students, who could be the torchbearers and guide juniors on various aspects of higher education and career planning.

NDDP's Stakeholders

Over time, the NDDP program has realized the significance of involving the primary stakeholders i.e., the teachers and parents to strengthen the program and make it sustainable.

1. Interaction with Mothers (Chai pe Charcha) – Before the online session, in December 2022, an exhibition of handmade items by 108 NDDP mothers was held in Newgen's Noida office for the employees. The winners were announced later during the enjoyable online mothers' session.
2. Interaction with Teachers (SamarthShikshaks) – During the year, 20+ teachers were interviewed to gauge the impact of NDDP sessions, and their feedback and suggestions were incorporated into NDDP plan.

New Initiatives

NDDP Emerge

NDDP Emerge is a platform for NDDP students who have excelled during the academic year. The identified group of students are guided by professionals as mentors on various education streams, career opportunities and soft skills on a regular basis.

NDDP Samarth Saarthis (Mothers' Group)

The mothers of NDDP students are being interviewed to determine their interests and abilities. This will be followed up by activities focused on promoting digital education among mothers and to help them develop their skills.

Students' Testimonials

The way the facilitator addresses the chapter, it seems like a story. When my schoolteacher took the test, I answered all the questions correctly. Now this chapter will remain in my mind for the rest of my life.

Priya (name changed),
Class 7th, Tekhand School

I look forward to informative AVs shown in the NDDP classroom and I always share the takeaways of the sessions with my mother over lunch.

Asma (name changed),
Class 6th, Harkesh Nagar School

NDDP sessions are the only place where our hidden talents are brought out. I never knew that I would be a good newsreader or be successful in a debate. Now I have aced my public speaking skills.

Khushi (name changed),
Class 8th, Tekhand School

I have been a part of NDDP from class 6th and it helped me in my academic performance. Using the NDDP device, I studied all my subjects and scored 77% in 12th exams, Science stream.

Shreya (name changed),
NDDP Alumni, pursuing Bachelor in Physiotherapy-1st year, DPSRU

Mothers' Testimonials

“

The tablet provided by NDDP device came as a blessing during the distressed times. My kids are now able to study, fill university application forms using the tablet. With my daughter I have always attended PD sessions based on nutrition and menstruation that has given me a different outlook on such tabooed and less discussed topics.

Paramshila, NDDP mother”

“

The intervention of NDDP made it easier for my children to study and dream of a career after my husband's demise. If NDDP comes forward to work with women like us I would like to participate and encourage others to learn digital education.

Monika, NDDP mother”

“

I never saw Krishna (name changed) too much into studies and sports before the inclusion of NDDP smartphone in her studies. She scored well in various subjects, won sports competitions on zonal and district level. The changes have been visible throughout her academic journey as well since she started attending NDDP sessions. I never miss a single session with her, few sessions have been enlightening for me as well. Learning got no age and bar, it should never be stopped.

Lata, NDDP mother”

Teachers' Testimonials

“

Earlier, students called SST as 'SARA SAAL TENSION'. Surprisingly, now the students found SST subject very interesting and call it 'SARA SAAL STORIES' as in NDDP sessions SST subjects are narrated in the form of stories and it fascinates them.

Harkesh Nagar School Teacher”

“

With the NDDP facilitators covering the SST and Science topics with a different inclusive approach, I can notice remarkable changes in the students as they have become more participative in the class.

Harkesh Nagar School Teacher”

“

It's great to see that NDDP focuses on the low performers equally. I have seen many students now being able to answer in class on specific history topics taught in NDDP sessions like Delhi Sultans, Mughal Empire.

Tekhand School Teacher”

“

NDDP has helped us teachers a lot. The way you make students understand chapters through AVs is very different. These types of sessions are much needed in government schools.

Harkesh Nagar School Teacher”

Remedial Education Program with KHUSHII

Newgen is working with NGO KHUSHII (Kinship for Humanitarian, Social and Holistic Intervention in India) to offer remedial classes. The project reaches 5,433 students in Harkesh Nagar and Tekhand in Delhi, Nandambakkam in Chennai and Ramgarh in Uttarakhand.

Holistic Education Program with KK Academy

Newgen’s partnership with KK Academy in Lucknow reaches out to 220 students from diverse backgrounds and enables them to learn and grow together, thereby, building an environment of inclusivity.

Mid-Day Meal Program with The Akshaya Patra Foundation

Newgen supported The Akshaya Patra Foundation to provide 10 lakh+ mid-day meals to 4,334 school students and work towards their overall development. With this initiative, Newgen ensures that healthy and nutritious meals are served to children to support their growth in their formative years. The project locations include Baran and Nathdwara in Rajasthan, Bhillai in Chhattisgarh, Mangalgiri in Andhra Pradesh, and Gorakhpur in Uttar Pradesh.

Life Skills Development and Peer Leadership with I Am Wellbeing

Newgen Software Technologies collaborated with I Am Wellbeing to provide expertise in life skills and personality development and build resilience amongst young children from underprivileged communities. The program covers over 1,400 NDDP and NDDP alumni through monthly sessions.

CSR - Making an Impact

Connecting the Dots with Implementation Partners' Program

Engagement with Newgen Volunteers

Newgen volunteers attended various programs as role models, judges, speakers, and audience, throughout the year. They participated in activities such as students' debate competitions, career counseling sessions, and special day celebrations.

CSR Week 2022

April 2022 witnessed the engagement of Newgen volunteers with the program beneficiaries during a week-long event. Major highlights included debate session, quiz competition, declamation competition, virtual tour of Akshaya Patra's kitchen and an in-person painting competition with KHUSHII's junior classes. The volunteers were felicitated with participation certificates and a token of appreciation.

Annexure 6

Annual Report on Corporate Social Responsibility (“CSR”) Activities or Programmes pursuant to Section 135 of the Companies Act, 2013 and Rule 8 of the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2022.

1. Brief outline on CSR Policy of the Company:

Newgen’s CSR mission is to actively contribute to the social and economic development of the communities in which we operate. The core philosophy is to empower the lesser privileged sections of society through a holistic approach to help them realize their full potential and ensure a good quality of life.

In line with the sustainable development goals (SDGs) and nationwide outcry to promote education, Newgen contributes to the Schedule VII thematic areas of promotion of education and eradication of hunger, poverty, and malnutrition.

Newgen CSR Programs:

a. Newgen Digital Discovery Paathshala (NDDP)

Newgen Digital Discovery Paathshala (NDDP) program is designed to impart knowledge to school children using web-based technology and transform traditional classroom teachings into fun learning sessions. Under the aegis of NDDP, over 1200 students received digital devices and recharged SIM cards to assist them with online classes. This assists in bridging the technology accessibility gap among the students.

NDDP supports two schools in Delhi - Government Girls Senior Secondary Schools in Harkesh Nagar and Tekhand. Over 3,000 students of classes 6th to 8th benefit from the program. In 2022-23, the implementation strategy incorporated a hybrid model for conducting digital education sessions at the adopted secondary government schools.

NDDP Alumni - Once the students graduate from NDDP, they become a part of our NDDP alumni—classes 9th to 12th—where we focus on their personality development and career counseling. The current batch of NDDP alumni has over 500 girl students.

Under Personality Development (PD), Self-Motivation and Self Development Program (SMSDP) has been created. The sessions cover various topics like time management, critical thinking, problem-solving, health and hygiene, emotion management and ethical behavior.

Career Counselling, helps the students of classes 9th to 12th in selecting the right stream and identifying their career goals. For the year 2022-23, extensive career counseling was conducted for students appearing in class 12th. Handholding them to get into regular and vocational colleges remained a key feature of the program.

NDDP Maargdarshaks has been created with the meritorious 12th passed students, who could be the torch bearers and guide the juniors on various aspects of higher education and career planning.

NDDP’s Stakeholders

Over time the NDDP program has realised the significance of involving the primary stakeholders i.e., the teachers and the parents to strengthen the program and make it sustainable.

1. Interaction with Mothers (Chai pe Charcha) – Before the online session, in December 2022, an exhibition of handmade items’ by 108 NDDP mothers was held in Newgen’s Noida office for the employees. The winners were announced later during the enjoyable online mothers’ session.
2. Interaction with Teachers (SamarthShikshaks) – During the year 20+ teachers were interviewed to gauge the impact of NDDP sessions, and their feedback and suggestions were incorporated into NDDP plan.

New Initiatives

NDDP Emerge – NDDP Emerge is a platform for the NDDP students who have excelled during the academic year. The identified group of students are guided by professionals as mentors on various education streams, career opportunities and soft skills on a regular basis.

NDDP SamarthSaarthis (Mothers' Group) - The mothers of the NDDP students are being interviewed to determine their interests and abilities. This will be followed up by activities focused on promoting digital education among the mothers and to help them develop their skills.

b. Remedial Education Program

Newgen collaborated with the NGO KHUSHII (Kinship for Humanitarian, Social and Holistic Intervention in India) to offer remedial classes at MCD feeder schools for students of classes 1st to 6th and prepare them for senior secondary education. The project locations are Harkesh Nagar, Tekhand, Sangam Vihar, Nandambakkam in Chennai and Ramgarh in Uttarakhand. Over all 5000+ students benefit from this program.

c. Partnership with KK Academy, Lucknow

Newgen collaborated with KK Academy to ensure that children from underprivileged families receive a complete education. The academy is based in Lucknow and is recognized by the State Board to cater to around 220 students from classes nursery to 8th. KK academy empowers students from different marginalized backgrounds and helps them become literate and confident, thereby bringing social transformation through digital holistic education.

d. Mid-Day Meal Programme.

To complement the growth and well-being of children in their formative years, Newgen in partnership with The Akshaya Patra Foundation supports the nutrition of government school students in the remote areas of Baran and Nathdwara in Rajasthan, Bhilai in Chhattisgarh, Mangalgiri in Andhra Pradesh, and Gorakhpur in Uttar Pradesh. In the targeted year, 10lac+ mid-day meals were provided to 4,334 school students.

e. Personality Development Sessions.

The personality development program caters to children from economically weaker backgrounds and helps them be confident, develop soft skills, and build resilience amongst young children from underprivileged communities. The program covers over 1,400 NDDP and NDDP alumni through monthly sessions.

Governance, leadership and oversight

7. Statement by the director responsible for the business responsibility report, highlighting ESG related challenges, targets, and achievements.

Newgen provides technology-led solutions that have been instrumental in driving digital transformation in the country by innovatively connecting systems, processes, people, and things.

Our products and services do not involve ESG risks. Our digital transformation platform, deployed on the cloud, helps enterprises in mapping and reducing their carbon footprint by driving end-to-end digitalization of processes across the enterprise. Our cloud-based technology significantly lowers energy use and carbon emissions.

As we scale up, we embark on another long-term goal to build a responsible and sustainable organisation. We are working on the long term goal of creating sustained value for our business, stakeholders and the community at large.

Under CSR, our mission is to actively contribute to the social and economic development of the communities in which we operate. The core philosophy is to empower lesser privileged sections of society through a holistic approach to help them realize their full potential and ensure a good quality of life. Our initiatives have contributed toward two Sustainable Development Goals of the United Nations:

- a. Goal 2 (Zero Hunger)
- b. Goal 4 (Quality Education)

We are constantly committed towards the environmental wellbeing by promoting sustainable practices across our organization. We are in the process of setting specific goals and targets which will be disclosed at a later stage.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The company aims to minimize all types of waste by adopting Reduce-Reuse-Recycle philosophy. The company ensures that all the waste collected like Plastic Waste, Battery Waste, E-waste etc. are disposed through authorized dealers for recycle. Further, Electronic waste management is being done as per the guidelines established in E-waste Management Rules, 2016.

Further, Newgen being an IT Software company, we have no such usage of hazardous and toxic chemicals in our products and processes.

