Regarding the inverted duty structure, the panel may review rate rejig in textiles that had been deferred by the government. In December last year, the Council deferred a rate hike from 5 per cent to 12 per cent on several items in the textile and apparel sector, including woven fabrics of cotton, silk and wool, coir mats, apparel, and clothing accessories of sale value up to ₹1,000, which was to take effect from January 1.

The panel was also to look at addressing inverted duty structure in electric vehicles and fertilisers but this may not be taken up this time as the EV industry is yet to mature and commodity prices are facing too many fluctuations, the sources said.

The Council had earlier addressed the issue of duty inversions in several items, including footwear and

In a number of cases, the accumulated input tax credit is not refundable, such as for capital goods and input services, if the rate structure is inverted. This has led to significant refund blockage.

"Inverted duty has created distortions in GST which is a deviation from the basic structure of a value-added taxation system. Taxpayers are plagued with working capital blockage as crucial resources remain blocked in the form of ITC," said Bipin Sapra, partner, EY.

While the GST law grants the refund of such unutilised ITC on account of inverted duty, there are certain other complications, especially the quantum of the refunds, basis the formula prescribed.

In view of such issues, refunds under the inverted duty structure have been a major cause of concern to the taxpayers, Sapra said.