Following are the waste management practices adopted by the company:

- Adopted practice to reuse wastewater from RO plants in our facilities. This water is used in mopping, cleaning, etc.
- To minimize the usage of paper products, the company has implemented use of reusable cups & glasses for employees to consume tea & coffee. This step has reduced waste by doing away with the need of paper products for tea/ coffee leading to less wastage.
- Encourage employees to switch to reusable water bottles to reduce plastic waste.
- We have removed dustbins from individual workstations to reduce the usage of Garbage bags.
- We donate some of our old but functional Laptops & Desktops to the NGOs / School so that they can be reused thus reducing waste generation.

REPORT ON CORPORATE GOVERNANCE

I Company's Philosophy on Corporate Governance:

Your Company's philosophy on Corporate Governance envisages the accomplishment of a high level of transparency, integrity and accountability in the conduct of its businesses and accords importance to regulatory compliances. These principles have evolved, over the years, from the Company's culture of continuous innovation and rich experiences gathered from the past. The Company recognizes that good governance is a continuing exercise and reiterates its commitment to pursue the highest standards of corporate governance in the overall interest of its stakeholders.

Our core principles represent the edifice of our two-tier governance model, with the Board of Directors and the Committees of the Board at the apex, and the management structure at the operational level. The Board and its Committees guide, support, and complement the management team's ideas and initiatives, which in turn assumes accountability, strives to achieve the set objectives, and enhances value creation for all.

II Board of Directors:

The composition of the Board is in conformity with the requirements of the Companies Act, 2013 (the "Act") including the rules framed thereunder and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"). III. Independent Directors:

At Newgen, the appointment of Independent Directors is carried out in a structured manner in accordance with the provisions of the Act and the SEBI Listing Regulations. The Nomination & Remuneration Committee of the Board identifies candidates based on certain laid down criteria and takes into consideration the need for diversity of the Board and accordingly makes its recommendations to the Board.

Independent Directors play a significant role in the governance processes of the Board. By virtue of their varied experience & expertise, they enrich the Board's decision-making and prevent possible conflicts of interest that may emerge in such decision-making.

(i) Meeting of Independent Directors:

The Independent Directors met once in a financial year, without the presence of Non-Independent Directors or Management representatives. Independent Directors, inter alia, evaluated:

- a) the performance of the Chairperson of the Company taking into account the views of the Executive and Non-executive Directors; and
- b) the performance of Non-Independent Directors and the Board of Directors as a whole.

During the period under review, meeting of Independent Directors was held on 03rd May 2022.

In addition, they also discussed the issues arising out of Committee Meetings and Board discussions including the quality, quantity and timely flow of information between the Company Management and the Board, which are essential for the Board members to effectively and reasonably perform their duties.

(ii) The details of the familiarisation programme for Independent Directors are given below:

With a view to familiarizing the Independent Directors, the Company arranges programs, time to time, to familiarize the Independent Directors with the Company, their roles, rights and responsibilities in the Company, nature of the industry in which the Company operates, the business model of the Company, etc.

The Company has divided the familiarization initiatives into two parts viz, orientation

program upon induction of new Independent Director and other initiatives to update the directors on a continuing basis.

Meetings with Company's officials have been arranged as and when necessary, to understand the business and operations of the Company. The presentations at the Board meetings include updates on the industry, business operations and financial performance, working capital management, senior management changes, compliances, cash flow, budgets, and operation of the Company and of its subsidiaries.

The details of the familiarization program of the Independent Directors can be found on the Company's website: <https://newgensoft.com/wp-content/uploads/2021/06/Familiarization-Programme-for-Independent-Directors-2.pdf>.

IV Composition of Committees of the Board:

The Committees of the Board play an indispensable role in the governance structure of the Company. These Committees are set up under the formal approval of the Board to carry out clearly defined roles that are considered to be performed by Members of the Board, as a part of good governance practice. The minutes of the meetings of all Committees are placed before the Board for noting. Management Discussion and Analysis

Company Overview

Newgen Software Technologies Limited is the provider of enterprise-wide unified digital transformation platform (NewgenONE) for automating the end-to-end process and comprehensively managing content and communications, backed by AI-based cognitive capabilities, strong governance and robust integration ecosystem. The core products of NewgenONE platform are Contextual Content Services (ECM), Low Code Process Automation (BPM), Omnichannel Customer Engagement (CCM) and Artificial Intelligence Cloud. Globally, successful enterprises rely on Newgen's industry-recognized low code application platform to develop and deploy complex, content-driven, and customer-engaging business applications on the cloud. The platform has a wide spectrum of use cases across industries from onboarding to service requests, lending to underwriting, and many more.

The NewgenONE platform is built on a unified architecture and thus is extremely compatible and capable of seamless integration, providing competitive differentiation from other market products. The platform has a cloud ready architecture on AWS and Azure and is well-suited for Fortune 2000 enterprises with multiple platform needs for their current and future solutions.

Newgen is successfully certified/assessed for ISO 9001:2015, ISO 27001:2013 and CMMi 2.0 for Dev Level 3. The Company, with its well-recognized products and solutions, deep domain expertise and global experience, is well positioned in the market and is transforming businesses for over 520 customers across 74 countries through its enterprise solutions over the last 30 years. It has clients across India, USA, Canada, UAE, Saudi Arabia, UK, Philippines, Indonesia, Singapore, Australia among others. It offers products and solutions across 17 industries and has been a preferred partner to some of the world's leading Banks, Insurance companies, Healthcare organizations, Governments, Telecom companies, Shared service centers, and BPOs among others. It is also a trusted partner for leading global system integrators for delivering value to enterprises with future-ready solutions.

The Company has a resilient business model in place with large annuity revenue streams and diversification across customers and geographies. Moreover, the Company's solutions are of mission critical nature for the long-term customers which serves as the backbone to their operations. Newgen is actively helping customers

to continue operations despite the disruptions caused by the pandemic and act as a catalyst of change by offering solutions tailor-made to adapt to the future.

Newgen continuously invests in research and development activities and areas of emerging technology to further amplify the digital transformation platform and be ahead of the market and its competitors. It has a strong R&D team which constantly focuses on various research & product development initiatives. Newgen's patent portfolio comprises 23 patent grants as of March 2023 in India and US.

The Company's constant endeavor is to work on enhancing the product portfolio to meet the evolving industry and technological developments, changes in customer requirements and competitive products and features, to seamlessly deliver according to customer needs while reducing their total cost of ownership. Newgen focuses on advanced application design and development capabilities to strengthen its offering, while also continuously enhancing its deployment technology stack, enabling compliance, security, and scalability for enterprise needs. In line with changing market requirements, the Company constantly develops new business capabilities/modules/products to cater to the ever-changing businesses. Newgen's focus is also on training the employees on new technology areas along with enhancing the Centres of Excellence (CoEs).

In FY'23, the Company enhanced the NewgenONE platform. The Company backed the platform with a cloud-native, multi-persona AI/ML data science platform, enhanced document classification and extraction with AI/ML-based capabilities, integrated process and RPA capabilities, and strengthened our DevOps for easy application deployment/update. It also launched the low code Trade Finance offering and the Integrated Robotic Process Automation (RPA) offering thereby strengthening the low code process automation portfolio. With the acquisition of Number Theory Software Pvt. Ltd in FY'22, the Company continues to strengthen its AI/ML and data analytics platform.

Newgen's strong focus on product innovation makes it one of the few software products organizations which have attracted multiple recognitions from leading advisory and research firms from time to time. In March 2023, Newgen has been recognized as a "Leader" in The Forrester Wave™: Content Platforms, Q1 2023, authored by Cheryl McKinnon et al.

It continues to extend its reach globally by expanding the direct and indirect sales network. Currently, the Company has a direct presence in 7 countries. Its global sales organization is highly focused and comprises about 330+ employees in Sales & Marketing targeting specific geographies, supported by a large network of channel partners and system integrators. The Company continues to develop and leverage the system integrator and partner network for further market expansion.

With these structural changes, Newgen is getting ready for the future and strengthening its capabilities to capitalize the opportunities in the digital transformation space. The Company's strong team of professionals uphold the organization's core values in all endeavors and work together for growth.

Opportunities and Threats

Given the rapid adoption of digital transformation journeys by the Company's current and prospective customer set, Newgen is likely to benefit from the business opportunities arising due to the emerging trend. Content management is at the core of digital transformation. With our strong product portfolio and investments in content management, process automation, customer communication with artificial intelligence cloud capabilities, the Company is well positioned to take advantage of the market opportunity. Relevance of Digital transformation initiatives have increased further in these uncertain times and the Company has strategized new offerings in this area of opportunities.

The various threats that the Company addresses include uncertain global economic conditions; changes in fiscal, economic or political conditions in India and the currency risks; increasing competition; changing technologies and regulatory changes in the industry the company operates in.

Risk Review

Uncertain environment and business continuity risk: Natural calamities, man-made disasters, wars etc. may lead to disruption to the business, demand environment, and customer service. The Company faces business continuity risk if the organization is unable to ensure continuity of its operations across clients, delivery locations, and enabling functions. As an organization, it is Newgen's endeavor to continuously monitor, promptly and effectively respond to disruptive events in a complex and fast-changing global landscape.

Pandemic-related Risk: The Company's business could be impacted due to the ongoing but now waning Covid-19 pandemic, outbreak of new variants and other infectious diseases and the restrictions imposed globally from time to time. Prolonged lock-down situation could decrease the chances of winning of new business as well as result in the Company's inability to deploy onsite resources at different locations given the restrictions on movement and business execution. Moreover, there is a possibility that our customers might not be able to continue their businesses due to financial resource constraints or their services no longer being availed by their customers. Customers could also postpone their discretionary spend due to change in priorities. There could also be time and cost overruns on projects. The pandemic may produce long-term consequences on mental and physical health leading to loss in productivity and emotional availability among employees. Newgen has been quick in adapting to the changing environment with its pre-emptive measures, business continuity processes and robust IT infrastructure. The Company has been operating on a hybrid work model. The Company has changed its practices and systems while ensuring data security and has also reinvented new ways of working across the organization. The Company has been successfully managing remote and cloud deployments. The Company is constantly evolving its systems and processes in order to respond quickly to manage the dynamic environment/circumstances.

Talent Management/Attrition Risk: The Company's business depends largely upon its highly skilled technology professionals and its ability to hire, attract, motivate, retain and train these personnel. Any inability to maintain a skilled and motivated team of professionals or supply chain disruptions can affect the business. As a Company, there is strong focus on nurturing the existing workforce and attracting new talent through Newgen's various HR policies and initiatives. The Company also has a defined Employee Stock Options and Restricted Stock Units scheme.

Technology/Obsolescence, Cyber Security and Data Privacy Risk

Rapid technological advances, changing delivery models and evolving standards in computer software development and communications infrastructure, changing and increasingly sophisticated customer needs and frequent new product introductions and enhancements characterize the industry in which Newgen competes. Disruptive technologies such as Cloud, Big data, social and smart devices are changing the way business is done. With the ever-evolving technology landscape, there is continuous risk to the confidentiality, integrity and availability of data. The Company's success depends upon its ability to anticipate, design, develop, test, market, license and support new software products, services, and enhancements of current products and services on a

timely basis in response to both competitive threats and evolving industry requirements and ensuring cyber security. However, its continuous investments in R&D and intellectual properties help the Company mitigate this risk. The Company maintained focus on cyber security to guard against the risk of cyberattacks, data privacy breach and digital risks.

Market-specific and Economic Risk: The IT spends in any market are affected by the domestic as well as global economic conditions. Considerable or a prolonged slowdown in a particular country or a region or industry within a region severely affects the IT spends. Similarly, uncertain environment and policy changes in global markets may also influence IT spending pattern. The Company can also be impacted by intense competition in the market. To deal with such market-specific risks, the Company endeavors to de-risk the geographical dependence and expand its clientele across geographies continuously both in traditional and mature markets. From about 48 countries in FY'13, the Company increased its presence across 74 countries in FY'23 with 520+ active clients. To deal with policy challenges, the Company has been giving an emphasis on growing its regional presence and hiring local talent, without compromising on economies of scales and cost. To deal with environmental changes, the Company has adopted its business continuity plan.

Credit Risk: Customer credit risk is the risk of default by the customers. The Company's credit risk is managed according to the Company's established policy, procedures and controls relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date.

Currency Risk: The Company derives about 70% of its revenues from international markets and thus is always exposed to unforeseen exchange rate fluctuations that can potentially impact the revenues and profits of the Company. To tackle this potential risk, the Company follows a well-defined hedging policy.

Acquisition-related Risks: As part of the inorganic growth strategy, the Company may acquire other Companies, businesses or products from time to time and the success of these acquisitions depends upon several factors. These include the effective integration of acquired employees with the rest of the Company and the optimum realization of synergies between acquired business and the Company. The Company will make all efforts to make all aspects of the integration smooth as and when acquisitions are made.

Our Strategies

Newgen's strategies are based on addressing the market opportunities in enterprise platforms for ECM, BPM and CCM products and the low code and hyper-automation market, creating domain rich solution frameworks on the platform and using low code platform capabilities to create solution frameworks. These include:

Focus on increasing the Annuity/Subscription Revenue Streams

The Company has been focusing on increasing the share of its stable revenue streams which would help in reducing the seasonality in business. Currently annuity revenues comprise 61% of revenues. The subscription revenues were ₹ 32,273.50 lakhs and witnessed a growth of 31% during the year. These revenue streams ensure higher predictability of business. The Company is witnessing increasing acceptance for cloud deployments and subscription license across geographies – US, APAC, India, as well as EMEA region.

Expansion of business in traditional markets

The Company has a strong foothold in traditional markets of India, Middle East and Africa. The Company plans to get into deeper and long-term relationships with its customers in these markets through its differentiated 'land and expand' model. The customers receive the complete set of modules and functionality of the platform with their initial purchase/subscription and can eventually build a number of applications on the platform due to an effective reduction in the per-user cost of each application and also save substantial costs of switching over to a new platform. Newgen plans to develop new customer relationships by identifying potential customers that operate within the same verticals and engage in cross-selling of solutions. It also aims to begin developing new verticals.

Focus on attractive verticals in select mature markets

The Company plans to expand its market share across key geographies and solutions. Its platform is designed to be natively multi-lingual to address challenges in multi-national organizations. Newgen has been operating in 74 countries and believes that it has a significant opportunity to grow its international footprint. It is investing in direct and indirect sales channels, professional services, customer support and channel partners to expand the geographical footprint. The Company has a regional go-to-market strategy with specific strategies for mature markets such as USA, Europe, Canada and Australia, as well as developing markets. Through its direct and indirect sales channels, it plans to further grow the brand presence and partner networks in these new markets. Newgen has a strong presence across regions in the

banking, financial services and insurance verticals and intends to continue to expand the customer base in these verticals in select mature markets. The Company is specifically targeting larger sized banking customers in the mature markets. Newgen is reorganizing its sales and marketing efforts and delivery operations to operate remotely and increase localization especially in mature markets. The Company is also developing the global system integrator (GSI) ecosystem for long-term engagements and relationship building with leading GSIs.

Continuous Innovation

Newgen plans to expand the product portfolio through investments in advanced features and technologies. It is constantly engaged in enhancement of R&D capabilities, particularly with a view to create solutions in emerging technologies that enhance the ability to develop tools for enabling entry into new areas and developing products that address customers in specific industries. Key focus areas include artificial intelligence/machine learning, business intelligence and analytics, RPA, dev-ops and user experience. Newgen continues to work with customers in mature markets to build capabilities, both in domain and technology, for enhancing the product offering, strengthening the platform and expanding the number of features available to customers.

Expansion of strategic business applications to new verticals

The Company has used the platform to create vertical domain rich products in several verticals, including banking, government/PSU, BPO/IT, insurance and healthcare. While the platforms are industry-agnostic, investments have been made to enhance the expertise of sales and marketing for key industry verticals. Newgen believes that focusing on the digital transformation needs of organizations within these industry verticals can help drive adoption of the platform. It also plans to target new verticals.

Attract, develop and retain highly-skilled employees

The Company's employees are one of its most important assets. It focuses on the quality and level of service that the employees deliver by investing in recruitment, development, retention, maintenance of a culture of innovation and by creating both a challenging and rewarding work environment. Newgen's talent development strategy focuses on engaging, motivating and developing a high performing workforce and aims to create and sustain a positive workplace culture for employees. Safety of the employees is of utmost importance to the organization and the Company has rapidly moved to a remote working environment with high engagement levels with the employees.

Expansion through inorganic route

The Company may also explore, with extreme care, the inorganic route for expansion of product capabilities or market presence from time to time.

Internal Control Systems & their Adequacy

The Company has aligned its current systems of internal financial control with the requirement of Companies Act 2013. The explanation of the term 'Internal Financial Control' has been provided only in the context of section 134(5)(e). It includes policies and procedures adopted by the Company for ensuring the orderly and efficient conduct of its business, thereby covering not only the controls pertaining to financial statements but also includes strategic and operational controls pervasive across the entire business.

Newgen internal controls are commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use, executing transactions with proper authorization and ensuring compliance of corporate policies. In view of the above, and for safeguarding the assets of the Company, preventing and detecting fraud or other irregularities and maintaining proper books of account and to ensure adequate internal financial control, the Company is already pursuing various Standard Operating Procedures (SOPs), Vigil Mechanism and Audit Mechanism (through Internal Audit for Financial year 2022-23, Secretarial Audit and Statutory Audit). Newgen also undergoes periodic audit by specialized third party consultants and professionals for business specific compliances such as Quality Management, Information Security Management, among others. It has continued its efforts to align all its processes and controls with global best practices. Our management assessed the effectiveness of the Company's internal control over financial reporting as of March 31, 2023. Walker Chandiook & Co LLP, Chartered Accountants, the statutory auditors of Newgen have audited the financial statements included in this annual report and also reported on our internal control over financial reporting (as defined in section 143 of Companies Act 2013).

The Audit Committee review reports submitted by the management and audit reports submitted by PricewaterhouseCoopers Services LLP, internal auditors, and Walker Chandiook & Co LLP, statutory auditors. The audit committee also meets Newgen's Statutory Auditors as well as Internal Auditors to ascertain, inter alia, their views on the adequacy of internal control systems and keeps the Board of Directors informed of its major observations periodically. Based on its

evaluation (as defined in section 177 of Companies Act 2013), the audit committee has concluded that, as of March 31, 2023, the internal financial controls were adequate and operating effectively.

Human Resources

The Company follows the philosophy of achieving mutually beneficial and all-inclusive growth and thus values its human resources as its biggest asset. The employees are provided a fair environment supported by transparent policies to foster their personal growth along with attainment of corporate objectives. It encourages all employees to strike a perfect work-life balance. The Company's policies are employee-centric and aim at keeping its personnel motivated and satisfied. The Company has formed disciplinary policies and a code of due diligence to ensure smooth functioning of the business.

During the year, critical functions of the organization were strengthened to build a strong team aligned to the Company's fundamentals and culture. Particular emphasis was given on attracting, developing and retaining talent and fostering a unique performance culture. The HR function launched numerous initiatives to ensure a high-performing and engaged workforce.

As on March 31, 2023, on a consolidated basis, the Company had 3,867 personnel, including that of its subsidiaries. As a result of its visionary human resource policies, the Company has managed to attract and retain talent.

Outlook

Building sustainable organizations would require enterprises to undertake digital transformation journeys to address the evolving needs of their customers, employees, and partners while ensuring revenue growth, enabling new digital businesses, and reducing overall risk. Organizations have thus increased their focus on investments across front-end transformations and personalization of the customer experience, as well as at the back end, to operate seamlessly, simplify and digitize processes, reduce turnaround time for

customer service requests and enhance the end-to-end customer journey. Newgen's endeavor is to provide transformative experience to its customers through the Company's cutting-edge enterprise solutions in order to change the way organizations work.

Newgen has been constantly investing in and evolving its product portfolio and is currently working on several new areas including Artificial Intelligence, machine learning, low-code, Robotic Process Automation. Newgen is pursuing its long-term growth strategies to expand its market share across key geographies and solutions. The Company believes that focusing on the digital transformation needs of organizations within key industry verticals can help drive adoption of its platform. It continues to invest in direct and indirect sales channels, professional services, customer support and channel partners and global system integrator relationships to expand its geographical footprint. To address the market opportunities arising from digitization, it also constantly invests in hiring, training and upskilling of its employees on a regular basis. It continues to work on strengthening its management team to meet the growing business needs.

Newgen remains vigilant and agile to evolve its approach in changing dynamics while continuing to work towards creating significant value for all its stakeholders moving forward.

Cautionary Statement

Management's discussion and analysis of the financial condition and results of operations include forward-looking statements based on certain assumptions and expectations of future events. The Company cannot assure that these assumptions and expectations are accurate. Although the Management has considered future risks as part of the discussions, future uncertainties are not limited to Management perceptions.

comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<p>B. Trade receivables and provision for expected credit losses</p> <p>Refer note 3(e) and note 3(i) for significant accounting policy and note 43(C)(ii) for credit risk disclosures.</p> <p>Trade receivables and contract assets comprise a significant portion of the current financial assets of the Company. As at 31 March 2023, the Company has reported trade receivable of ₹ 31,211.40 lacs (net of provision for expected credit loss of ₹ 3,909.77 lacs).</p> <p>The Company applies simplified approach permitted by Ind AS 109 - Financial Instruments, which requires lifetime expected credit losses to be recognised from the date of initial recognition of receivables. The Company analyses the trend of trade receivables under different ageing bracket for previous years and calculate weighted average loss rate basis such movement in ageing brackets.</p> <p>The estimate of expected credit loss involves judgement as the management factors the past history as above, market conditions and forward looking estimates as at each reporting date.</p> <p>Considering this area inherently involves significant area of judgement and subjectivity followed with discussions with those charged with governance at regular intervals, we have identified this as a key audit matter.</p>	<p>Our audit work included but was not restricted to the following procedures:</p> <ul style="list-style-type: none"> a) Obtained an understanding of the process adopted and controls implemented by the Company for calculation, recording and monitoring of the impairment loss recognised for expected credit loss; b) Assessed and tested the design and operating effectiveness of key controls over completeness and accuracy of the key inputs and assumptions considered for calculation, recording and monitoring of the impairment loss recognised. Also, evaluated the controls over the modelling process, validation of data and related approvals; c) Considered the Company's accounting policies for estimation of expected credit loss on trade receivables and contract assets and assessing compliance with the policies in terms of Ind AS 109; d) Inquired with management about the conditions leading to, and their assessment of recoverability of dues from the customers and also referred to the available communication, if any, between them. e) Assessed, on a sample basis that items in the receivables ageing report were classified within the correct ageing bracket by comparing individual items in the report with underlying documentation, which included sales invoices, proof of delivery and customers sign offs; f) Analysed the methodology used by the management and considered the credit and payment history of specific parties to determine the trend used for arriving at the expected credit loss provision and co-related to our understanding of the debtor's financial condition, the industry in which debtor operates. g) Since the assumptions and inputs used for calculating ECL is based on historical data, we assessed whether such historical experience was representative of current circumstances. h) Tested the accuracy and completeness of underlying data for "expected credit loss model". i) Evaluated responses to direct confirmation request circulated to customers and ensured the reconciling items have been adequately recorded in the books of account; j) Obtained written representations from management and those charged with governance on whether they believe significant assumptions used in calculation of expected credit losses are reasonable. k) Assessed the adequacy of disclosures made by the management in the financial statements to reflect the expected credit loss provision, trade and other receivables.

Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation

and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the

Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter

should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure I, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2023 and the operating effectiveness of such controls, refer to our separate Report in Annexure II wherein we have expressed an unmodified opinion; and

- g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigation(s) which would impact its financial position as at 31 March 2023;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2023;

Annexure I

referred to in Paragraph 16 of the Independent Auditor's Report of even date to the members of Newgen Software Technologies Limited on the standalone financial statements for the year ended 31 March 2023

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and right of use assets.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment and right of use assets under which the assets are physically verified in a phased manner over a period of two years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment and right of use assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in note 48(ix) to the standalone financial statements are held in the name of the Company.
- (d) The Company has not revalued its Property, Plant and Equipment including Right of Use assets or intangible assets during the year.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The Company does not hold any tangible inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.
- (b) As disclosed in note 48(viii) to the standalone financial statements, the Company has been sanctioned a working capital limit in excess of ₹ 500 lakhs by banks on the security of current assets. The quarterly returns/statements, in respect of the working capital limits have been filed by the Company with such banks and such returns/statements are in agreement with the books of account of the Company for the respective periods, which were not subject to audit/review.
- (iii) (a) The Company has made investments in and provided loans or advances in the nature of loans to Subsidiary during the year as per details given below:

Particulars	Guarantees	Security	Loans	Advances in nature of loans
Aggregate amount provided/granted during the year:			9,585,000*	
- Subsidiary				
Balance outstanding as at balance sheet date in respect of above cases:			43,535,000	
- Subsidiary				

* Includes interest ₹ 23.55 lakhs.

- (b) In our opinion, and according to the information and explanations given to us, the investments made and terms and conditions of the grant of all loans provided are, prima facie, not prejudicial to the interest of the Company.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and the payment of the interest has not been stipulated and accordingly, we are unable to comment as to whether the repayments/receipts of principal interest are regular.

- (d) There is no overdue amount in respect of loans or advances in the nature of loans granted to such companies, firms, LLPs or other parties.
- (e) The Company has not granted any loan or advance in the nature of loan which has fallen due during the year. Further, no fresh loans were granted to any party to settle the overdue loans/advances in nature of loan that existed as at the beginning of the year.
- (f) The Company has granted loan which are repayable on demand or without specifying any terms or period of repayment, as per details below:

Particulars	All Parties	Promoters	Related Parties
Aggregate of loans/advances innature of loan			
- Repayable on demand (A)	43,535,000	-	43,535,000
- Agreement does not specify any terms or period of repayment (B)	-	-	-
Total (A+B)	43,535,000	-	43,535,000
Percentage of loans/advances in nature of loan to the total loans	100%		100%

- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of loans and investments made and guarantees and security provided by it, as applicable. Further, the Company has not entered into any transaction covered under section 185 of the Act.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of section 148 of the Act, in respect of Company's products/ services / business activities. Accordingly, reporting under clause 3(vi) of the Order is not applicable.
- (vii) (a) In our opinion, and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no statutory dues referred to in subclause (a) above that have not been deposited with the appropriate authorities on account of any dispute.
- (viii) According to the information and explanations given to us, no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.
- (ix) According to the information and explanations given to us, the Company does not have any loans or other borrowings from any lender. Accordingly, reporting under clause 3(ix) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made

to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.

- (c) A whistle blower Complaint received by the Company during the year, as shared with us by the management have been considered by us while determining the nature, timing and extent of audit procedures.
- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system as per the provisions of section 138 of the Act which is commensurate with the size and nature of its business.
- (b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- (xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a),(b) and (c) of the Order are not applicable to the Company.
- (b) Based on the information and explanations given to us and as represented by the management of the Company, the Group

Annexure II

to the Independent Auditor's Report of even date to the members of Newgen Software Technologies Limited on the standalone financial statements for the year ended 31 March 2023.

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Newgen Software Technologies Limited ('the Company') as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply

with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

1. Background

Newgen Software Technologies Limited ('Newgen' or 'the Company') is a public company domiciled and incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is situated at E-44/13, Okhla Phase II, New Delhi - 110020. The Company raised money by way of initial public offer during the year ended 31 March 2018 and its shares were listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) of India.

The Company is a global software Company and is engaged in the business of software product development including designing and delivering end-to-end software solutions covering the entire spectrum of software services from workflow automation to Document management to imaging. Newgen provides a complete range of software that helps automate business processes. Newgen's solutions enable document intensive organizations/ industries such as Finance and Banking, Insurance and government departments to improve productivity through better document management and workflow implementation.

2. Basis of Preparation

A. Statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI). The financial statements for the year ended 31 March 2018 were the first financial statements that the Company had prepared in accordance with Ind AS.

The financial statements were authorised for issue by the Company's Board of Directors on 02 May 2023.

Details of the Company's accounting policies are included in Note 3.

B. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been

rounded-off to the nearest lakhs, unless otherwise indicated.

C. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures. Uncertainty about the assumptions and estimates could result in outcomes that may require material adjustment to the carrying value of assets or liabilities affected in future periods.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 3(i) and Note 27 – revenue recognition from fixed price contracts of software implementation services: percentage of completion method to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended.
- Note 3(l) and Note 19 – determination of lease term;

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting

in a material adjustment in the year ending 31 March 2023 is included in the following notes:

- Note 3(c)(iii) – Estimation of Useful lives of intangible assets and Property, plant and equipment
- Note 29 – Measurement of defined benefit obligations: key actuarial assumptions;
- Note 33 – Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 35 – Fair value of share based payments
- Note 43 – Impairment of trade receivables and financial assets.
- Note 19 – Recognition of right of use asset and lease liability

E. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle.
- it is held primarily for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets/liabilities include current portion of non-current financial assets/liabilities respectively. All other assets/ liabilities are classified as non-current. Deferred tax assets and liabilities (if any) are classified as non-current assets and liabilities.

Operating cycle

Based on the nature of the operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of assets and liabilities.

F. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's audit committee.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

- Level 3: inputs for the asset or liability that are not based on observable market data (Unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 35 – Share-based payment arrangements; and

Note 43 – Financial instruments.

G. Recent accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1 - Presentation of Financial Statements-

This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors -

This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or

after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statement.

H. Amended Accounting Standards (Ind AS) and interpretations effective during the year

a. Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The amendment did not have any material impact on financial statements of the Company.

b. Ind AS 16 - Proceeds before intended use

The amendment specifies that an entity shall deduct from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. The amendment did not have any material impact on financial statements of the company.

c. Ind AS 37 Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

to fulfilling contracts. The amendment is essentially a clarification and the amendment did not have any material impact on financial statements of the Company.

d. Ind AS 109 - Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The amendment did not have any material impact on financial statements of the Company.

3. Significant Accounting Policies

a. Foreign currency

i. Functional currency

The Company's financial statements are presented in INR, which is also the Company's functional currency.

ii. Foreign currency transactions

Transactions in foreign currencies are translated into INR, the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

b. Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair

value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. However, trade receivables that do not contain a significant financing component are measured at transaction price.

ii. Classification and subsequent measurement

Financial assets:

On initial recognition, a financial asset is classified as measured at

- Amortised cost;
- Fair value through Other Comprehensive Income (FVOCI) – debt investment;
- Fair Value through Other Comprehensive Income (FVOCI) – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management, for instance the stated policies and objectives for the portfolio, frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;

- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and

Basis the above classification criteria, Company's investments are classified as below:-

- Investments in government and other bonds have been classified as FVOCI.
- Investments in Mutual funds have been classified as FVTPL.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in Statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to Statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Derivatives and Embedded derivatives

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

c. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in Statement of profit or loss.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress.

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Category of property, plant and equipment	Estimated useful life (Years)
Building	60
Plant and equipment	15
Leasehold Improvements*	3
Office equipment**	10
Furniture and Fixtures	10
Vehicles	8
Computer hardware	
- servers and networks	6
- Computers**	3-5

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on addition (disposal) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed off).

*Leasehold improvements are depreciated over the period of the lease term of the respective property or 3 years whichever is lower.

Leasehold land is amortised over the lease period of 90 years.

**Based on an internal technical assessment, the management believes that the useful lives as given above best represents the period over which management expects to use its assets. Hence, the useful life of plant and equipment is different from the useful life as prescribed under Part C of Schedule II of Companies Act, 2013.

d. Intangible assets

Recognition and measurement

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less accumulated amortisation and accumulated impairment loss, if any.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits from the specific asset to which it relates.

Amortization

Intangible assets of the Company represents computer software and are amortized using the straight-line method over the estimated useful life (at present 3-4 years) or the tenure of the respective software license, whichever is lower. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of profit or loss when the asset is derecognized.

e. Impairment

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Financial assets that are debt instruments and are measured as at FVTOCI
- Lease receivables under Ind AS 116
- Trade receivables or any contractual right to receive cash or another financial asset that

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

result from transactions that are within the scope of Ind AS 115

- e. Loan commitments which are not measured as at FVTPL
- f. Financial guarantee contracts which are not measured as at FVTPL

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and

loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability. Debt instruments measured at FVTOCI: For debt instruments measured at FVOCI, the expected credit losses do not reduce the carrying amount in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognised in other comprehensive income as the "accumulated impairment amount".

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Impairment of Non-financial assets

The carrying amounts of assets are reviewed at each reporting date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset (or cash generating unit) exceeds its recoverable amount. The recoverable amount is the greater of the asset's (or cash generating unit's) net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset (or cash generating unit).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognized.

f. Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees of the Company and subsidiaries of the Company is recognised as an employee expense and deemed investment, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense/deemed investment is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense/deemed investment is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

iii. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

iv. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's gratuity scheme is a defined benefit plan. The present value of obligations under such defined benefit plans are determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, are based on the market yields on government securities as at the balance sheet date, having maturity period approximating to the terms of related obligations

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income and are never reclassified to profit or loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the profit or loss as past service cost.

v. Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted.

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method. Re measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the profit or loss

g. Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for. Provisions are reviewed by the management at each reporting date and adjusted to reflect the current best estimates.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

h. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation, or a present obligation whose amount cannot be estimated reliably. The Company does

not recognize a contingent liability but discloses its existence in the financial statements.

i. Revenue

Effective 1 April 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the cumulative effect method. The adoption of the standard did not have any material impact to the Standalone financial statements of the Company.

Revenues from customer's contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

i. Sale of License

Revenue from sale of licenses for software products is recognised when the significant risks and rewards of ownership have been transferred to the buyer which generally coincides with delivery of licenses to the customers, recovery of the consideration is probable, the associated costs and possible return of software sold can be estimated reliably, there is no continuing effective control over, or managerial involvement with the licenses transferred and the amount of revenue can be measured reliably.

ii. Rendering of services

Revenue from services rendered is recognized in proportion to the stage of completion of the transaction at the reporting date. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Software Implementation Services

The revenue from fixed price contracts for software implementation is recognized based on proportionate completion method based on hours expended, and foreseeable losses on the completion of contract, if any are recognized immediately. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the lives of the contracts and are recognized in profit or loss in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The Company is also involved in time and material contracts and recognizes revenue as the services are performed.

Digitization services

Revenue from digitization services is recognized as services are rendered to the customer.

Annual Technical services

Revenue from annual technical service and maintenance contracts is recognised ratably over the term of the underlying maintenance arrangement.

iii. Sale of right to use software

Software-as-a-service, that is, a right to access software functionality in a cloud-based-infrastructure provided by the Company. Revenue from arrangements where the customer obtains a "right to access" is recognized over the access period.

Revenue from client training, support and other services arising due to the sale of license is recognized as the performance obligations are satisfied.

Revenue is recognised, net of returns, trade discounts and volume rebates. This inter alia

involves discounting of the consideration due to the present value if payment extends beyond normal credit terms. Reimbursements of out-of-pocket expenses received from customers have been netted off with expense.

Amounts received or billed in advance of services to be performed are recorded as advance from customers/unearned revenue. Unbilled revenue represents amounts recognized based on services performed in advance of billing in accordance with contract terms.

iv. Multiple deliverable arrangements

When two or more revenue generating activities or deliverables are provided under a single arrangement, the Company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering license for software products and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price.

Arrangements to deliver software products generally have three elements license, implementation and Annual Technical Services (ATS). The company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost plus margin approach.

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Revenue from subsidiaries is recognised based on transaction price which is at arm's length.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Trade Receivables

Trade receivables are amounts due from customers for sale of license or rendering of services in the ordinary course of business. They are generally due for settlement within one year and therefore are all classified as current. Where the settlement is due after one year, they are classified as non-current. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. Trade receivables are disclosed in Note 11.

Impairment

An impairment is recognised to the extent that the carrying amount of receivable or asset relating to contracts with customers (a) the remaining amount of consideration that the Company expects to receive in exchange for sale of license or rendering of services to which such asset relates; less (b) the costs that relate directly to providing those sale of license or rendering of services and that have not been recognised as expenses.

j. Recognition of dividend income, interest income or expense

Dividend income is recognised in Statement of profit or loss on the date on which the Company's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

k. Sale of investments

Profit on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sales price and the carrying value of the investment

l. Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of

use asset if the Company changes its assessment if whether it will exercise an extension or a termination option. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

m. Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

used. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Minimum Alternative Tax ("MAT") under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

n. Cash and cash equivalents

Cash and short-term deposits in the Balance Sheet comprise cash at banks and cash in hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

o. Earnings per share ("EPS")

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss for the year attributable to equity shareholders and the weighted average number of common and dilutive common equivalent shares outstanding during the year but including share options, compulsory convertible preference shares except where the result would be anti-dilutive.

p. Share Capital

Equity Shares

Equity shares are classified as equity. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity.

Dividends

The final dividend on shares is recorded as a liability on the date of approval by the shareholders, and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors.

q. Basis of segmentation

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

Identification of segments:

All operating segments' results are reviewed regularly by the Board of Directors, who have been identified as the CODM, to allocate resources to the segments and assess their performance. Refer note 4.5 for segment information.

r. ESOP Trust

The ESOP trust has been treated as an extension of the Company and accordingly shares held by ESOP Trust are netted off from the total share capital. Consequently, all the assets, liabilities, income and expenses of the trust are accounted for as assets and liabilities of the Company, except for profit / loss on issue of shares to the employees and dividend received by trust which are directly adjusted in the Newgen ESOP Trust reserve.

s. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where:

- The performance obligation is part of a contract that has an original expected duration of one year or less.
- The revenue recognised corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialised and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at 31 March 2023, other than those meeting the exclusion criteria mentioned above is ₹ Nil (31 March 2022 ₹ Nil).

The amount recognised as an expense towards contribution to provident fund for the year aggregated to ₹ 1,327.25 lakhs (31 March 2022: ₹ 1,104.02 lakhs). The amount recognised as an expense towards employee state insurance aggregated to ₹ 0.09 lakhs (31 March 2022: ₹ 0.29 lakhs).

(ii) Compensated absences:

The Principal assumptions used in determining the compensated absences benefit obligation are as given below:

	31 March 2023	31 March 2022
Discounting rate (p.a.)	4.85% - 7.36%	3.55% - 7.18%
Future salary increase (p.a.)	5.00% - 7.00%	5.00% - 7.00%

(iii) Defined Benefit Plan:

Gratuity scheme - This is an unfunded defined benefit plan and it entitles an employee, who has rendered at least 5 years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement/exit.

- On normal retirement / early retirement / withdrawal / resignation: As per the provisions of the Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- On death in service: As per the provisions of the Payment of Gratuity Act, 1972 without any vesting period.

Gratuity payable to employee in case (i) and (ii), as mentioned above, is computed as per the Payment of Gratuity Act, 1972 except the Company does not have any limit on gratuity amount."

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

(iv) Defined Benefit Plan-Dubai office:

The gratuity benefit payable in the case of termination, retirement, or death is 21 days' Scheme Salary for each of the first five years of service and 30 days' Scheme Salary for each year thereafter. Partial years count towards a period of service. This benefit is payable only after completing one year of service. In the case of the resignation of an employee, he/she is entitled to the following benefit:

Number of Year's Service	Fraction of Full Benefits
Less than 1 year	Nil
Between 1 year and 3 years	One third
Between 3 years and 5 years	Two thirds
Above 5 years	Full

No gratuity benefits are payable to any employee who is dismissed/terminated from service for misconduct, disobedience or violation of any existing rules and regulations of Newgen. The Scheme is unfunded.

A. Movement in net defined benefit (asset) liability

C. Defined benefit obligations

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date:

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Discount rate	4.85% - 7.36%	3.55% - 7.18%
Salary escalation rate	5.00% - 7.00%	5.00% - 7.00%
Mortality rate	100% of IALM (2012- 14)	100% of IALM (2012- 14)

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 March 2023		31 March 2022	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)	(78.12)	84.89	(105.20)	114.82
Future salary growth (0.50% movement)	84.17	(78.49)	113.90	(105.64)

Attrition rate (0.50% movement)

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated. Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

40 The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company has got the updated documentation for the international transactions entered into with the associated enterprises during the financial year. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

The fair value of trade receivables, cash and cash equivalents, bank balances other than cash and cash equivalents loans, other current financial assets, current borrowings, trade payables and other current financial liabilities approximate their carrying amounts, due to their short-term nature. Fair value of bank deposits included in non-current other financial assets are equivalent to their carrying amount, as the interest rate on them is equivalent to market rate.

B. Measurement of fair values

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable inputs

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Particulars	Fair value hierarchy	Valuation technique	Significant unobservable inputs	Inter-relationship between unobservable inputs and fair value measurement
Financial assets measured at FVTPL				
Investments in mutual funds	Level 1	Market valuation technique: Investments traded in active markets are determined by reference to quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house, quoted price of equity shares in the stock exchange etc.	Not applicable	Not applicable
Financial assets measured at FVTOCI				
Investments in bonds	Level 1	Market valuation technique: The fair value of bonds is based on direct and market observable inputs.	Not applicable	Not applicable
Financial liabilities measured at Amortised cost				
Long term borrowings	Level 2	Discounted cash flow: The valuation model considers the present value of expected payment, discounted using a risk adjusted discount rate.	Not applicable	Not applicable
Short term borrowings	Level 2			

There have been no transfers in either direction for the years ended 31 March 2023 and 31 March 2022.

C. Financial risk management

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk.

i. Risk management framework

The Company's board of directors has framed a Risk Management Policy and plan for enabling the Company to identify elements of risk as contemplated by the provisions of the Section 134 of the Companies Act 2013. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises partially from the Company's receivables from customers, loans and investment in debt securities. The carrying amount of financial assets represent the maximum credit risk exposure. The Company has credit policies in place and the exposures to these credit risks are monitored on an ongoing basis.

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

The carrying amount of financial assets represent the maximum credit risk exposure. The maximum exposure to credit risk at the reporting was:

Particulars	As at 31 March 2023	As at 31 March 2022
Other financials assets-non current	19,095.36	10,087.33
Investments	13,138.80	9,237.76
Trade receivables	31,211.40	18,864.30

Other financials assets-current	12,813.27	12,537.67
	91,056.86	73,708.32

To cater to the credit risk for investments in mutual funds and bonds, only high rated mutual funds/bonds are accepted.

The Company has given security deposits to vendors for rental deposits for office properties, securing services from them, government departments. The Company does not expect any default from these parties and accordingly the risk of default is negligible or nil.

Trade receivables and unbilled revenues are typically unsecured and derived from revenue earned from customers primarily located in India, USA, EMEA and APAC.

Credit risk has always been managed by the Company through credit approval, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit term in normal course of business. Credit limits are established for each customers and received quarterly. Any sales/services exceeding these limits require approval from the risk management committee.

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or legal entity, industry and existence of previous financial difficulties, if any.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. An impairment analysis is performed at each reporting date.

	13,138.80	9,237.76

Basis experienced credit judgement, no risk of loss is indicative on Company's investment in mutual funds and government bonds.

Cash and cash equivalents and bank balances other than cash and cash equivalents

The Company held cash and cash equivalents of ₹ 4,626.36 lakhs at 31 March 2023 (31 March 2022: ₹ 5,379.36 lakhs) and bank balances other than cash and cash equivalents of ₹ 9,729.32 lakhs as at 31 March 2023 (31 March 2022: ₹ 17,236.15 lakhs). The cash and cash equivalents are held with bank and financial institution counterparties, which are rated AA- to AAA, based on renowned rating agencies.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

The Company's primary sources of liquidity include cash and bank balances, deposits, undrawn borrowings and cash flow from operating activities. As at 31 March 2023, the Company had a working capital of ₹ 49,771.09 lakhs (31 March 2022: ₹ 45,619.05 lakhs) including cash and cash equivalent of ₹ 4,626.36 lakhs (31 March 2022: ₹ 5,379.36 lakhs), bank balances other than cash and cash equivalents of ₹ 9,729.32 lakhs (31 March 2022: 17,236.15 lakhs) and current investments of ₹ 13,138.80 lakhs (31 March 2022: ₹ 9,237.76 lakhs).

Consequently, the Company believes its revenue, along with proceeds from financing activities will continue to provide the necessary funds to cover its short term liquidity needs. In addition, the Company projects cash flows and considering the level of liquid assets necessary to meet liquidity requirement.

In addition, the Company had access to the following undrawn borrowing facilities at the end of the reporting year

Financial instruments – Fair values and risk management

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

v. Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to currency risk on account of its borrowings, receivables and other payables in foreign currency. The functional currency of the Company is Indian Rupee. The Management endeavours to minimize economic and transactional exposures arising from currency movements against the US Dollar, Euro, Great Britain Pound, Canadian dolar, United Arab Emirates Dhiram, Saudi Riyal, Singapore dollar, Australian dollar and Malaysian Ringgit making all the US dollar payments through EEFC account for avoiding exchange risk. The Company manages the risk by netting off naturally-occurring opposite exposures wherever possible, and then dealing with any material residual foreign currency exchange risks if any.

The Company has entered into foreign exchange forward contracts to mitigate the risks involved in foreign exchange transactions and has booked 12 forward contracts for USD 2.5 million per month during the period from April 2022 to March 2023. The hedging loss of ₹ 1,089.05 lakhs is on account of mark to market loss (realised loss is 689.83 lakhs, unrealised loss is 187.49 lakhs and loss of 211.73 lakhs on account of reversal of last year mark to market gain) on foreign exchange forward contracts which do not qualify for hedge accounting as per Ind As-109, have been recognized in the profit and loss account in the financial statement for the year ended 31 March 2023.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US Dollar, Euro, Great Britain Pound, Canadian dollar, United Arab Emirates Dhiram, Saudi Riyal, Singapore Dollar, Australian Dollar and Malaysian Ringgit at reporting date would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Effect in Lakhs of ₹	For the year ended 31 March 2023		For the year ended 31 March 2022

II. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

a) Exposure to interest rate risk

The Company is exposed to both fair value interest rate risk as well as cash flow interest rate risk arising both on short-term and long-term floating rate instruments.

The interest rate profile of the Company's interest-bearing financial instruments is as follows:

	Nominal amount in ₹	
	31 March 2023	31 March 2022
Fixed-rate instruments		
Financial assets	34,861.00	34,509.13
Financial liabilities	3,658.40	2,344.20
Total	38,519.40	36,853.33

There is no balance in variable rate instruments

b) Sensitivity analysis

Fair value sensitivity analysis for fixed-rate instruments

The Company accounts for investments in government and other bonds as fair value through other comprehensive income. Therefore, a change in interest rate at the reporting date would have impact on equity.

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity by ₹ 40.25 lakhs after tax (31 March 2022: ₹ 42.04 lakhs).

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

There is no variable rate linked instrument and therefore, there is no cash flow sensitivity.

Market price risk

a) Exposure

The Company's exposure to mutual funds and bonds price risk arises from investments held by the Company and classified in the balance sheet as fair value through profit and loss and at fair value through other comprehensive income respectively.

To manage its price risk arising from investments, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company.

b) Sensitivity analysis

Company is having investment in mutual funds, government bonds, other bonds and investment in subsidiaries.

For such investments classified at Fair value through other comprehensive income, a 2% increase in their fair value at the reporting date would have increased equity by ₹ 80.50 lakhs after tax (31 March, 2022 ₹ 84.08 lakhs). An equal change in the opposite direction would have decreased equity by ₹ 80.50 lakhs after tax (31 March, 2022: ₹ 84.08 lakhs)

For such investments classified at Fair value through profit or loss, the impact of a 2% increase in their fair value at the reporting date on profit or loss would have been an increase of ₹ 90.47 lakhs after tax (31 March, 2022: ₹ 36.01 lakhs). An equal change in the opposite direction would have decreased profit or loss by ₹ 90.47 lakhs after tax (31 March, 2022: ₹ 36.01 lakhs)

44 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to equity shareholders.

The Company manages its capital structure and makes adjustments to it as and when required. To maintain or adjust the capital structure, the company may pay dividend or repay debts, raise new debt or issue new shares. No major changes were made in the objectives, policies or processes for managing capital during the year ended 31 March 2023 and 31 March 2022.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities comprising interest bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity

Notes

to the Standalone Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

The Company capital consists of equity attributable to equity holders that includes equity share capital, retained earnings and long term borrowings.

	As at 31 March 2023	As at 31 March 2022
Total liabilities	3,658.40	2,344.20
Less: Cash & Cash equivalent	4,626.36	5,379.36
Adjusted net debt (a)	(967.96)	(3,035.16)
Total equity (b)	92,047.85	76,894.52
Total equity and net debt (a+b) = c	91,079.89	73,859.36
Capital gearing ratio (a/c)	-1.06%	-4.11%

As a part of its capital management policy the Company ensures compliance with all covenants and other capital requirements related to its contractual obligations.

45 Segment reporting

A. Basis for segmentation

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available.

The Company's board of directors have been identified as the Chief Operating Decision Makers (CODM) since they are responsible for all major decisions in respect of allocation of resources and assessment of the performance on the basis of the internal reports/ information provided by functional heads. The board examines the performance of the Company based on such internal reports which are based on operations in various geographies and accordingly, have identified the following reportable segments:

- India
- Europe, Middle East and Africa (EMEA)
- Asia Pacific and Australia (APAC)

Independent Auditor's Report

To the Members of Newgen Software Technologies Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Newgen Software Technologies Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure 1, which comprise the Consolidated Balance Sheet as at 31 March 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, as at 31 March 2023, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Also, evaluated the controls over the modelling process, validation of data and related approvals; c) Considered the Group's accounting policies for estimation of expected credit loss on trade receivables and contract assets and assessing compliance with the policies in terms of Ind AS 109; d) Inquired with management about the conditions leading to, and their assessment of recoverability of dues from the customers and also referred to the available communication, if any, between them. e) Assessed, on a sample basis that items in the receivables ageing report were classified within the correct ageing bracket by comparing individual items in the report with underlying documentation, which included sales invoices, proof of delivery and customers sign offs; f) Analysed the methodology used by the management and considered the credit and payment history of specific parties to determine the trend used for arriving at the expected credit loss provision and co-related to our understanding of the debtor's financial condition, the industry in which debtor operates. g) Since the assumptions and inputs used for calculating ECL is based on historical data, we assessed whether such historical experience was representative of current circumstances. h) Tested the accuracy and completeness of underlying data for "expected credit loss model". i) Evaluated responses to direct confirmation request circulated to customers and ensured the reconciling items have been adequately recorded in the books of account; j) Obtained written representations from management and those charged with governance on whether they believe significant assumptions used in calculation of expected credit losses are reasonable. k) Assessed the adequacy of disclosures made by the management in the financial statements to reflect the expected credit loss provision, trade and other receivables.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the

Group covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial statements of the entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the financial statements, of which we are the independent auditors. For the other entities included in the financial statements, which have been audited by the other auditors,

such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements of 8 subsidiaries, whose financial statements reflects total assets of ₹ 25,513.63 lakhs and net assets of ₹ 8093.57 lakhs as at 31 March 2023, total revenues of ₹ 42,315.15 lakhs and net cash inflows amounting to ₹ 885.62 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries, are based solely on the reports of the other auditors.

Further, of these subsidiaries, 6 subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted

the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiaries located outside India, is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act based on our audit and on the consideration of the reports of the other auditors, referred to in paragraph 15, on separate financial statements of the subsidiaries, we report that the Holding Company covered under the Act have paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that 2 subsidiary companies incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary companies.

17. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued by us and by the respective other auditors as mentioned in paragraph 15 above, of companies included in the consolidated financial statements and covered under the Act we report that there are no qualifications or adverse remarks reported in the respective Order reports of such companies.

18. As required by section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on separate financial statements and other financial information of the subsidiaries incorporated in India whose financial statements have been audited under the Act, we report, to the extent applicable, that:

a) We have sought and obtained all the information and explanations which to

the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;

c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;

e) On the basis of the written representations received from the directors of the Holding Company and its subsidiary companies and taken on record by the Board of Directors of the Holding Company, its subsidiary companies, and the reports of the statutory auditors of its subsidiary companies, covered under the Act, none of the directors of the Group companies, are disqualified as on 31 March 2023 from being appointed as a director in terms of section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary companies covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II' wherein we have expressed an unmodified opinion; and

g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of the subsidiaries:

i. There were no pending litigations as at 31 March 2023 which would impact the consolidated financial position of the Group,

ii. The Holding Company and its subsidiary companies did not have any long-term contracts including derivative contracts

- for which there were any material foreseeable losses as at 31 March 2023;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies, covered under the Act, during the year ended 31 March 2023;
 - iv.
 - a. The respective managements of the Holding Company and its subsidiary companies, incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in note 45(v) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies, to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiary companies, ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The respective managements of the Holding Company and its subsidiary companies, incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of their knowledge and belief, as disclosed in the note 45(vi) to the accompanying consolidated financial statements no funds have been received by the Holding Company or its subsidiary companies from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiary companies shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures performed by us and that performed by the auditors of the subsidiaries, as considered reasonable and appropriate in the circumstances, nothing has come to our or other auditors' notice that has caused us or the other auditors to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
 - v. The final dividend paid by the Holding Company during the year ended 31 March 2023 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend and as stated in note 36 to the accompanying consolidated financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year ended 31 March 2023 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
 - vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires all companies which use accounting software for maintaining their books of account, to use such an accounting software which has a feature of audit trail, with effect from the financial year beginning on 1 April 2023 and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 (as amended) is not applicable for the current financial year.

Annexure II

Independent Auditor's Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Newgen Software Technologies Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting

records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement

of the financial statements, whether due to fraud or error.

- We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

- A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

- Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary companies, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

- We did not audit the internal financial controls with reference to financial statements in so far as it relates to 2 subsidiary companies, which are companies covered under the Act, whose financial statements reflect total assets of ₹ 578.15 lakhs and net assets of ₹ (190.10) lakhs as at 31 March 2023, total revenues of ₹ 694.35 lakhs and net cash inflows amounting to ₹ 77.66 lakhs for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies is based solely on the reports of the auditors of such companies. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

1. Background

Newgen Software Technologies Limited ('Newgen' or 'the Company' or "the holding company") and its subsidiaries (the Holding company and its subsidiaries together referred to as "the group") is a public company domiciled and incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is situated at E-44/13, Okhla Phase II, New Delhi 110020. The Company raised money by way of initial public offer during the year ended 31 March 2018 and its shares were listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) of India.

The Company is a global software Company and is engaged in the business of software product development including designing and delivering end-to-end software solutions covering the entire spectrum of software services from workflow automation to Document management to imaging. Newgen provides a complete range of software that helps automate business processes. Newgen's solutions enable document intensive organizations/ industries such as Finance and Banking, Insurance and government departments to improve productivity through better document management and workflow implementation.

2. Basis of Preparation

A. Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015, amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI). The consolidated financial statements for the year ended 31 March 2018 were the first financial statements that the Group had prepared in accordance with Ind AS.

The consolidated financial statements were authorised for issue by the Company's Board of Directors on 02 May 2023.

Details of the Group's accounting policies are included in Note 3.

B. Basis of Consolidation

The Consolidated financial statements have been prepared in accordance with Ind AS notified under

the Companies (Indian Accounting standards) Rules, 2015, amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI).

Name of Subsidiaries	Country of Incorporation	Effective Shareholding (%)
Newgen Software Inc.	U.S.A	100
Newgen Software Technologies Canada, Limited	Canada	100
Newgen Software Technologies PTY Limited.	Australia	100
Newgen Software Technologies PTE, Limited	Singapore	100
Newgen Software Technologies (UK) Limited	United Kingdom	100
Number Theory Software Private Limited	India	100
Newgen Computers Technologies Limited	India	100
Newgen Software Technologies L.L.C.	UAE	100

The consolidated financial statements have been prepared on the following basis:

The financial statements of the Holding Company and its subsidiary companies are combined on a line-by-line basis by adding the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances/transactions and unrealized profits in full in accordance with Ind AS 110 – "Consolidated Financial Statements". The amounts shown in respect of reserves comprise the amount of the relevant reserves as per the balance sheet of the parent company and its share in the post-acquisition increase/decrease in the reserves of the consolidated entities.

The excess/deficit of cost to the parent company of its investment over its portion of net worth in the consolidated entities at the respective dates on which investment in such entities was made is recognized in the consolidated financial statements as goodwill/capital reserve. The parent company's portion of net worth in such entities is determined on the basis of book values of assets and liabilities as per the financial statements of the entities as on the date of investment and if not available, the financial statements for the

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

immediately preceding period adjusted for the effects of significant changes.

The financial statements of the foreign non integral subsidiaries (collectively referred to as the 'foreign non integral operations') are translated into Indian rupees as follows:-

- i. Share capital and opening reserves and surplus are carried at historical cost.
- ii. All assets and liabilities, both monetary and non-monetary, (excluding share capital, opening reserves and surplus) are translated using the year-end rates.
- iii. Profit and loss items are translated at the respective weighted average rates or the exchange rate that approximates the actual exchange rate on date of specific transactions.
- iv. The resulting net exchange difference is credited or debited to the foreign currency translation reserve.

C. Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

However, deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 'Income Taxes' and Ind AS 19 'Employee Benefits' respectively. When a

liability assumed is recognised at the acquisition date, but the related costs are not deducted in determining taxable profits until a later period, a deductible temporary difference arises which results in a deferred tax asset. A deferred tax asset also arises when the fair value of an identifiable asset acquired is less than its tax base.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind-AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss. If the contingent consideration is not within the scope of Ind-AS 109, it is measured in accordance with the appropriate Ind-AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve.

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in consolidated statement of profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash generating unit and part of the operation within that unit is disposed off, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

D. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

E. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

F. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures. Uncertainty about the assumptions and estimates could result in outcomes that may require material adjustment to the carrying value of assets or liabilities affected in future periods.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 3(i) and Note 26 – revenue recognition from fixed price contracts of software implementation services: percentage of completion method to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended.
- Note 3(l) and Note 18 – determination of lease term;

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2023 is included in the following notes:

- Note 3(c)(iii) – Estimation of Useful lives of intangible assets and Property, plant and equipment
- Note 28 – Measurement of defined benefit obligations: key actuarial assumptions;
- Note 32 – Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 34 – Fair value of share based payments
- Note 40(C)(iii) – Impairment of trade receivables and financial assets.
- Note 18 – Recognition of right of use asset and lease liability

G. Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle.
- it is held primarily for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Group's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or

- the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current assets/liabilities include current portion of non-current financial assets/liabilities respectively. All other assets/ liabilities are classified as non-current. Deferred tax assets and liabilities (if any) are classified as non-current assets and liabilities.

Operating cycle

Based on the nature of the operations and the time between the acquisition of assets for processing and their realization in cash or cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current/non-current classification of assets and liabilities.

H. Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has an established control framework with respect to the measurement of fair values. The finance team has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer. The Group regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Group assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Group's audit committee.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- Level 3: inputs for the asset or liability that are not based on observable market data (Unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 34 – Share-based payment arrangements; and

Note 40 – Financial instruments.

I. Recent accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1 - Presentation of Financial Statements

- This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

- This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting

estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its consolidated financial statement.

J. Amended Accounting Standards (Ind AS) and interpretations effective during the year

a. Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The amendment did not have any material impact on financial statements of the Group.

b. Ind AS 16 - Proceeds before intended use

The amendment specifies that an entity shall deduct from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. The amendment did not have any material impact on financial statements of the Group.

c. Ind AS 37 Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the amendment did not have any material impact on financial statements of the Group.

d. Ind AS 109 - Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The amendment did not have any material impact on financial statements of the Group.

3. Significant Accounting Policies

a. Foreign currency

i. Functional currency

The Group financial statements are presented in INR, which is also the Group's functional currency.

ii. Foreign currency transactions

Transactions in foreign currencies are translated into INR, the functional currency of the Group, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

b. Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction

costs that are directly attributable to its acquisition or issue. However, trade receivables that do not contain a significant financing component are measured at transaction price.

ii. Classification and subsequent measurement

Financial assets:

On initial recognition, a financial asset is classified as measured at

- Amortised cost;
- Fair value through Other Comprehensive Income (FVOCI) – debt investment;
- Fair Value through Other Comprehensive Income (FVOCI) – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management, for instance the stated policies and objectives for the portfolio, frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de-recognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and

Basis the above classification criteria, Group's investments are classified as below:-

- Investments in government and other bonds have been classified as FVOCI.
- Investments in Mutual funds have been classified as FVTPL.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on de-recognition is recognised in profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to Statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on de-recognition is also recognised in profit or loss.

iii. Derecognition

Financial assets

The Group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not de-recognised.

Financial liabilities

The Group de-recognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also de-recognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Derivatives and Embedded derivatives

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are

measured at fair value, and changes therein are generally recognised in profit or loss.

Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

c. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in Statement of profit or loss.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Freehold land is not depreciated.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Category of property, plant and equipment	Estimated useful life (Years)
Building	60
Plant and equipment	15
Leasehold Improvements*	3
Office equipment**	10
Furniture and Fixtures	10
Vehicles	8
Computer hardware	
- servers and networks	6
- Computers**	3-5

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on addition (disposal) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed off).

*Leasehold improvements are depreciated over the period of the lease term of the respective property or 3 years whichever is lower.

Leasehold land is amortised over the lease period of 90 years.

**Based on an internal technical assessment, the management believes that the useful lives as given above best represents the period over which management expects to use its assets. Hence, the useful life of plant and equipment is different from the useful life as prescribed under Part C of Schedule II of Companies Act, 2013.

d. Intangible assets

Recognition and measurement

Intangible assets are initially recognised at:

- (a) In case the assets are acquired separately then at cost,

- (b) In case the assets are acquired in a business combination or under any asset purchase agreement at fair value.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment loss.

Intangible assets with finite useful life are assessed for impairment whenever there is an indication that the intangible assets may be impaired.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits from the specific asset to which it relates.

Amortization

Amortisation of intangible assets are amortised on a straight-line basis using the estimated useful life as follows:

Intangible assets	Useful lives (years)
Computer Software	3-4 Years
AI Platform	5 Years

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement profit or loss when the asset is derecognized.

e. Impairment

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Financial assets that are debt instruments and are measured as at FVTOCI
- Lease receivables under Ind AS 116

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

- d. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- e. Loan commitments which are not measured as at FVTPL
- f. Financial guarantee contracts which are not measured as at FVTPL

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and

loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.
- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability. Debt instruments measured at FVTOCI: For debt instruments measured at FVOCI, the expected credit losses do not reduce the carrying amount in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognised in other comprehensive income as the "accumulated impairment amount".

The Group does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Impairment of Non-financial assets

The carrying amounts of assets are reviewed at each reporting date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset (or cash generating unit) exceeds its recoverable amount. The recoverable amount is the greater of the asset's (or cash generating units) net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset (or cash generating unit).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised

f. Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees of the Group and subsidiaries of the Group is recognised as an employee expense and deemed investment, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense/deemed investment is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense/deemed investment is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

iii. Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

iv. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Group's gratuity scheme is a defined benefit plan. The present value of obligations under such defined benefit plans are determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, are based on the market yields on government securities as at the balance sheet date, having maturity period approximating to the terms of related obligations

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income and are never reclassified to profit or loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the profit or loss as past service cost.

v. Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted.

The employees can carry-forward a portion of the unutilized accrued compensated absences and utilize it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilized wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Group records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method. Re measurements as a result of experience

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

adjustments and changes in actuarial assumptions are recognized in the profit or loss.

g. Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for. Provisions are reviewed by the management at each reporting date and adjusted to reflect the current best estimates.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

h. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation, or a present obligation whose amount cannot be estimated reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements

i. Revenue

Effective 1 April 2018, the Group has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS

115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Group has adopted Ind AS 115 using the cumulative effect method. The adoption of the standard did not have any material impact to the consolidated financial statements of the Group.

Revenues from customer's contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Group has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

i. Sale of License

Revenue from sale of licenses for software products is recognised when the significant risks and rewards of ownership have been transferred to the buyer which generally coincides with delivery of licenses to the customers, recovery of the consideration is probable, the associated costs and possible return of software sold can be estimated reliably, there is no continuing effective control over, or managerial involvement with the licenses transferred and the amount of revenue can be measured reliably.

ii. Rendering of services

Revenue from services rendered is recognized in proportion to the stage of completion of the transaction at the reporting date. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Software Implementation Services

The revenue from fixed price contracts for software implementation is recognized based on proportionate completion method based on hours expended, and foreseeable losses on the completion of contract, if any are recognized immediately. Efforts or costs expended have

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the lives of the contracts and are recognized in profit or loss in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The Group is also involved in time and material contracts and recognizes revenue as the services are performed.

Digitization services

Revenue from digitization services is recognized as services are rendered to the customer.

Annual Technical services

Revenue from annual technical service and maintenance contracts is recognised ratably over the term of the underlying maintenance arrangement.

iii. Sale of right to use software

Software-as-a-service, that is, a right to access software functionality in a cloud-based-infrastructure provided by the Group. Revenue from arrangements where the customer obtains a "right to access" is recognized over the access period.

Revenue from client training, support and other services arising due to the sale of license is recognized as the performance obligations are satisfied.

Revenue is recognised, net of returns, trade discounts and volume rebates. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms. Reimbursements of out-of-pocket expenses received from customers have been netted off with expense.

Amounts received or billed in advance of services to be performed are recorded as advance from customers/unearned revenue. Unbilled revenue represents amounts recognized based on services performed in advance of billing in accordance with contract terms.

iv. Multiple deliverable arrangements

When two or more revenue generating activities or deliverables are provided under a single arrangement, the Group has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering license for software products and related services as distinct performance obligations. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Group is unable to determine the standalone selling price, the Group uses the expected cost plus margin approach in estimating the standalone selling price.

Arrangements to deliver software products generally have three elements license, implementation and Annual Technical Services (ATS). The Group has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost plus margin approach.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

iv. Trade Receivables

Trade receivables are amounts due from customers for sale of license or rendering of services in the ordinary course of business. They are generally due for settlement within one year and therefore are all classified as current. Where the settlement is due after one year, they are classified as non-current. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. Trade receivables are disclosed in Note 11.

v. Impairment

An impairment is recognised to the extent that the carrying amount of receivable or asset relating to contracts with customers (a) the remaining amount of consideration that the Group expects to receive in exchange for sale of license or rendering of services to which such asset relates; less (b) the costs that relate directly to providing those sale of license or rendering of services and that have not been recognised as expenses.

j. Recognition of dividend income, interest income or expense

Dividend income is recognised in statement profit or loss on the date on which the Group's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or

receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

k. Sale of investments

Profit on sale of investments is recorded on transfer of title from the Group and is determined as the difference between the sales price and the carrying value of the investment.

l. Leases

The Group as a lessee

The Group's lease asset classes primarily consist of leases for land and buildings. The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether: (1) the contract involves the use of an identified asset (2) the group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

m. Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for

the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same

taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the Statement of Profit and Loss. The credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

n. Cash and cash equivalents

Cash and short-term deposits in the Balance Sheet comprise cash at banks and cash in hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

o. Earnings per share ("EPS")

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Group by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss for the year attributable to equity shareholders and the weighted average number of common and dilutive common equivalent shares outstanding during the year but including share options, compulsory convertible preference shares except where the result would be anti-dilutive.

p. Share Capital

Equity Shares

Equity shares are classified as equity. Incremental costs directly attributable to the issuance of new equity shares are recognized as a deduction from equity.

Dividends

The final dividend on shares is recorded as a liability on the date of approval by the shareholders, and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors.

q. Basis of segmentation

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

Identification of segments:

All operating segments' results are reviewed regularly by the Board of Directors, who have been identified as the CODM, to allocate resources to the segments and assess their performance. Refer note 42 for segment information.

r. ESOP Trust

The ESOP Trust has been treated as an extension of the Company and accordingly shares held by ESOP Trust are netted off from the total share capital. Consequently, all the assets, liabilities, income and expenses of the trust are accounted for as assets and liabilities of the Company, except for profit / loss on issue of shares to the employees and dividend received by trust which are directly adjusted in the Newgen ESOP Trust reserve.

s. Statement of cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash from operating, investing and financing activities of the Group are segregated.

t. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Group expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts where :

- The performance obligation is part of a contract that has an original expected duration of one year or less.
- The revenue recognised corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialised and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at 31 March 2023, other than those meeting the exclusion criteria mentioned above is ₹ Nil (31 March 2022 ₹ Nil).

The amount recognised as an expense towards contribution to provident fund for the year aggregated to ₹ 1,327.25 lakhs (31 March 2022: ₹ 1,104.02 lakhs). The amount recognised as an expense towards employee state insurance aggregated to ₹ 0.09 lakhs (31 March 2022: ₹ 0.29 lakhs).

(ii) Compensated absences:

The Principal assumptions used in determining the compensated absences benefit obligation are as given below:

	31 March 2023	31 March 2022
Discounting rate (p.a.)	4.85% - 7.36%	3.55% - 7.18%
Future salary increase (p.a.)	5.00% - 7.00%	5.00% - 7.00%

(iii) Defined Benefit Plan:

Gratuity scheme - This is an unfunded defined benefit plan and it entitles an employee, who has rendered atleast 5 years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement/exit.

- i) On normal retirement / early retirement / withdrawal / resignation: As per the provisions of the Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- ii) On death in service: As per the provisions of the Payment of Gratuity Act, 1972 without any vesting period.

Gratuity payable to employee in case (i) and (ii), as mentioned above, is computed as per the Payment of Gratuity Act, 1972 except the Group does not have any limit on gratuity amount.

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

(iv) Defined Benefit Plan-Dubai office:

The gratuity benefit payable in the case of termination, retirement, or death is 21 days' Scheme Salary for each of the first five years of service and 30 days' Scheme Salary for each year thereafter. Partial years count towards a period of service. This benefit is payable only after completing one year of service. In the case of the resignation of an employee, he/she is entitled to the following benefit:

Number of Year's Service	Fraction of Full Benefits
Less than 1 year	Nil
Between 1 year and 3 years	One third
Between 3 years and 5 years	Two thirds
Above 5 years	Full

No gratuity benefits are payable to any employee who is dismissed/terminated from service for misconduct, disobedience or violation of any existing rules and regulations of Newgen. The Scheme is unfunded.

C. Defined benefit obligations

i. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date:

Particulars	For the year ended 31 March 2023	For the year ended 31 March 2022
Discount rate	4.85% - 7.36%	3.55% - 7.18%
Salary escalation rate	5.00% -7.00%	5.00% -7.00%
Mortality rate	100% of IALM (2012- 14)	100% of IALM (2012- 14)

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 March 2023		31 March 2022	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)	(78.12)	84.89	(105.20)	114.82
Future salary growth (0.50% movement)	84.17	(78.49)	113.90	(105.64)

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Group's financial statements as at balance sheet date:

iii. Maturity profile of defined benefit obligation:

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

The fair value of trade receivables, cash and cash equivalents, bank balances other than cash and cash equivalents other current financial assets, current borrowings, trade payables and other current financial liabilities approximate their carrying amounts, due to their short-term nature. Fair value of bank deposits included in non-current other financial assets are equivalent to their carrying amount, as the interest rate on them is equivalent to market rate.

B. Measurement of fair values

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable inputs

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Particulars	Fair value hierarchy	Valuation technique	Significant unobservable inputs	Inter-relationship between unobservable inputs and fair value measurement
Financial assets measured at FVTPL				
Investments in mutual funds	Level 1	'Market valuation technique: Investments traded in active markets are determined by reference to quotes from the financial institutions; for example: Net asset value (NAV) for investments in mutual funds declared by mutual fund house, quoted price of equity shares in the stock exchange etc.	Not applicable	Not applicable
Financial assets measured at FVTOCI				
Investments in bonds	Level 1	'Market valuation technique: The fair value of bonds is based on direct and market observable inputs.	Not applicable	Not applicable
Financial liabilities measured at Amortised cost				
Long term borrowings	Level 2	Discounted cash flow: The valuation model considers the present value of expected payment, discounted using a risk adjusted discount rate.	Not applicable	Not applicable
Short term borrowings	Level 2			

There have been no transfers in either direction for the years ended 31 March 2023 and 31 March 2022.

C. Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk.

i. Risk management framework

The Group's board of directors has framed a Risk Management Policy and plan for enabling the Group to identify elements of risk as contemplated by the provisions of the Section 134 of the Companies Act 2013. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management

policies and systems are reviewed regularly to reflect changes in market conditions and the group activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal audit.

ii. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises partially from the Group's receivables from customers, loans and investment in debt securities. The carrying amount of financial assets represent the maximum credit risk exposure. The Group has credit policies in place and the exposures to these credit risks are monitored on an ongoing basis.

The carrying amount of financial assets represent the maximum credit risk exposure. The maximum exposure to credit risk at the reporting was:

Particulars	As at 31 March 2023	As at 31 March 2022
Other financials assets-non current	23,338.45	10,111.30
Investments	13,138.80	9,237.76
Trade receivables	38,816.58	27,887.83
Loans	7.00	20.92
Cash and cash equivalents	10,802.06	10,357.07
Bank balances other than cash and cash equivalents	10,032.82	17,236.16
Other financials assets-current	8,431.73	8,804.50
	1,04,567.44	83,655.54

To cater to the credit risk for investments in mutual funds and bonds, only high rated mutual funds/bonds are accepted.

The Group has given security deposits to vendors for rental deposits for office properties, securing services from them, government departments. The Group does not expect any default from these parties and accordingly the risk of default is negligible or nil.

Trade receivables and contract assets are typically unsecured and derived from revenue earned from customers primarily located in India, USA, EMEA and APAC.

Credit risk has always been managed by the Group through credit approval, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit term in normal course of business. Credit limits are established for each customers and received quarterly. Any sales/services exceeding these limits require approval from the risk management committee.

The Group establishes an allowance for impairment that represents its expected credit losses in respect of trade receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or legal entity, industry and existence of previous financial difficulties, if any.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Group establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. An impairment analysis is performed at each reporting date.

The Group's exposure to credit risk for trade receivables by geographic region is as follows

	Carrying amount

The impairment provisions for financial assets disclosed above are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Debt securities

The Group limits its exposure to credit risk by investing only in liquid debt securities and only with counterparties that have a credit rating AA to AAA from renowned rating agencies.

The Group monitors changes in credit risk by tracking published external credit ratings. For its investment in bonds, Group also reviews changes in government bond yields together with available press and regulatory information about issuers

The exposure to credit risk for debt securities at FVTOCI and at FVTPL is as follows:

	Net carrying amount	
	As at 31 March 2023	As at 31 March 2022
India	13,138.80	9,237.76
	13,138.80	9,237.76

Basis experienced credit judgement, no risk of loss is indicative on Group's investment in mutual funds and government bonds.

Cash and cash equivalents and bank balances other than cash and cash equivalents

The Group held cash and cash equivalents of ₹ 10,802.06 lakhs at 31 March 2023 (31 March 2022: ₹ 10,357.07 lakhs) and bank balances other than cash and cash equivalents of ₹ 10,032.82 lakhs as at 31 March 2023 (31 March 2022: ₹ 17,236.15 lakhs). The cash and cash equivalents are held with bank and financial institution counterparties, which are rated AA- to AAA, based on renowned rating agencies.

iii. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's primary sources of liquidity include cash and bank balances, deposits, undrawn borrowings and cash flow from operating activities. As at 31 March 2023, the Group had a working capital of ₹ 53,105.59 lakhs (31 March 2022: ₹ 50,751.54 lakhs) including cash and cash equivalents of ₹ 10,802.06 lakhs (31 March 2022: ₹ 10,357.07 lakhs), bank balances other than cash & cash equivalents of ₹ 10,032.82 lakhs (31 March 2022: ₹ 17,236.16 lakhs) and current investments of ₹ 13,138.80 lakhs (31 March 2022: ₹ 9,237.76 lakhs).

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

v. Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group is exposed to currency risk on account of its borrowings, receivables and other payables in foreign currency. The functional currency of the Group is Indian Rupee. The Management endeavours to minimize economic and transactional exposures arising from currency movements against the US Dollar, Euro, Great Britain Pound, Canadian dollar, United Arab Emirates Dirham, Saudi Riyal, Singapore dollar, Australian dollar and Malaysian Ringgit making all the US dollar payments through EEFC account for avoiding exchange risk. The Group manages the risk by netting off naturally-occurring opposite exposures wherever possible, and then dealing with any material residual foreign currency exchange risks if any.

The Group has entered into foreign exchange forward contracts to mitigate the risks involved in foreign exchange transactions and has booked 12 forward contracts for USD 2.5 million per month during the period from April 2022 to March 2023. The hedging loss of ₹ 1,089.05 lakhs is on account of mark to market loss (realised loss is 689.83 lakhs, unrealised loss is 187.49 lakhs and loss of 211.73 lakhs on account of reversal of last year mark to market gain) on foreign exchange forward contracts which do not qualify for hedge accounting as per Ind As-109, have been recognized in the profit and loss account in the financial statement for the year ended 31 March 2023.

Exposure to currency risk

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against US Dollar, Euro, Great Britain Pound, Canadian dollar, United Arab Emirates Dirham, Saudi Riyal, Singapore Dollar, Australian Dollar and Malaysian Ringgit at reporting date would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Effect in Lakhs of ₹	For the year ended 31 March 2023		For the year ended 31 March 2022

	1,069.02	(1,069.02)	151.10	(151.10)

II. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

a) Exposure to interest rate risk

The Group is exposed to both fair value interest rate risk as well as cash flow interest rate risk arising both on short-term and long-term floating rate instruments.

The interest rate profile of the Group's interest-bearing financial instruments is as follows:

	Nominal amount in ₹	
	31 March 2023	31 March 2022
Fixed-rate instruments		
Financial assets	38,846.58	34,171.98
Financial liabilities	4,271.30	2,782.34
Total	43,117.88	36,954.32

There is no balance in variable rate instruments.

b) Sensitivity analysis

Fair value sensitivity analysis for fixed-rate instruments

The Group accounts for investments in government and other bonds as fair value through other comprehensive income. Therefore, a change in interest rate at the reporting date would have impact on equity.

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity by ₹ 40.25 lakhs after tax (31 March 2022: INR 42.04 lakhs).

Notes

to the Consolidated Financial Statements for the year ended 31 March 2023

(All amounts are in lakhs of Indian Rupees, unless otherwise stated)

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

There is no variable rate linked instrument and therefore, there is no cash flow sensitivity.

Market price risk

a) Exposure

The Group's exposure to mutual funds and bonds price risk arises from investments held by the Group and classified in the balance sheet as fair value through profit and loss and at fair value through other comprehensive income respectively.

To manage its price risk arising from investments, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

b) Sensitivity analysis

Company is having investment in mutual funds, government bonds, other bonds and investment in subsidiaries.

Group is having investment in mutual funds, government bonds, other bonds and investment in subsidiaries. For such investments classified at Fair value through other comprehensive income, a 2% increase in their fair value at the reporting date would have increased equity by ₹ 80.50 lakhs after tax (31 March, 2022 ₹ 84.08 lakhs). An equal change in the opposite direction would have decreased equity by ₹ 80.50 lakhs after tax (31 March, 2022: ₹ 84.08 lakhs)

For such investments classified at Fair value through profit or loss, the impact of a 2% increase in their fair value at the reporting date on profit or loss would have been an increase of ₹ 90.47 lakhs after tax (31 March, 2022: ₹ 36.01 lakhs). An equal change in the opposite direction would have decreased profit or loss by ₹ 90.47 lakhs after tax (31 March, 2022: ₹ 36.01 lakhs)

4.1 Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to equity shareholders.

The Group manages its capital structure and makes adjustments to it as and when required. To maintain or adjust the capital structure, the Group may pay dividend or repay debts, raise new debt or issue new shares. No major changes were made in the objectives, policies or processes for managing capital during the year ended 31 March 2023 and 31 March 2022.

The Group monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities comprising interest bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity

The Group capital consists of equity attributable to equity holders that includes equity share capital, retained earnings and long term borrowings.

	As at 31 March 2023	As at 31 March 2022
Total liabilities	4,271.30	2,782.33
Less: Cash & Cash equivalent	10,802.06	10,357.07
Adjusted net debt (a)	(6,530.76)	(7,574.74)
Total equity (b)	97,676.13	81,140.11
Total equity and net debt (a+b) = c	91,145.37	73,565.37
Capital gearing ratio (a/c)	-7.17%	-10.30%

As a part of its capital management policy the Group ensures compliance with all covenants and other capital requirements related to its contractual obligations.

42 Segment reporting

A. Basis for segmentation

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, and for which discrete financial information is available.

The Group's board of directors have been identified as the Chief Operating Decision Makers (CODM) since they are responsible for all major decisions in respect of allocation of resources and assessment of the performance on the basis of the internal reports/ information provided by functional heads. The board examines the performance of the Group based on such internal reports which are based on operations in various geographies and accordingly, have identified the following reportable segments:

- India
- Europe, Middle East and Africa (EMEA)
- Asia Pacific and Australia (APAC)
- United States of America (USA)
